Combination Fence Stretcher

$4.75

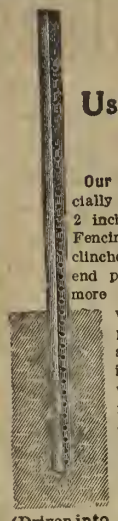
180C1384—Heavy malleable iron. Steel chain. Quick acting. Positive, self-locking device. With 6-ft. wood clamp bars; chain and hook. Ship. wt., 45 lbs. Each.....$4.75

Fence Finishing Tool

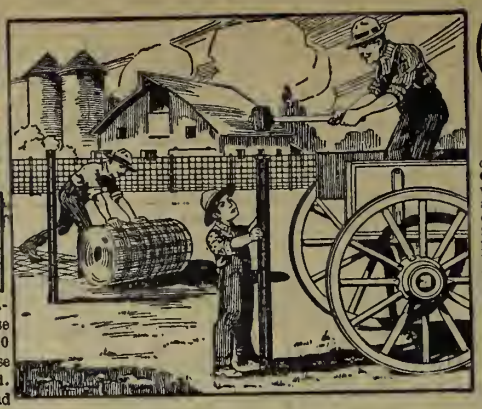
80C1386—Easily stretches line wires around the last post, which is always a difficult part of fence to staple. Made of malleable iron. Japanned finish. Length, 10½ in. Ship. wt., 3 lbs. Each 55c

Wire Grip

80C1372—For stretching fence or telephone wire. Can be attached to any wire stretcher. The more you pull, the tighter it grips. For smooth or barbed wire. Heavy cast iron. Ship. wt., 1 lb. Each.....24c



Wire Fence Tightener



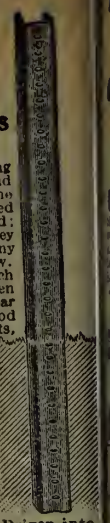
80C1388—For quickly taking up the slack without removing the staples or cutting the wire. Simply press the frame against the line wire and turn crank until wire is as taut as desired. Made of malleable iron. Will not break. Ship. wt., 3 lbs. Each.....65c

Steel Posts Make Your Fence Doubly Strong

Use Eclipse Steel Fence Posts Build For The Future

(Driven into Ground)

Our Line Posts are made of **Stiff Angle Steel** especially adapted for this purpose. Holes are punched 2 inches apart to suit all kinds of wire fencing. Fencing can be fastened with common staples and clinched, or by using tie wires. Corner and end posts are not punched as it makes a more satisfactory job if the wires are wrapped around them. The posts are pointed for ease in driving or they can be set in a concrete base as shown in the illustration. This is essily done by pouring wet concrete around the post, which makes a good, permanent job. Height of posts given is the height above the base of ground. The length of line posts below ground is 20 inches; of end and corner posts, 32 inches. Our Eclipse Steel Posts do not rot, burn or decay. Cheaper than wood. Made in two grades, Standard and Heavy grade, and furnished either Painted or Electro Galvanized. (Prices subject to market changes.)



(Wires Fastened with Staples)

Climax Pressed Steel Fence Posts

Cheap and Strong. Easy to Set

These heavy steel posts fill a long felt want. They are strong and durable and economical—the line posts are made of heavy pressed steel, No. 14 gauge; U shaped; size, 1½x1½x1½ inches. They can be quickly driven into any ordinary soil by using the special iron driving cap listed below. Compare this with the laborious work of digging a hole for each wood post. These posts will give the fence a neat and even appearance and will last many years, so that the cost per year of these posts is less than the cost per year of ordinary wood fence posts. Each post is made with ingenious oval slots, punched every 2 inches. This slot is of such shape that when an ordinary etaple is driven over the wire, the points of the staple will spread after going through the hole, thereby securely holding the wires. The Corner and End posts are made of heavy, seamless steel tubing; outside diameter, 3 inches. Complete with stiff eteel braces and anchors. The ends of these braces as well as the posts should be firmly set in concrete, as the Corner and End Posts are the foundation of the fence and must be solid. They are not punched like the line posts, as the wires are to be wrapped around them. (Prices subject to market changes.) **Order a Driving Cap with your first lot of posts.**

(Driven into Ground)

Eclipse Fence Anchors Make Your Fence Hog-tight on Any Kind of Ground
$2.00 per 100
A Strong, Inexpensive Brace for Many Purposes
Simply drive them into the ground with the drive bar after passing a piece of wire about No. 9 gauge through the two small holes in Anchor. Give wires a slight tug to turn the Anchor over, then wrap wires tightly around bottom wire of fence. This will hold down the fence securely. You will need fewer fence posts by using these Anchors and they will protect cattle near fence from lightning.
Made of heavy steel plate. Size, about 3x3 in. Wiree are not included. Ship. wt., per 100, 15 lbs. (Order a drive bar with your first lot of anchors.) **$2.00**

A Shine In Every Drop

34c per quart can

Safety Metal Polish gives a beautiful burnish and lasting lustre to fine brasses, nickel bathroom fixtures, copper utensils and aluminum ware, but does not mar or scratch the surfaces. Contains no grit nor acids, is odorless, non-explosive, pleasant to use and does not harm the hands. Apply with a cloth, sponge or brush, rub briskly and polish immediately with clean, soft cloth or chamois. See the beautiful lustre it leaves.

It cleans and polishes. It prevents rust. Not only metals, but ordinary and cut glass as well. Shipping weight, quart size, 3 lbs.

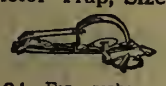
GAME TRAPS AND ACCESSORIES

GOPHER, RAT AND MOUSE TRAPS

Victor Traps

Ours are the Genuine Victor Steel Traps, made by the Oneida Community, Limited. While lighter in weight than the Newhouse, they are made in a first-class manner, and are very popular with the farmer and trapper of small game. Branded with a V on the pan.

Newhouse Traps



Ours are the Genuine Newhouse steel traps, made only by the Oneida Community, Limited. The springs are made of the best crucible steel, and are thoroughly tested. Made of the best material, strongly proportioned, and will give the best of satisfaction. The trappers' choice. Branded Newhouse on the pan.

Jump Traps

Made by the Oneida Community, Ltd. Lighter in weight and easier to carry than other styles. Very popular with many trappers. Lie very flat and are easily secreted. Jaws have full, wide, meeting faces, not liable to break the animal's leg.

Our Traps Give Many a Farmer a Fine Winter Income

Each 9c

A healthful as well as profitable form of recreation is trapping. Let your boy enjoy it.

If you intend hunting this fall, see our line of Shotguns and Rifles

Get the Right Oi

IT'S a poor way of saving to try to run any kind of machine on cheap oils. It is just like expecting big profits from yo stock by giving them poor feed.

Winter is particularly hard on moving gears and fast-worki cylinders. If you own an auto, or run a gasoline engi of any kind, good, reliable oil is the first thing y need. The best of gasoline won't give you f engine power unless the oil you use is *rig* We have a big, four-story oil factory a warehouse that turns out the right ki of stuff to put into your moto There's a guarantee on every gallon. can pick from these oil and gre pages just the kind of oils you n The prices are way below w you've been used to ing elsewhere equally good

For Ford Cars use Universal Cylinder Oil

$1.85 for a 5-gallon Can

A pale, straw-color cylinder oil, especially adapted for Ford cars. Has the correct viscosity, and required fire test. Always uniform in quality. It has been thoroughly filtered and contains no free carbon. Economical in the using, and a perfect lubricant. No matter how much you pay for cylinder oil, you cannot secure better quality than that which we offer here. Treat your motor right—use Universal. It helps to increase speed, saves worry and expense by always keeping your cylinders in perfect working condition. Universal always lubricates. Heat or cold will not easily affect its working qualities.

174C7304—50 gallons, wooden barrel	14.00
174C7305—50 gallons, steel barrel	16.50

Circle Brand Automobile Oil

Efficient—Long Wearing—Economical

5-gallon Lithographed Can of this Oil **$1.98**

Lubricating Oil is your smallest expense. But the right oil is your best protection against your heaviest expense—wear and tear. Use Circle Brand Auto Oil—you will get more mileage from your gasoline. Your engine will develop greater power, will acquire new pick-up and hill climbing ability.

Circle Brand Automobile Oil is widely known. Thousands of our customers praise it; will use no other brand.

Buy an oil that is known—an oil that is scientifically correct—one that gives thorough satisfaction. This oil is a strictly pure mineral oil, from which all free carbon has been removed by repeated strainings through Fuller's Earth, —not by bleaching with acids or any other method. Our filtration process gives that pale, straw color characteristic of a perfect oil.

Circle Brand Oil resists heat and reduces carbon deposit.

It is the right oil. Give it a trial—we know you will be perfectly pleased.

174C7465—50 gallons, wooden barrel	15.50
174C7479—50 gallons, steel barrel	18.00

Our Oils Give You Increased Power and New Pick-up on Less Gasoline

For Air Cooled Motors use our Heavy, Ruby-Color Automobile Oil

A non-carbonizing, heavy-bodied oil for air-cooled motors and motorcycles having force feed of the Indian type, and two cycle motors when lubrication is had by mixing lubricating oil with gasoline. Also on all cars, where, through long service, the compression is bad, and wherever mechanical conditions require a heavy oil.

74C7438—1-gallon can	$ 0.57
174C7437—5-gallon can	2.10

It's an Economy

THE cheaper you can buy them—the more you save, but do you know the oils and greases are good? They may answer ıe purpose for a short while, but when it comes to the long ın, will you be troubled with an overheated engine that is ɔing to retard the progress of the pistons; valves that are ɯmmed or sooty spark plugs?

When you buy your lubricants from us you will ıow you are getting an article that is exactly ; represented. We have the most modern ıd up-to-date facilities for testing all ls and greases that we buy.

We buy in such large quantities that are able to purchase at the Rock ttom Price. This advantage d our method of doing busi- ss, enable us to offer you at prices that are below ıt you have been used ɔaying for equally d oils.

Use this Oil for Gasoline Engines

Circle W Brand Gasoline Engine Cylinder Oil

26c a Gallon in 50-Gal. Wooden Barrels

5-Gallon Can, $1.75

Use this oil for gasoline engines. It's our well-known Circle W Brand. Nothing better on the market. Owners of gasoline engines frequently make a mistake by paying little attention to the lubricating of this wonderful labor saver. The result is the engine is soon worthless. If you wish to obtain the best results from your gasoline engine, we recommend this oil. Rich, wine-colored, free-flowing oil, with a good cold test and a high fire test. The maximum power is obtained with the minimum of gasoline.

74C7578—1-gallon can $0.42

Circle Brand Harness Oil

5-Gallon Can, $2.45

This brand of Oil is a valuable combination of oils which preserve and soften the leather. It helps to keep the harness soft and pliable and prevent cracking, and lengthens the life of harness. It is free from ingredients that oxidize and become rancid. Buggy tops that show a disposition to crack should be well oiled, then gone over with a clean cloth to remove the surplus oil that has not been absorbed by the fibres of the leather that are to be lubricated.

74C7352—½-gallon can $0.35
74C7351—1-gallon can..... .54
174C7350—5-gallon jacketed can.. 2.45

Climax Brand Harness Oil

Made from the same high grade stock as our Circle Brand Harness Oil, but carries a smaller percentage of Neatsfoot and Kid Oils.

74C7358—1-gallon can..... $ 0.42

174C7489—50-gal. (steel barrel).. 8.50

Harvester Oil

The Heavy Oil without a "String"

This Oil is preferred by the agricultural trade to the so-called castor or castor machine oils. Our compounded Harvester Oil is made especially for the use of farmers and threshers. Wears longer and better than a castor oil. Used from a squirt can it cuts off without a string. Thick, but not ropy. One of the best oils for the purpose on the market. Oil will not gum or corrode the bearings.

74C7408—1-gallon can $0.45
174C7407—5-gallon can 2.00
174C7406—30-gal. (wooden barrel). 10.50

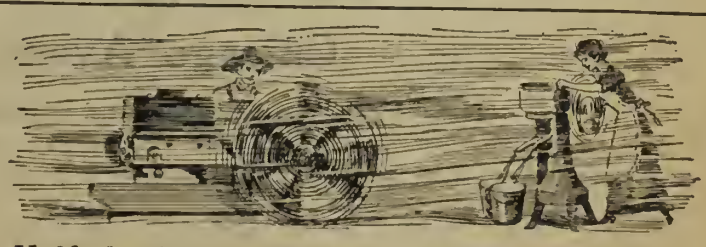
174C7409—50-gal. (steel barrel).... 18.00



Hand Separator Oil

5-Gallon Can, $1.60

It is a non-viscous, neutral oil and has been scientifically compounded to meet the requirements of the various hand separators on the market. It is particularly valuable for spindle lubrication, and will, under no circumstances, thicken and gum from use. It has a high fire test; flows freely and is practically stainless.

Half the Repair Bills and Much of the Depreciation are Traceable to the Use of Poor Oils

To Help You Reduce the Freight on Your Orders

WE have warehouses and branches all over the country, located so there is at least **one** near you, no matter where you live.

These warehouses carry a great deal of the very heavy, bulky merchandise shown in our catalogue.

We ship the merchandise to these warehouses in carload lots. From there, we fill your orders, giving you the benefit of carload rates for a great part of the distance.

Suppose you live near St. Paul, Minn., and send us an order for a buggy. Instead of shipping it from Chicago, we have your buggy shipped from our St. Paul warehouse. You pay freight only from St. Paul—a considerable extra saving.

Our warehouse system saves you time, too. Instead of the longer haul from Chicago, the heavy items go out to you from a point nearer your home, reaching you quickly and cheaply.

Warehouses

Here are our warehouses for various classes of merchandise throughout the United States.

St. Paul, Minn.
Fargo, N. Dak.
Sioux City, Iowa
Lincoln, Nebr.
New York

Here You Have Just the Plow for Light Tractors

It's a Climax

Notice the position of the Wheels which are placed to carry the Gang with the least friction

Six Heavy Beams—Well Braced Perfectly Balanced

For 3-Bottom 12-inch Cut A One-Man Outfit

$75.00

Our new Climax Tractor Gangs, while very sturdy and strong, are intended to be used with light tractors only, which usually are capable of pulling a two-bottom or three-bottom gang. Do not order a Climax to use with the big tractors, as they are not heavy enough to stand the tremendous strain put upon them by the powerful machines that handle 4-, 5- and 6-bottom gangs.

All soft center steel bottoms. Bottoms can be raised 5 inches from ground. Each wheel has independent lever control. Steel wheels, axles, frames and levers.

Friction break pin attached to end of clevie and between the clevis and the hitch that connects the tractor. The friction brake consists of a wooden plug that is intended to break if the plow bottom strikes any large stones or heavy roots. The breaking of the plug is intended to save the plow. No special attachment other than the hitch with friction break on clevis, is furnished, as tractor usually has draw-bar with a series of holes allowing for sufficient adjustment. Levers extend forward so that they can be readily handled by the operator of the engine. Each wheel is controlled by its own lever independent of the other, which makes quick adjustment possible, thus making it a one-man outfit.

Four-inch tire on the land wheel. All wheels have removable dust-proof boxes, good range of draft adjustment suitable for any style small tractor. The hitch can be set rigid so gang and tractor can be backed whenever necessary.

Plow bottoms are raised or lowered into the ground with ease, a strong spring helping in the lift. Quick adjustment is possible, as the wheels are independent, each controlled by its own lever.

Bottoms are lifted high for transporting, by a cam lever over rear wheel. Very easy to operate.

Not much chance for getting out of adjustment because there are so few parts and because it is built on correct lines and after thorough and actual plowing tests.

This is a real one-man tractor gang plow and with it one man can easily do the work of 3 or 4 teams and men and do it as well or better than many walking plows.

You don't take any chances when you buy a new Climax Tractor Gang Plow. They are made right, and are shaped right, and will work perfectly in any soil. You will like the New Climax. It is completely under your control all the time, as the levers are so arranged that any adjustment in depth or width can be made from your seat on the tractor.

Furnished in all-steel, general-purpose 12, 14 and 16-inch bottoms only. Two and three-bottom gangs, which can be depended upon to turn clean and perfect furrows and to scour easily. A rolling coulter for each bottom. Long wearing and few parts that will ever need to be replaced.

Article Number	Size Cut Each Bottom	Shipping Weight 2 Bottoms	Shipping Weight 3 Bottoms	Price Two Bottoms	Price Three Bottoms

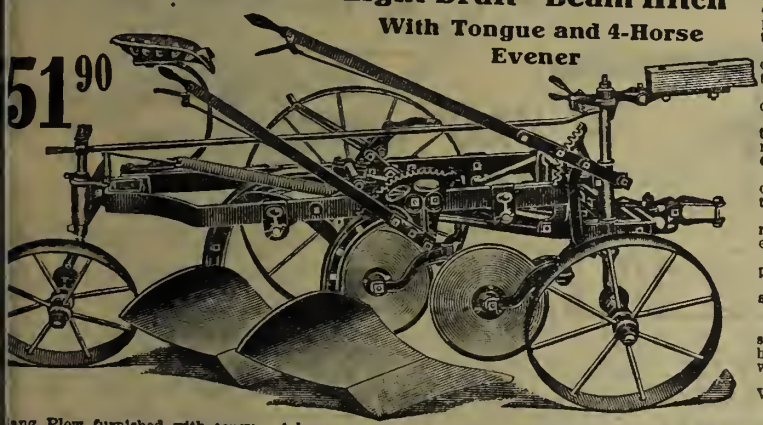
Shipped from factory in Indiana.



Notice its staunch simplicity of design, economy of weight and space and perfect construction

Climax Sulky and Gang Plows

High Lift—Foot Lift—Light Draft—Beam Hitch

With Tongue and 4-Horse Evener

$51.90

Our Improved Climax Sulky and Gang Plows represent many years of tests, experiments and trials, including the most trying operations a riding plow has ever been subjected to. Their superior plowing qualities under all conditions, their durability and easy operation and saving of wear on harness and horses, are hard to beat.

Frames are made of heavy, strong steel bars so that the plow will always stay set up. No sagging or bending to cause the plow to run out of shape. The land wheel axle crosses under the frame with a box on either side of the frame and combines to support the axle and divide the strain. This feature keeps the land wheel in its proper running position and adds strength to the plow. The front furrow axle socket casting has slot holes to take up the slack after the plow has been used for some time, preventing it cutting too wide a furrow.

In Stony Ground the plow can be left loose in the frame, to rise when it strikes stone or root. By a turn of the set screw the locking device can be thrown off its center and the plow will rise out of the ground, saving the point of share.

Leveling Levers are within easy and convenient reach of the operator. The levers are to the right of the operator, allowing free clearing space at left side for mounting and getting off the plow.

Wheels are set true, so that when at work there is no slipping or friction of any kind. The plow will follow the horses as true as a wagon. This is a very important feature, as in many other plows where the wheels are not running in direct line, it means adding another horse to your plow. The line of draft in the Improved Climax Plows is so true that there is no need of setting one wheel barred against the other to line up the plow.

Front Furrow Wheel has a latch, or hand lever. This is an excellent feature, especially towards the close of the day, when a horse is tiring, and there is a tendency to crowd or lag. The wheel can be instantly adjusted to overcome any side draft.

The Rear Axle is set to positively take the friction from the landside of the plow bottom. The connecting rod is so arranged that when turning, the front furrow wheel and the rear furrow wheel work in harmony with each other, avoiding friction and giving the best results.

Dust-proof Hubs and Sand Bands on all wheels. A spring oil cup on each band enables the wheels to be properly oiled and will not let the dust in.

Rolling Coulters are fastened to the beams with corrugated washers and an eye-bolt through the beam. They are set at the best working point, but can readily be adjusted forward or backward, up or down.

Plow Bottoms are extra well braced, and of the most approved shape.

Mouldboard and Shares are constructed from the highest grade of soft center steel, and shinned on the upper side, producing double-wearing qualities where the wear comes. The share and mouldboard are bound together by solid malleable frogs and heavy braces. Shares are reinforced at point by a heavy piece of steel, thoroughly welded and highly tempered.

Our Improved Climax Plow is Carried on the Wheels While it is Plowing. The Plow Does Not Carry the Wheels as is the Common Fault with Many Other Makes.

Three and four-horse eveners, made of No. 1 clear white oak.

Sulky regularly furnished with tongue, 3-horse evener, neck yoke, rolling coulter and weed hook. Average weight of sulky plows, 500 pounds. Average weight of gang plows, 730 pounds.

Gang Plow furnished with tongue, 4-horse evener, neck yoke, two rolling coulters and weed hook. Average weight of sulky plows, 500 pounds. Average weight of gang plows, 730 pounds.

Shipped from warehouse near Chicago.

Blue Jay Sulky

Side View

Climax Two-Way Sulky Plow

$48.95

For Flat Land or Hillside, Horse Lift, Tilting Seat, Foot Trip, Adjustable Tongue, Steel Frame, Malleable Connections.

For Hillside Plowing, to Throw the Furrow One Way, for Back Furrowing. Plowing one way frequently saves lots of time and short sides, and horses always turn on unplowed ground.

A combination of two separate and independent steel beam plows, each one separately controlled by levers and lifting device. When in use one plow turns the furrow, while the other is carried high to avoid obstructions. At the end of the row the plowing bottom is raised, and the turn made, and the other one lowered to plowing position.

It is economical because only one bottom is in use at a time and it will last as long service as two ordinary plows, with its many other conveniences. Horses do the lifting. Pressing the foot trip or handle latch of lever, plunger engages the wheel ratchet, which revolves with the wheel until correct position is reached, when it releases automatically. Draft is direct from the point of beam and the hitch automatically adjusts to the right position when either bottom is in the ground. High metal wheels have wide tires and removable dust-proof boxes. Seat readily tilts and is easily leveled at all times whether plowing on hillsides or on level ground. Plunger engage has lever adjustment which enables operator to regulate landing of furrow, width of furrow, even furrow around curves and to relieve side draft in on team. Regularly furnished with three-horse evener, and rolling coulters. Average shipping weight, 000 pounds.

288C548—Climax Two-Way Sulky, complete with 12-inch general purpose bottoms, having soft center steel mouldboards, chilled landsides and shares, rolling coulters and three-horse evener. Price.....$48.95
288C550—Same as above, except with 14-inch bottoms. Price.....49.90
288C552—Climax Two-Way Sulky Plow, complete with 12-inch all center steel, general purpose bottoms, including mouldboards, landsides and shares. Price.....$52.75
288C554—Same as above except with 14-inch all soft center bottoms. Price.....$52.75

Shipped from factory in Indiana.

Climax Riding Attachment

We believe there is no other riding attachment for walking plows made, equal to it in satisfactory operation.

$9.40 and $10.30

For either wood or steel beam walking plows for right hand plows only. Thoroughly tested and tried under all conditions.

Attaches to wood beams by boring holes in beam to suit the lower clamp bolts only. Not intended for use on Prairie Breaking plows, or plows with very long beams. With this attachment on your plow you can open a furrow 6 inches or can readily adjust to plow up to 0 inches deep. By operation of the levers, plow can be set to run steady, whether with or without seat, and go the entire length of the furrow without touching the handles to guide it. 30 inch steel wheels, of the same diameter, and the furrow axle is drilled so that furrow wheel can be set in or out to suit 12, 14, 16 or 18 inch plows. The main lever operates both axles when raising plow out of ground. Other lever levels and sets the plow. It is not necessary to stop the team to raise the plow or to start it again. The lever spring attached to lever makes operation so easy that a boy of 12 years can operate it. Seat is separate from the attachment and mounted on its own fastenings. Prices do not include plow but are for the attachment only.

288C852—Attachment, complete, including spring seat. Shipping weight, 120 pounds. Price....$10.30
288C854—Attachment without seat or seat clamps. Shipping weight, 100 pounds. Price.....$9.40

Shipped from warehouse near Chicago.

Western Frameless Sulky Plow

$24.75 Complete with Tongue

One of the best Frameless Sulky Plows made. Will do as good work, and is as easily operated, as many of the Frame Sulky Plows on the market, except that it has no Foot Lift.

One lever operates both axles when raising plow out of ground (on most other sulkies it requires two levers to do the raising), the main spring being so arranged that a boy of 12 can raise the plow with ease. The front furrow wheel swivels when turning, same as on frame plows, and is superior to the rigid wheels on other makes of frameless sulkies. The front furrow shaft always stands straight up, no matter what depth is being plowed, or when on the road. The wheels carry the load instead of the plow carrying the wheels. The adjustment and levers allow plowing from 2 to 8 inches deep, as desired. Furrow can be opened 4 to 5 inches deep. Bottoms have mouldboards, shares and landsides made of soft center steel, the same quality as in our Improved Climax. Made in right hand only. Furnished complete with tongue, rolling coulter, 3-horse evener, neck yoke and weed hook. Average shipping weight, 390 pounds.

Climax Walking Plows

$9.95 to $12.95

When you buy a Climax you have a plow that can be depended upon to scour easily, to turn a perfect furrow. It is well balanced in every way and can be easily handled. From the tips of the points to the tops of the handles the Climax plows are well built of first-class materials strongly braced

Double Shin Mouldboards 5-16 inch Shares

Climax Turf and Stubble or General Purpose Plows

Plows of this kind are known by the long, easy turn of the mouldboard which adapts them for use in tame sod, stubble and fallow plowing. There are more of these in use than any other two styles on the market. Turf, trash and weeds are turned end coversd. The shape of the mouldboard is such thet the top soil is turned completely under. These plows are especially used for plowing in clover, timothy, or alfalfa, heavy stubble; also old pasture land, clay soil or for top plowing. In fact, tbey are for general purpose work. Average shipping weights—12 in., 100 lbs.; 14 in., 110 lbs.; 16 in., 120 lbs.

Climax Stubble or Old Land Plows

Our Stubble or Old Land Plows ere the same in construction as our Turf and Stubble or Generel Purpose Plows shown in picture, the difference being in the length and shape of the mouldboard, the stubble plows having a shorter board with shorter curve, and when used on old land turns the furrow in a way that assists pulverizing Mouldboards, Shems and Landsides are made o high quality soft center steel and will scour i any soil where any other plow will. Averag weights—12 in., 100 lbs.; 14 in., 110 lbs. 16 in., 120 lbs.

Climax Hillside Plows

$5.65

Made especially for hillside work, but will do good work in level land where it is desirable to throw the ground one way. Well adapted for garden work. From a well known Plow Factory. This is the simplest end easiest swinging hillside plow that we know of. Mouldboard, shere and landside are of the very best chilled iron; beam is of special length, selected herdwood; handles are strong end well braced. A foot lever is used to unlock the plow; a slight pressure of the foot, with movement of the team, the mouldboard and share roll under the standard and it is clamped in position.

Price	Size	Extra Share With Each Plow: Shipping Weight Pounds	Furrow Capacity Inches	Extra Shares	Weight of Shares Pounds

Gauge wheel and reversible joints for plows B, C or D only, at an extra charge as follows:

288C864—Gauge wheel. Shipping weight, 13 pounds... $0.80
288C866—Reversible jointer. Shipping weight, 22 pounds 2.10

Shipped from warehouse near Chicago.

One-Horse Climax Vineyard Plows

$7.45

The beam is adjustable, so the horse can walk in the furrow or on the land; the handles can be shifted to right or left, which enables the plowman to walk away from trees, vines, shrubs, etc. The standerd is shaped so that it cannot clog, all litter being carried to the bottom of the furrow. The shape of the mouldboard makes the plow exceedingly light draft. Landsido and polut ere chilled cast iron. The mouldboard is either chilled with ribbed back or soft center steel. Made in right hand only. Extra share end wrench with each plow. Coulter and wheel are extra. Shipping weight, 100 pounds.

288C842—Plow with chilled mouldboard..... $7.45

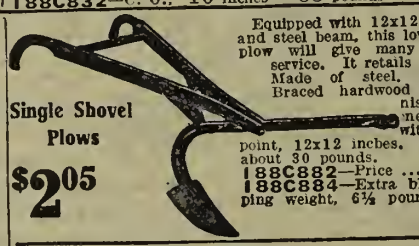
Wing Shovel One-Horse Plow



$2.40

Bolted and well braced. Seasoned hardwood handles and Beam. Wings cen be opened to 28 inches. Will throw a furrow from 8 to 12 inches wide end 3 to 8 inches deep. An excellent one-horse plow for use in nurseries, orcherds or vineyards, also useful as a light general purpose plow.

Excellent for digging potatoes, light ditching and doing other work of that nature. It is practically a single shovel plow with adjustable wings, which can be let out to any desired angle. It is sometimes convenient to work it with but one wing, which can readily be done, or the two wings can be worked at one time at different angles.

188C892—Wing Plow. Ship. wt., 32 lbs. Price..... $2.40
188C894—Blades with wings. Ship. wt., 14 lbs. Price 1.25

Single Shovel Plows

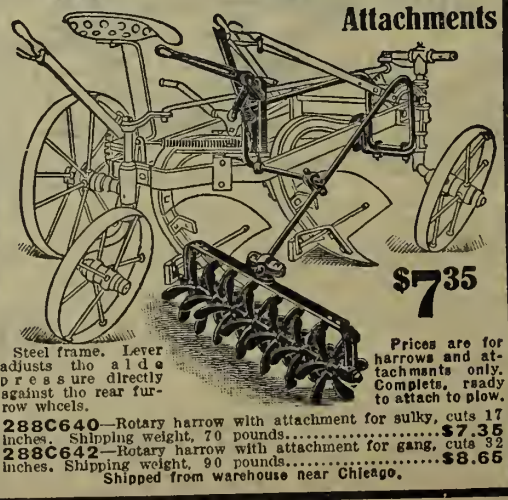
$2.05

Equipped with 12x12 inch steel blade and steel beam, this low priced, quality plow will give many years of good service. It retails at about $2.00. Made of steel, except handles. Braced hardwood handles. Furnished with hardened steel blade with oval shaped point, 12x12 inches. Shipping weight, about 30 pounds.

188C882—Price $2.05
188C884—Extra blade only. Shipping weight, 6½ pounis..... 58c

Double and Triple Shovel Plows and Cultivators

$2.15 and $2.95



You will be pleased with the excellent results you will get from thls low priced, one-horse plow.

Bladea are crucible steel, have two bolts each and are 6x11 inchea, with oval shaped points. Adjustable clevis. Handles strong and well braced. Nice curve to the beam.

188C886—Double Shovel Plow. Shipping weight, 35 pounds. Price $2.15

Renew the Worn-out Implement Parts—It Pays

Climax Sickle and Tool Grinder

Adjustable clamp at bottom, to conveniently attach to wheel on harvester or mower, for sickles; and to bench or table, for grinding tools. Mower Knife Holder adjustable as desired, and firmly holds the mower knife with two guides or rests, adjustable for any width or thickness of knife backs. Spring clamp allows shifting of the knife to any position while grinding. The weight of knife is carried by the holder and the operator has full view and easily controls the pressure and governs the grinding of nicks, gaps and any width or length of bevel.

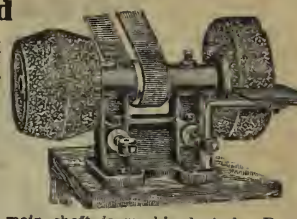
$2.55

Grinding wheels revolving 25 times to one turn of crank, are vitrified corundum, one of the hardest, sharpest and fastest cutting materials. Price includes one sickle or bevel wheel, one tool wheel, diameter, 4½ inch, face, 1⅝ inch, one tool rest and mower knife clamp. Shipping weight, boxed, 17¾ pounds.

188C2490—Price $2.55

Climax Foot Power Sickle Grinder

Will Sharpen Sickles, Harrow Discs, and various kinds of Farm Tools. High Speed. Easy Operation. All Around Farm Grinder.



Each Grinder furnished complete with vitrified corundum grinding wheels, one bevel shaped, for sickle blades, one flat faced tool wheel, diameter, 4¼ inches, 1⅜ inch face, one sickle blade or mower-knife holder and one disc-grinding attachment.

Gear and chain produce high-speed and sharpens tools very quickly. The sickle attachment allows any adjustment desired, and firmly holds the knife, regardless of width or thickness of knife backs. Spring clamp permits shifting the knife to any position while grinding. Disc attachment will handle any disc or wheel plow coulter, and sharpen it at any level. Grinding stones are made of vitrified corundum, harder, sharper and faster-cutting than other stones used on grinders. Frame is built from selected maple. Malleable working parts, steel shafts. Shipping weight, boxed, 70 pounds.

$5.30

188C2485—Price, complete $5.30

Climax Power Sickle and Disc Grinding Head

Will save lots of labor and repair bills on the farm—Can be operated by any small gasoline engine—For Mower Sickles, Harrow Discs and Tools.

Operates at 1600 revolutions with ½ H. P.

Has Disc Holder for grinding Harrow and Plow Discs 14 to 18 inch diameter.

Bolts to bench or table. Simply constructed, and accurately machined. ⅝ inch main shaft is machined steel. Bearings slotted in rear to provide a take-up and have oilers. Two disc or tool grinding wheels furnished, each 5⅛ inch diameter, 1¼ inches thick; one coarse grit; and one fine grit; also one bevel or sickle grinding wheel, diameter in center, 6 inches, tapering to 4½ inches; 3½ inches thick at the ends. Knuckle-jointed tool rests, may be set at any angle; a sickle, or mower knife holder and disc sharpening attachment. Diameter of pulley, 2 inches, with 1⅝ inch face. Complete to do all your farm grinding. Shipping weight, 36 pounds. Complete with sickle and disc holders; two tool and one bevel stone.

188C2480—Price $6.25

Reliable Acme Coulter, $2.10

Very strong, easily adjusted. Cone bearings, hard chilled, dust-proof. Blades of excellent steel. 13 and 14-inch are for wood or steel beam (right or left hand) plows. 15-inch fits steel beam only.

Monarch Disc and Coulter Sharpener

For 15 to 20-Inch Discs

Will surprise you in the quick and thorough manner with which it improves your harrow. A small, powerful disc sharpener.

$3.30

Can be bolted to bench or plank or upright post. The position of the machine makes it convenient to put on the disc. All farmers know that discs must be kept sharp to do good work, and especially to cut hard ground or sod land. With this sharpener, if the disc is bent or warped it can be straightened, which is not possible on a great many other machines of this kind on the market. The only proper way to sharpen blades is to take them off and really sharpen them. The blades can be removed easily by turning disc bottom side up. Has centering device to accurately center any disc. No clattering or jumping of the cutter. Improved roller carrier steadies discs. Double gear makes disc revolve slowly and gives great power to the machine. All cast working parts, steel shafts. Full directions with each machine.

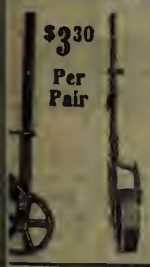
188C1190—Price, shipping weight, about 42 pounds $3.30
188C1192—Extra tool steel knives. Each, weight, 4 ounces ..... .28
188C1194—10x2½-inch Pulley to use with power, weight, 10 pounds ..... .95

Climax Disc and Coulter Grinder

$3.60

For Grinding Blades 12 to 24 inches in diameter. Especially adapted for grinding discs, but can also be used as a tool grinder. Automatic feature, whereby the disc is turned and the grinding done by turning one crank. Simplifies the operation and makes easy grinding with no other labor than that of turning of the crank. It is easily and quickly adjusted to grind either 12 or 24-inch discs, or any intermediate sizes. Has machine-cut driving gears, encased in dust-proof gear case, making it very serviceable for tool grinding. Disc is held against the 5½-inch grinding wheel by means of a spring-controlled steel roller. Shipping weight, 16 pounds.

188C1264—Price, complete $3.60



Disc Harrow Blades

Concave disc blades of same quality as used on all standard makes of disc harrows. Made of high-grade, oil tempered steel. Three sizes, 16, 18 and 20-inch, all have $\frac{16}{16}$-inch square hole to fit ⅞-inch shaft. Average shipping weights, 7, 9, 12 pounds respectively.

188C1218	20	9	90c

Climax Transport Trucks

For Disc Harrows

$3.30 Per Pair

Simple and inexpensive method of transporting your disc harrow from one field to another, across roads, etc., without danger of damaging disc blades, and avoiding cutting up the roads.

Trucks consist of steel standard or upright, with extension arms on which the axle of disc harrow rests, and the sliding clamp that attaches to frame at top of harrow. Each one handled individually. More easy to handle than the connected trucks, as one can be put on at a time. Shipping weight, per pair, 50 pounds.

288C1184—Price, per pair $3.30

Shipped alone or with Banner or Climax Harrows from warehouse near Chicago.

Finished and Fitted Plow Shares

$1.50 and Up

With Bolts Ready to Attach

Right-hand shares only, as listed below. When ordering, be sure to give article number, size of share wanted, the name or make of your plow, and the exact figures and letters which are on the back of the old share.

Solid crucible steel shares are made for sandy, gravelly or stony soils. Soft center steel shares are used in heavy or sticky soils, where perfect scouring and hardened wearing face are required.

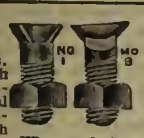
Olson Tool Steel Adjustable Plow Points

For Right Hand Plows Only



50c and Up

When your plow becomes dull and will not stay in the ground, it takes only a few minutes' time to slip on one of these points and the plow will do as good work or better than it ever did before, even when new. Will wear as long as a drawn and sharpened share and with practically no lost time and very little expense.

Made of Swedish crucible tool steel, long wearing and long lasting, and will fit practically every make of walking or riding plow. Slips on point of share and bolts through landside. No drilling or blacksmith work required. Nearly as firm and solid as if welded on. A bolt with eccentric head is furnished with each point and a slotted end with second inner slot of sufficient adjustability to meet the bolt hole and landside point of nearly all plows. Can be adjusted for depth by turning the bolt. Made in three styles, the No. 1 specially adapted for prairie breakers and for use in the dry lands or where it is difficult to plow deep with the ordinary share; the No. 2 for stubble, and turf and stubble plows with sufficient web to lay over point of share. Either style, 1 or 2, can be furnished with coulter cutter, as shown in illustration No. 3. For right-hand plows only. Shipping weights: No. 1, 2 pounds each: No. 2, 2¼ pounds; with coulter, 3½ pounds.

32c

188C946—Price, each 32c

Our Detroit-American is the Original Tongueless Disc Harrow

All Steel Construction. Maple Ring Bearings. Hard Oil Grease Cups. Long Blade Scrapers. Independent Gangs.

The frame is all steel, with no parts that add weight without strength. The frame sets high above the ground, so there is plenty of room between the trucks and the discs and no danger of trash catching under the frame or gathering under the Disc. The flexible pivot attachment of trucks allows the wheel to pass over uneven places, stones and turn corners without disturbing the perfect balance of the frame. The construction is such that the truck controls every movement of the harrow and keeps the frame parallel with the surface of the ground, which insures a uniform depth of cutting at all times. The Detroit-American is a light-draft machine, easy running and takes the greater part of the burden of harrowing off the horses.

Showing trucks and construction of connecting frame. Made practically entirely of steel. Has flexible pivot or kingbolt attachment to the frame. Draft is at one point, whether using 2, 3, or 4 horses. Diameter of steel wheels, 16 inches, with 3-inch oval tires that prevent cutting into the soil. Compare the truck and the front frame construction of our harrows with so-called tongueless discs.

All bearings are fitted with hard maple rings, boiled in oil to take up the wear easily and cheaply replaced when worn. There are no open oil recesses to collect dirt or grit. Our bearings are as near dust-proof as possible and hard oil grease cups furnished.

The hold-downs have been made adjustable and by this means the sections can be held down or adjusted up and down, as desired. Pressure can be placed on either section at any point needed.

The main frame standards are swiveled, allowing the sections automatically to close up the middle space when the cutting angle of the sections is adjusted. The disc sections roll with the ends in contact, thus the end thrust of one equalizing the end thrust of the other, the wear being taken up by large iron washers. There is no end thrust on the bearings.

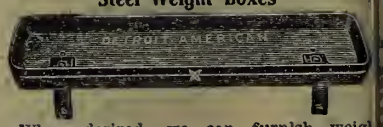
$21.95 And Up

Eveners Included with Each Harrow

Shifter Bars. Connected to lever. Are evenly curved along upper surface in order that they may exactly meet the lower end of the hold-downs, so that no matter where the lever is set, they hold the section level. This insures level cultivation.

Long Blade Scrapers. Made of special tempered steel. Extend from the scraper bar to a point near the center of the disc. Are operated by a foot lever convenient to the operator and automatically released by coil springs when the foot pressure is removed.

Eveners. With the 4-foot, eight-disc harrows, we include a two-horse evener. With the 5-foot and 6-foot harrows, three-horse evener is furnished. With the 7-foot and 8-foot harrows, 4-horse evener is furnished. Weight boxes extra at prices shown.



Prices on round blade disc harrows.

Shipped promptly from warehouse near Chicago.
Cutaway blades in 16-inch size only, furnished in place of round discs at same price.

After 33 Years of Leadership the Detroit-American Still Points the Way

Steel Weight Boxes

When desired, we can furnish weight boxes for any of our Disc Harrows except the 4-foot 8-disc size. Weight boxes are not needed for Cutaway Disc Harrows which are generally used for surface pulverizing. These boxes are strong enough to sustain a weight of several hundred pounds and are fastened to the scrape frame by two bolts each.

288C1124—For all sizes except the 4-foot harrows and the cutaway harrows, per pair, shipping weight, 15 lbs. Price.$1.3
Shipped from warehouse near Chicago.

Detroit-American Transport Trucks

288C1142—Shipping weight, per pair, 46 lb Price, per pair. Shipped alone or with D-A Ha rows from warehouse near Chicago.....$3.3

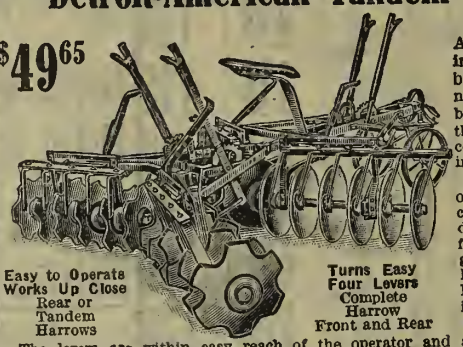
Climax Reversible Disc Harrow and Cultivator

As A Harrow

As a harrow it is especially desirable on small farms or truck farms, as it can readily be handled by two horses, and harrows as well as the larger sizes.

As a cultivator it is a valuable addition to your line, whether your farm is large or small.

The gangs can be set close together for harrowing, or can be separated 14½ inches for cultivating corn, hilling potatoes, tobacco, etc. Discs can be arranged to throw the dirt in or out. Has strong steel frame with malleable adjusting plates that can be set rigid and will stay in position at any angle desired. Diameter of discs, 16 inches, of high quality steel. Boxes or bearings are hard maple, oil soaked and enclosed in dust-proof boxes. Regularly furnished complete with disc scrapers, spring seat, doubletrees and neck yoke.



288C1148—With 6 discs. Ship. wt., 225 lbs. Price $15.95

288C1150—With 8 discs. Ship. wt., 240 lbs. Price $17.35

Shipped promptly from warehouse near Chicago.

Detroit-American Tandem Disc Harrow

$49.65

Easy to Operate Works Up Close Rear or Tandem Harrows

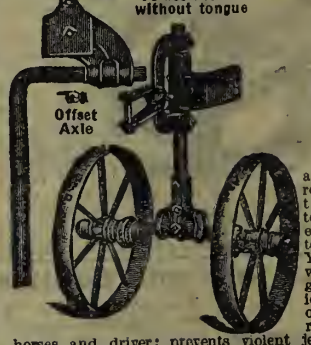
Turns Easy Four Levers Complete Harrow Front and Rear

For use with our regular Detroit-American disc harrows. Furnished in any of sizes in which the disc harrows are made. We can furnish either plain or cutaway blades but recommend cutaway blades, as they leave ground in more level condition. Cutaway blades in 16-inch size only.

Swivel hitch bracket coupling onto front frame requires no special arrangement or fitting. Rear discs throw dirt inward, after front throws it out, leaving the ground very level with no ridges. Rear blades cut out the middles left by front discs, so that ground is thoroughly cultivated by passing over it once.

The levers are within easy reach of the operator and are adjusted independent of the front machine. The swivel hitch bracket makes it a perfect trailer in turning and on uneven ground.

The frame is truss formed, is of steel and very strong. The main bearings are of heavy cast iron and have wood bearing rings to take up end thrust.



Weight boxes may be attached but are seldom needed with the trailer. We especially recommend this machine for tractor work.

Article Number	Width Cut	Number of Discs	Diameter of Discs	Shipping Weight	Rear or Tandem Harrows, Price	Complete Harrow, Front and Rear, Price

Climax Disc Harrow Trucks

To use with or without tongue

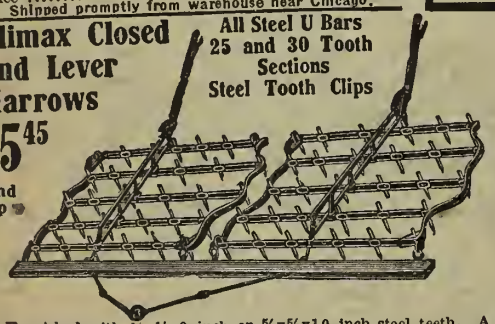
Offset Axle

Can be used on any disc harrow by sawing off the regular tongue near the ends of the tongue braces. Your harrow with truck, will give better service with less work on the horses. Relief to the horses and driver; prevents violent jerking and neck weight of tongue.

Exceptionally well made, strong and durable, easily adjusted and attached to stub tongue. Two holes only bored in tongue are sufficient to attach them. There is less tendency to side draft, as the harrow follows the truck.

Constructed almost entirely of steel and have sufficient strength to stand the hardest use on our harrows. Wheels are steel; diameter, 16 inches, with 3-inch wide oval-shaped tires, and dust-proof, oil-retaining boxes. Furnished with clevis to which even is attached, the draft being directly in line with the tongue. Regularly furnished to use without tongue; offset with tongue plate to attach tongue furnish extra when ordered.

288C1178—Tongueless Truck. Ship. wt., 65 lb Price $5.6



288C1180—Offset axle with tongue plate to atta guiding tongue when needed on hillsides or slope Ship. wt., 18 lbs. Price.....$1.2

Shipped promptly from warehouse near Chicago.

Climax Closed End Lever Harrows

$5.45 And Up

All Steel U Bars
25 and 30 Tooth Sections
Steel Tooth Clips

Climax All Steel Lever Harrow

$12.25

Two Sections. 60 Teeth.

Mellow and finely pulverized soil is necessary for a perfect seed bed, and to insure it, it is best to use the implement best suited to the purpose—a Spike Harrow. Our Climax Harrowe have heavy 1¼x1½ U-shaped steel cross-bars, five bars to each section. Frame is channel steel, of good weight and strength. The U-bars pass through main frame of the harrow and are held in position by clamps. This construction gives great strength to the harrow and at the same time allows flexibility. 30 teeth to each section. Set loose teeth. The teeth fasteners are malleable. The teeth are ½x½ 7½ or ⅝x⅝x7½ inches, and may be adjusted to make them deep or shallow, as desired; are of good length, forged of extra hard steel, with curved head to prevent dropping out; they can be turned, thus renewing the cutting edge, and by means of the lever can be set at any angle desired, either sliding backward, forward or horizontally. Each section has the "V" braces shown in illustration.

Hardwood draw bars furnished regularly on 2, 3 and 4 section harrows only.

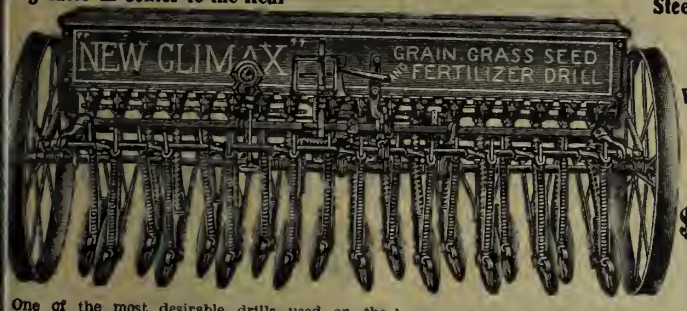
Pilgrim's medicated Salt is a great stock tonic

New Climax Grain and Clover Drill



18 Discs, 4 Inches Apart. Sows Less Seed to the Furrow. Drills More Furrows. Only 2 Horses Required.

Complete Outfit for All Kinds of Grains and Grass Seeds, with Fertilizer. Sows Seeds and Fertilizers in Rows Only 4 Inches Apart.

For Wheat, Oats, Barley, Rye, Soy Beans, Alfalfa, Red Mammoth or Japanese Clover, Timothy, Orchard Grass, Cow Peas, Etc.

Regulator in Center to the Rear

Steel Wheels Only

One Machine to do the Work of Many

Only One to House When Not in Use

$98.00

One of the most desirable drills used on the ..rm.

Accurately sows the small, expensive seeds such ı alfalfa, blue grass, clover, etc. You can drill over in your winter wheat and cultivate the heat with one operation. A fine stand of clover ın be secured by drilling from 6 to 8 pounds per ·re, insuring a far better yield than when the over is broadcasted with a great amount of aste. It is estimated that in drilling clover one, 30 acres will pay for the drill in the sav- g of seed and increase of crop over the usual ethod of broadcasting.

You increase your yield nearly double over the ven and eight inch drills by sowing with a New limax Combination Drill in furrows four inches art. It means more plants to the square foot, d a seed saving on account of even distribu- ·n.

One hopper only is furnished with drill, but is rided into two parts; one for grain and grass ds, and the other for fertilizer. Has agitator force seed, insuring uniformity. Hopper is ipped with an acre measure and a quantity licator with a large range of quantity adapting to the requirements of most any farmer. pper holds approximately 2 bushels of grain, l will sow from 75 up to 800 pounds of fer- zer per acre, as desired.

Has lever on side of bopper to raise discs. A ong lifting spring aids the lever so that a boy can easily and quickly raise discs out of ground when required.

The discs, 18 in all, are high carbon steel, self sharpening, and 10 in. diameter. Diameter of drive wheels, 36 in. with 3 in. tires.

Wheels do not extend above top of hopper and therefore prevent dirt being carried up on the hopper as happens with high wheels.

Sows about two corn rows in width, or 84 in. wide. Width of drill from out to out of wheels, 8 ft.

A timothy attachment is regularly furnished so that timothy, clover, alfalfa, and other small seeds can be broadcasted in front of the discs when drilling wheat.

Can cultivate crop without injury to roots by throwing clutch out of gear.

Plenty of clearance between each disc. No trouble in trashy or corn stalk ground.

Seed or fertilizer has direct drop from the time it leaves the hopper until deposited in the furrow; no chance for clogging.

The complete equipment includes combination hopper for grain, small seeds, and fertilizer; timothy attachment; pole with neck yoke and double trees; acre measure; and quantity indicator. Complete directions for operating. Shipping weight, complete, 1,020 lbs.

288C1400—New Climax Combination Drill, complete. Price **$98.00**

Shipped from factory in Ohio.

Climax Disc Grain Drill

$49.00 and up

Built by one of the most prominent manufacturers of seeding machinery.

Discs are concave, 13-inch diameter, hung in correct line for light draft. Disc pressure consists of coil tempered steel springs at rear of boot. A ratchet lever applies any desired pressure.

Drag Chains level ground after seed is deposited. Two end chains automatically carried clear of the ground wheels when turning. Tubes are spring steel wire, japanned. 48-inch wheels with wood rims and spokes, and iron hubs, 8, 10 and 12 disc drills have 3-inch tires. 14 and 16 disc drills have 4-inch tires. Axle is 1 5/16-inch cold rolled steel on drills up to 12 disc; 1⅜-inch on 14 and 16 disc drills.

Furnished as a grain seeder only, or combination fertilizer and grain drill with grass seed attachment. Also with seeder, especially adapted for sowing alfalfa.

Will sow all kinds of seeds continually, peas and beans included. Dial before operator shows acres sown.

The fertilizer can be thrown in and out of gear independent of the grain hopper.

Directions furnished with each drill. Weights of drill only, range from 1,025 to 1,750 pounds.

Illustration shows driver's seat. Seat is furnished only when ordered, at an extra charge, as many prefer to walk.

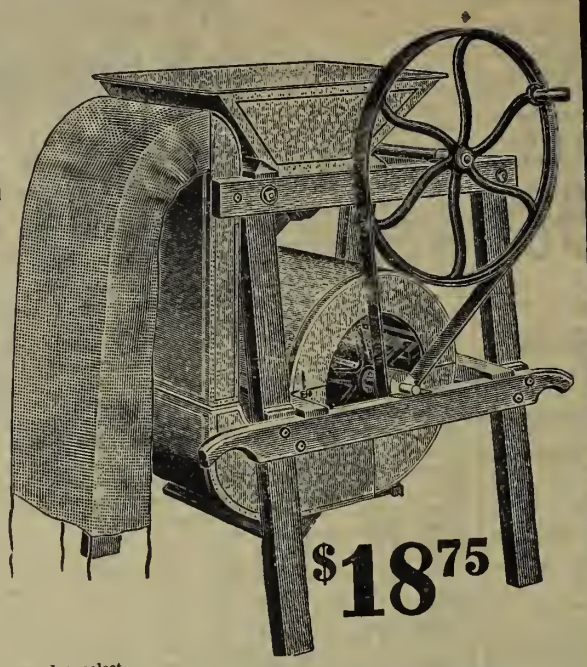
Peerless Bag Holder



For farm, store or mill. No hooks to tear the bag. Can readily be attached against wall or partition. Bag is held in position for shoveling by two steel bands fitting snugly one outside the other. Heavy casting at the back provided with slots for screws, can readily be lifted off to move. Regular retail price, 65c.

188C280—Ship. wt., 3½ pounds. Our price **48c**

Planting Better Seed Will Improve Your Crops

Climax Seed Grader and Crop Breeder

Carefully noting of growth of unselected seed wheat shows large percentage of seed sown never produces. The smaller seeds may generate and slowly send up weakly stalks, but without the vigor to mature into grain. The small seed forming these unproductive plants is worse than thrown away, the stalks from sound seed being less vigorous, as every small stalk near productive ones takes away part of their nutriment and lessens production of field.

$18.75

Plant Live Seeds—They Are the Only Producers

The Climax not only increases your crops so that the extra production of 6 to 10 acres in one season pays for the grader, but it improves the quality of your grain so that it commands the highest prices.

Make Your Crops Keep Pace with Increasing Land Values

Operation

The Climax grader enables you to plant only the best seed.

Selection of the best kernels is done by air blast which separates unsound from the sound kernels which are considerably heavier. No other method does this so well. Fanning mills separate large from small only regardless of soundness. Many tests made, principally under direction of agricultural colleges, prove that proper operation of our Climax Grader gives 95 per cent good seed. Land planted with seed properly selected will produce as large a crop as one-quarter to one-third more land sown with unselected seed.

You can run part of your grain through the grader, select the best kernels for planting and put the rest back in the bin without reducing its grade or market value.

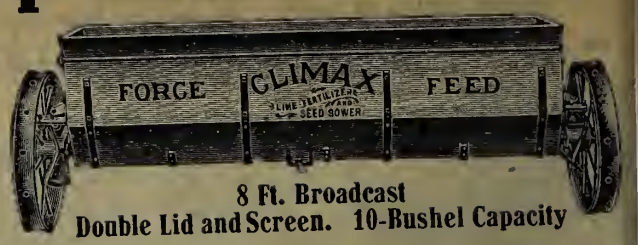
The Climax Grader has no complicated mechanism to get out of order, no sieves, screens, shakers or cog-wheels, or other parts to wear out with ordinary use. It is a simple arrangement which distributes the air blast properly for weighing, forcing out all seeds below weight and retaining the big live kernels. The frame is of hardwood, sufficiently heavy and strong to stand double the usage required. The drum, air chamber and valves are sheet metal. A convenient sliding poise is attached to the valve bar on the outside of the machine. The lower valve acts as a governor, or safety valve, opening automatically in case the draft is increased too much.

Numerous testimonial letters, including several from Government experimental stations, tell of various uses, such as separation of buckhorn from clover or alfalfa; imperfect split peas from sound ones; taking smut from wheat; fox-tail and crab grass from alfalfa; and foul matter and weed seed out of grain. However, we do not recommend it especially for any purpose other than the selection of large, sound seed. The grader starts where the fanning mill leaves off. For best results, grain should be fanned in a mill and then graded in the Climax Grader.

Complete printed directions with each grader.

Climax Hand Power Grader

The Hand Power Grader, as shown above, is the popular type for regular farm use. Capacity of 10 to 20 bushels per hour. The outside measurements are: Length, 3 feet 10 inches; width, 2 feet 9 inches; height, 4 feet 2 inches. Has cast iron large flywheel with handle that can be operated by one hand.



288C1350 — Climax Hand Seed Grader and Crop Breeder. Shipping weight, 160 pounds. Price..**$18.75**

Climax Belt Power Grader

Our Belt Power Grader and Crop Breeder is built similar to the hand machine illustrated above, but is a little larger and heavier. Length, 3 feet 10 inches; width, 3 feet 3 inches; height, 4 feet 5 inches. Capacity, 15 to 40 bushels per hour. Diameter belt pulley, 10 inches with 3-inch face. Speed of pulley, 75 revolutions. Furnished complete with sacking elevator. Can be operated by 2 H. P.

288C1352 — Climax Belt Power Grader and Crop Breeder, with 5-inch sacking elevator. Shipping weight, 320 pounds. Price **$28.50**

Shipped from warehouse near Chicago.

8 Ft. Broadcast
Double Lid and Screen. 10-Bushel Capacity

Climax Fertilizer and Lime Sower

$31.40

Will broadcast lime, ashes, plaster, phosphates, nitrate of soda, and other Commercial Fertilizers. A new, improved machine, adjustable to broadcast from 400 to 3,500 lbs. lime per acre. Feed can be changed instantly while spreading. Has very light draft. Very strongly constructed. As a result, the work is rapidly and well done. All feed openings at the bottom of the box are at all times square, whether large or small feed is being used, thereby doing away with clogging trouble by small, hard particles that will stick in an oblong opening but readily pass through a square hole.

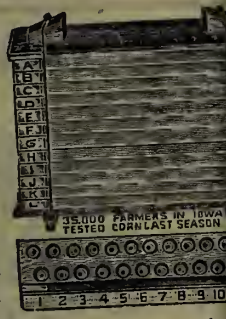
The Climax Sower has double lid-screen and scattering board. Throws out of gear from either wheel. The screen insures against trouble from foreign substances entering the machine and mixing with lime or fertilizer. It sows evenly, has a light draft, and the quantity to be sown can be instantly changed without stopping, by simply changing the position of the feed lever at the rear and bottom of the hopper. Length of hopper, 7 feet 7 inches. Complete with sowing dial, steel shifting lever and all steel, rust resisting bottom.

Axle—1¼ in. diameter. Cold rolled steel and high carbon steel used exclusively.

Wheels are of steel, diameter, 30 in. Stronger and more lasting than wood. Concave tires. Width, 4 inches.

Combination Force and Agitator Feeds, insure perfect even sowing. Furnished complete with tongue for two horses. (Extra charge for doubletrees and neckyoke.) Shipping weight, about 420 lbs.

288C1560—Without Doubletrees and Neckyoke. Price.....**$31.40**



288C1562—Doubletrees, singletrees, and Neckyoke for above. Shipping weight, 18 pounds **$2.30**

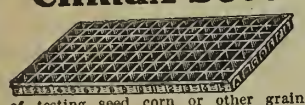
Shipped from factory in Ohio.

Brown's Seed Corn Tester

$3.65

A Perfect, Simple, Compact and Satisfactory Tester, Made of Wood.
Over 35,000 Farmers in Iowa Tested Corn Last Season.
More Corn Per Acre—Every Hill a Good One.

Requires only a small amount of space; can readily be set behind the stove or to one side out of the way.



Complete tester includes 2 racks for drying the corn. Each rack holds 24 samples from test ears. Entire set of racks will hold test samples of 288 ears.

Seed box consists of 12 separate compartments, lettered from A to L, each having series of twenty-four 1½-inch holes to be filled with sand, in which are placed about six grains of corn taken from each ear on the rack. Two measuring sticks bearing numbers furnished with each outfit to designate hole corresponding with that from which seed is taken.

Card of instructions furnished with each outfit.

188C1356—Complete outfit. Shipping weight, boxed, 50 pounds. Price..**$3.**

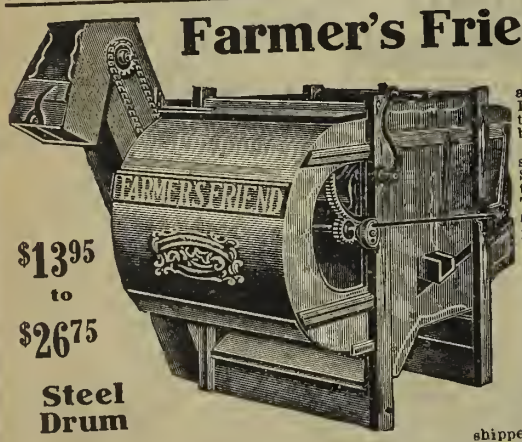
Climax Seed Corn Tester

Increase Your Yield Per Acre with Little Trouble or Expense.

A complete, convenient method of testing seed corn or other grain. Consists of large partitioned pan of heavy galvanized steel. Partitions removable for easy cleaning. Can test samples from 105 ears at one time. Compartments numbered and corresponding tags furnished with nails to attach to ears of corn.

Complete directions with each. Shipping weight, in carton, 4¼ pounds.

188C1364—Price, each **$1.20**



Actual Results from Using Climax Seed Grader

United States Experimental Station at Fayetteville, Arkansas, obtained 23 per cent increase on Common Rye. Selected by Grader, Yield = 1.460. Not selected, Yield = 1.140.

A 21 per cent increase on Early Ripe Wheat, from seed Selected by Grader. Yield =1.010 pounds. Not selected, Yield = 8.30 pounds.

On Oats a 50 per cent increase was obtained from seed selected by grading.

Farmer's Friend Fanning Mill

$13.95 to $26.75

Steel Drum

One of the Best Cleaners and Separators. Retails at Nearly Double Our Prices. You can buy a Better Mill of Similar Type at Any Price. It is the output of a factory that has devoted 35 years building Fanning Mills.

Thoroughly seasoned clear, sound hardwood construction and Steel drum that will stand hardest use. Spring steel strap hinge hangers support shoe, making this weak feature of most mills one of our strongest. The sieve frames are hardwood, mortised, tenoned and glued at corners. Can be adjusted to separate and deliver greater or less portion of best grain. The No. 1 smaller size equipped with sieves 24 inches wide with capacity of 40 to 60 bushels per hour. The No. 2 larger size has sievea 30 inches wide and a capacity of 60 to 80 bushels per hour. Each mill furnished with 3-gauge wheat hurdle with zinc, top sieve, wheat grader, side spout, wheat screen, barley sieve, oat and corn sieve, chess board. This outfit is sufficient for cleaning and grading wheat, oats, rye, barley, peas, beans, corn, cotton, buckwheat, kaffir corn, broom corn. For other work, see list of extras. Illustration shows mill with elevator and bagger; furnished only at extra charge as quoted. Elevator and bagger cannot be supplied to fit other mills or to fit our mill except at time when mill is shipped. Weights of extra sieve or screen outfits range from 5 to 15 pounds.

Write for prices on special sieves or cleaning outfits.

Shipped from warehouse near Chicago.

New Lakeside Fanning Mi

$11.85

While very low in price and not comparable with our Farmer's Friend, the New Lakeside Fanning Mill is strongly made of good material, is full size with large capacity, and cleans as much seed as mills that retail at $4.00 to $6.00 more.

The frame is hardwood, securely screwed and braced. Has a very short and quick side shake for movement of shoe, and larger screening surface than ordinary mills. Grain will not gather to one side. Eccentric driven by large gear wheel gives shake. Sieves 24 inches wide.

Regular outfit consists of one gang of sieves for wheat, one wheat grader, one wheat screen, one oats sieve, one barley sieve and one chess board, adapting it for cleaning and grading wheat, oats and barley. Extra sieves for other purposes as quoted. Farmer's Friend Fanning Mill No. 1. Shipping weight, 150 pounds.

288C1348—Lakeside Mill, complete. Price.....**$1**

Shipped from warehouse near Chicago.

Warehouse Fanning Mil

Same as Farmer's Friend Mills but larger, heavier, stronger, and adapted especially for power. Crank furnished for operating by hand. Bolted bearings, boxes, and pulleys. Recommended many years throughout the world by leading millers, elevator men, grain and seed dealers. Has tight and loose pulleys 6-inch diameter, 3-inch face, but we can furnish any size.

No. 2 Mill has sieves 40 inches wide. Capacity, 200 to 300 bushels per hour.
No. 3 Mill has sieves 48 inches wide. Capacity, 300 to 400 bushels per hour.
Speed, 250 to 275 R. P. M. Extra strong Elevators and Baggers attached to mill only at factory.

Furnished with regular commercial sieve and screen outfits for wheat, barley, oats and corn. Mills with outfit for cleaning onion sets, rice, coffee, beans, peas and peanuts furnished at same prices.

Climax Feed Cookers save feed, because they double the bulk

Many Uses Can be Found for These Implements

Mayflower No. 3 Cultivator

Adjusts from 10 to 26 inches in width

For Cultivator complete with 5 3-inch Shovels, Horse Hoes, Long Handle Braces and Lead Wheel

$4.25

mplete Outfit

One-horse Lever, Cultivator, complete, with 5 cultivating shovels, horse hoes, long handle braces and lead wheel.

The horse hoe attachment consists of a right and left hand hoe and a center shovel. The hoes can be set at different angles and can be arranged to throw the dirt to or from the plants. Steel frame is

rong, rigid and full braced. Handles have the long braces as well as the V-brace. ovel standards are steel, forged to shape and will not bend or break in the ltivation of the most stubborn soil. Width of shovels, 3 in., and are re- rsible, that is, can be turned when worn. Shipping weight, 60 lbs.

188C2020—Price, complete $4.25

5 in 1 Garden Tool

A great labor saver. Rear wheel gauges depth, steel wheel. Much easier to guide than a single wheel tool.

$2.80

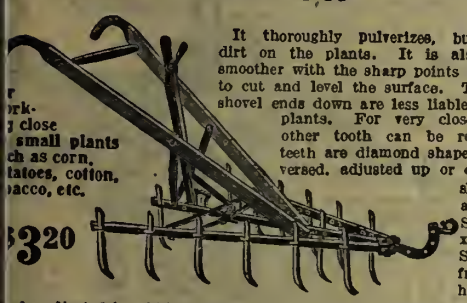
Handles attached to front axle, have the effect of pulling on the tool frame. The attachments can be readily adjusted; diameter, front wheel, 18 inches, rear wheel, 14 inches. The attachments furnished are sufficient to cultivate almost any garden crop and include one reversible bull tongue, three cultivator teeth, one sweep, one turn-shovel, one rake and wrench. Shipping weight, 25 lbs.

188C2042—Price, complete..... $2.80

Climax Cultivator, Hoe and Plow

Body does the work. Hands guide the tools. Flexible tool frame. Light running. Push bar drives and propels cultivator.

$2.45



Being hinged at the axle and the frame, the cultivator can be shifted from right to left without changing the course of the wheel. Operator pushes the cultivator with the weight of his body, while his hands are free to guide the machine. Diamster of wheel, 18 inches. The attachments furnished are five spring steel cultivator teeth, one right hand hoe or weed cutter and one large right hand plow. Shipping weight, complete, 23 lbs.

188C2036—Price, complete..... $2.45

Little Giant 14-Tooth Lever Harrow

rk- close small plants ch as corn, tatoes, cotton, bacco, etc.

$3.20

It thoroughly pulverizes, but throws no dirt on the plants. It is also used as a smoother with the sharp points down in order to cut and level the surface. The teeth with shovel ends down are less liable to injure the plants. For very close work every other tooth can be removed. The teeth are diamond shaped, can be reversed, adjusted up or down and the slant changed as desired. Size teeth, ⅝ x⅞x10½ in. Strong steel frame, steel handle braces.

be adjusted in width from 10½ to 33 inches. Shipping weight, 55 lbs.

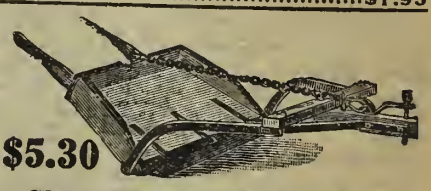
New Climax Road Drag

We have arranged to put this high grade patented Leveler on the market at a price within the reach of everyone. Every land owner should take pride in keeping up his portion of the road. This can be quickly and easily done with the Improved Climax.

This machine gathers the loose and misplaced dirt at each side of the road and draws it toward the center, where it is leveled off and smoothed down.

Heavy cutting knives on the main side sills leave the road crowned up with a level center 5 ft. in width.

It works both sides of the road at once, does not leave narrow ridges of dirt as with some graders.



The sweep may be adjusted from 10 to 16 feet wide as desired, and the machine is easily handled with four horses or light tractor.

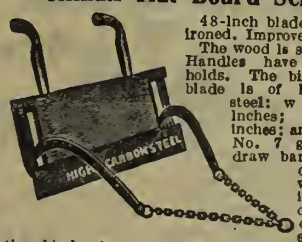
The main sills are 3x6 oak and reinforced with steel. The front cross frame is made from 2½ in. steel angles and all other parts are equally strong.

Heavy pull rods and chains are furnished, but no eveners.

Shipping weight about 500 pounds.

288C1756—Price, complete as described..... $32.95

$5.30



Climax Tongue Scraper

The heavy, 3/16 inch thick steel blade used for cutting edge is of extra hard steel; width, 4½ inches. The draw bars are made of steel, and shoes of malleable iron. The wood work is of well seasoned hardwood, securely banded and bolted; has hardwood tongue and cross beam, combination draw pin and wrench. Made in three sizes: 36 inches, 42 inches and 48 inches.

288C1684—Width, 36 inches. Shipping weight, 120 lbs. $5.30
288C1686—Width, 42 inches. Shipping weight, 125 lbs. $5.45
288C1688—Width, 48 inches. Shipping weight, 130 lbs. $5.60

Shipped from factory in Ohio.

Climax Flat Board Scraper

48-inch blade—extra well ironed. Improved for 1916. The wood is seasoned oak. Handles have steam-bent holds. The bit or cutting blade is of high carbon steel: width, 48 inches; depth, 6½ inches; and thickness, No. 7 gauge. The draw bars are made of steel: width, 1¼ inches. We do not know of a better scraper of the kind at any price. Shipping weight, 85 pounds.

288C1680—Price $5.40

Shipped from factory in Ohio.

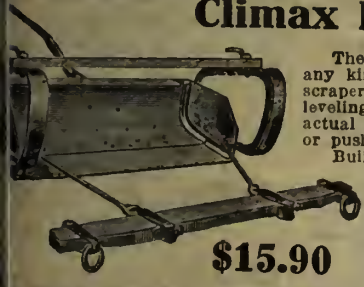
Stone Boat Head, $2.35

To construct stone boat any straight plank can be used. Take three 10-inch boards and fasten with ⅝-inch bolts to the front. The front has a shoulder for fitting the ends of the boards against. Holes are drilled to receive the bolts for bottom boards and side strips. Cast in one piece. Average shipping weight, 55 pounds.

188C1770—Price $2.35

Steel Clad Stone Boats

$3.95 to $5.25



For moving implements, etc., without loading on a wagon. The bent front part is No. 11 sheet steel, and the bottoms hardwood, thickness 2 in. The side rails and cross pieces are 2-in. hardwood and firmly bolted to bottoms. Length of front steel plate, 16 in.

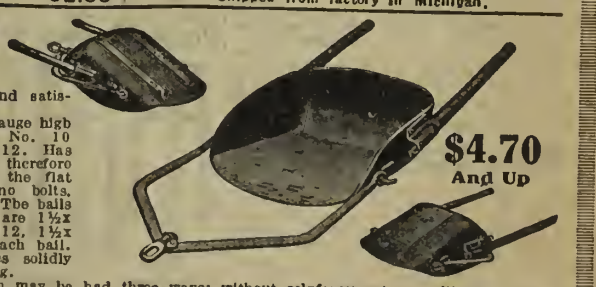
Shipped from factory in Michigan.

Climax Buck Scraper

$15.90

The kind so largely used in the west. Will do any kind of work usually done by drag and wheel scrapers. Unsurpassed for making irrigation ditches, leveling land, building levees. Capacities given are actual and do not include what dirt is heaped up or pushed in front of scrapers.



Built to Wear and stand the hardest kind of usage. High carbon steel body, wrought iron rods and fittings, hardwood drawbar, crossbrace and handle. We believe it equal to any similar scraper made, regardless of price. It has greater carrying capacity than other scrapers of this style, and its great strength and durability make it one of the handiest and most economical machines

e scraper line for the farmer or contractor. The load can be carried any distance deposited in bulk or distributed evenly as desired. Runners can be adjusted to any required by the nature of the soil.

Climax Steel Drag Scrapers

$4.70 And Up

Climax Scrapers give long and satisfactory service.

The bowl is made of No. 11 gauge high carbon steel in size 10 and No. 10 gauge steel in sizes No. 11 and 12. Has round back and curved bottom, therefore considerably less friction than the flat bottom scrapers. There are no bolts, nuts or clamps to encumber it. The bails on the Nos. 10 and 11 sizes are 1½x½-inch steel, and on the No. 12, 1½x⅝-inch steel; swivel link on each bail. Handle sockets are steel plates solidly riveted and never need renewing.

In Climax scrapers the bottom may be had three ways: without reinforcement, or with runners, or with bottom plate. When furnished with runners, scraper is fitted with two 1½x7/16-inch runners, attached to the bottom with countersunk rivets. The bottom plate scrapers have large steel flat plates securely rivcted and will give long and satisfactory wear. Capacities given are actual and do not include what dirt is heaped up and pushed in front of scrapers.

New King Large Mouth Hay Carrier

$3.55

Double Swivel. High-grade malleable iron. Can be used with 1-inch rope or smaller.

Special features of our New King: Large, open mouth, allowing fork pulley head to pass well up into car; strain of lock device placed where carrier is strongest, avoiding friction or twisting strain; fork being close to track permits filling space to high point. Large mouth insures receiving fork pulley with load instead of frequently missing, as happens with small mouth carriers.

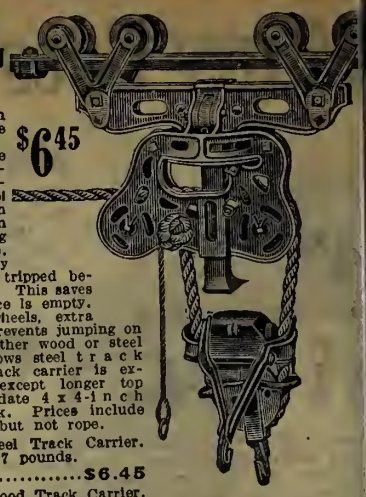
Rope Sheaves take ¾-inch, ⅞-inch, or 1-inch rope, but we do not recommend larger than ⅞-inch, on account of larger being less pliable and causing extra friction. Fork pulley has loop head, insuring sure lock, and clevis to attach fork. Made in two styles, for regular 4x4-inch dressed wood track, or to run on our Champion steel track. Carrier furnished with pulley for fork and stop. Without Rope. Shipping weight, 37 pounds each.

188C2600—New King carrier for wood track..... **$3.50**
188C2602—New King carrier for steel track..... **3.55**
88C2603—Extra stop for steel or wood track (state which). Weight, 2¾ pounds. Price..... **20c**
188C2622—Sling Pulley to use wagon slings. Shipping weight, 13½ pounds..... **$1.60**

Champion Wood Track Carrier

Swivel carrier to run on dressed 4x4-inch wood track. Made entirely of malleable iron. Fork trip works automatically on its own weight, requiring no springs. Positive lock. Working parts are close to the track and track wheels are large with wide flanges, making them work easily under a load. Will work either way from stop without drawing rope, by turning the swivel head. All carriers fitted and tested before leaving factory. Fork pulley with clevis and trip or stop always furnished. (No rope.) Ship. wt., 32 lbs.

188C2616—Price, complete **$3.10**
88C2618—Extra wood track trip or stop. Weight, 2¾ pounds **20c**

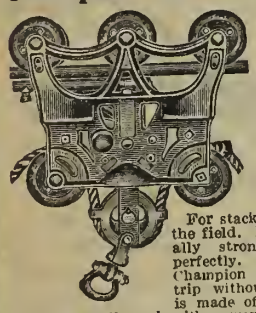


Sling Pulleys

For our Champion or New King, steel, wood or cable track carriers. Used with our Western or Standard Hay Slings. No rope furnished. Positive lock with the heaviest loads. Shipping weight, 13½ pounds. Malleable iron.

188C2620—For Champion Carriers. With rivet head as shown at the left. Price..**$1.50**
188C2622—For New King Carriers. With loop head as shown to the left. Price.....**$1.60**

New Samson Swivel Swing Carrier

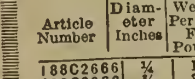


$6.45

For ⅞ or 1-inch Rope. ¾-inch rope not suitable.

Made of malleable iron, simple in construction, easily understood. Has swivel head. Can be run on either side of barn without changing ropes on carriers. Load raised to any point desired and tripped before it reaches stop. This saves time when the space is empty. Has eight track wheels, extra heavy frame that prevents jumping on track. Runs on either wood or steel track. Picture shows steel track carrier. Wood track carrier is exactly the same, except longer top frame to accommodate 4x4-inch dressed wood track. Prices include pulleys and stop, but not rope.

188C2610—Steel Track Carrier. Shipping weight, 67 pounds. Price **$6.45**
188C2612—Wood Track Carrier. Shipping weight, 73 pounds. Price **$6.50**



Champion Cable Carrier

For stacking hay in the field. Exceptionally strong, guides perfectly. Has the Champion automatic trip without springs, is made of malleable iron and will work either way from the stop without turning on the cable. Furnished with stop to fit either ½, ⅝ or ¾-inch cable. Fork pulley with clevis always furnished. (No rope.) Shipping weight, 30 pounds.

188C2625—Price, with trip or stop for ½-inch cable **$3.05**
188C2627—Price, with trip or stop for ⅝ or ¾-inch cable (state which) **$3.15**

Floor Hooks

For fastening pulleys to the floor. Wrought iron; ends pointed. Diameter, ¾ inch. Length, 8½ inches; threaded, 4¼ inches.

88C2648—Ship. weight, 1 pound. Each **8c**

Knot Passing Pulley

Has extra large knot passing head with swivel, 6-inch maple sheave, malleable iron frame which will not spring. Rope cannot get between the frame and the sheave or be cut on the edge of the sheave. Ship. weight, 3¼ pounds.

88C2651—Price, each..**22c**

Hay Fork Pulley

Self-oiling after once greased. Has wood shell with inner steel frame and 5-inch maple sheave; wrought iron axle support; steel swivel eye. Very strong, durable and popular. Shipping weight, 3½ pounds.

Malleable Iron Rafter Brackets

2½c

Specially designed for hanging track. No screws or nails are furnished. Ship. weight, 5 ounces.

88C2705—Price, each **2½c**

Complete Barn Haying Outfits

Our Haying Tools are made in two of the largest hay tool factories in the world. If you desire these outfits changed in any way, be very careful to add to the price of the outfit, or deduct from it, as you change the number of items, otherwise your order must be held to write you further. Larger rope than ⅞ in. cannot be used on Champion Carriers.

The brackets and the hanger hooks are furnished to be placed on every other rafter, 2 ft. apart, as used in most barns, except at ends and center, where you place more. You can place them closer if you so desire.

The steel track is made of 1-in. angle steel, 2 pieces held together with malleable clamps. Is cut in 10-ft. lengths with two 5-ft. pieces to each outfit to break joints at each end. The wood track should be 4x4 in. timber. We do not furnish the wood track timbers. Add 1c per foot for ⅞-in. in place of ¾-in. rope.

Steel Track Outfits—complete with steel track Champion steel track carrier 188C2630 and double harpoon fork 188C2710. 4 floor hooks and 3 knot passing pulleys, furnished with every steel track outfit.

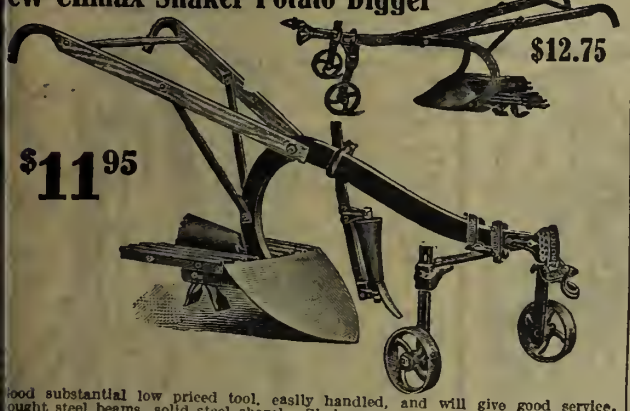
Our Diggers Get All of Your Potatoes Out of the Ground

$86.00 Climax Senior Potato Digger Also an Excellent Peanut Digger



Lever Adjustment with special foot leverage permits operator to control machine easily.
Diameter of wheels, 30 inches. Made of steel with 1½-inch cold rolled steel axles. Main beams or draft arms malleable iron, securely fastened to heavy, 5-inch steel channels in frame, with draft equally divided. Gears and pinions interchangeable. When worn on one side they can be changed and are as good as new gears.
Endless Chain is of 7/16-inch round crucible spring steel, each alternate link being high and low, insuring perfect operation while in action. It passes over special agitator sprocket and is in constant motion, causing loosening of soil before potatoes reach back of machine. Links properly gauged to avoid loss of small-sized potatoes.
Agitators, in two complete sets, cause constant wavy motion to chains, practically insuring screening in heaviest and hardest soil. Set of smaller agitators furnished for light soil.
Plow Point is fin or turn-up type, high carbon soft center steel, 5/16 inch thick, properly beveled and polished easily.
Vine Carriers governed by two large adjustable coil springs. Vine carriers separate vine from potatoes and reduce labor of picking, as weeds and vines are thrown to one side and separated from potatoes.
Pickers arranged so that one or two teeth can be used as desired.
Shaker Fork has tines of high carbon spring steel, 7/16 inch at base, securely fastened to malleable side frame.
All power driving parts key seated, avoiding weakness, lost motion, and much breakage. Bearings, 4 in all, have compression grease cups. Two-Horse Eveners regularly furnished.
Truck regularly furnished guides machine. For uneven or hilly ground pivot axle truck that adjusts itself to angle of draft or grade of ground can be furnished at extra charge in place of regular truck. Width of digger inside elevator, 22 inches. Shipping weight, 975 pounds.

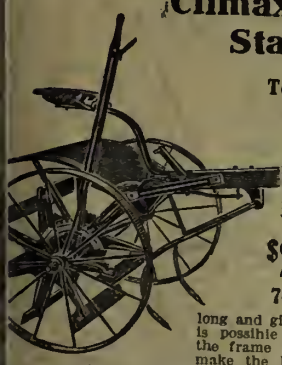
Lightning Wheelbarrow Grass Seeder

Especially Adapted For Alfalfa

$5.30

A most economical and satisfactory grass seeder for limited work.



Thousands in satisfactory use.

Two men have sown 2,000 acres in 14 days with 16-foot seeders. No power seeders can equal it. A 16-foot seeder, run 160 rods, sows an acre. Many users sow 40 acres a day.
Has been thoroughly tried and tested in sowing clover, timothy, alfalfa, Hungarian millet, flax or crimson clover, with satisfactory results. Seed can be sown mixed or separate; any amount required per acre. The wheel is all steel, with broad tire. It is an invaluable implement for seeding when wind blows, because the wooden seed box is so close to the ground that the wind cannot affect the work. Rope agitator regularly furnished; wire agitator, if so ordered. Full directions with each machine. Weights, 12-foot, 42 pounds; 14-foot, 46 pounds; 16-foot, 50 pounds.

Stop Throwing Away Grain!

Saves as High as a Bushel an Acre

The Best Grain is Saved

Because it is the largest and earliest ripening grain which is shelled out in harvesting.

Climax Grain Saver No. 1

The number one Climax Grain Saver will fit all McCormick Binders, either right or left hand. When ordering, be sure to state right or left hand.

188C102—Climax Grain Saver. Shipping weight, crated, 40 pounds. Price.....**$9.00**

Grain Savers, to fit right and left McCormick and old and new Deering Binders, are shipped from Chicago; all others are shipped from factories in North Dakota or Illinois.

Easy to Attach

The Climax Grain Saver is easily and quickly attached to any binder, and the lost kernels that fall during the cutting and binding, must fall into the saver. The weed seeds, which you do not want to have scattered over the field to grow up the next year, are also caught; thus the very best kind of seed is saved to you, because experience shows that the kernels which shell out first and most easily are the best kernels to plant.

Save the Timothy Seed

Use the Climax Grain Saver when cutting timothy, where the timothy is to be thrashed for seed. It falls off easily, and quantities of it are lost, unless you use a Climax Grain Saver, which does away entirely with this waste. The best ripe grain is the first and easiest to shell out. A Climax Grain Saver does not add to the draft of the binder. It is easily put on and gives no extra work, except to empty the grain after the saver is full.

Climax Grain Saver No. 2

The number two is used on all Binders except the McCormick. When ordering be sure to state the name of binder and the year made.

188C104—Climax Grain Saver. Shipping weight, about 33 pounds. Price.....**$9.10**

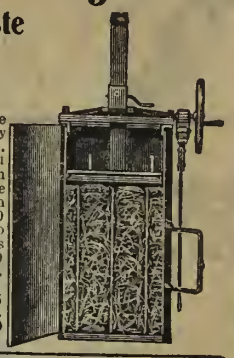
Sweet Clover for Feed

A great many farmers are planting sweet clover for feed, and at $11.00 a bushel for the clover seed, they find it a very good investment to have a Climax Grain Saver attached to their binder when harvesting. Stop wasting your grain. Enough of good grain is shelled out and scattered on the ground and lost during harvest to pay for several grain savers, and not only are you saving the good early ripening grain, but you also collect the mustard and other objectionable seeds, which shell out at the same time and unless caught in a grain saver, will be scattered over the ground by the binder and come up in increasing quantities each season.

The only machine that saves the grain formerly lost in harvesting. Saves any grain cut with the binder. Does not affect the running of the binder, does not take any more power.

Climax All-Steel Hand Hay Baling Press

For Baling Hay, Flax, Waste Paper, Rags, etc.



No. 1 size makes a bale 16x18x30.
No. 2 size makes a bale 18x20x36.

This Hay Baler is particularly desirable for the small farmer or one who does not raise enough hay to afford one of the large and expensive machines. The Climax Haud Baler will make uniform bales of hay for market purpose, as regular and uniform in shape as those turned out by the most expensive balers. Two or three wires may be used to each bale as desired, bales of hay weighing about 70 pounds to the bale and straw about 75 pounds to the bals. This is the standard size and weight, as heavier bales are not practical in handling. 100 pound bales can be made in this machine if desired.

288C2742—Climax All Steel Hay Baler No. 1. Shipping weight, 240 pounds. Price.....**$31.75**

288C2743—Climax All Steel Hay Baler, No. 2. Shipping weight, 320 pounds. Price.....**$39.50**

Shipped from Factory in Iowa.

Its construction is extremely simple, fewer parts than any other press, there is nothing to get out of order, as all parts are made of carefully tested steel and cast iron, and will stand rough and severe usage. Heavily reinforced frame, with special side construction. Thsre are no chains to break and the operation is exceedingly simple.

For baling waste paper the Climax is unexcelled, and bales from 100 to 140 pounds can be made in the No. 1 machine, while the No. 2 makes bales from 125 to 225 pounds to the bals. Special reinforced side construction, springs out when baling pressure is released. Balcs cannot stick in the press. One man can handle either of these presses and bales can be made in a very few minutes. Full and complete instructions for operation with each.

Single Loop Bale Ties

Prices subject to market changes.

Annsalsd steel wire. Sold only in bundles of 250 ties. 9-ft. ties are for 3-ft. bales from 14x18-in, or 16x18-in. presses. 9 ft. 6 in. ties are for 3-ft. bales from 17x22-in. press. 70 to 80-lb. bales require No. 16 gauge wire ties; 80 to 90-lb. bales require No. 15 gauge wire ties. Bales over 90 lbs. require No. 14 gauge ties. We reserve the right to bill at lowest market quotations.

Climax Steel Silo Roof

Made of 28-gauge Galvanized Steel, with or without Dormer Window. For Wood, Cement, or other kinds of Silos. No roof frame necessary. Rigid, Strong and Durable. We especially recommend our Climax Steel Roof because of its long-wearing qualities. Rain or sun will not perceptibly affect them. Will not check, dry out or warp. Their wearing qualities, simplicity of construction and ease in putting together, make them far less expensive than wood tops. The window opening in Dormers 17½x17½ inches.

Our Climax Steel Silo Roof is easy to assemble. There is no danger whatever of sagging, as the ribs stiffen it, giving many times more than the strength required to support it. Each rib has four thicknesses of metal, and is constructed as shown in small cut, and locked together tightly with a sliding cap, that not only helps to strengthen, but draws the sheets tight together, and positively prevents rain from entering. The seam caps are far superior to bolts, as they slide on, and roof can be put together in less than one-half the time it takes for similar tops that are bolted together. Two flaps or cleats on the under side are supplied to attach to silo. On wood silos, these cleats can be screwed or nailed and bolted on cement silo. Each roof is made 16 inches larger in diameter than the inside diameter of silo. For instance, a roof for 10-ft. silo would measure 11 ft. 4 in. across. A ventilator at extreme top. Furnished with or without dormer. When furnished without dormer a small filling door is supplied inside. Dormers are made to take standard size windows. (We do not furnish the glass window.)

On concrete silos, where the thickness of wall exceeds extension of silo top, we recommend ordering the next size larger to insure it being large enough.

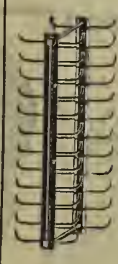
Climax Seed Corn Dryer

Practical, Satisfactory and Economical Rack for Drying Corn. Capacity 600 Ears



$6.75

Requires a space only 2 ft. wide and 6 ft. long. Capacity, 600 ears of corn. The ear of corn slips over the hook. Same number of ears can be placed on either side of rack and in straight rows up and down or straight across. Easy to count them when testing; all ears can be seen at a glance. Hooks are galvanized steel. The cross bars are stiff bar steel, and will not sag. No two ears touch. Very strong, and will last indefinitely. Shipping weight, 70 lbs.

288C1368—Price, complete **$6.75**

Shipped, knocksd down, from factory in Iowa.

Seed Corn Drying Racks

$1.35 Per Dozen

Made Entirely of Steel. Better Than Any Wood Rack.

Each rack holds 24 ears of corn. Sides or frame made of 16-gauge steel. Beaded in center, and formed on each side, making them rigid. Holders are heavy galvanized wire, spaced 2½ inches apart. Can easily be taken off and put on and can all be collapsed into a flat package, taking up very little space. Packed in crates of one dozen or three dozen. We cannot break crates or sell less than dozen lots at these prices. Shipping weight, one dozen crates, 17 lbs.

188C1372—Price, per crate of 3 dozen racks **$3.85**

188C1374—Price, per crate of 1 dozen racks **$1.35**

Seed Corn Dryers

One of the Most Convenient and Economical Dryers for Taking Care of Your Corn. Capacity, 200 Ears.

Dryer consists of specially constructed galvanized steel wire chain, with large hook on one end, and 200 heavy crimped galvanized wires that go into the butt end of cars and hook on chain. Takes up very small space; can be hung up anywhere. Air space of 6 inches through center.

88C1360—Price, per set, to hold 200 ears. Ship. wt., 5½ lbs..**78c**

Felt Silo Packing

In excellent quality of wool and cotton mixed felt, for silo doors. It is ¼ inch thick and 1 inch wide. Use for weather stripping and packing refrigerators. In packages containing strips of 75, 110 and 125 feet.

C7295—No. 1 package contains 75 feet. Enough for silos up to 20 feet high. Ship. weight, ¾ pound. Price, per package.....**70c**

C7297—No. 2 package, contains 110 feet. Suitable for silos 20 to 30 feet high. Ship. weight, 1⅛ pounds. Price, per package.....**95c**

Ratchet Silo Wrench

Specially adapted for tightening hoops on silos. Made of malleable iron and furnished with two sockets to fit wagon nuts, one for ⅝ inch hexagon hoop nuts and one for ¾ inch hexagon hoop nuts. If you have a silo, be sure to get one, as it relieves the hard work in tightening hoops with a monkey wrench. The ratchet feature allows keeping the socket on the nut while working the handle back and forth to tighten the nut. Not necessary to remove this wrench with every turn. Does the work in one-fourth the time required by an ordinary hoop wrench. Length, 11 inches. Ship. weight, 2 pounds.

C7290—Price, complete with two sockets.....**65c**

Brown's Economy Corn Hanger

With this device, nearly double the amount of seed can be properly stored in the same space than any other method and at less cost. Plenty of air space on all sides; no two ears touch at any place, except at the butt, therefore no molding account of contact.

Packed 250 Clips and six 2-foot sections of perpeudicular wire in carton to hold 250 ears of corn. Shipping weight, about 3 pounds.

88C1370—Brown's Economy Corn Hanger. Price, per set (for 250 ears).....**84c**

Peerless Galvanized Steel Grain Bins

Rat-Proof, Fire-Proof, Rain-Proof, Thief-Proof. Makes an excellent smoke house or tool house when not used for grain.

Made of 20 gauge U. S. Standard steel heavily galvanized, very rigid. Shipped knocked down with side wall rolled up as one piece thus taking low freight rate. Easy to set up.

Covers are furnished with a center elevation from 1 to 3 feet fitted with 15-inch round manhole with hinged cover. Width of doors on all sizes, 30 inches, height, 6 feet, strong wood frame. Bins over 10 feet in diameter, have standing seam roof and ornamental cupola for ventilation. By leaving the last section of roof free so it can be removed, provides a better opening than the round manhole, therefore no manhole is furnished. Inner grain door has tight-fitting boards that fit in a galvanized steel frame. In one of these boards an outlet spout is fitted, which can be placed at any height desired. Spout has lever and slide for opening and closing outlet. Furnished complete, with cover and bottom. Directions with each.

Shipped from factory in Southern Michigan.

Climax Hay Rack Brackets

Makes strong, rigid racks. No bolt holes through the main timbers. Unnecessary to dress materials to fit clamps.

One of the best and least expensive rack sets. Complete set with directions, all packed in box.

188C2732—No. 1 size, with bolts for 14-inch rack. Shipping weight, per set, boxed, 12½ pounds. Retail, $1.25. Our price, per set **$1.05**

188C2734—No. 2 size, with bolts for 16-inch rack. Shipping weight, per set, boxed, 13½ pounds. Price, per set.....**$1.15**

Hemm's Hay Rack Fixtures

For any size or style of rack. No vertical holes to bore. The top of rack can be readily taken off and body used for other purposes. Upright stakes in openings, make stock rack. Use any width of timbers. No slip or tilt. Flanged on inside. Made of malleable iron. Set consists of 8 fixtures. Directions with each set. Shipping weight, per set, fixtures only, 18 pounds.

88C2738—Price, per set of 8, without bolts **$2.10**

88C2740—Price, per set, 8 fixtures and 24 bolts, 8—⅝x3, 8—⅝x2¾, 8—⅝x6, complete, outfit **$2.65**

A Good Purchase is Our Superior Ensilage Cutter and Silo Filler

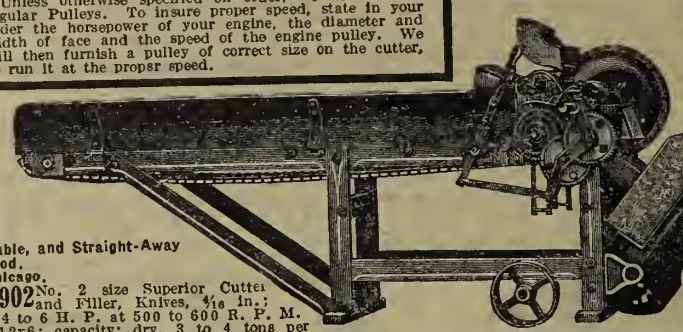
The Superior Reduces the Cost of Your Silage

Big, powerful and well constructed machines that have been thoroughly tried out and are well known for their high-grade construction, durability and easy running qualities. They are made in three sizes, with either drop leaf, or traveling self-feed tables and with or without enclosed steel elevator or blower. They are suitable for all kinds of dry or green fodder, including corn on the cob.

Enclosed Steel Elevator

More easily operated and requires less power than blower. Can be operated in nearly a perpendicular position. Made of 18 gauge galvanized sheet steel. Practically indestructible. Buckets carried on single heavy chain belt. No side strain. Driven direct from shaft head with belt connection.

Has tightener pulley controlled by spring. Operator can quickly release tightener to stop elevator if caught through accident. Base arranged so all cut ensilage drops directly into elevator and immediately elevates. No congestion. Plain elevator shown, all that is necessary to deliver silage in direct line with the silo window. Hopper and distributor pipe for inside of silo extra.



Frames are entirely of hardwood, very heavy, strongly braced, and put together with mortised and tenoned joints, and bolted. Tempered Steel Knives are spiral shaped, set to make a shearing, downward cut against steel cutting bar. Knives attached to heads by bolts and have adjustable screws to regulate each in relation to the steel cutting bar. Size of cut, ¼, ½, ¾ inch. Extra large hood over knives gives plenty of clearance with no danger of clogging; is also a protection against accidents. Main shafts on cutting head made of cold rolled steel, to which pulleys and balance wheels are attached. Either can be used on either side. Feed rolls have expansion gearing and pressure is exerted on an equalizer bar so that feed roll is raised the same at each end and there is no binding or undue friction in the boxes.

Safety patented, friction balance wheel will turn on shaft if any hard substance gets in with feed and suddenly stops knives. Safety stop lever immediately stops or starts all working parts except the cylinder head.

Either size furnished with either drop leaf or traveling self-feed table. We recommend self-feed table for filling silos or for any work requiring full capacity of machine. The force feed device is a traveling apron that runs at same speed as feed rolls. Apron is controlled by safety lever same as feed rolls. Drop leaf table requires feeding by hand. One side leaf drops on a level with bottom of table, giving a wide surface and is built low so that it is within easy reach of the operator.

Hood and extra piping made of black steel, painted.

Unless otherwise specified on order, we will furnish regular Pulleys. To insure proper speed, state in your order the horsepower of your engine, the diameter and width of face and the speed of the engine pulley. We will then furnish a pulley of correct size on the cutter, to run it at the proper speed.

Hood shown here, furnished only when ordered at extra charge.

Showing Ensilage Cutter with Traveling Self-Feed Table, and Straight-Away Enclosed Steel Elevator with Hood.

Shipped from warehouse near Chicago.

288C2900 No. 1 size Superior Cutter and Filler. Knives, 5/16 in.; requires 3 to 4 H. P. at 500 to 600 R. P. M.; pulley, 10x6; capacity: dry, 1½ to 2½ tons per hour; green, 3 to 5 tons. With drop leaf table, shipping weight, 510 lbs. Price for cutter only, without elevator.....**$31.80**

With traveling self feed table, shipping weight, 735 lbs. Price for cutter only, without elevator.....**$49.70**

Shipped from warehouse near Chicago.

288C2902 No. 2 size Superior Cutter and Filler, Knives, 4/16 in.; requires 4 to 6 H. P. at 500 to 600 R. P. M. pulley, 12x6; capacity: dry, 3 to 4 tons per hour; green, 6 to 8 tons. With drop leaf table, shipping weight, 570 lbs. Price for cutter only, without elevator.....**$41.60**

With traveling self feed table, shipping weight, 870 lbs. Price for cutter only, without elevator.....**$61.50**

Shipped from warehouse near Chicago.

288C2904 No. 3 size Superior Cutter and Filler, Knives, 5/20 in.; requires 6 to 8 H. P. at 500 to 600 R. P. M.; pulley, 14x6; capacity: dry, 6 to 8 tons per hour; green, 12 to 16 tons. With traveling self feed table, shipping weight, 735 lbs. Price for cutter only, without elevator.....**$98.00**

Straightaway Enclosed Steel Elevators For Superior Cutters Only. In figuring the length required, order about ¼ more than the height in feet of the silo. **Horse Power Required For Cutters With Elevators**—No. 1, 4 to 6 H. P.; No. 2, 6 to 8 H. P.; No. 3, 8 to 10 H. P..

288C2906—No. 1 Elevator for No. 1 Cutter. Length, 12 feet. Shipping weight, 285 lbs. Price.....**$31.65**

288C2908—Extra Extension for No. 1 Elevator. To increase length over 12 feet. Weight, per foot, 10 lbs. Per foot....**$1.15**

288C2910—No. 2 Elevator for No. 2 Cutter. Length, 12 feet. Shipping weight, 300 lbs. Price.....**$33.80**

288C2912—Extra Extension for No. 2 Elevator. To increase length over 12 feet. Weight, per foot, 12 lbs. Per foot....**$1.25**

288C2914—No. 3 Elevator for No. 3 Cutter. Length, 12 feet. Shipping weight, 565 lbs. Price.....**$40.50**

288C2916—Extra Extension for No. 3 Elevator. To increase length over 12 feet. Weight, per foot, 18 lbs. Per foot....**$1.45**

Hoods and Distributor Pipe in 4-Foot Sections. Made of black steel, painted. Hood is necessary and any number of pipe sections can be attached. Sections telescope and fasten with snaps so are flexible and allow distributing Silage at any point inside the Silo. Sections easily detached as the filling of Silo progresses.

Note: 24-foot Silos require 5 sections and hood; 30-foot, 6 sections and hood; 36-foot, 8 sections and hood.

288C2920—Hood for No. 1 Elevator. Ship. wt., 20 lbs. Price.....**$4.60**

288C2922—Hood for No. 2 Elevator. Ship. wt., 25 lbs. Price.....**$4.75**

288C2924—Distributor Pipe for Nos. 1 and 2 Elevators, in 4-foot Sections. Diameter at large end, 10½ inches, at small end, 9 inches. Complete with Snap connectors. Wt., 5 lbs. per ft.

Price per 4-foot Section.....**$1.50**

288C2926—Hood for No. 3 Elevator. Ship. wt., 30 lbs. Price.....**$5.95**

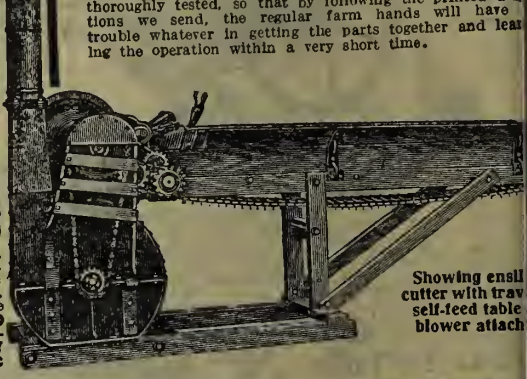
288C2928—Distributor Pipe for No. 3 Elevator, in 4-foot Sections. Diameter, large end, 12 in. Small end, 10 inches.

Per section.....**$1.75**

Prices for Outfits Quoted Below are for Cutters Complete With Blowers, As Shown Above. With Collapsible Hood and Top Elbow. Black Piping Is Extra. When Ordering Pipe, Order 5 Feet Less Than Height of Silo. Horse Power Required: No. 1 Outfit, 12 to 15 H. P.; No. 2, 15 to 20 H. P.; No. 3, 20 to 25 H. P.

288C2932—No. 1 Outfit. Consists of No. 1 Blower and No. 1 traveling self-feed table cutter. Ship. wt., 1,200 lbs. Price.....**$96.50**

288C2934—Blower Pipe for No. 1 Outfit. Diameter, 7 in. Weight, per foot, 3 lbs. Price, per foot.....**40c**



288C2936—No. 2 Outfit. Consists of No. 2 Blower and No. 2 traveling self-feed table cutter. Ship. wt., 1,475 lbs. Price.....**$120.00**

288C2938—Blower Pipe for No. 2 Outfit. Diameter, 8 in. Weight, per foot, 4½ lbs. Price, per foot.....**60c**

288C2940—No. 3 Outfit. Consists of No. 3 Blower and No. 3 traveling self-feed table cutter. Ship. wt., 2,225 lbs.....**$166.00**

288C2942—Blower Pipe for No. 3 Outfit. Diameter, 11 in. Weight, per foot, 7 lbs. Price, per foot.....**80c**

Elevators, Extensions, Hoods, Pipes and Blower Outfits shipped from warehouse near Chicago.

Showing ensil cutter with trav self-feed table blower attach

Blower Elevator

Closely connected with cutter, a mounted on same, it takes up hardly a more room than cutter alone, operati as one machine with very little lost moti and vibration.

Improved method of driving outfit fro blower shaft keeps blower up to speed without losing speed on account of slipping belts or loos fitting chains, practically eliminating danger clogging. Drive pulley attached to fan opposite to side illustrated. Cutter head has sproch chain connection to fan shaft.

Blower elevator made of 16 gauge steel, wi heavy, durable steel fan.

Superior Equipments

Easy to Set Up

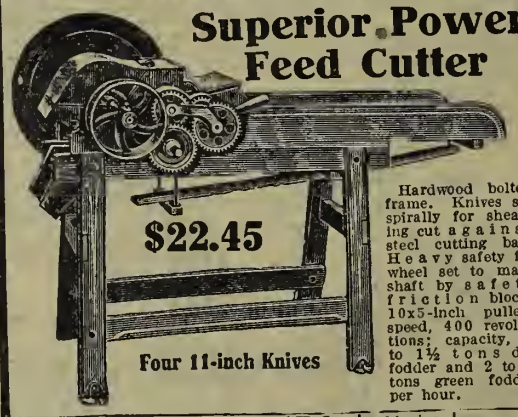
Superior Cutters and Fillers, though big powerful m chines, are noted for simplicity of construction a operation. Each outfit is set up at our factory a thoroughly tested, so that by following the printed dir tions we send, the regular farm hands will have trouble whatever in getting the parts together and lear ing the operation within a very short time.

Superior Hand Feed Cutter

$11.10

Run by hand. Has heavy balance wheels, which, with the shearing cut of knives, makes the machine very light running. Frame, made of heavy hardwood, strongly bolted together. Shaft is heavy, cold rolled steel. Knives are oil tempered tool steel and so constructed as to make a downward shearing cut. Feed Rolls are large and driven by expansion gearing which allows the rolls to open up when the machine is fed heavy and still gives a positive and uniform feed.

Length of cut easily changed by cone gearing. Has safety lever so that feed roll can be stopped instantly while the machine is running.



When both knives are used the cuts on the smaller machine are ¼ inch, ⅝ inch or 1 inch in length. On the larger machine ½ inch, ¾ inch or 1 inch in length. Cuts can be made twice as long by removing one of the knives. The feed table throat is designed to give ample room and to reduce the labor of feeding to a minimum.

Article Number	Number of Knives	Length Inches	Cut Inches	Capacity-Fodder per hour Dry. Pounds	Green. Pounds	Shipping Weight Pounds	Price
288C2834	2	8½	¼ to 2	150	300	150	$11.10
288C2836	2	10½	½ to 2	325	600	280	16.25

288C2838—Pulley, 10x3 inches for 288C2836 only, to run by light power. Weight, 18 pounds. Price.....**$1.15**

Shipped from warehouse near Chicago or from factory in Ohio.

Superior Power Feed Cutter

$22.45

Four 11-inch Knives

Hardwood bolted frame. Knives set spirally for shearing cut against steel cutting bar. Heavy safety fly wheel set to main shaft by safety friction block. 10x5-inch pulley; speed, 400 revolutions; capacity, 1 to 1½ tons dry fodder and 2 to 3 tons green fodder per hour.

Article Number	Size	Knives Inches	Cuts inch	H. Pow. Required	Shipping Weight	Price
288C2800	No. 11	4-11	¼, ⅝, 1	1 to 2½	435 pounds	$22.45

288C2806—Extension to increase elevator in 4, 8 or 12 foot lengths. Shipping weight, per foot, 12 pounds.

Price, per foot.....**70c**

Shipped from warehouse near Chicago or from factory in Ohio.

Champion Hand or Pow Feed Cutter

$19.90 or $19

A remarkably rapid and easy-running machine. Hardwood bolted frame. Has heavy balance wheel to which the 2 curve edged knives are attached. This stylo machine is preferred by a great many on account of the ease with which it is run and its great capacity, being from 500 to 1,000 pounds per hour, according to the condition of the fodder. Cuts in two lengths, ⅝ inch and 1 inch. Length of knife, 15 inches; width of throat, 8 inches; height, 3 inches. Furnished with convex or concave knives. Shipping weight, 240 lbs.

288C2816—Price, with convex knives.....**$19**

288C2818—Price, with concave knives.....**19**

When so desired we can furnish a short cut attachment with machine which admits of several additional lengths of cuts, shortest being ¼ inch.

288C2820—Short cut attachment, extra.....**$2**

Two cranks can be used on this cutter at the same time so desired. Recommended where heavy or dry fodder is to be

288C2822—Price of extra crank, weight, 5 pounds.....

288C2824—Pulley, 10-inch diameter, 4-inch face, for power to not exceed 350 revolutions per minute, weight pounds.....**$1**

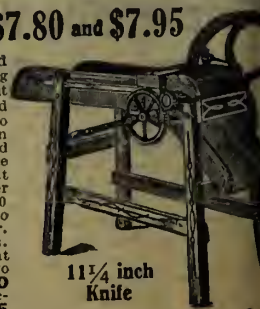
Shipped from warehouse near Chicago.

The Racine-Sattley Three Speed Gasoline Engine furnishes cheap, reliable power for feed cutting and silo filling. You can change the speed to suit your need. Three speeds under instant control. Built so you can understand it. See pages 973, 974, 975 and 976.

Superior Hand and Power Feed Cutter

$20.90

Powerful, fast-cutting feed and ensilage cutter that can be operated with very light power. Safety Fly Wheels. Reversible, Cutting Bars. For 20 to 40 Head of Stock. Safety Stop Levers. Pulley to run by power. Crank to operate by hand. Especially adapted for Poultry account of its fine cut. Three knives, length, 10½ in. Cuts ⅛, ¼ or ⅜ inch lengths.



Heavy Hardwood Bolted Frame. Capacity for 10 to 20 head of stock, and sufficiently easy to run by hand, when a small amount of feed only is desired. Has sliding cone gear for changing length of cut. 1 to 1½ H. P. required at 300 to 400 R. P. M. Diameter, driving pulley, 10 inches; face, 3 inches. Crank to run by hand, also furnished. Capacity per hour, dry fodder, 800 to 1,200 pounds; green fodder, 1,200 to 2,400 pounds. Shipping weight, 300 pounds.

288C2860—Complete, with pulley and crank.....**$20.90**

Shipped from warehouse near Chicago.

Chicago Feed Cutter

$7.80 and $7.95

11¼ inch Knife

An excellent easy-running cutter for a few head of stock. Knife is tempered hard steel, and makes a downward shearing cut. Is adjustable to cut from ⅝ to 1½ inches, and geared to make 3 cuts to one turn of the crank. Main shaft is 1 1/16 inches cold rolled steel. Heavy balance wheel. Has a fluted roll that feeds to knife. Capacity, per hour, about 150 to 200 pounds of dry fodder, 300 to 400 pounds of green fodder. Shipping weight, 160 pounds.

288C2870—Price at warehouse near Chicago.....**$7.80**

288C2872—Price at factory in Ohio.....**$7.95**

288C2874—Extra Knife. Shipping weight, 4 pounds...**$1**

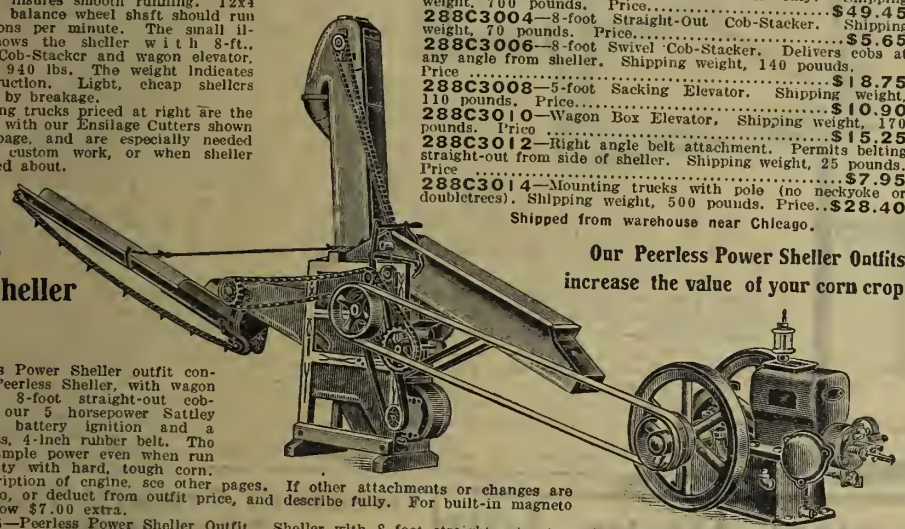
Shipped from warehouse near Chicago or from factory in Oh

Peerless Self-Feed Two-Hole Corn Sheller

Our peerless Sheller is the result of 40 years' experience in corn sheller building. In every way equal to any other similar sheller made. Strong enough to stand the hardest kind of usage. Capacity, 50 to 75 bushels per hour, with 3 horse-power, 75 to 100 bushels with 4 horsepower and more if corn is in extra good condition. Fills the requirements of large farms, stock-raisers or traveling custom work. Frame shafting, chains, gears and mechanism are heavier than usually found in sheller of this size. Adjusting springs for different kinds of corn easily reached through a top hinged lid. Shells clean when set right, without breaking cobs or corn kernels. Large powerful fan with shaker screen, cleans the shelled corn and frees it from cobs and dust. Shifting clutch allows throwing feeder in or out of gear instantly.

$69.75 Complete

Height, 5 ft.; width, 30 in.; length over all, 55 in. Heavy frame is of select hardwood, nicely painted, decorated and varnished. Solid center balance wheel, weight, 65 lbs., diameter, 22 in., insures smooth running. 12x4 in. pulley on balance wheel shaft should run 700 revolutions per minute. The small illustration shows the sheller with 8-ft., straight-out Cob-Stacker and wagon elevator, total weight, 940 lbs. The weight indicates heavy construction. Light, cheap shellers cause trouble by breakage.

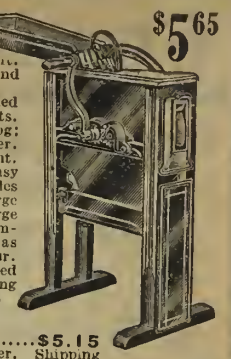


The mounting trucks priced at right are the same as used with our Ensilage Cutters shown on another page, and are especially needed for traveling custom work, or when sheller must be moved about.

288C3000—Peerless Self-Feed Sheller with wagon box elevator, and 8-foot Straight-Out Cob-Stacker. Shipping weight, 940 pounds. Price.....$69.75
288C3002—Peerless Self-Feed Sheller only. Shipping weight, 700 pounds. Price.....$49.45
288C3004—8-foot Straight-Out Cob-Stacker. Shipping weight, 70 pounds. Price.....$5.65
288C3006—8-foot Swivel Cob-Stacker. Delivers cobs at any angle from sheller. Shipping weight, 140 pounds. Price.....$18.75
288C3008—5-foot Sacking Elevator. Shipping weight, 110 pounds. Price.....$10.90
288C3010—Wagon Box Elevator. Shipping weight, 170 pounds. Price.....$15.25
288C3012—Right angle belt attachment. Permits belting straight-out from side of sheller. Shipping weight, 25 pounds. Price.....$7.95
288C3014—Mounting trucks with pole (no neckyoke or doubletrees). Shipping weight, 500 pounds. Price..$28.40
Shipped from warehouse near Chicago.

Peerless Power Sheller Outfit

Our Peerless Power Sheller outfit consists of our Peerless Sheller, with wagon box elevator, 8-foot straight-out cob-stacker, and our 5 horsepower Sattley Engine, with battery ignition and a 24-foot endless, 4-inch rubber belt. The engine gives ample power even when run at full capacity with hard, tough corn.



Our Peerless Power Sheller Outfits increase the value of your corn crop

For full description of engine, see other pages. If other attachments or changes are desired, add to, or deduct from outfit price, and describe fully. For built-in magneto on engine, allow $7.00 extra.

288C3016—Peerless Power Sheller Outfit. Sheller with 8-foot straight-out cob-stacker, wagon box elevator, 5 horsepower Sattley Engine, and 24-foot, 2-ply, 4-inch Rubber Belt.....$141.25
Sheller shipped from warehouse near Chicago. Engine and belting, shipping weights, 875 and 15 pounds respectively, are shipped from warehouse nearest you. See Engine Pages for warehouse locations.

Climax Corn Sheller

$5.65

Hardwood Frame. Cold-rolled Steel Shaft. Built very strong. Will stand hard work and give long service.

Framework is hardwood, strongly joined together with mortised and tenoned joints. Gearing is outside of frame, so it cannot clog; protected by a hood or cover, avoiding danger. Crank on right side makes feeding convenient. Low gear and heavy balance wheel make it easy to operate. Large spout fitted with slotted holes by which it is adjustable for small or large corn. Ample feed table attached to large throat. Delivers cob on end. Furnished complete with fan and feed table, or plain, as desired. Capacity, about 10 bushels per hour.

288C3072—Sheller complete with fan, feed table, crank and balance wheel. Shipping weight, 120 lbs.....$5.65
288C3074—Without fan or feed table, otherwise complete. Shipping weight, 105 lbs. Price.....$5.15
288C3076—8-inch pulley to run by power. Shipping weight, 12 lbs.....50c
Shipped from warehouse near Chicago.

Buckeye Corn Sheller

$6.45

Frame is Heavy Hardwood, strongly bolted together; every part firm and rigid. Feed table well made and of ample dimensions. Spout fitted with slotted holes, by which it can be adjusted to shell large or small ears. Rag iron, and controlling spring adjustable, and when properly set, any size may be shelled. Shaft bearings are bored true, and are wider than on most shellers. Cold-rolled steel shaft; balance wheel large and heavy. Capacity, from 10 to 20 bushels per hour.

288C3080—Price, complete, with fan and feed table. Ship. wt., 142 lbs.$6.45
288C3082—Price, without fan or feed table, otherwise complete. Ship. wt., 130 lbs.....$5.90
288C3084—Pulley, 8 in. diameter, to run by power. Ship. wt., 12 lbs.....50c
Shipped from warehouse near Chicago.

Climax Pea Huller

$23.75

Our Climax Pea Huller is acknowledged to be one of the best for threshing peas, beans, velvet beans, sorghum, kaffir corn, and garden seeds. No complicated parts to get out of order. The Drum and Cylinder are cone shaped. Cylinder length, 21 inches; smaller at one end than the other. Peas are fed in the hopper at small end, and gravitate to the larger, passing over more threshing surface than with a straight drum. The threshed peas and hulls pass out at lower side of larger end of drum, where the draft from fan carries out the hulls, leaving peas clean.

Substantial and durable frame of hard, seasoned pine, with joints securely bound by draw rods.

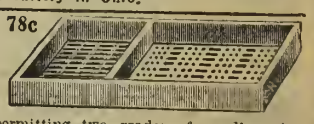
Teeth, while strong, are thin, a particularly good feature, as they will not break the peas.

In some types of pea hullers, the bearings of axles gather shredded parts of pea vines, pods, strings, etc., and so obstruct the cylinder that the operator has to stop frequently and remove rubbish. The Climax overcomes this trouble entirely.

Will hull and clean about 5 to 8 bushels per hour, according to the condition and kind of peas. Shipping weight, about 160 lbs.

288C3118—Pea Huller for hand power only. Price.....$23.75
Shipped from factory in Georgia.

Climax Double Rotary Corn Grader



You can improve the quality and quantity of your corn crop by using this big capacity low-priced grader. Don't plant your butt and tip kernels, nor the little thin ones which have no vitality. It costs you no more in time, labor, and money to produce the biggest and finest yield than it does to plant and cultivate poor corn.

The Double Rotary 5-grade corn grader is constructed on the right principle for successful work. Two corrugated steel drums, one inside the other with perforations of different size and shape, grade any corn perfectly. Handles any variety satisfactorily. In narrow kernel varieties, like Reed's Yellow Dent, a grade of medium width kernels may be obtained, by raising feed in grader about half an inch and running through again. The same process on medium and wide kernel varieties gives two even grades for planting, a feat impossible with any other grader. Actually gives you five grades. Simple and compact. Screw feed on crank shaft regulates flow of corn perfectly. So easy to operate that a boy ten years old can grade as well as a man. Capacity, 10 to 12 bushels per hour. Only 30 inches high, 32 inches long and 15 inches wide, but it grades more than any other machine graders twice its length and width. Will easily pay for itself many times over. Shipping weight, packed, 45 lbs. Measures and basket not furnished.

288C1385—Climax Double Rotary Corn Grader. Price....$5.95
Shipped from factory in Ohio.

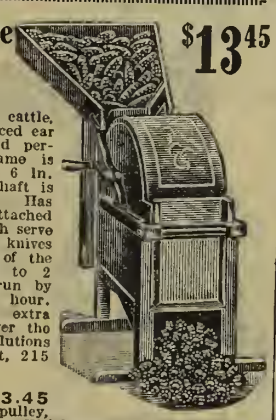
Iowa Corn Grader

78c

A 3-Grade Grader that eliminates two grades of undesirable kernels, and gets one perfect grade for planting, same as high priced graders. Made with two compartments, first and larger permitting two grades of small grains to go through. After grading out the smaller kernels and turning movable partition in center, slight tipping sends the balance to smaller compartment where corrugation allows planting grade of uniform size to go through, but keeps back extra large kernels. Galvanized steel screen; wooden frame. Never clogs. Transferring corn from one compartment to the other automatically cleans it. No reversing, turning over or adjusting. Simple and durable. Size, 12½x21½ in.

188C1380—Shipping weight, in carton, 3½ lbs. Price.....78c

Ohio Two-Hole Corn Sheller



$12.45 Complete

Hand or Power Sheller for general farm use. Very well made. Frame is heavy hardwood, firmly bolted. Shaft is heavy cold-rolled steel, and runs in iron bearings, bored through and bolted. Shelling Wheels geared high to give good capacity. Feed out directly over shelling wheel. Rag iron and Springs adjustable any size corn. Cob-Carrier separates shelled corn from cobs, delivering the cobs at a distance from the foot of the sheller. Has a Fan very effective in cleaning corn and putting it in a marketable condition. Complete with Fan, Feed-Table, Crank and 8-inch Pulley. When run by power the pulley on balance wheel shaft should make 900 revolutions per minute. Capacity, 20 to 30 bushels per hour. Shipping weight, about 250 lbs.

288C3020—Price, complete.....$12.45
Shipped from warehouse near Chicago.
288C3022—Price, complete..... 12.50
Shipped from warehouse in Central Ohio.

Climax Two-Hole Corn Slicer

$13.45

Slices ear corn for feeding cattle, milch cows, calves, etc. Sliced ear corn promotes digestion and perfect assimilation. The frame is made of oak. It is 3 ft. 6 in. high, 2 ft. 4 in. wide. Shaft is 1⅛ inch cold-rolled steel. Has two knives 6 inches long, attached to very heavy cast arms which serve as a flywheel. Geared so knives revolve twice to each turn of the handle and in cuts of ½ to 2 inches. Will slice, when run by hand, about 40 bushels per hour. Pulley to run by power at extra charge. When run by power the speed should be 200 revolutions per minute. Shipping weight, 215 lbs.

288C3150—Price, with crank.....$13.45
288C3152—Extra for pulley, 10 in. diameter, 3 in. face. Weight, 12 lbs.....$1.05
Shipped from factory in Ohio.

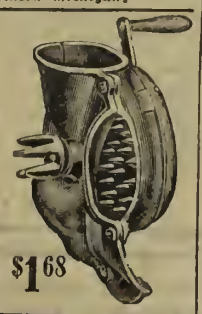
Farmer's Friend Two-Hole Power Sheller

$16.95 Sheller only

A good sheller for the farm, mill warehouse or stockman. Hardwood frame mortised and securely bolted. Shaft cold-rolled steel. Shells large or small ears. Height of sheller frame, 3 ft. 4 in. Very heavy balance wheel has diameter of 27 in. Endless chain cob-carrier. A perfect separator which cleans corn thoroughly. Cut shows sacking elevator and rod attachment, furnished only when ordered, at additional price. When so ordered, speed of horse-power and advise whether rod turns with or against jaws. Requires 1 to 2 horse-power, depending on the number of attachments. Pulley, diameter, 12 in.; face, 3 in. Speed, 300 to 400 revolutions. Capacity, 25 to 40 bushels per hour.

288C3042—Price, with fan, feed table, crank, pulley and chain carrier. Shipping weight, 295 lbs.....$16.95
288C3044—Cob-Stacker. Shipping weight, 58 lbs. Add 6.40
288C3046—5-foot Sacking Elevator. Shipping weight, 110 lbs. Add 7.70
288C3048—8-foot Wagon Elevator. Ship. wt., 143 lbs. 11.45
288C3050—Direct Chain Hitch for Tumbling Rod. Ship. wt., 50 lbs. Add..... 5.15
Shipped from factory in Central Ohio.

Mayflower Root Cutter



$7.45

Strong Wood Frame. Large Hopper Cutting Disc on Crank Shaft. Easily Operated.

Slices roots and vegetables in long thin slices, at the same time separates the feed from clay, gravel, etc., by an iron grate at the bottom of the feed chute. Juices and nutritious qualities are retained. Capacity by hand, 20 to 40 bushels per hour, by power 40 to 70 bushels per hour.

288C3060 — No. 1 Hand Cutter. Shipping weight, 125 lbs. Price.....$7.45
288C3062—No. 2, same size with pulley for power and crank. Shipping weight, 140 lbs. Price.....$8.60
Shipped from factory in Southern Michigan.

Horatius Sheller

$1.68

Working parts are enclosed so grains cannot scatter.

Tipper shown at left provides means for removing imperfect grains from the two ends, so fertile center grains may be shelled separately for seed. Especially desirable for seed corn, as it does not bruise or mutilate grains. Adjustable for large or small ears of corn. No bolts furnished. Shipping weight, 16 pounds.

188C3094—Price, complete with tipper.....$1.68

Peerless Galvanized Steel Grain Bins and Portable Corn Cribs are fully described in The Farm Book. Send for a Copy.

Never Fail Corn Sheller

Big capacity, 10 to 14 bushels per hour.

Made of heavy cast iron, black japanned finish, with strong teeth on disc wheel. Quickly attached to any barrel or box by two strong clamps. Will deposit corn in barrel or box on which it is mounted, and place cobs outside. Large thumb-screw adjustment, simple and accurate. Shipping weight, 13¼ pounds.

188C3140—Without Butting and Tipping Attachment. Price.....$1.15
188C3142—With Butting and Tipping Attachment. Price.....$1.25

Dandy Corn Sheller 52c

We Sell Thousands of These Little Shellers Every Season

There are a dozen or more kinds, somewhat similar in appearance, but there is considerable difference in their construction and the work they will do. The Dandy is adjustable to large or small ears of corn and does first class work. It is made of cast iron, very carefully fitted. Has spring tension with thumb nut, large sheller-wheel. Strongly made and gives good satisfaction. No bolts furnished. Weight, 8 lbs.

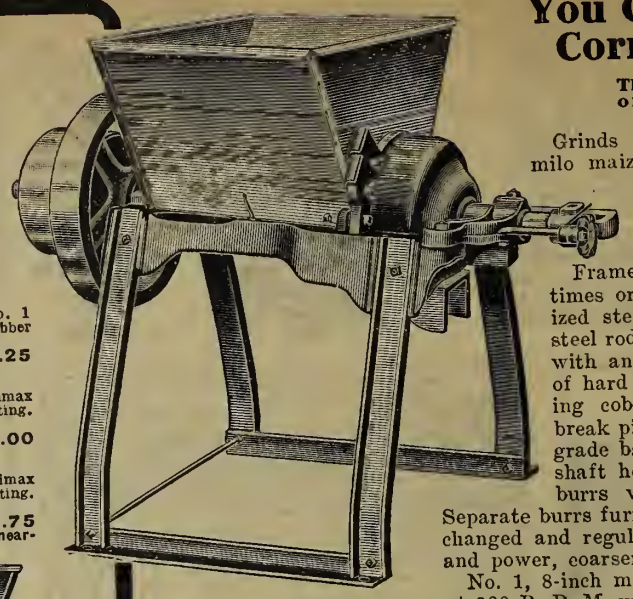
Good Grinders Reduce Your Feed Bills

Our Complete Grinding Outfits Save You Money

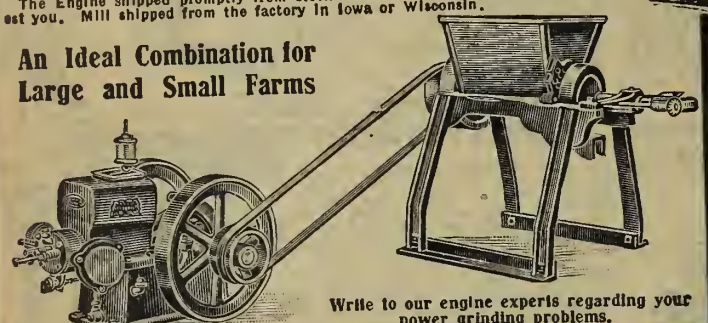
Climax Combination Grinding Outfits are unexcelled for Compactness, Ease of Operation, Durability and Capacity.

They handle Corn on Cobs, Maize, Oats, and all other kinds of grain, either separately or mixed, with ease, and at a speed that will surprise you.



Prices on Outfits

288C3223—Complete Grinding Outfit No. 1.
Capacity, 12 to 15 bushels per hour.
This outfit consists of a 5 Horse Power Sattley Gasoline Engine, one No. 1 Climax Corn on Cob Crusher, and 24 feet of 4-inch three-ply standard rubber belting. Shipping weight of engine, 875 pounds; mill, 190 pounds.
Price of complete outfit.....**$90.25**



288C3231—Complete Grinding Outfit No. 2.
Capacity, 20 bushels per hour.
This outfit consists of a 7 Horse Power Sattley Engine, a No. 1 Climax Corn on Cob Crusher, and 24 feet of 5-inch three-ply standard rubber belting. Shipping weight, of engine, 1,275 pounds; mill, 190 pounds.
Price of complete outfit.....**$118.00**

288C3239—Complete Grinding Outfit No. 3.
Capacity, 45 bushels per hour.
This outfit consists of a 9 Horse Power Sattley Engine, a No. 2 Climax Corn on Cob Crusher, and 35 feet of 6-inch three-ply standard rubber belting. Shipping weight of engine, 1,900 pounds; mill, 320 pounds.
Price of complete outfit.....**$169.75**

The Engine shipped promptly from stock at Chicago or from warehouse nearest you. Mill shipped from the factory in Iowa or Wisconsin.

An Ideal Combination for Large and Small Farms

Write to our engine experts regarding your power grinding problems.

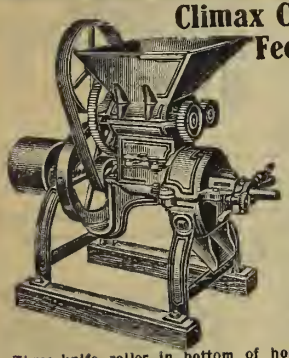
You Can Rely on Climax Corn-on-Cob Crushers

They combine the best features of all other good machines

Grinds corn on cob, shelled corn, Kaffir corn, milo maize, wheat, oats, barley, rye, and other grain separately or mixed.

Simple, powerful, economical. Climax end thrust ball bearings reduce friction to minimum and save fuel and oil.

Frame single casting; designed to resist six times ordinary strain. Heavy 20-gauge galvanized steel hopper with rim rolled over ¼ inch steel rod and riveted corners. Channel steel legs with angle braces. Spiral concave cob breakers of hard chilled iron bolted to frame. Interlocking cob crushers secured to shaft by safety break pin. Extra long bearings, lined with high grade babbitt metal, with large oil wells. Main shaft heavy cold rolled steel. Hard white iron burrs will not heat grain, nor rub together. Separate burrs furnished for fine and coarse grinding; easily changed and regulated. Capacities given vary with speed and power, coarseness of grinding, and condition of grain.



No. 1, 8-inch mill requires 3 to 6 horse power; 3 H. P. at 300 R. P. M. will grind 10 bu; 4 H. P. at 400 R. P. M. 15 bu.; 6 H. P. at 700 R. P. M., 30 bu. per hour.

No. 2, 10-inch mill requires 7 to 12 horse power; 7 H. P. at 500 R. P. M. will grind 20 bu.; 10 H. P. at 600 R. P. M., 45 bu.; 12 H. P. at 700 R. P. M. 60 bu. per hour.

288C3201—No. 1. Size, 8 in. Burrs, 8x5 pulley. Ship. wt., 225 lbs.....**$15.9**
288C3203—No. 2. Size, 10 in. Burrs, 12x6 pulley. Ship. wt., 375 lbs..... **21.7**

288C3206—Extra 10-inch Burrs; state whether you want fine or coarse. Ship. wt., 8 lbs. Per pair..... **1.3**
288C3212—5 ft. Double Sacking Elevator; for either mill. Ship. wt., 75 lbs..... **3.7**
288C3214—10 ft. Wagon Box Elevator with swing spout; for either mill. Ship. wt., 105 lbs..... **16.2**

Shipped from factories in Southern Wisconsin or Central Iowa.

Climax Combination Feed Grinders $33.50

Three sizes. Will Grind Corn on the Cob with or without Husks, Kaffir Corn and Milo Maize Heads, Cotton Seed, Soy Beans and all Kinds of Small Grain.

Has double grinding burrs, using two pairs at one time. An extra set of four grinding burrs furnished with each mill. We know of no superior mill for all-around farm work. Will grind almost anything desirable for stock feeding, faster and more thoroughly than any two-burr mill made. Will handle ears of corn with the husks on, and other fibrous feed, such as kaffir corn, etc., almost as well as dry grains.

Three-knife roller in bottom of hopper reduces cobs, husks, etc., to condition for grinders, to which force feed worm crusher forces mass. Materials can be ground coarse, medium or fine. The cast frame of bed plate is in one solid piece, which insures proper alignment of the main shaft. Hopper is cast iron. Constructed entirely of iron and steel, except wood skids under legs. Bearings are long, thoroughly milled out, and babbitted. Speed on all sizes, 500 to 800 revolutions per minute. Capacities depend upon power, speed and condition of grain. Less capacity on oats alone. We advise mixing oats with corn or small grain for grinding feed.

Daisy Sweep Mill

Three sizes, distinct in capacity, weight and burrs. No. 1 readily operated by one strong horse; No. 2, by a light team; and No. 3, by medium or heavy team. Capacities vary according to speed and the condition and fineness of the grain. No. 1, mounted on box only; No. 2 and 3, on either box or legs. Burrs either coarse or fine. Coarse burrs furnished unless you order fine. Coarse burrs for ear corn or shelled corn, for coarse feed; fine burrs for shelled corn or other small grain for fine feed. Capacities less on oats but will grind half and half, oats and hard grain, to capacities given.

288C3482— 3.30 No. 3 Mill on box. Ship. wt., 100 lbs.

Shipped from factories in Central Iowa or Western Ohio.

Duplex Alfalfa Mill $66.50

For Grinding Alfalfa Hay, Kaffir Corn, Milo Maize in the Head, Pea-Vine Hay, Corn Fodder, Clover Hay, Sheaf Oats, Shelled Corn, Wheat, Rye, Barley, Oats, etc.

All small grain can be ground, mixed in any quantities desired with any other material. This is a mill that will successfully grind Alfalfa, Pea-Vine Hay, etc., mixed with grain in quantities large enough to justify a farmer or stockman in investing his money in one of them.

We unhesitatingly recommend this mill to farmer, stockman or rancher.

To use this mill as a hay cutter or fodder cutter, it is only necessary to throw open the grinding rings by means of a lever and allow the materials to be cut without being operated on by the rings. This saves the additional expense of a cutting box. The alfalfa, corn fodder, or whatever is being ground is fed over the table into a double roller, which carries the material to the revolving knives where it is reduced to small lengths and passed down to the conveyor in the bottom of the mill. The conveyor forces it to the grinding rings.

Where small grain is being ground with the alfalfa, it is placed in the round hopper and is fed down and thoroughly mixed with the material being cut. The quantities can be controlled by a regulator in the base of the hopper.

With the exception of the sills and table, the mill is made entirely of iron and steel, is compact in appearance and a convenient height to operate. This mill enables you to turn every bit of feedable produce into money by grinding it for your stock. It enables you to grind singly or in combination, various products you are now feeding. You will more than save the cost of the mill in a season.

No. 50 mill requires 8 to 12 horse power—600 to 700 R. P. M.. Will grind 4,000 to 8,000 lbs. alfalfa meal or kaffir corn per day. Diameter of grinding rings, 7½ inches, size of pulley, 10x9. Shipping weight, 550 lbs.

288C3300—Alfalfa Grinder, complete. Price....**$66.50**
288C3301—Extra grinding rings, per set of four, shipping weight, 9 lbs. Price.....**$1.60**

Shipped from Ohio factory.

Our new Sattley Engines represent the very latest improvements in gasoline engine construction. They are ideal for farm power. See pages 973, 974, 975 and 976.

Twentieth Century Flour and Meal Maker

New model. Steel construction. The only steel burr mill of its kind for making bolted flour. Grinds wheat and corn for table use. Cracks corn and small grains for feed. An excellent all around farm mill. We will replace, without charge, any part of our 20th Century Mill that breaks in regular use. Frame made of heavy rolled structural steel, riveted and welded together.

The steel construction is lighter and of greater strength than cast iron mills. Designed with its strength in the line of the belt pull, having long bearings close up to the belt pulley on both sides. Spring cushions back adjustable burr holder, to prevent burrs from damage, when no or hard substances get into the grain. Automatic shaker for regulating flow of grain from hopper and auger worm feed, to force it to the burrs. Base plate, provided with holes to bolt to plank or platform.

$12.60 and $16.95

The improved bolting mechanism makes the meal safe for family use, as it overcomes the necessity of running burrs too close together. Consists of sieves and a shaker attachment that keeps sieves in action when mill is running. The length of shake can be increased or decreased.

Made in two sizes, both with 5½ inch burrs, the No. 1 size having 1 pair of burrs, the No. 2 size having 2 pairs of burrs in the mill. The No. 2 mill has double grinding capacity and larger hopper. Two sets of burrs, fine and coarse, furnished with each mill. Speed, 500 to 700 revolutions per minute. Finer grinding obtained at slow speed. Full capacity coarse grinding at high speed. Capacity is on exact on oats alone.

Article Number	Price	Size	Pulley	H. P. Required	Capacity Per Hour (See above)	Shipping Weight

Shipped from factory in Ohio.

Big Four Sweep Mill $23.75

Enclosed Triple Gearing.
Ball Bearing, or Oil Groove Bearings.

Our Big Four is a big, strong, serviceable grinder, geared three to one; that is, burrs make three revolutions to each round of the horses. The revolving strain is carried on a series of balls, reducing the friction. Diameter of burrs, 16 in.; height, 3½ in.; made of white metal so hard that with ordinary care one set should grind from 6,000 to 8,000 bushels of grain. With corn in fair condition, and team making 3½ revolutions per minute, will grind 12 to 20 bushels of ear corn per h to a medium degree of fineness. Capacity for oats only is about half for corn, but half and half oats and corn, or other hard gr gives good capacity. Made with coarse burrs for shelled and corn, and fine burrs for shelled corn and small grains. Coarse l regularly furnished. Shipping weight of mill, 600 lbs., burrs, 40

288C3486—Big Four Ball Bearing Mill.....**$23**

The Climax Grain Grader selects your seed by weight test

One of These High-Grade Mills Will Save You Money

Climax Force Feed Cider Mill

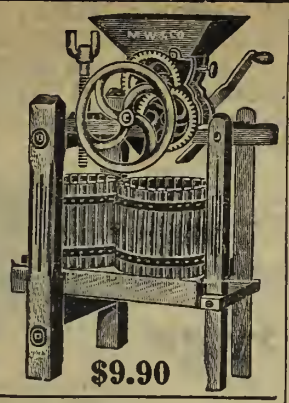
Unnecessary to Halve or Quarter the Apples

One of the very best single-tub cider mills made for family use. Grinds apples, large or small, without cutting; does not clog. Will give entire satisfaction when fed steadily and not overcrowded. Roller crushes the apples in the best shape for pressing. Outside diameter, press tub, 13 ½ in.; height, 12 in. Capacity, one to two barrels per day. Strongly constructed of good materials. Mill parts of cast iron; hardwood frame and crate. With proper care, will give many years' service. Shipping weight, 145 lbs.

$7.95

288C3576—Price, at factory.....$7.95
188C3581—Price, at our store..... 8.25
Shipped from Indiana factory or our store.

Climax Wine Press



Very Popular in the Grape Districts.

Specially adapted for pressing grapes and other fruit that does not have to be ground. Hardwood frame, strongly bolted together. Cross beams heavy cast iron. Constructed throughout, to stand heavy pressure. Height of tub, 10 in.; inside diameter, 11 in. Diameter of press screw, 1¼ inches. Crate is made of heavy hardwood slats, rivcted to steel hoops. Shipping weight, 70 lbs.

288C3636 — Climax Wine Press. Price $4.35
Shipped from factory in Ohio.

Arnold Junior Cider Mill

Heavy hardwood frame, securely bolted. Mill parts are iron and steel. Press screw, 1 ⅛ -in. steel. Tubs are of hardwood slats, riveted to iron bands. Well made in every way. Two tubs; you can press one while filling the other. The grinding rolls are of large diameter and will thoroughly crush either large or small apples, so that the press will readily take out all the juice. Diameter of press tubs, 12 in. Height, 10 in. Size of hopper, 13 ½ x14 ½ in. Shipping weight, 187 lbs. Capacity, from 2 to 4 barrels a day. Sold by dealers throughout the country at prices ranging from $12.00 to $15.00.

$9.90

288C3546—Price $9.90
Shipped from warehouse near Chicago or factory in Indiana.

$17.90

Arnold Senior Cider Mill

Made for long service. Capacity, 6 to 10 barrels of cider per day. The powerful Arnold mill crushes the fruit thoroughly, thereby breaking all the juice cells and making it certain that the pomace will yield every drop of cider or wine. Two cranks, one on each side, enable two boys to run the machine. Heavy hardwood frame, bolted; press screw, 2-inch steel. Large size hopper. Mill parts of best iron, tubs of hardwood slats with bands. Diameter of press tubs, 16 in. Height, 14 in. Hopper, 14 ½ x16 inches. Shipping weight, 345 lbs.

288C3566—Price $17.90
Shipped from warehouse near Chicago or factory in Indiana.

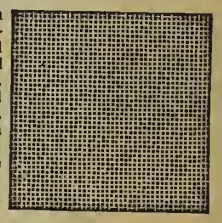
Arnold Senior Power Cider Mill

Built exactly like regular Arnold Senior, and fitted with pulley, diameter, 18 in., face, 3 in. Diameter of press screw, 2 in. Cranks also furnished for operation by hand. When run by hand, it is double geared, the crushers revolving twice to one turn of crank. For power, pulley is placed on crusher shaft, making direct connection. Shipping weight, 440 lbs.

288C3626—Arnold Senior Power Mill, for hand or power, with 2 cranks and pulley. Price $18.95
Shipped from factory in Indiana.

Hutchinson Cider Mill

Gather up the dropped apples and make them into cider at small expense.



Thousands of these mills in use; do good work; hopper enlarged, and grinding disc made heavier than on other styles of this mill. Frame hardwood, very strong and substantial; working parts best grade of iron. Screw, 1 ½ -in. steel; large balance wheel makes it run easy. Diameter of tub, 12 in.; height, 11 in. Size of hopper, 7 ½ x10 in. Capacity, 1 to 1 ½ barrels of cider per day. Large apples should be halved or quartered for best results. Shipping weight, 125 lbs.

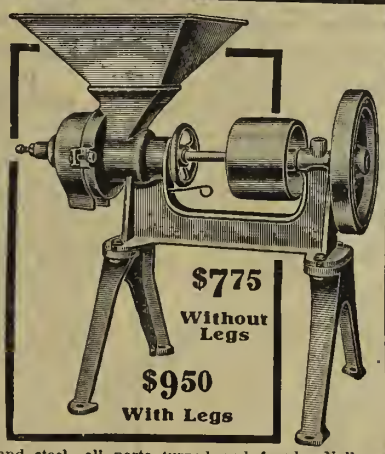
Everywhere Useful Home Mill



Easy to use—easy to clean—Three in one. Will do more and a greater variety of work than many other mills of twice its weight.

The Women Folks' Favorite. Will do the household grinding, make good graham flour, rice flour, corn meal; grind wet, oily, or fibrous materials, makes meal from soaked corn, butter from nuts, grind orange and lemon peel, barks, herbs, coffee, spice, split corn for chicken feed or hominy, cube nuts for salads and cakes, etc. Clamps to edge of table or sink. Thumb nut regulates fineness. Extra parts and directions with each mill.

38C3521—Complete outfit to do everything mentioned above. Shipping weight, 8½ lbs. Price.....$1.95

Iowa Small Grain Grinder on Legs

$7.75 Without Legs

$9.50 With Legs

Grinds Meal Fine Enough for Table Use. Grinds More, Lasts Longer, and Costs Less for Repair, than Many Other Mills of Its Size.

Splendid mill for small power, requiring only from 1 to 3 horsepower to grind from 6 to 20 bushels per hour, depending upon the speed and fineness. Diameter of burrs, 5½ inches. Can be adjusted for either coarse or fine grinding. Burrs cannot run together when empty. Mill made entirely of iron and steel, all parts turned and faced. Nails, and other small, hard substances may pass between burrs without injury. The burrs are a special mixture of metals, unexcelled for hardness and long life. They are self-aligning and flexible. Two sets of burrs furnished with each mill. One Coarse set for feed grinding, cracking corn, etc.; one Fine set for table meal. Diameter of pulley, 6½ inches. Face, 4½ inches. Speed, 600 to 1,200 revolutions per minute. Shipping weight, 90 pounds.

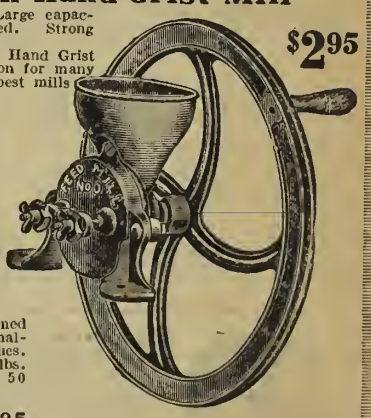
Improved Climax Small Grain Feed Mill

With End Thrust Ball Bearing

$12.60



Will grind all kinds of small grain. Built entirely of iron and steel; all parts extra heavy; designed to resist six times the actual strain of grinding. The bearings are extra long and lined with high-grade babbitt and can be conveniently oiled while the mill is running. Slide in bottom of hopper regulates flow of grain to burrs. The auger feed prevents meal from clogging. Grinding burrs made of special mixture of the hardest iron and steel. They are harder than the hardest tempered steel and are strong and durable.

Climax Family Grist Mill

$1.90

Grinds Poultry Feed Right. A Big Value for the Price.

Have Fresh Graham Flour, New Hominy, Cornmeal, etc. Every country home should be supplied with one of these little grist mills. It has removable hard metal hurrs, ground true, which can be adjusted to grind to any degree of fineness. Diameter of burrs, 4¼ in. Has heavy iron balance wheel making it run easy. It will grind corn, wheat, rye, peas, salt or any grain desirable to grind. Will not make fine bolted flour. Can be bolted to a table or bench. (Bolts to attach not furnished). Actual weight, 23 lbs. Packed for shipment, 45 lbs.

188C3511—Price $1.90
88C3516—Extra Burrs. Shipping weight, 1 lb. Per pair.....35c

No Mechanical Skill Necessary to Erect Clipper Windmills

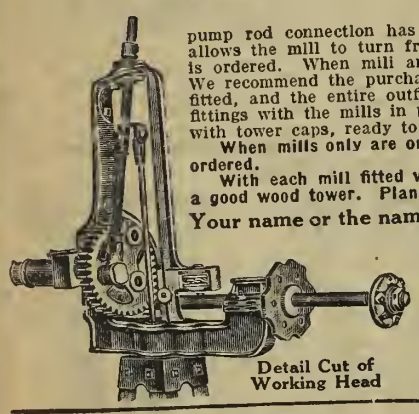
Expert windmill mechanics, after years of constant effort, have perfected our Improved Clipper, improving the operation, simplifying the construction—making need of repairs less than ever, and perfecting small details of the old Clipper, which, all combined, warrants us in making the assertion that, **you cannot purchase a better mill at any price.**

$17.45 to $116.00

Made in 6 Sizes

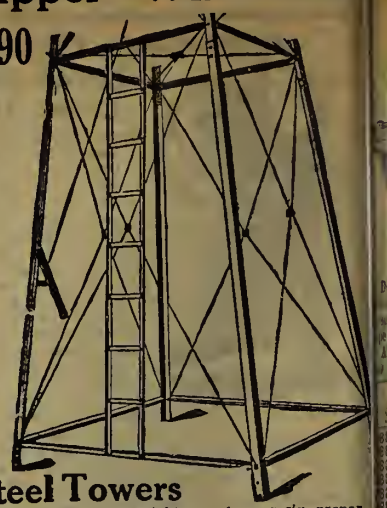
It is easy to erect our windmills and towers, as it requires no mechanical training. By following the clear and concise directions, that we supply, the regular farm hands can erect them without difficulty. Construction, strength, durability and simplicity are fully demonstrated in the Improved Clipper. The materials used are such as are best adapted to the requirements, and are heavy enough to withstand all strains, yet not so heavy as to give the materials a clumsy appearance, or prevent them from being thoroughly effective. Wind Wheel is made up in six sections, in all sizes except the 6 foot mill, which is made in four sections. Our 6, 8, 12 and 16 foot mills have four sails to each section; 10 and 14 foot hills have five sails to each section. Each section is rigidly supported by heavy, anchor steel braces. Sails are made of heavy galvanized steel and shaped to receive the full effect of the wind.

Vane is made of heavy galvanized sheet steel and heavy steel bracing, and is provided with an effective spring governor, which by its action on the vane, holds the wheel at the proper angle to develop only the required velocity for work in heavy winds and causing it to face lighter winds full, and obtain the full effect. The governor is adjustable so the operator may readily set it to get the best results from the prevailing winds. The working head is as simple as can be used on any windmill. It distributes the strain and wear equally, so there are no weak parts to give trouble, no need of frequent repairs. It is back-geared 2 ½ to 1, the wind wheel making 2 ½ revolutions to each up stroke of the pump. This feature is especially superior to direct stroke mills as the mill will operate in much lighter winds than a direct stroke mill, and in a storm there is less liability of damage to the pump or working parts. An effective brake, operated through the governor spring, automatically holds the wheel, when locked, out of the wind. The pump rod connection has a swivel joint through the center, through which the pull-out wire passes and allows the mill to turn freely without becoming entagled. 32 feet of pump rod furnished when mill only is ordered. When mill and tower are ordered complete, sufficient pump rod is supplied to connect pump. We recommend the purchase of mill and tower together, as the tower caps to receive the mill are perfectly fitted, and the entire outfit can be erected with very little trouble. When so specified we can supply mast fittings with the mills in place of wood or steel tower caps. Prices given above are for mills only, complete with tower caps, ready to set on tower. They do not include the short stub tower shown in the illustration.



When mills only are ordered we always furnish cap for wood tower, unless the steel tower cap is especially ordered.

With each mill fitted with cap for wood tower we furnish plans and specification for the construction of a good wood tower. Plans for wood towers are furnished only when mills are ordered.



Your name or the name of your farm stencilled on the Vane if so ordered, without extra charge

Detail Cut of Working Head

All Steel Towers

$20.90 For 20 ft.

Made in three styles or weights, each properly proportioned for the mills they are designed to support.

A set of cross girts is provided for every 10-ft. section, the last set being close to the ground and just above the anchor post joints. Each 10-ft. section is firmly braced by four sets of round steel brace rods, with an eye turned at each end so as not to reduce the size. Two rods on each side of the tower cross each other at a point near the center of the section, where they are clamped and can be tightened so that each pair of the rods bear the same tension, making the tower rigid and firm. Also have diagonal cross rods from corner post to corner post in every 10-ft. section, by means of which the tower is squared up. Ladders are made of steel, firmly riveted, making them safe to climb. Pull-out lever attached to left post

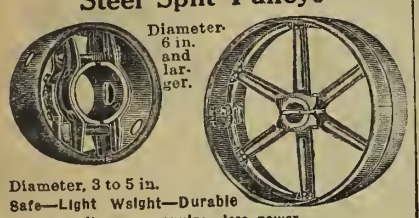
Read Carefully

All goods listed as 388C are made to order and will require an additional 10 days to make shipment. Unless we are in error in filling the order, and if we make the goods according to your specifications and descriptions, they cannot be taken back or exchanged. When ordering pulleys we must know diameter, width of face, size of bore and whether key-seated or with set screws. We cannot fill your order if either specification is omitted.

We reserve the privilege of changing prices on this page if we find it necessary through variation of the iron and steel market.



Rule for Finding Required Size of Driving Pulley, For any Required Speed

Multiply the diameter of the driven pulley by number of revolutions it should make and divide the product by the revolutions of the driver. The quotient will be the required size of driver.

To Find the Diameter of a Driven Pulley for a Given Number of Revolutions

Multiply the diameter of the driver by its number of revolutions and divide by the number of revolutions of the driven pulley. The quotient will be the proper size of the driven pulley.

Steel Split Pulleys

Diameter, 6 in. and larger.

Diameter, 3 to 5 in.

Safe—Light Weight—Durable

Transmit more, require less power.

Prices are for pulleys complete, with bushings. Be sure to state size of shaft.

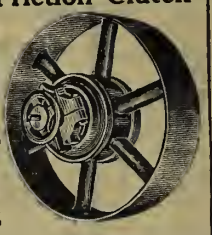
Intermediate sizes furnished at price of next larger size.

Steel shafting can be cut any length and will be shipped about 7 days after order is received.

Badger Governor Pulley



For running cream separators. Made of cast iron with steel shaft. The pulley takes care of the variation in speed. Built on a substantial stand with long bearings at either end which are fitted with grease cups insuring smooth-running and uniform speed. Has hand wheel adjustment. When once set for any speed does not require readjusting. Length over all, 15 inches; size of engine pulley, 9 inches by 3 inches; size of large separator pulley, 4 inches by 2¼ inches; small separator pulley, 2½ inches by 2¼ inches. Weight, 35 pounds.

188C4700—Price of Governor Pulley, complete $3.75

Double Grip, Friction Clutch Pulleys

For Gasoline Engines

These friction clutch pulleys have friction surface at each end of the pulley hub. One friction plate is cast to the clutch sleeve and the other plate secured on sleeve by means of a feather key. The pulley has a flange cast on each end of the hub, and these flanges furnish the friction for the pulley.

Always shipped with hand wheel, unless otherwise ordered, but will be supplied with lever instead of hand wheel, when so ordered.

Friction clutch pulleys can be furnished to fit any size shaft up to largest bore given, are made to order and will be shipped about 7 days after order is received.

Separator Clutch Pulley

(Patent Applied For)

388C4710—Wt., about 15 lbs. Price, $2.55

A Clutch Pulley, designed to operate cream separators by power. It is sensitive, and picks up the load gradually and evenly. Separator is started from rest and reaches its normal speed without jerks or jars. Simple in design. Easy to operate. Simply tighten the hand wheel to start it, and loosen wheel to stop it. Only four parts to the whole outfit. Can also be used on any kind of hand power machine built that doesn't make more than sixty turns a minute. Simply substitute the clutch pulley in place of the hand crank. Diameter, 14 inches; face, 2¼ inches. Above pulleys are made to order and will be shipped about 7 days after order is received.

When ordering be sure to state size of shaft.

Keyless Compression Coupling

A strong, smooth, safety coupling. Requires no key, or set screw. When ordering, be sure to state size of shaft. A wrench furnished with each coupling.

Line Shaft Governor Pulley

288C4741—Price $5.25

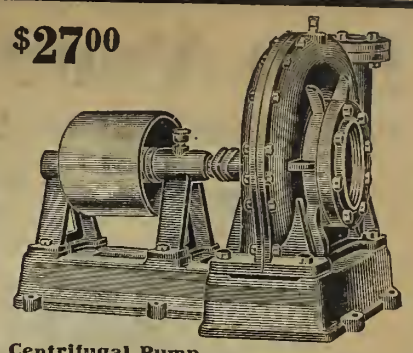
Shipped from factory in Michigan.

Weight, about 35 pounds.

Can be furnished to fit 1-inch, 1¼-inch or 1½-inch shaft only. Be sure to state shaft size when ordering.

Will not work on shaft running less than 250 R. P. M.

$26.45



If You Irrigate

Or Have Any Use for a Pump to Handle Large Volume at Moderate Elevation

Buy a Geyser Centrifugal

$27.00

If you are located on the bank of a river, lake or pond, our Geyser centrifugal pump will pay for itself a dozen times over in one dry season. If you have a low spot on your farm, one of our centrifugal pumps will drain it and turn it into productive land, throwing the water onto the high, unwatered spots.

Our Geyser centrifugal pumps have no valves, no leather packing or pistons to wear out, and will handle muddy or sandy water in large quantities and give no trouble. Strong, accurate operating parts carefully fitted, genuine babbitt bearings, extra strong steel shaft.

Geyser Vertical Centrifugal Pump

Designed primarily for mounting in wooden frame, a method in satisfactory use many ars for irrigation work. Frame holds pump, bearings, shaft, and pulley connected to soline engine, with pump at bottom, close to water supply; vertical shaft and discharge pe extending above ground. We do not supply wooden frame work.

Also suitable to connect direct to driven casings in bottom of wells. Amply heavy for) to 65 feet total pumping head.

Transform that barren patch into a paradise of flowers. Make it produce money from marketable garden truck.

Irrigating on a small scale will pay you big. Write and tell us your pumping problems.

Geyser Senior Power Pump 1916 Model

$34.80

Powerful, double acting, designed for durability, strength and capacity, with easy access to all parts. Rubber disc valves resting on brass seats, with brass wire springs to hold them in position. Outside valve boxes. Brass valve seats screwed into position, not hammered in; a decided improvement.

Pump must be placed more than 25 ft above the surface of the water.

Double guided plungers with two specially treated leather cups. Piston rod steel, diameter on Number 2 and Number 3 size ⅞ inch; on Number 4 and Number 5 size, 1 inch. Side arm designed to give straight thrust from crank pin to cross head. Double gears, protected by guards. Brass rings babbitted with high grade metal, and provided with oil pockets. Oil cups on side arms and gear. Designed for a total pumping head not to exceed 175 feet.

Centrifugal Pumps must be primed. It is advisable to use a good foot valve with strainer at end of suction pipe. Foot valve will hold water while pump is being primed. Foot valves under 6 inches always threaded, unless ordered with flange.

Our Sattley Engine furnishes the ideal power for any pump. See pages 973, 974, 975 and 976.

Pump Jack Outfit $32.00 Complete

This outfit consists of our 1½ horsepower Sattley engine, No. 10 Climax Pump Jack and 16 feet of 2-ply 2-inch rubber belting, ready to attach to any pump. The engine can be used for all kinds of light work. No pump is furnished. Certainly a most economical and labor saving way to pump water.

188C4332 — Complete pumping outfit, with 1½ horsepower Sattley engine. Total shipping weight about 325 pounds.

Price $32.00

Climax Type B Pump Jack

$5.85 Double Back Geared with Steel Pump Rods

Back Geared—9 ¾ to 1.

Three Strokes—4 ½, 7 and 10 inches.

Pulleys, 12 inches diameter—for 2-inch belt.

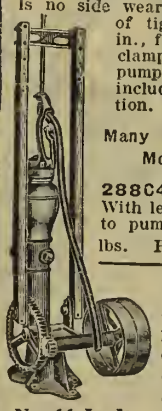
This is an Excellent All-around Jack to use with Gasoline Engines of all sizes. The pulleys make 331 R. P. M., while the pump is making 35 strokes per minute. Can be belted direct to any small engine without slowing the engine down and reducing its power. You can use the full power of your engine on very deep wells, or a small high speed engine can develop its full power and run the pump at the proper speed. Shipping weight, about 96 pounds.

288C4417—Climax Type B Pump Jack $5.85

Shipped from warehouse near Chicago.

New Climax Pump Jacks

With or Without Base. For Attaching to Ordinary Well Pump Standard.

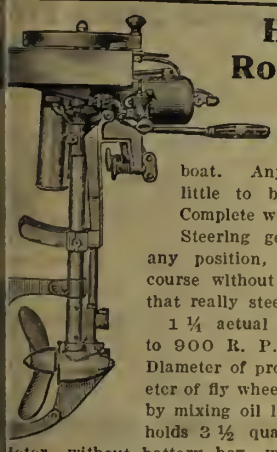


Back-geared jacks, to operate by belt, with small gasoline engine or belt power. Can be attached to any ordinary pump with windmill top. Speed, 150 to 200 revolutions per minute. Back geared, 4 to 1. With speed of 160 revolutions, pump will make about 40 strokes per minute. Three strokes, 5 in., 7½ in., and 10 in. Pitman rods are vertical on up-stroke, so there is no side wear on pump bar. Diameter of tight and loose pulleys, 12 in., for 2-in. belt furnished with clamp and bolts to attach to pump standard. Prices do not include pump shown in illustration.

Many Others Ask 50 Per Cent More Than Our Prices.

No. 10 Jack $3.50

288C4426—No. 10 Jack. With leg support, to clamp direct to pump. Shipping weight, 70 lbs. Price.....$3.50



No. 11 Jack $3.95

288C4428—No. 11 Jack. Same as above, except with sub-base, which supports itself independent of pump, instead of clamps and bolts. Necessary where jack cannot be clamped to pump. Can be used on floor, wall or ceiling. Shipping weight, about 70 lbs. Price.....$3.95

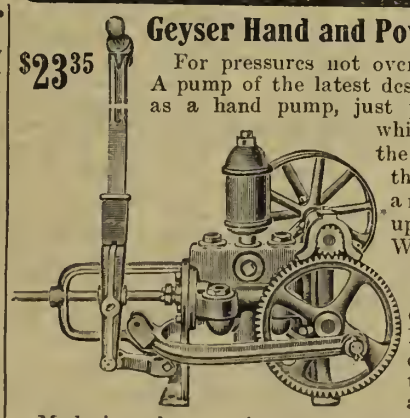
Shipped from factory near Chicago.

Hiawatha Row Boat Motor

Makes a launch of any row boat in a minute by clamping on over stern of boat. Any one can run it. Costs little to buy and little to operate. Complete with all necessary equipment. Steering gear locks automatically in any position, holding the boat on its course without attention. Strong rudder that really steers.

1¼ actual horse power. Speed, 600 to 900 R. P. M. Protected propeller. Diameter of propeller, 9½ inches. Diameter of fly wheel, 9⅝ inches. Lubricated by mixing oil in gasoline. Gasoline tank holds 3½ quarts. Battery ignition.

Motor, without battery box, weighs 52 pounds; battery complete, 8 pounds. Shipping weight, about 115 pounds.



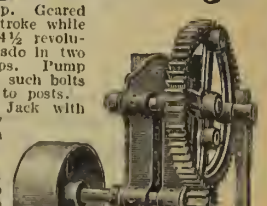
3C4860—With battery equipment $38.95

3C4865—With fly wheel magneto..... 52.90

Shipped from factory in Southern Michigan.

Geyser Hand and Power Pump

$23.35



For pressures not over 50 pounds. A pump of the latest design. To use as a hand pump, just pull the pin which connects the side arms to the cross head and connect up to lever. When wanted as a power pump, disconnect the handle and connect up the side arms.

Made in only one size, with 3-inch brass lined cylinder, 5-inch stroke, back geared 4 to 1, fitted for 1½-inch suction and 1¼-inch discharge pipe. Tight and loose pulleys, 12x2¼ inches. Height, except handle, 23 inches. Length, over all, 28 inches. Width, over all, 19 inches. Shipping weight, about 250 pounds.

188C4409—Price $23.35

Clipper Pumping Jacks $5.25

For belt power connection to pump. Geared back so that pump rod makes one stroke while the driving pulley of No. 2 makes 4½ revolutions and No. 1 5½ R. P. M. Made in two sizes for medium and heavy pumps. Pump connections, 8 feet of pump pole and such bolts as are necessary to attach the jacks to posts.

288C4430 — Number 1 Pump Jack with 10x4 inches pulley for ordinary pumps, back geared 5½ to 1 and with 6-inch, 9-inch and 12-inch strokes. Shipping weight, 90 pounds. Price $5.25

288C4435 — Number 2 Pump Jack with 12x5-inch pulley for large pumps, back geared 4½ to 1. Has 12-inch, 15-inch and 18-inch strokes. Shipping weight, 150 pounds. Price $11.95

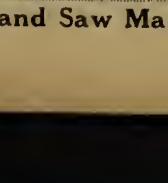
Shipped from warehouse near Chicago.

Windmill Quadrants

No. 188C4250—Price, without Wires, each.....$3.35

Shipping weight, about 53 lbs.

For either pumping or power mills



$3.35

Used to transmit power from mill when mill is some distance from the pump. Two levers with two wires drawn tight by take-up bolts. Pump connection, 8 feet of wood pump rod, pivot plates and center bolts included.

188C4251—Quadrant galvanized wire for connecting. Price, per rod.....5c

Clipper Windmill Regulator

188C4255—Price, $1.95

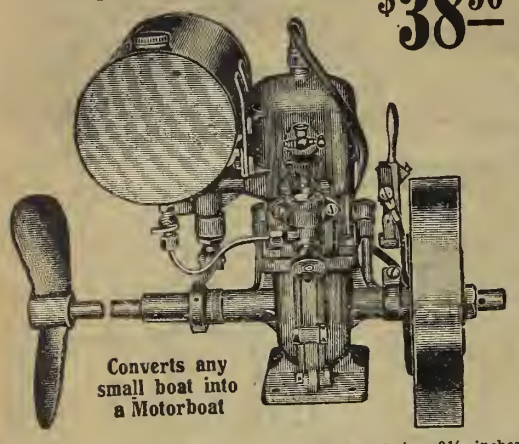
Shipping weight, 14 lbs.

When full the regulator throws the mill out of wind. It starts mill when the water in the tank is lowered 8 inches. It can be attached to a 2x6 inch plank on either side of pump rod. Tank may be located a distance from the windmill. Wire furnished to connect to tank at tower; additional wire is extra. Rack bar is made of steel, balance of malleable iron. Directions with each. Float not furnished.

188C4256—Extra wire, per rod.....5c

Windmill Pump Spring

188C4260—Price, 75c



Shipping weight, 7¼ lbs.

A cushion spring to connect between the wood and flat pump bar, or to any joint on the wood rod, eliminating jars and jerks on pump.

It fits all pumping mills. Is attached the same as any pump connection. Allows the mill to do more work in lighter winds.

Run Your Bike or Your Boat by Motor

Your Rowboat or Canoe A Motorboat for $38.50

Converts any small boat into a Motorboat

Two full horse power. Bore, 2⅝ inches; stroke, 2½ inches; weight, 40 pounds; speed, 200 to 800 R. P. M. Will drive boat 7 to 9 miles per hour.

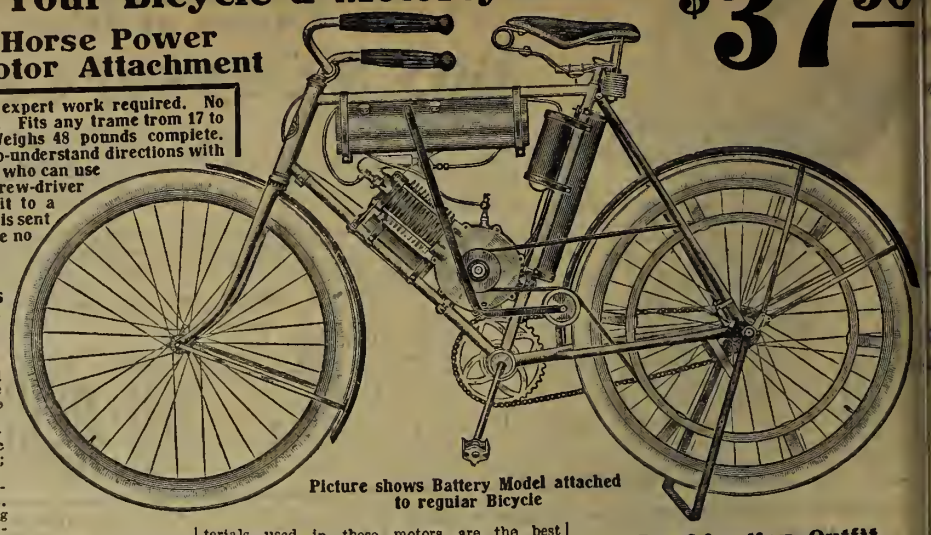
Cylinder cast from special iron mixture, tough as steel and ground to mirror finish. Cylinder bore, 2⅝ inches; stroke of piston, 2½ inches.

Timer mounted on lever behind flywheel. Points adjustable to take up wear. Timer lever movable to different positions, giving wide range of speed whether running forward or backward.

Piston, cast from same grade iron as cylinder, ground to fit cylinder perfectly. Two piston rings. Connecting Rod, phosphor bronze, with hardened babbitt lining. Piston Pin, nickel chrome steel, hardened and ground to size. Crank Shaft, special grade 35 to 45 carbon nickel chrome steel, hammered out of square bloom, and finished to exact size by grinding. Diameter, ¾ inch, main bearings, 3 inches and 4 inches; crank pin, width, 1¼ inches; diameter, ⅞ inch. Crank Case is joined in center with a tongue and groove to insure perfect fit. A string packing is placed in groove, making crank case absolutely leakproof. Bearings are cast integral—these are machined to fit crank shaft perfectly.

Carburetor. A small, simple automatic carburetor of a type that has been used successfully for years and designed especially to suit motor.

Measurements: Height, 14 inches; bed plate, 3¾x5½ inches; length, 12 inches; width, 9¼ inches.



188C4826—Inboard Boat or Canoe Motor. With complete outfit ready to install, including shaft, stuffing box, weedless propeller, coil, battery, plug. Shipping weight, about 100 lbs. Price at Michigan factory **$38.50**

188C4828—Inboard Boat or Canoe Motor. Complete same as above but with Magneto instead of battery equipment. Price **$52.25**

Your Bicycle a Motorcycle for $37.50

Our 2½ Horse Power Bicycle Motor Attachment

Easy to attach. No expert work required. No special tools needed. Fits any frame from 17 to 26 inches inside. Weighs 48 pounds complete. Plain, simple, easy-to-understand directions with each outfit. Anyone who can use a wrench and a screw-driver can attach this outfit to a bicycle. Every part is sent complete. There are no extras to buy.

Picture shows Battery Model attached to regular Bicycle

Specifications

The outfit consists of the following: 2½ H. P. single cylinder, 4 cycle motor all finished, assembled, and tested ready to be clamped on bicycle frame.

Carburetor — Lunkenheimer automatic mixing valve type; simple and reliable.

Muffler — With exhaust pipe bent to fit.

Idler — For keeping the belt properly tightened.

Belt—V-shaped. Made of special tanned tough and flexible leather; strong and durable.

Rear Pulley Rim made of steel.

Tank with gasoline and oil compartments. If your bicycle has double or truss bar, we will furnish a special tank to go above top bar.

Battery Case—If your bicycle is of the three crown style we will furnish special clamps for battery case without extra charge.

Battery—Two standard size dry cells put up in case and wired.

Spark Coil—Wired, ready for use.

Control Grip—The rider can increase or decrease the speed or stop the motor entirely by a simple twist of the handle bar grip.

Oiler—Sight feed ready to screw into crank case. Full set of clamps made of brass and steel with bolts and lock washers to prevent working off. All pipes, couplings, etc., are included. No brazing or changing of frame is necessary. The parts are assembled as much as possible before shipment to save you any unnecessary work. Fuel tank holds sufficient fuel for a 90-mile run. The materials used in these motors are the best that we can procure. Cams, levers, and working parts subject to wear are case hardened.

Gears—Cut from solid steel, accurately fitted.

Crank Case—Light weight aluminum.

Connecting Rod—Drop forged in one solid piece. Bronze bushed.

Dimensions

Bore—2½ inches; stroke, 3 inches; height, 15 inches. Crank case, diameter, 8 inches; width, 2⅞ inches. Weight of motor with battery and coil, 48 pounds. With magneto, no batteries, 40 pounds.

Motor Attachment Only. Bicycle Not Included.

188C4910—Bicycle Motor Attachment, with Battery Equipment. Shipping weight, 60 pounds. Price..... **$37.50**

188C4911—Bicycle Motor Attachment, with Magneto Equipment. Shipping weight, 52 pounds. Price..... **$47.30**

Combination Outfit

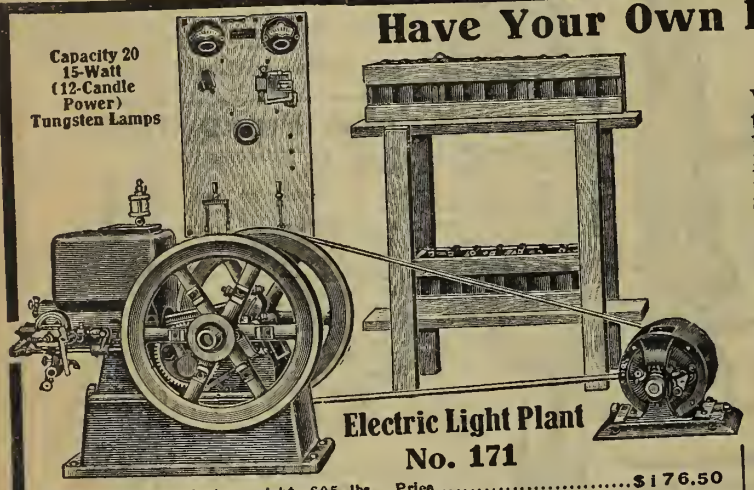
For those who want both Bicycle and Motor. This Outfit includes Bicycle and Motor as described. No extra charge for attaching Motor to bicycle when both are ordered.

Just what you want—ride over the hill without effort. Get all the fun of riding with no pedaling.

The simple, perfect control adds to the comfort and pleasure of Motorcycling.

Can be speeded up to 25 miles an hour or slowed down to 4.

A Magneto gives greater reliability. No Batteries nor Spark Coil needed with a Magneto, and your Bike carries 8 pounds less weight.



Don't be bothered with Batteries. Get Motor with Magneto Equipment.

288C4912—De Luxe Flyer Motobike fitted with Battery Model Motor, all ready to run. Shipping weight, 112 pounds. **$66.00**

288C4913—De Luxe Flyer Motobike fitted with Magneto Model Motor, all ready to run. Shipping weight, 104 lbs.. **$75.80**

Complete Outfits Shipped from Motor Factory Near Kansas City.

Have Your Own Electric Lighting Plant

Capacity 20 15-Watt (12-Candle Power) Tungsten Lamps

Electric Light Plant No. 171

288C4940—Shipping weight, 605 lbs. Price..... **$176.50**
Shipped from factory in Southern Wisconsin.

Have all the light you want, when you want it, where you want it. Safe, sanitary, simple, serviceable, economical, brilliant light. No experts needed to install it. Can be set up anywhere by anyone who can use a screw-driver and pair of pliers.

The touch of a button or the snap of a switch is all you need to flood your home, and outbuildings with brilliant light. With the perfection of Montgomery Ward & Co.'s Invincible electric lighting plants, electricity on the farm is not only a matter of necessity but of economy. Running the cream separator, the churn, the feed grinder, the washing machine, etc., can be done with the same engine, and the same power, while you are recharging your batteries. If you are now using a gasoline engine for any other purpose or have in mind some other use for one, by all means install your own electric lighting plant.

Dynamos: With each dynamo we furnish a sliding base to permit tightening belt and one pulley, diameter, not over 5 inches, without extra charge. Larger pulleys at additional cost.

Note—Always specify size pulley desired or state diameter of engine flywheel and speed of engine. If dynamo is to be operated from a shaft, give diameter and speed of pulley on shaft.

Switchboard—With each switchboard we furnish an angle iron floor stand with floor braces which permit setting in any position, or wall braces for bracing from wall. State which you want.

Invincible Batteries—With each set of batteries we furnish one acid test set and one extra gallon of electrolyte. All necessary lead terminals with sleeve connectors which permit making all connections without any soldering.

The following tables give the capacity of the Storage Battery for one complete charge, using Tungsten Lamps consuming 1¼ Watts per candle power:

16-Candle Power Lamps	12-Candle Power Lamps	8-Candle Power Lamps
15 Lamps for 8 hours	20 Lamps for 8 hours	30 Lamps for 8 hours
18 Lamps for 5 hours	24 Lamps for 5 hours	36 Lamps for 5 hours
25 Lamps for 3 hours	33 Lamps for 3 hours	50 Lamps for 3 hours
5 Lamps for 24 hours	7 Lamps for 24 hours	10 Lamps for 24 hours

Dynamo—Pulley, 4x2 inches. Speed, 1850 R. P. M. Capacity, 800 Watts. 20 amperes, 40 volts. Shipping weight, 125 lbs.

Dynamo will light without assistance from storage battery: 30, 20-Watt (16-candle power Tungsten lamps), or 40, 15-Watt (12-candle power Tungsten lamps), or 60, 10-Watt (8-candle power Tungsten lamps).

Switchboard—Invincible 1916 model. 30 amperes. 30 volts, type A. W. Height, 30 inches. Width, 16 inches. Weight, 75 lbs.

Storage Battery—Assembled in trays of 8 cells each. Shipping weight, 335 lbs. 16-cells 80 ampere-hours Faure type in sealed rubber jars. Time required to recharge battery normal rate, 8 hours. Time required to recharge battery high rate, 4 hours.

Power Required—A full 1½ horse power is required to drive dynamo at full charging and lighting capacity.

Extras

288C4941—Extra for 3 counter cells; weight, 65 lbs..... **$11.50**
288C4942—Extra for counter cell switch on switchboard..... **3.15**
288C4943—Extra for starting switch on switchboard..... **5.90**
Shipped from factory in Southern Wisconsin.

Counter cells and counter cell switch are required only when lights are used while battery is being charged or when it is desired to obtain the combined lighting capacity of both battery and dynamo. The combined capacity of this plant for 8 hours is 60 12-candle power, or 45 16-candle power lamps.

For prices on wire, sockets, cleats, lamps, etc., ask for our Electric Fixture Catalogue. Write for prices of larger sizes.

Pfanstiehl Jump Spark Coils

For Stationary and Marine Engines. The high efficiency has placed Pfanstiehl Coils in a class by themselves.

Equipped with trouble-proof vibrator. The tungsten contact points are the hardest, and most reliable ever employed in work of this kind.

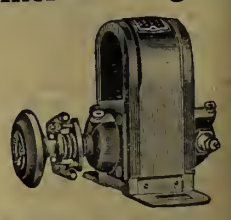
88C5123—Type 36, 1 cylinder box coil. Ship. wt., about 3 lbs. Price, each, **$2.9**

Invincible Spark Plug

Supplied in either ½ in. Standard or Metric thread.

A plain, common sense plug, correctly designed, made of good materials, with gas-tight joints.

This plug has a high-grade, porcelain insulator. The packing is a copper asbestos gasket, which makes a perfect gas-tight joint, and allows for expansion due to high temperatured porcelain. Core can be easily taken out, cleaned, and replaced in about 1 minute. Keep a few extra ones hand for emergency.



88C5130—Invincible Plug, Standard inch thread 2

88C5132—Invincible Plug, Metric thr 2

88C5134—Extra Porcelain Cores. Each 1

Shipping weight, 4 oz.

Invincible Magnetos

Make and Break, or Jump Spark. Thoroughly good instruments. Magnetos made of high-grade Tungsten Steel; P lain brush holders. Will meet all ign requirements, on single cylinder engine to 15 horsepower. Friction governor p operates with great exactness. You can the coil that you are now using with teries with these magnetos. Shipping w about 18 pounds.

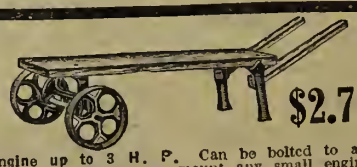
188C5119—Invincible Magnetos for and break spark $6

188C5121—Invincible Magnetos for apark $6

Climax Engine Truck

For Engines Not Exceeding 450 Pounds in Weight

$3.30



Light, strong, handy, economical, and useful for work about the farm. Especially adapted to portable gasoline engines, and serviceable for other light hauling. Has wide iron wheels, so that it is easily handled. Diameter of wheels, 9 in. Width of tires, 1¾ in. Length of platform, 26 in. Width of platform, 16 in. Boards placed on top give any width or length of platform, as wheels are underneath.

Has strong hand tongue, and steel pipe axles. Strong turntable allows front wheels to turn under platform. Shipping weight, 55 lbs.

188C5150—Climax Hand Truck.... **$3.30**
Shipped promptly from stock at Chicago.

288C5155—Heavy Truck for Engines up to 1,200 lbs. Same construction as above, except larger. Length, 5 ft. Width outside of beams, 22 in. Diameter of front wheels, 9 in. Diameter of rear wheels, 14 in. Width of tires, 3 in. Shipping weight, 140 lbs. Price.. **$6.65**
Shipped from Factory near Chicago.

Wheelbarrow Engine Truck

$2.75

9½-inch Wheels with 2-inch Tires

Suitable for any small engine up to 3 H. P. Can be bolted to any engine skids. By using these fixtures, you can mount any small engine, making it portable. Lag screws can be placed in the feet to make it stationary. Can be turned in its own length, and is much handier than a four-wheeled truck. The bolster can be located on engine skids to give proper balance. Consists of two legs, two wheels, one bolster, and two handles. Plank shown in illustration is not furnished.

188C5160—Wheelbarrow Truck. Shipping weight, 35 lbs. Price, at Chicago **$2.75**

hange the Speed to Suit Your Need"

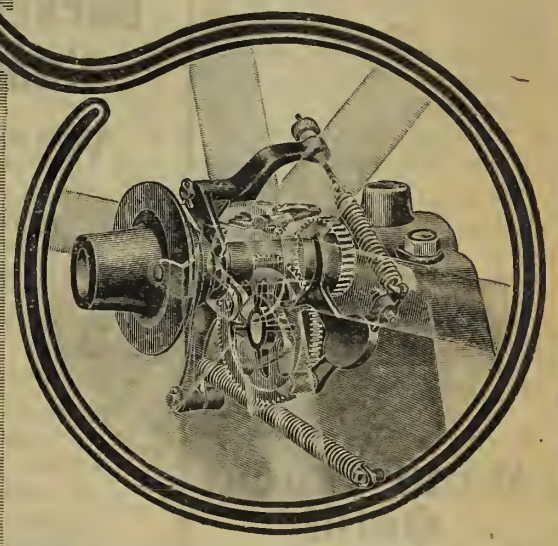
Eight big Warehouses stocked with Engines of 1½, 2½, 5 and 7 Horse Power. Have your Engine shipped from the nearest point, and save both time and money. For your benefit we have Warehouses at the following convenient shipping points:

Albany, N. Y.	Fargo, N. D.
Jackson, Mich.	St. Paul, Minn.
Chicago, Ill.	Kansas City, Mo.
Des Moines, Iowa	Lincoln, Nebr.

The cylinder and piston, which form the power producing part of the engine, are made of a mixture of Scotch iron and steel. The other parts are just plain, common sense, machine design. Just good, honest, machine shop practice—without any fads or frills.

Every Sattley Engine is tested for power. We do not depend on a test of a few engines to show what the rest will do. Each one must show its full rated power before it leaves the factory—and that power must be at normal speed.

You can run them faster than normal speed and get more power, but it is not good practice to do so. Buy an Engine large enough to produce the power you need, at normal speed and you will have the full measure of satisfaction.



Turn to the Next Page and Read the Guarantee that stands back of every Sattley Three Speed Engine We Sell

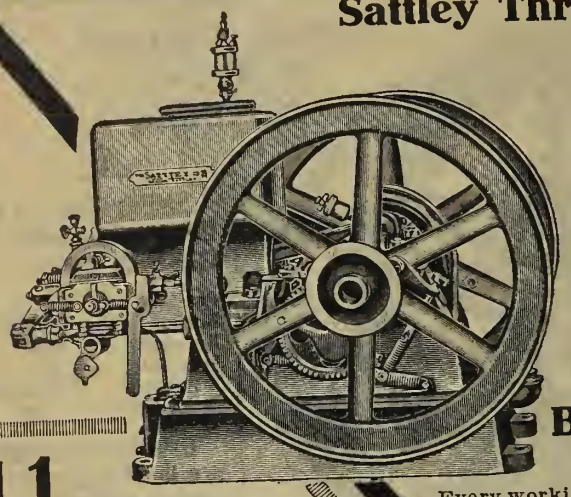
The Patent Sattley Three Speed Regulator Makes This the Ideal Engine for Your Power Requirements

You can change speed instantly without turning a screw or altering a single adjustment.

Simply push the hand wheel in or pull it out.

Simple — Effective — Positive.

The Sattley Three Speed Governor



The patented, three speed, regulator is the most perfect speed changing device ever put on a farm Engine. It changes the tension of the governor spring, in direct proportion to the change of centrifugal force of the governor weight—due to high, medium or low speed. The Engine will govern as well on slow speed as it will on high speed.

This is a very marked improvement over the common type of governor, which can only work accurately at one speed.

"Built So You Can Understand It"

A Sattley Three Speed Engine Will Do Your Work Easily, Effectively and Economically

Sattley Three Speed Engines Have Patented Features You Cannot Buy in Any Other Engine

1½ H. P. Engine Specifications

Actual Horse Power at normal speed, 1½.

2½ Horse Power is a very popular size eng It will do all that a smaller engine will do, is just right for the small farm or shop—handy on the large farm to do the work you can't take to the big engine.

For a combination pneumatic water su system or small electric light plant, this si most satisfactory. Small garden irriga spraying and poultry farm work are all wi its power. An almost unlimited number of can be found for this engine.

Backed by one of the Strongest Guarantees Ever Written

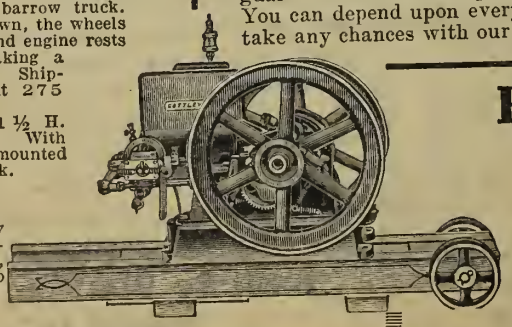
WE positively guarantee the Sattley three speed engine to run as well—to last as long—to give as great satisfaction, as any other engine of the same size on the market, regardless of price.

We guarantee that it will develop 15 per cent more than its rated horse power continuously, without over-heating or causing any undue strains or stresses, and that no part will be damaged by such overload. We guarantee that it will run steadily under all conditions of weather, when operated according to the simple instructions which we furnish. We further guarantee it against defective material or imperfect workmanship. We will renew, without charge, any metallic part that breaks on account of such defects or imperfections, at any time during the life of the engine.

We further guarantee it to have as little vibration as any single cylinder horizontal engine, and less vibration than most other engines of any type.

When all is said and done, a guarantee is no stronger than the business reputation of the house behind it. We stand back of our guarantee with an unequalled record of 44 years of honest dealing. You can depend upon every word we tell you. We can't afford to take any chances with our good name.

Hand Truck Outfit



A hand portable engine of 1½ horse power is mighty handy. It can be easily moved from the dairy to the wash house, from the pump to the grindstone or to any place where small power is wanted.

This is the 1½ H. P. Sattley, 3 Speed Engine, mounted on wood skids, with a pair of wheels arranged to form a wheel barrow truck. When you set it down, the wheels clear the ground and engine rests on the skids, making a solid foundation. Shipping weight, about 275 pounds.

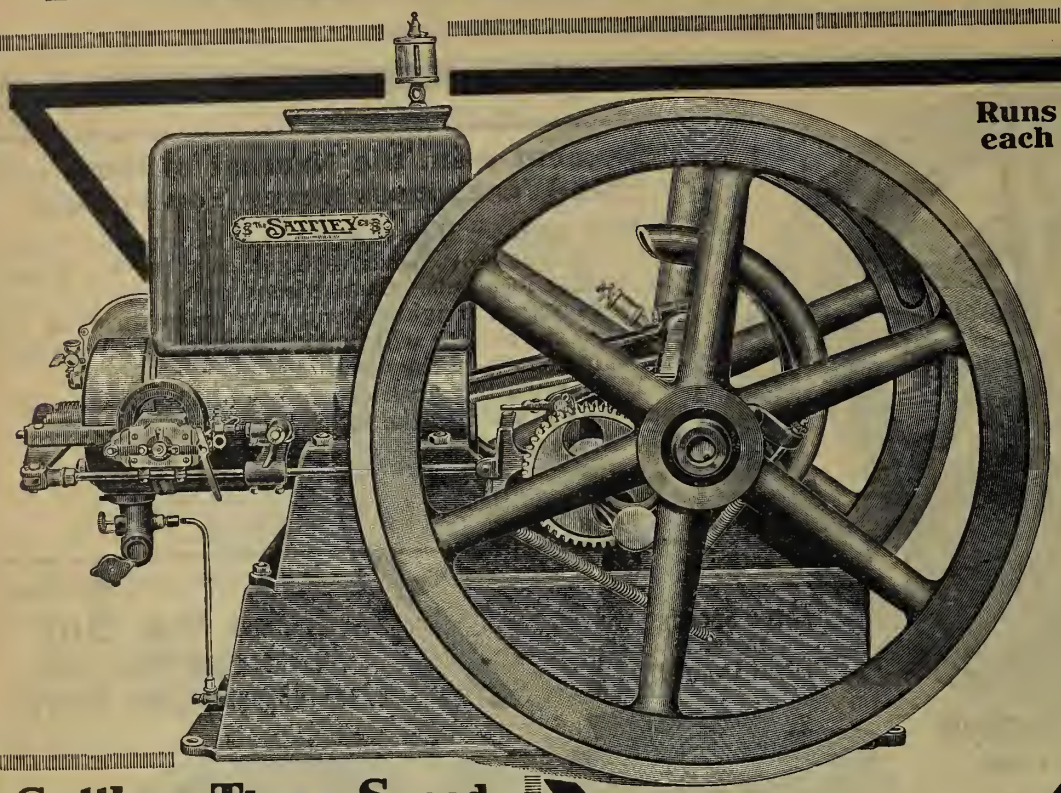
One of the Greatest Engine Values Ever Offered

Here, indeed, is the engine for all around work. Will run the ensilage cutter, the feed mill, the saw rig and the machine shop. This 7 horse power Sattley Three Speed engine has a big reputation among our friends and customers.



Big enough to handle most of the farm work and yet steady enough to run a small sized cream separator. This engine, if proper belting, shafting and pulleys were purchased, could run the washing machine, churn, cream separator, grindstone, electric dynamo, etc., all at the same time.

The man who requires power and plenty of it—the buyer who is either in need of an engine this size now or who anticipates the necessity for greater development in future years—should certainly give this remarkable 7 H. P. Sattley Three Speed engine a thorough test on our liberal 60 day free trial.

Built So You Can Understand It

No hot boxes when you use our oil. It's tested—we know

Sattley Three Speed Engines Have Patented Features You Cannot Buy in any Other Engine

Runs as Evenly and Efficiently at each Speed as any other Engine Built for one Speed Only

Specifications

9 H. P. Engine

Actual Horse Power at normal speed, 9. Bore—6¾ inches. Stroke—10 inches. Ignition—Make and break (battery or magneto as ordered.) Normal Speed—325 revolutions per minute. Pulley—Diameter, 16 inches; width, 7 inches. Flywheel—Diameter, 38 inches; weight, about 400 pounds. Crankshaft—2½ inches; shipping weight, about 1900 pounds.

12 H. P. Engine

Actual Horse Power at normal speed, 12. Bore—7¾ inches. Stroke—12 inches. Ignition—Make and break (battery or magneto as ordered). Normal Speed—275 revolutions per minute. Pulley—Diameter, 20 inches; width, 9 inches. Flywheels—Diameter, 45¾ inches; weight, each, 500 pounds. Crankshaft—3 inches; shipping weight, about 2700 pounds.

15 H. P. Engine

Actual Horse Power at normal speed, 15. Bore—8⅝ inches. Stroke—14 inches. Ignition—Make and break (battery or magneto as ordered). Normal Speed—250 revolutions per minute. Pulley—Diameter, 24 inches; width, 9 inches. Flywheel—Diameter, 48½ inches; weight, each, 625 pounds. Crankshaft—3 inches; shipping weight, about 3300 pounds.

Sattley Three Speed Gasoline Engine

9 H. P. $142.00

Nine Horse Power Engines and larger not furnished with battery equipment. Price includes latest type Magneto.

288C5086—9 Horse Power Sattley Gasoline Engine with 18-inch pulley and magneto ignition.
Price $142.00
Shipped from Jackson, Mich.

12 H. P. $195.00

Twelve Horse Power Engines and larger are not furnished with battery equipment. Price includes latest type Magneto.

288C5088 — 12 Horse Power Sattley Gasoline Engine with 20-inch pulley and magneto ignition.
Price $195.00
Shipped from Jackson, Mich.

15 H. P. $235.00

Fifteen Horse Power Engines and larger are not furnished with battery equipment. Price includes latest type Magneto.

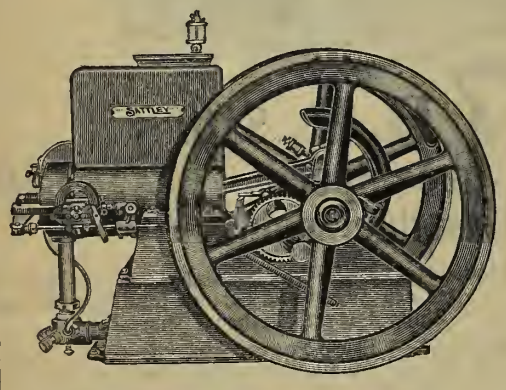
288C5090 — 15 Horse Power Sattley Gasoline Engine with 24-inch pulley and magneto ignition.
Price $235.00
Shipped from Jackson, Mich.

Built So You Can Understand

These Three Big Sattley Three Speed Engin are for farm work, irrigation, and other pow purposes.

Change the Speed to Suit Your Need

Double Grip, Friction Clutch Pulleys



Friction surface at each end of pulley hub. One friction plate is cast to clutch sleeve and the other secured on sleeve by a feather key. Flange cast on each end of hub to furnish friction for pulley.

Regularly shipped with hand wheels, but will be supplied with lever instead hand wheel, when so ordered. **288C4550**

Sattley Three Speed Kerosene Engines Furnish Reliable Power

Sattley Kerosene Engines are equipped with a device which raises the temperature of the fuel, thus making it possible to use Kerosene or other fuel oil of as low as 39 degree gravity. There is a provision made for mixing a spray of water with each charge of fuel as it passes to the cylinder. This reduces to a large degree the forming of carbon deposits, and prevents premature ignition.

These Engines can be run with kerosene alone, gasoline alone or a mixture of kerosene and gasoline without making any changes.

Kerosene Engines are fitted with Magnetos insuring a hot spark.

Sattley Kerosene Engines are the same in size and general design as gasoline engines except they have the necessary extra fittings.

Shipping weights same as Gasoline Engine.

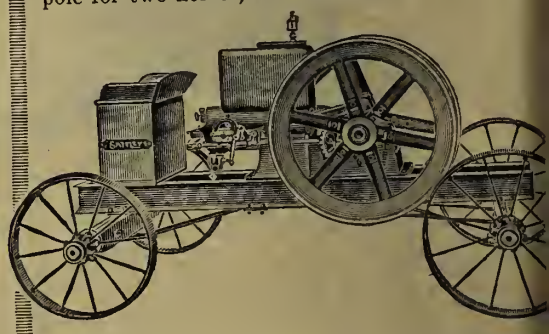
288C5163—2 ½ H.P. Kerosene Engine. Price .....$ 51.50
288C5165—5 H.P. Kerosene Engine. Price 83.00
288C5167—7 H.P. Kerosene Engine. Price 110.00
288C5169—9 H.P. Kerosene Engine. Price 144.00
288C5171—12 H.P. Kerosene Engine. Price 210.00
288C5173—15 H.P. Kerosene Engine. Price 242.50
Shipped from Jackson, Mich.

The Ideal Engine For Natural or Artificial Gas

Sattley Three Speed Gas Engines generate even, dependable power, from natural or artificial gas. Size and specifications are the same as Sattley gasoline engines. Gasometers will be furnished for the different sizes at the following extra cost:

2 ½ H.P. $6.30, 5 or 7 H.P. $7.00, 9, 12 or 15 H.P. $9.45.

Sattley gas engines are always fitted with magnetos —no batteries are furnished; they are not needed.



Shipping weights same as Gasoline Engines.

Golden Harvest
Cream Separator

The New Improved Golden Harvest Hand Cream Separators

THE low supply tank is one of the features of this machine. Almost every farmer's wife notices it, at once. The low-built design is attractive in the first place, and certainly convenient for the person who is doing the work. The top of the supply tank comes no higher than the waist line. The low tank means that your wife or daughter will not have to do any unnecessary lifting. The pails that receive the milk and cream are set on the floor. There is no insecure shelf. The Easy-to-Fill feature of the New Improved Golden Harvest should commend itself to your careful consideration. The New Improved Golden Harvest Cream Separator is so simply constructed that operating is easy.

THE low-built design of this machine means a medium-height crank as well as a low supply tank. The crank may be turned, whether you are in a sitting or standing position. There is no push on the up-turn, to get the handle over at the top. There is no heave and pull at the bottom turn, to get the handle started on the up stroke again. The crank turns within the sweep of the arm of the operator. No back-breaking stooping is necessary to keep the New Improved Golden Harvest running. Ball-bearing spindles and perfectly cut gears make the New Improved Golden Harvest run so easily that it comes as near to running itself as any cream separator ever can. It runs as smoothly as a spinning top.

THE Golden Harvest is the equal of any separator manufactured, regardless of name or price. If you will study it carefully, we believe that the Golden Harvest Separator is the machine you will buy.

¶ Our proposition to you is an unusual one. We want you to be your own salesman. We want you to sell yourself a New Improved Golden Harvest—get the machine and by actual demonstration, prove that no better separator is made at any price.

¶ Our 60 days' free trial shows our confidence in your judgment.

Special Points, for You To Know

The tank has no square corners. The top and bottom are rounded. There are no corners for catching and retaining milk particles, dirt or foreign matter. It is thoroughly sanitary, easy to get at and easy to clean.

Steel Bowl Body. Pressed out of one solid piece of steel with rounded corners. It is the best type of bowl used today. Made scientifically accurate, its action is perfect all the time. Easily removed and easily cleaned.

Simple, effective Neck Bearing. Perfect in action, never out of order, one of the vital points in all separators place the New Improved Golden Harvest in a class alone. Upon this neck bearing depends the accuracy of operation of the skimming bowl. (The Golden Harvest is absolutely accurate).

Bowl Spindle. Made of hardened tool steel, machined, ground and polished. It turns the skimming bowl so carefully and so truly that there is not the slightest vibration of the bowl itself.

Adjustable Bearings

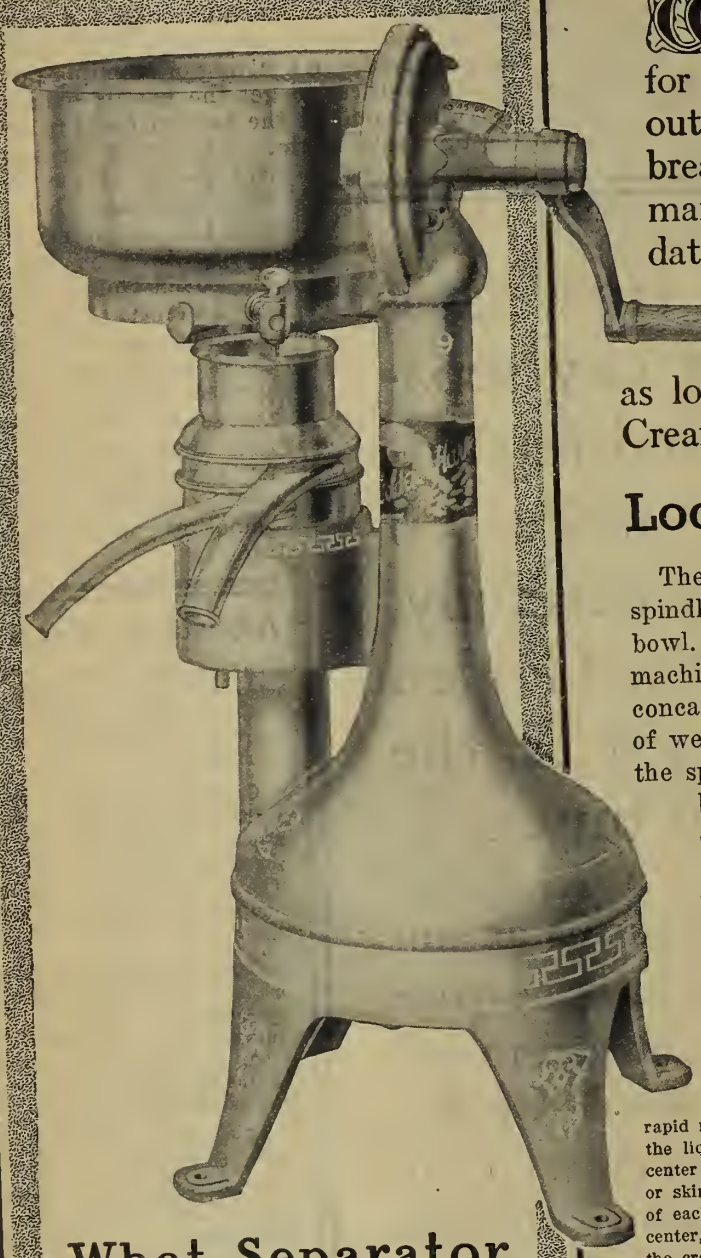
Adjustable Bearings. It is easy to keep the bearings in smooth, normal contact, so as to reduce the friction to almost nothing.

Center of Crank shaft is 33 inches from the floor. This will appeal to the housewife as being the most important feature. The height permits a natural and easy position while turning the crank.

Correct Bevel Gear. This is made to meet the strictest requirements of simplicity, power, smooth and easy running action. No nest of cogs and slack chains is found in the New Improved Golden Harvest.

Main Shaft. Is perfect, has strength and firmness combined.

Anti-friction Ball Bearings. This is one of the newest improvements. These pivot ball bearings have reduced the friction to such a large degree that to run the New Improved Golden Harvest is more play than work.



The New Improved Golden Harvest Bowl is One of the Closest Skimming Bowls Made

The bowl is the most important part of the separator, as the entire separation takes place within it. The bowl does all the work for which the separator is built. The New Improved Golden Harvest Bowl is a wonderfully close skimmer, due to special patented points of construction which many other disc bowls do not possess. Every square inch of skimming surface of each disc does its proportion of skimming, thus giving the greatest possible capacity and cleanest skimming for the number of discs used. The whole milk is fed through the center tube down to the three distributing openings machined in the center tube, and then flows downward between the center stem and the disc holder, to the bottom of the bowl.

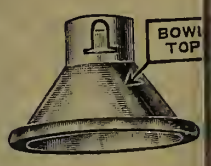
Then the whole milk is fed equally to every disc, so that each disc gets its part of the whole milk, and all the discs do equal work in skimming. Thus there are no idle discs or corners in the New Improved Golden Harvest Bowl. Bowls, which feed the whole milk into the discs through open slots cut in the wings of disc holder, do not show full capacity, nor skim as clean, because the upper discs get too much whole milk, the lower discs do not get enough, and so the upper discs, being overfed, do not skim cleanly. The result is loss of cream in the skim milk. The New Improved Golden Harvest Bowl, however, skims to the least trace, because all the discs skim equally, no discs are overfed, and, therefore, there is no loss of cream.

Skims to a Trace—Read What Others Say About It

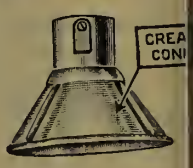
Read This Great Guarantee

WE Guarantee the New Improved Golden Harvest Cream Separator against defective material for Twenty Years. We will duplicate, absolutely without charge, freight charges paid, any metallic part that breaks, owing to defective material or imperfect workmanship, at any time during the twenty years following date of purchase.

We guarantee that tne New Improved Golden Harvest will skim as close, run as easy, last as long and give as much efficient service as any other Cream Separator of the same size, regardless of price.



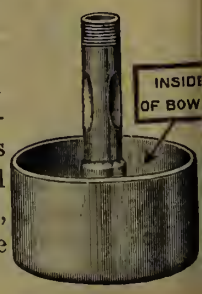
What Separator to Buy



A guarantee is no stronger than the firm behind it. A separator is no better than the reputation of the firm who sells it. In consequence, the first duty of every prospective cream separator purchaser is to ascertain whether the seller is capable and willing to live up to his promises. Over a million customers buy from us. This fact alone speaks volumes. Our written or spoken guarantee is as strong and sincere as any firm could make one—and we are financially able to back up every word of it.

Look at These Superior Points

The Bowl is separate from the spindle or shaft. The spindle fits into a lock socket in the bottom center of the bowl. The bowl spindle or shaft always remains in the machine. The New Improved Golden Harvest Bowl has a concave bottom, and the spindle supports it at its center of weight. Flat bottom bowls have all their weight above the spindle, are very top heavy, and easily thrown out of balance. The New Imported Golden Harvest Bowl is centerbalancing, very compact, not top heavy and therefore is superior to many disc bowls in construction and convenience of handling. Since all the discs do equal work, a New Improved Golden Harvest Disc Bowl has fewer discs for a certain capacity, weighs less, and runs easier than disc bowls of other types.



Actual separation of the cream from the milk takes place between the discs. When the bowl is turning at full speed, each layer of milk between each pair of discs is subjected to centrifugal force, caused by the rapid revolution of bowl. The butter fat globules or cream, which are lighter than the liquid part of the milk, then separate from this liquid, and travel toward the center of the bowl, along the upper or outer surface of each disc. The liquid, or skim milk, being heavier. is thrown outward against the under or inner surface of each disc, and travels to the outer edge of the bowl. The cream travels up the center, and comes inside the cream cone. It then traverses through the hole in the cream screw, in the side of the cream cone, and is thrown out into the cream spout. The skim milk travels up between the cream cone and the bowl top, and flows out of the three skim milk openings machined in the neck of the bowl top into the skim milk spout. All parts have smooth surfaces; are easy to get at, and easy to clean.

The cream screw of the New Improved Golden Harvest bowl is of bronze, with a slot cut in one side. It fits in the head of the cream cone. It can never rust nor stick tight. Difference in the thickness of cream is obtained by simply turning the screw so that the hole of the cream screw turns closer to or further away from the center of the bowl. The various positions of the cream screw permit the cream to flow freely, or by holding it back, make it thicker. It is easily adjustable and no special tools are necessary.

The New Improved Golden Harvest Cream Separator should pay for itself within a year. It may even pay a profit, depending on your present methods of separating. This high class machine will get practically all the cream, all the time. It will increase your dairy profits anywhere from $3 to $15 per cow, per year. It earns its cost in the cream it saves; and once paid for, will go on making money for you year after year.

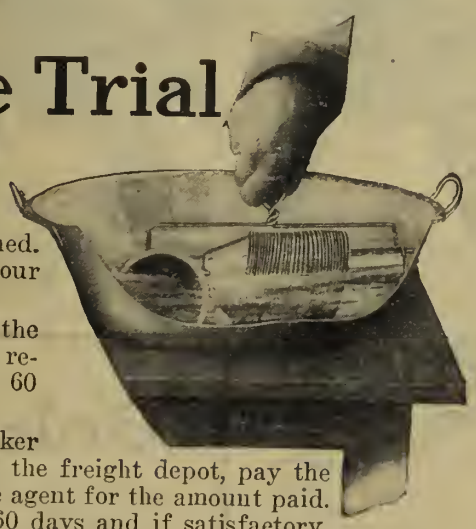
Take Advantage of Our 60-Day Free Trial

Shipped From Nearest Warehouse

THE purchase of a Cream Separator is a matter which concerns the women folks as much as the men. Most men are more interested than women in machinery of any kind, and the first thing a man wants to know is, how is the machine made—how is it run—what will it do? These questions are right and proper; they are questions that should be answered, and we have gone into the construction of the New Improved Golden Harvest Separator, showing how it is built and why.

Women have an interest in a separator beyond its construction. They are interested in how that construction affects their work. Three-fourths of the actual separating is done by women and they do all the cleaning. A separator, to do good work, must have the bowl cleaned after each separation. It must be thoroughly cleaned. Nothing will breed germs quicker than particles of milk left clinging to the inside parts of the bowl. Untainted cream and pure, sweet butter are only possible where the separator bowl is kept as clean as a surgeon's instruments.

Cream and butter that are clean and known to be clean, always command top prices. Cleanliness means more money—better dairy profits. Whether or not a separator is easy to clean is a feature that should receive due consideration before purchase. And in this, as in all other respects, we believe the New Improved Golden Harvest leads all others.



A New Improved Golden Harvest lessens your cleaning work, no matter how you have been dairying. Cleaning the bowl of the Golden Harvest is decidedly easier than washing an endless number of crocks and pans. It is also easier than trying, by twist or turn, to get at the inaccessible parts of a poorly designed Separator.

See how simple and easy it is to clean the New Improved Golden Harvest. Just slip the discs on the holder—they can go on in one way only. Then put your disc holder and bowl in warm water with a little washing powder in it. Rinse with boiling water and dry them, and air till next separating time. Isn't that easy?

Compare it with other Separators which have complicated, colander-like cylinders, or book-leaf skimmers with hundreds of tiny holes to be cleaned with a wire.

It is no trouble at all to keep the New Improved Golden Harvest bowl sweet and clean. A few minutes' work twice a day, keeps it in perfect condition.

60 Days' Free Trial

Upon receipt of your order, we will ship the Separator in our name to your shipping point, and send a sight draft to your banker with a bill of lading attached. Just give us the name and address of your banker.

When the shipment arrives, deposit the money with your banker, who has been requested to hold the purchase price for 60 days.

Upon receipt of your deposit the banker will give you the Bill of Lading. Go to the freight depot, pay the freight charges and get a receipt from the agent for the amount paid. Take your separator home. Use it for 60 days and if satisfactory, notify your banker to send the money to us.

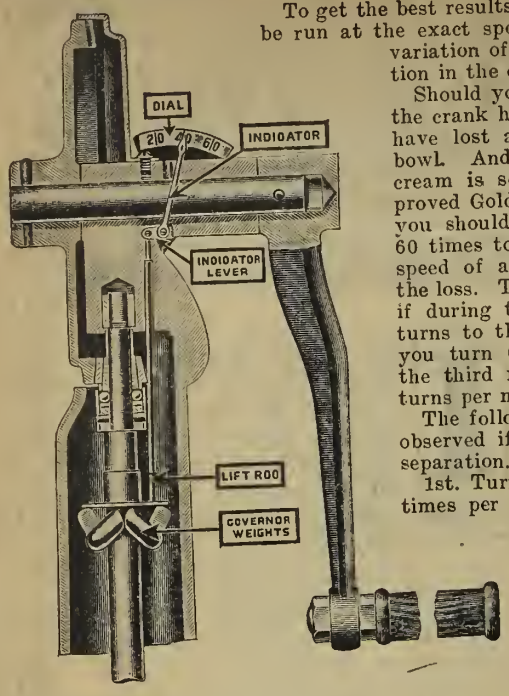
If the Separator does not prove entirely satisfactory, box it carefully and return it to the freight agent, who will give you a Bill of Lading showing the Separator consigned to us at Chicago. Present the Bill of Lading to your banker, who will refund the money. Then send us your expense bill showing the amount of freight charges you paid and we will return the amount to you immediately.

IN the United States last year, millions upon millions of dollars were fed to the pigs and calves, on hundreds of farms, in the form of incompletely skimmed milk. Warm, sweet, perfectly skimmed milk is just as good for them—just as nourishing, and just as strengthening. In fact, it is better in some cases. For fattening, a little corn meal or cotton seed meal added to the skim milk takes the place of 30c a pound butter fat, and is just as good.

There is always a demand for cream and butter at good prices. In years of crop failure, many a farmer would have gone under but for his cows. A good cow is the most productive thing on any farm; she will make good every time if given a chance. A Cream Separator is not a luxury. It is a necessity if the farmer or dairyman wants to get full value from his cows.

Here are the facts: Forty and one-half pounds of butter are left in the skim milk from one cow in one year, if you separate the cream by the water dilution method, that is, by adding cold water to the milk to make the cream rise quicker. With butter at 30 cents a pound, this means a loss of $12.15 per cow in the year.

Twenty-six and two-tenths pounds of butter are lost by the shallow pan method of skimming, per cow, in one year, or $7.86.



Ten and one-tenth pounds of butter are lost per cow, per year by the deep-setting method, or $3.03.

An average of only one and two-tenths pounds of butter are lost by the hand separator method, or 36 cents per cow, per year. These figures are furnished by the Agricultural Experiment Station of Purdue University.

How do you separate your milk? Whatever the method, take the figures above, multiply by the number of cows you milk, and you will know how much of this annual waste of millions of dollars is yours. Can you afford it?

ne Money Saving, Close Skimming Separator Wonder—

Golden Harvest Speedometer

To get the best results from any Separator, it must be run at the exact speed for which it is built. A variation of the speed will mean a variation in the closeness of skimming.

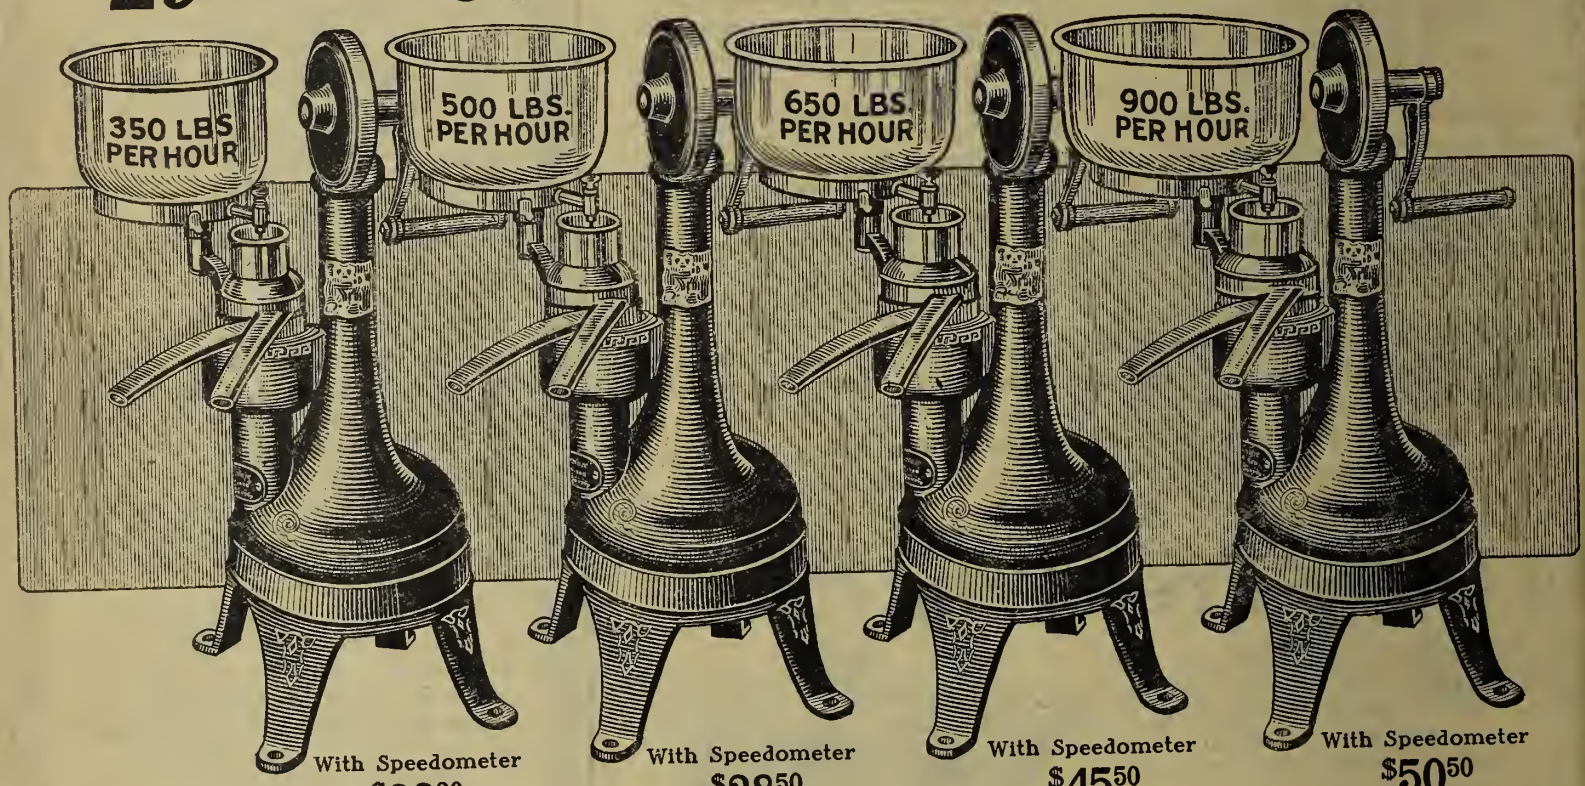
Should you drop off five revolutions of the crank handle during the minute, you have lost about 700 revolutions of the bowl. And it is in the bowl that the cream is separated. For the New Improved Golden Harvest Cream Separator you should turn the crank handle just 60 times to the minute. Decreasing the speed of any separator is what makes the loss. The work is not done efficiently if during the first minute you turn 50 turns to the minute, the second minute you turn 60 turns to the minute, and the third minute you drop down to 45 turns per minute.

The following rules must be accurately observed if you want cream of uniform separation.

1st. Turn the Separator handle 60 times per minute, every minute, during the separation.

2nd. Maintain the same speed at each skimming.

The average number of revolutions in all Separators is about 140 revolutions of the bowl to one turn of the crank handle.



There's No Guess Work When Using this Indicator

The New Improved Golden Harvest Speedometer, or Speed Indicator, is a small instrument, built into the separator at the factory. You can depend upon it to tell you at all times whether or not you are separating at the proper speed.

Refer to the illustration, and see how simply the Speedometer works. It is so simple that an explanation is almost unnecessary. When you begin to turn the handle to separate, the main shaft begins to revolve, of course. The Governor Weights are attached to the main shaft, and as the shaft revolves, centrifugal force causes the Governor Weights to straighten out. The principle is just the same as that which acts on the governor balls of an engine. The faster the main shaft revolves the more the Governor Weights straighten out. As the weights straighten or fly out, they naturally lift the sliding collar immediately above them. On this collar the Lift Rod rests, consequently the Lift Rod goes up. The Lift Rod acts on the Indicator Lever, as you see, and the lever in turn causes the Indicator to move forward on the face of the Dial. When the Indicator points to 60, you are separating at the proper speed. If you run over or below the required number of revolutions per minute, the Speedometer will immediately indicate the change. This is the simplest and lowest priced Centrifugal Speedometer of which we have any knowledge. It is furnished with the New Improved Golden Harvest only; you cannot obtain this Speedometer with any other Separator manufactured. The additional price of a New Improved Golden Harvest Separator, equipped with a New Improved Golden Harvest Speedometer is only $3.50.

The Speedometers are built into the Separators at the factory and cannot be attached separately after purchasing a regular style separator.

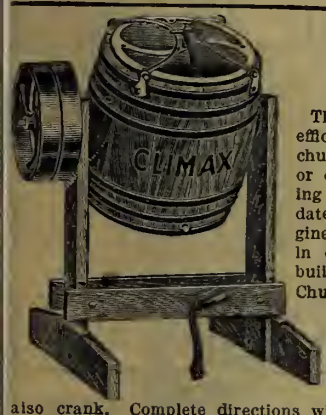
Fargo, N. D.—St. Paul, Minn.—Des Moines, Ia.—Columbus, Ohio—Lebanon, Ind.—Albany, N. Y.—New York City Chicago.

Order the Right Size



When you buy any implement for your farm, it is better to buy one that has a larger capacity than you have occasion to use at the time of purchase. In choosing your Separator, it is wise to carefully consider your requirements. Because of its greater skimming capacity a large capacity separator is worth the difference in price, simply as a time saver.

If you should increase your herd at any time, you will be in a position to take care of the increased output of milk. Do not make the mistake of figuring only on your present need. A good separator should last a lifetime, and if the proper thought is given to your first purchase, there should be no occasion for having to purchase a new separator in after years.

It Pays You to Select Your Churn and Other Dairy Supplies from Our Big Money Saving Line

Golden Harvest Separators Save What Others Lose

After 33 Years Detroit-American Farm Implements Still Lead the Field

Climax Power Barrel Churn

The ease, convenience and efficiency of hitching your churn to a gasoline engine or other power unit is gaining favor every day. Up-to-date farmers realize that engine power for churning saves in every way. The strongly built Climax Power Barrel Churn lasts through years of use. Varnished oak barrel, rust-proof hoops, and extra heavy frame. All sizes have 12x2-inch tight and loose pulleys; also crank. Complete directions with every churn.

Lightning Butter Maker

Makes butter in 3 minutes from sweet or sour cream, at 52 to 60 degrees Fahrenheit. Whips cream or beats eggs in one minute. Makes ice cream or fruit ices like a freezer. Recommended by The Good Housekeeping Institute. Cover screws on tightly. Square body of glass jar prevents cream from turning with dasher. Double gearing gives high speed. Metal parts nickeled to prevent rusting. Made in 4 sizes, churning ½ to ⅔ capacity. Jars clear flint glass.

Fertilize Your Unproductive Fields. Detroit-American Manure Spreaders, with their many Superior Qualities, help You improve Your Farm's yield. See page 984.

Hawthorne Oak Barrel Churn

Doing good every day service on thousands of farms. Seasoned clear white oak throughout, will stand the wear and tear of years of use. Bails are attached to malleable bolted ears on the outside of the churn. The stands are of hard wood. Cover has cork gaskets to prevent leakage. Barrel varnished natural finish with hoops painted to prevent rusting. For the price, we believe there is no other barrel churn on the market which will compare favorably in real test of daily service. Complete directions sent with every churn.

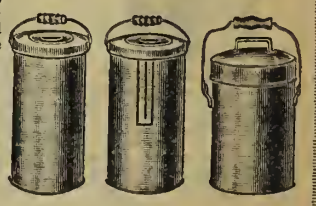
Churn Pulley Sets

188C5324—Tight and Loose Power Pulley Set with Gudgeon shaft. Pulleys, each 12x2¼ inches, for 6, 10, 15 and 20-gallon wood barrel churns. Shipping weight, 24 pounds. Price..... $2.25

188C5326—Tight and Loose Power Pulley Set with Pudgeon shaft. Pulleys, each 18x2¼ inches for 25 and 35 gallon wood barrel churns. Shipping weight, 38 pounds. Price $3.75

Cedar Cylinder Churns



Easy to turn. Four paddle dashers agitate cream violently to produce butter quickly.

Made from high quality clear cedar. Lock and crank made of cast iron, heavily tinned. Has a four paddle dasher. Crank locked to churn with clamp and thumbscrew, which prevents leakage. The top is large and dasher easily removed. Lower rests removable. The hoops and metal parts are galvanized and will not rust.

288C5817—New Climax Raise and Lower Litter Carrier. Capacity, 10 bushels. Shipping weight, 170 lbs. Price.....**$20.50**

Shipped from warehouse near Chicago.

This Carrier is designed to compare with the very best on the market. A load 25 times the weight of the operator can be lifted in addition to the weight of the box. Seven inch track wheels with roller bearings. Track wheel hangers connected to main frame with ball bearing swivel joints, will pass curves in the track very easily.

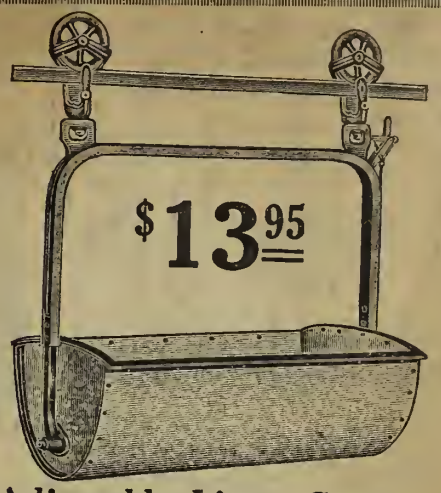
Raise and lowering range is 3 feet, so arranged that the chain will wind spirally and not climb or form into knots. Can be locked to track at any desired location.

Ratchet wheel and dog, allow box to rest at any desired height, friction brake prevents sudden drop of box when ratchet is released.

Carrier works equally well on steel bar or rod track, but we recommend the rod track for outside use. Carrier has automatic return feature. Operator may start it at the barn door and it will travel out to the dump, trip itself, unload and return to the barn.

The box is made of heavy 20 gauge galvanized steel, corners and top reinforced with steel angles, and strongly riveted throughout.

Climax Ensilage Truck



Holds 14 Bushels

A handy and labor-saving method of distributing feed. Useful for handling silage and distributing feed in horse or cow barns. Height of box on outside, 33 in.; height from floor, 42 in. Length over all, 60 in.; width, 33 in. Sufficient capacity to feed 20 to 24 cows at one time. Box is all riveted together, and bound with heavy iron. Heavy galvanized sheet steel lining in bottom, making a smooth surface for shoveling. Body made of seasoned white pine. Two large 14-inch side wheels, 2¼-in. face, which do not project from sides. 7-inch caster wheel on end. Shipping weight, 200 lbs.

288C6200—Climax Ensilage Truck. Price.....**$14.40**

Shipped from factory near Chicago.

Adjustable Litter Carrier

The adjustable carrier does not have the raise and lower feature, but otherwise is the same as the Raise and Lower Carrier.

The height of the box is adjustable on the hail, 2 inches, 4 inches, or 6 inches. This Carrier will pass through an opening 2½ ft. wide by 4 ft. high.

Steel keepers to prevent Carriers from jumping off the track. Will not break.

The Box is made of heavy 20 gauge galvanized steel, corners and top reinforced with steel angles, and is strongly riveted throughout.

It is made in two sizes: 5 and 6 bushels. The 5-bushel box is 44 inches long, 23 inches wide and 13 inches deep. The 6-bushel box is 44 inches long, 25 inches wide and 14 inches deep.

288C5803—New Climax Adjustable Litter Carrier. Capacity, 5 bushels. Shipping weight, 100 lbs. Price.....**$13.95**

288C5807—New Climax Adjustable Litter Carrier. Capacity, 6 bushels. Shipping weight, 110 lbs. Price.....**$14.75**

Shipped from warehouse near Chicago.

New Climax Automatic Raise and Lower Feed Carriers

This arrangement differs from the Litter Carrier in that it has the different box.

This box does not have the automatic dump, but means are provided for lowering one end some 2 feet lower than the other which allows most of the load to slip out. Having 2 coils more of chain on one shaft than the other, and when lowering, the short chain pays out first and rewinds 2 coils in the opposite direction by the time the longer chain is all out. When the operator starts to lift, the box promptly gains its level again after two revolutions of the shaft in the opposite direction.

The box is 70 inches long, 24 inches wide and 16 inches deep, holding about 15 bushels when heaped up.

The sides of the box are of 2-inch planking, and the bottom and ends are of heavy galvanized steel, 20 gauge.

The ends are inclined to make shoveling easy and are reinforced with a strong steel angle.

When raised, the Carrier will pass through an opening 2 ½ ft. by 4 ½ ft.

The adjustable feed carrier is the same as the raise and lower feed carrier, except that it does not have the Raise and Lower feature. The box is adjustable in height, 2, 4 and 6 inches.

This Carrier will pass through an opening 2 ½ ft. wide by 4 ft. high.

288C5821—New Climax Raise and Lower Feed Carrier. Shipping weight, 210 lbs. Price.....**$19.40**

288C5823—New Climax Adjustable Feed Carrier. Shipping weight, 165 lbs. Price.....**$14.95**

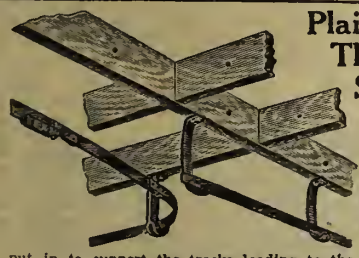
Shipped from Warehouse Near Chicago.

Trip Blocks

For use with any of our Climax carriers. We furnish one trip with carrier. Required where two lines run to one post outside or on separate rod line to spreader or manure pit. Weight, lbs.

288C5916—Trip Blocks. Price, each **40c**

Shipped from warehouse near Chicago.



Spring Suspender

Used near door inside barns longer than 50 ft. or if rod track line is 100 ft. or over. Strongly constructed of malleable iron with strong steel spring and heavy suspension chain. Weight, 5½ lbs.

288C5926 — Spring Suspender. Price **$1.25**

Shipped from warehouse near Chicago.

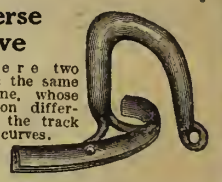
Plain Two or Three-Way Steel Rail Switch

This plain switch is low-priced, simple and reliable. Used where hangers can be attached to joists or cross-pieces put in to support the tracks leading to the switch. Ends of tracks can be bent to curve over to switch with 4 in. space between ends of two or three tracks. Switch is a 2 ft. piece of rigid steel track with socket casting, pivot hinge casting, steel top track coupling and necessary bolts. Weight, 6 lbs.

288C5858—Plain Two or Three-Way Switch. Price **95c**

Shipped from warehouse near Chicago.

Drop Switches



Length of curve, 5 ft. Made of ⅜x1⅝ in. rigid steel track, shipped flat, but easily bent cold to any curve required. Right hand switch has turnover end for rod track turned to the right, supported by a hanger in the center as shown, or by a hanger with rope running through a staple fastened in ceiling. Weight, 13 lbs.

288C5890—Right Hand Drop Switch with Hanger. Price **$1.40**

288C5894—Left Hand Drop Switch with Hanger. Price **$1.40**

Shipped from warehouse near Chicago.

Reverse Curve

Used where two curves are in the same rod track line, whose centers are on different sides of the track between the curves.

One curve can be plain and the other must be a reverse curve. Made of ∩ shaped steel, curved to hold rod track. Weight, 8 lbs.

288C5875—Roverse Curve for Rod track. Price **$1.50**

Shipped from warehouse near Chicago.

Two and Three-Way Track Switches

For Rail Track

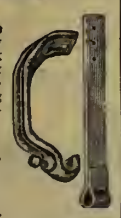


Illustration shows two-way. Three-way constructed similarly, but with free-track connections. Has heavy frame to bolt to joists. Chain adjustment to change switches.

288C5867—Two-way Switch. Wt., 30 lbs. Price.....**$2.85**

288C5870 Three-way Switch. Wt., 36 lbs. Price.....**$3.20**

Shipped from warehouse near Chicago.

Track Hangers and Extensions

Made of malleable iron with set screw to hold rail track securely. Have ⅜x1⅛ in. slot in upper end for lag screws to attach directly to joists.

288C5850—Rail Track Hangers. Weight, 2 lbs. Price **25c**

288C5852—Hanger Extension. Total length, 12 in., to lower hangers from 1 to 8 in. Wt., ¾ lbs. Price **8c**

288C5834—Cross Track Tie. Weight, 1½ lbs. Price.....**35c**

Shipped from warehouse near Chicago.

Cross Rod Track Curve

⅜x1⅝ in. rigid steel track with turnover ends which fit over cross tracks. Heavy bent cross bar with clamps to hold switch to tracks. Removable to allow carrier to run on either track. Weight, 18 lbs.

288C5936—Cross Rod Track Switch. Price **$1.95**

Shipped from warehouse near Chicago.

Rod Track Curves

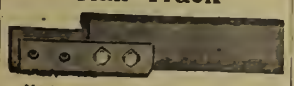
For any angle from 20 to 60 degrees. Can be bent cold. Made of ∩ shaped steel with riveted center clamps and 4 feet of rod track.

Weight, 7 lbs.

288C5880 Rod Curve. Price **$1.15**

Shipped from warehouse near Chicago.

Post Curve

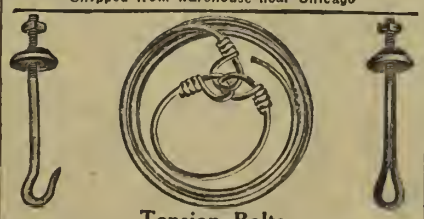


Weight, 20 lbs.

Used where two rod tracks run to one post. Has clamps to hold curve only to rod tracks.

288C5885—Price **$2.30**

Shipped from warehouse near Chicago.



Rail Track

Made of tire steel, round edged. Thickness, ⅜ in. by 1⅝ in. Can be bent cold over a wagon wheel or any curved surface to any curve desired. 6 or 12 ft. lengths only. Track joint coupling with each length of track. Weight, per ft., 2 lbs.

288C5840—Steel Rail Track. Per foot **12½c**

Shipped from warehouse near Chicago.

Tension Bolts

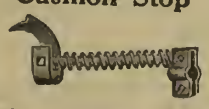
288C5908—Post Tension Bolt. Diameter, ¾ in. Length, 30 in., with washer and nut. Weight, 5 lbs. Price.....**60c**

288C5912—Barn Tension Bolt. Diameter, ⅝ in. Length, 24 in. Weight, 4 lbs. Price **45c**

Post Loop

Made of 15/32 in. rod track. Total length, 20 ft., with loop to go over post and plain end to attach to anchor rod or bolt. Weight, 18 lbs.

288C5845—Post Loop **$1.30**



Anchor Bolt

Length, 6 ft.; diameter, ⅝ in.; threaded, 8 in. Complete with heavy cast washer and nut.

288C5903—Anchor Bolt. Weight, 10 lbs. Price **95c**

Shipped from warehouse near Chicago.

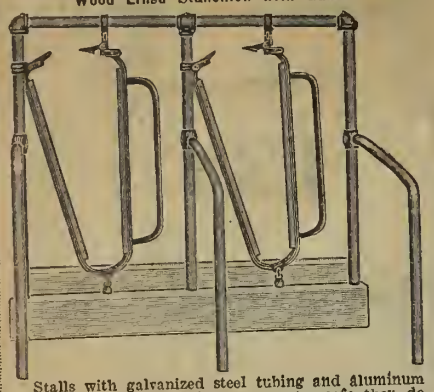
Cushion Stop

Used at outer post. Car strikes spring, eliminating sudden jar. Also serves to help start car back. Clamps to track. Especially adapted for dumping into spreader. Weight, 4¼ lbs.

288C5921—Cushion Stop. Price **90c**

Shipped from warehouse near Chicago.

Plain Stop



To attach to ends of rail track inside barn to prevent carrier running off. Fastens to track with bolt. Weight, 1¼ lbs.

288C5931—Plain Stop. Price **20c**

Shipped from warehouse near Chicago.

Wisconsin Steel Stalls

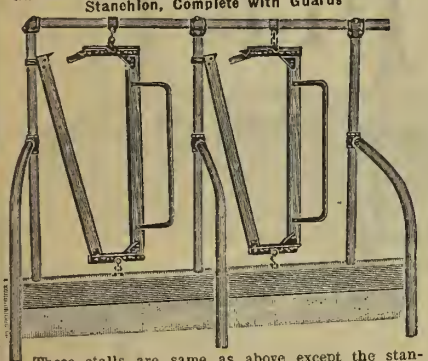
Galvanized or Enamel Painted, Complete with Steel Wood Lined Stanchion with Guards

Stalls with galvanized steel tubing and aluminum bronzed finish connections are rust-proof; they do not require painting. Entire height of stalls at head, 5 feet 6 inches, a portion of which is to be imbedded in concrete. Measurements of stall partition: Height, 36 inches from floor; length, 3 feet 3 inches from frame. Each stall consists of one cross head to which stanchion is hung, one upright center tube, one stall partition with connections and one steel stanchion, complete with maple wood lining, cow guard and yoke to prevent swinging when open. Painted stalls have brown enamel paint finish. Regularly furnished to be used in concrete floors, but if wanted to go on wood floors extra flanges are necessary on ends of tubing to screw or nail to wood floors, or end walls.

288C6000—Enamel painted steel stall, complete with steel, wood-lined stanchion and cow guard. Shipping weight, about 65 pounds. Price, each.....**$4.85**

288C6002—Stall with galvanized tubing and bronzed connections, complete with steel, wood-lined stanchion and cow guard. Shipping weight, about 65 pounds. Price, each.....**$6.45**

288C6004—End section enamel painted, including one upright and one stall partition for finishing row. Shipping weight, 25 pounds. Price..**$1.85**



288C6006—Galvanized steel end section, including upright and one stall partition for finishing row. Shipping weight, 25 pounds. Price..**$2.60**

288C6008—Malleable iron flanges for stall or partition when used on wood floors. Weight, 1½ pounds. Price, each.....**25c**

Shipped from warehouse near Chicago.

Wisconsin Steel Stalls

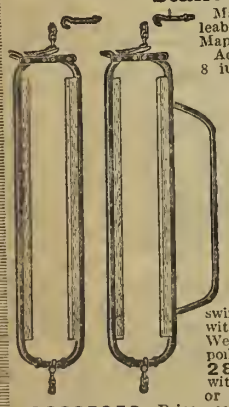
Galvanized or Enamel Painted with Wood Bar Stanchion, Complete with Guards

These stalls are same as above except the stanchion.

Entire height of stalls, of head, 5 feet 6 inches, a portion of which is to be imbedded in concrete. Stall partitions: Length, 3 feet 3 inches; height, 3 feet. Tubing is 1⅝ inch malleable steel. Connections on Galvanized stalls have aluminum bronzed finish, as hot galvanizing would otherwise render such malleable connections brittle. The stanchions are same as the wood bar stanchious described on this page. Width of stalls regularly 3 feet 6 inches. A variation of a few inches either way can be made, when so specified on order, without extra charge. Be sure to order the extra end section to complete the row on the end where stalls do not extend to the wall. Price includes one cross frame, one upright post, one partition and one complete stanchion.

288C6020—Enamel Painted steel stall, complete with wood bar stanchion. Shipping weight, 63 pounds. Price, each.....**$4.60**

288C6022—Stall with Galvanized tubing and bronze finish connections, complete with wood bar stanchions. Shipping weight, 63 pounds. Price, each.....**$5.95**



288C6024—End section, enamel painted, including upright and stall partition. Shipping weight, 25 pounds. Price.....**$1.85**

288C6026—End section, galvanized, including upright and stall partition. Shipping weight, 25 pounds. Price.....**$2.60**

288C6028—Malleable iron Flanges for stall or partition when used on wood floors. Weight, 1½ pounds. Price, each.....**25c**

Shipped from warehouse near Chicago.

Wisconsin Adjustable Steel Stanchions

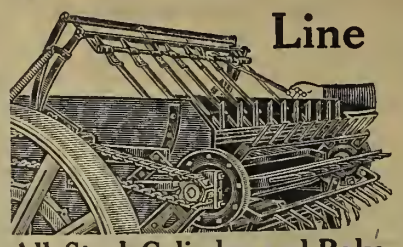
Made of Steel and Malleable Iron, with oil soaked Maple Wood Linings.

Adjustable to 6½, 7¼, or 8 in. opening. For large or small cattle. Chain hanging. Positive lock. Brown enamel painted. With or without guard.

No spring in the latch. The weight of the stanchion on the offset chain locks quickly. Furnished with one eye-bolt, length 6 inches, for fastening at top. The guard insures a cow putting her head in the right place. Yoke on stanchion keeps it from swinging when open. Weight, without guard, 17½ lbs. Weight, with guard, 19½ pounds.

288C5950—Price, each, without guard, in lots of 5 or more.....**$1.48**

288C5952—Price, each, complete with guard, in lots of 5 or more.....**$1.70**



288C5954—Price, each, without guard, in quantities of less than five.....**$1.55**

288C5956—Price, each, complete with guards, in quantities of less than five.....**$1.75**

Lots of five or more shipped direct from warehouse near Chicago. Lots of less than five shipped from our store with other goods.

All Steel Cyclinder Manure Spreaders

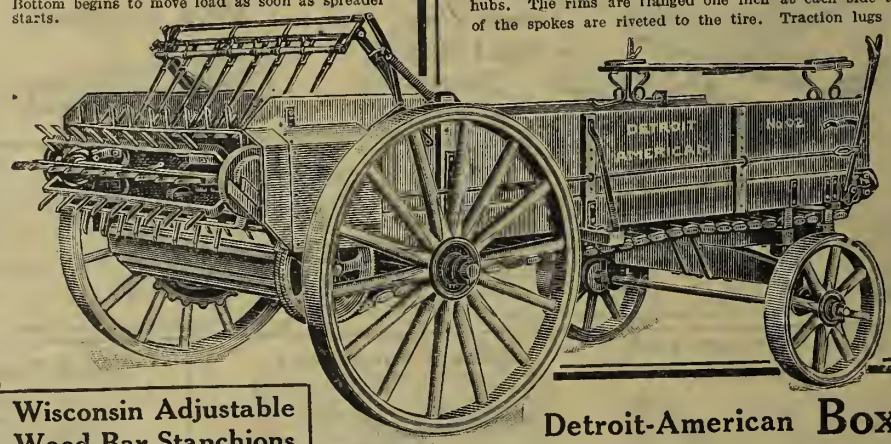
The Famous Detroit-American Line

All Steel Cylinder and Rake —Gearless

Steel cylinder cannot warp or crack, and we have never known it to break. It has nine cylinder bars of 1¼x1⅛ inch steel, bolted firmly to large cylinder heads forming an open drum or heater, 23 inches in diameter, measuring from the point of teeth on one side to point of teeth on the opposite side. These teeth are 7/16 of an inch square and 4 inches long outside the bar, with sharp chisel point; they are made of 30 point carbon steel, which gives the right degree of stiffness. The end of the teeth which sets into the cylinder bar is threaded, and after being firmly bolted in place, is tapped, to prevent the nut from working loose.

The long, sharp teeth will shred the heaviest and toughest manure, where short round teeth fail. Steel cylinder bars help break up frozen chunks, packed manure, corn stalks or other tough materials.

The ends of the cylinder bars run close to the inside line of the box, and cover the whole width of the machine. No portion of the load is left untouched by the teeth.



The sharp pointed spring steel rake teeth assist in tearing up the manure. Each tooth has a 16 pound tension spring and works independently, so that it will pass a frozen chunk or any hard substance and let it out, without raising all the other teeth, and letting chunks pass all along the cylinder, as in some spreaders. Length of rake teeth, 16½ inches; width, 1½ inches. Sprocket and chain drive, furnishing the greatest amount of power with least draft doing away with gears, allowing a slack for starting and eliminating sudden strain on other parts. Drive chain is raised and lowered on a solid arm and when lowered onto drive sprocket, it locks into position and cannot jump or slip, no matter how heavy the load.

Adjustable feed allows you to spread light top dressing or as much heavier as you desire. Two eccentrics on the rear shaft give a steady, continuous movement to the apron.

Showing Easy Running Roller Bottom Endless Apron

Hardwood slat apron is carried on cast rollers, three rollers under each slat on the wide machines and two on the narrow sizes. Adjustment at front of each sill takes slack out of apron. Lower half of apron runs below bottom of box sill, and is easily cleaned out. Bottom begins to move load as soon as spreader starts.

Long Lasting Satisfaction Guaranteed

We market exclusively, the well known Detroit-American Manure Spreaders, having a reputation for durability, ease of operation and light draft. Their equal cannot be purchased anywhere else at our prices.

Detroit-American Spreaders have a greater proportion of steel in their construction, than any other spreader, giving greater strength with less weight. Have fewer working parts, not a single gear, and less mechanism all around, than many others. This means less friction, lighter draft, ease of operating and less chance of breakage.

The Body or box is made of hardwood, strongly put together with bolts and iron bound on top. Is comparatively low, being only 48 inches from ground to top of box at rear, making it very easy to load, even by a boy or short man. The frame of box will stand the hardest service that you can put it to. It has no nails, screws or mortises, but is solidly bolted together. Has removable spring seat.

Front Axle and bolster sets far back under the body, dividing the load instead of allowing the rear wheels to carry all of it, as many do. The front trucks of our spreaders will turn around short under the body. The fifth wheel, or circle arm, is 15 inches in diameter, made of steel, and will stand the heaviest load and roughest usage without breaksge.

Rear Axles are made of 2 inch, cold rolled steel, and front axles 1½ inch cold rolled steel, heavy enough to carry a much larger load than can be placed on the spreader.

288C9801—No. 0—50 Bushel Narrow Model. (A good size for hilly farms.) Wood wheels. Front wheels, diameter, 28 inches; rear wheels, diameter, 44 inches. Tires, width, 4 inches. Front wheel tread, 4 feet 1 inch; rear wheel tread, 5 feet. Box length, 9 feet 5 inches; width, 42 inches; depth, front, 17 inches; rear, 21 inches, outside measuremonts. 2-horse hitch. Weight, 1,695 pounds. Price.....**$79.75**

288C9803—No. 1—60 Bushel Wide Model. Wood wheels. Front wheels, diameter, 28 inches; rear wheels, diameter, 44 inches. Tires, width, 4 inches. Front wheel tread, 5 feet 4 inches; rear wheel tread, 6 feet 1 inch. Box, length, 9 feet 5 inches; width, 56 inches; depth, front, 17 inches; rear, 21 inches, outside measurements. Combination 2 and 3-horse hitch. Weight, 1,930 pounds. Price.....**$85.00**

288C9805—No. 2—60 Bushel Narrow Model. (Spreads the width of a corn row.) Wood wheels. Front wheels, diameter, 28 inches; rear wheels, diameter, 44 inches. Tires, width, 4 inches. Front wheel tread, 5 feet; rear wheel tread, 5 feet. Box length, 11 feet 5 inches; width, 42 inches; depth, front, 17 inches; rear, 21 inches, outside measurements. Combinstion 2 snd 3-horse hitch. Weight, 1,910 pounds. Price.....**$87.50**

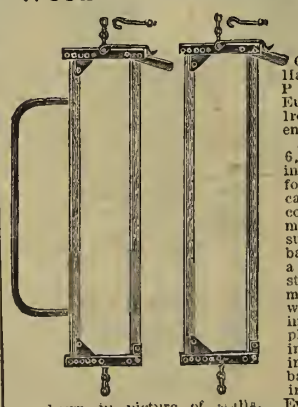
288C9807—No. 02—75 Bushel. Wide Model—Wide Spread. Wood wheels. Front wheels, diameter, 28 inches; rear wheels, diameter, 48 inches. Tires, width, 4 inches. Front wheel tresd, 5 feet 4 inches; rear wheel tresd, 6 feet 1 inch. Box, length, 11 feet 5 inches; width, 56 inches; depth, front, 17 inches; rear, 21 inches, outside measurements. Combination 2 and 3-horse hitch. Weight, 2,000 pounds. Price.....**$99.75**

288C9809—Wheel Brake for either spreader, for wood wheels only, extra.. **5.50**

Brake cannot he furnished with steel wheel.

Shipped from warehouse near Chicago

Steel or Wood Wheels



Wood Wheels Furnished Unless Steel Wheels Are Ordered.

Steel wheels, front set, diameter, 28 inches; rear set, 48 inches, have large iron hubs. The rims are flanged one inch at each side to prevent sod cutting. The ends of the spokes are riveted to the tire. Traction lugs on both rear wheels only.

Wood Wheels. The spokes and felloes are made of second growth white oak. Hubs are of iron. All wheels have 4 inch wide tires. With wood wheels we furnish a traction band for one rear wheel. The front wheels are set closer together than the rear wheels, except on the No. 2 spreader. The narrower front wheels, prevent to some extent the tongue from whipping the horses on rough ground and permit the team to control the machine more easily. Both rear wheels are drive wheels, each exactly alike.

Complete with pole, neckyoke and doubletrees.

Wisconsin Adjustable Wood Bar Stanchions

Oil seasoned Hard Maple Bars. Pressed Steel Ends. Malleable Iron Latch Brown enamel painted.

Adjustable to 5, 6, 7 or 8 in. opening. Can be used for a fair sized calf or the largest cow. The latch is malleable iron, sure lock and the balance of heads are of pressed steel. We recommend stanchions with guard as it insures the cow placing her head in the right opening. Yoke on lock bar holds stanchion in place when open as shown in picture of stalls. Eye-bolt, furnished to attach stanchion at top.

The chain at each end gives them much more flexibility and is far more desirable than the pivot style. Weight, without guard, 16 lbs. Weight, with guard, 18 lbs.

288C5970—Wood Bar Stanchion without guard. Price, each, in lots of 5 or more.....**$1.18**

288C5972—Wood Bar Stanchions without guard. Price, each, in quantities less than five.....**$1.22**

288C5976—Wood Bar Stanchions with guard. Price, each, in quautities less than 5.....**$1.48**

Orders for 5 or more shipped direct from our warehouse near Chicago. Orders for less than 5 shipped from our store and can be included with other goods.

Detroit-American Box Spreaders

Ratchet Feed, Uniform Spread, Feed Controlled From Seat, Endless Conveyor

The Detroit-American Box Spreader has the sprocket and chain drive that has made it so satisfactory. To put it in operation, simply lower the sprocket chain with the lever until it comes in contact with the sprocket wheel. No gears or clutches to cause heavy draft. Quantity and rate of feed changed instantly without stopping the team. The driver controls all movements directly from the seat by means of a foot lever. The Endless Conveyor, consisting of heavy link chain and angle steel cloats, conveys the material uniformly to the bearer. The cylinder has long, square, sharp teeth, which thoroughly pulverize and evenly distribute the manure. The seat swings forward out of the way for reloading. The spreading apparatus can he removed, and the box used as an ordinary wagon box.

The Detroit-American Box Spreader meets the requirements of the farmer who has a suitable wagon gear and desires to invest as little as possible to spread a limited quantity of manure. It is made in two widths fit bolsters 38 inches and 42 inches between stakes of your wagon. Length of box, 10½ fe Depth of box, 15 inches. Bolted, clested and braced, making it very strong and substantia You can put it on your truck in place of your regular wagon box. No changes or extra parts a needed for the wagon, not even clamps to hold the Box Spreader in place. It is complete in itse and always ready for work. Simply take off your wagon box, put the Box Spreader in its plac attach the sprocket wheels, and you are ready to spread the manure. Bolsters shown in illustrati are not furnished with spreader. The difficulty in moving a spreader box on or off gear ma the complete spreader desirable. To furnish proper size drive sprocket we must know the diamet of wheel and width of tires on rear wheels of your farm wagon, also the number and diameter the spokes and whether the rear wheels are steel or wood. Also state the distance between re holsters on your truck. Be sure to give this information in your order; otherwise we will h to delay the order while we write and ask for the information.

288C6050—Detroit-American Box Spreader. For 38 inch bolsters. Capacity, about bushels. Shipping weight, about 800 lbs. Price.....**$41.9**

Spreader mechanism can be re moved and box used as an ordi nary wagon box. Endless con veyor. Feed controlled from th seat.

These Scales Guaranteed to Conform to All State Requirements for Accuracy

All Built so that Inspectors will Approve Them

High-Grade Pitless Scales

Made in compliance with exacting laws recently enacted in Minnesota, New York, Wisconsin, Ohio, Indiana and other States, all tending to accuracy and durability.

It is constructed with the smallest possible number of working parts. Has no unnecessary joints or bearings. The rigid levers run direct from the beam box. Accurate and firmly finished compound beam.

With our High-Grade Pitless scale we include a compound tare beam. The pipe form of levers used on our High-Grade is the best known. It combines rigidity, strength and few working parts. No fifth lever to cause friction.

The end bearing supports are of heavy iron bolted to the platform end frames and extending down in a solid support to the bottom. A pitless scale must be heavy to be durable. Be sure to compare weights when buying.

Wood Frame with Wood Joists.

A moderate priced scale with all of the fine working parts and accuracy of our best pitless, including the levers, bearings, beam, and in fact, all of the working parts. Simple directions for making good serviceable joists and frame out of timber. Approximate shipping weight of this scale, 4 ton size, 650 lbs.

Wood Frame with Steel Joists.

In this style of scale, frame is not furnished. We supply the same joists as are used with full steel frame scale. These joists are heavy I beams made stiff and strong enough to easily sustain more than the rated capacity of the scale. The bearing supports, bearings, and other working parts are the same as those supplied with the full steel frame. High-grade scale. Directions for making frame of wood, are furnished. The working parts of this scale weigh about 650 pounds and joists and frame 370 and 400 pounds in the 4 and 5 ton capacities.

Equal to Any of the Well-Known Makes, Regardless of Price.

We agree to replace, free of charge at our factory within 10 years from date of sale, any part which proves imperfect. This scale is full U. S. standard and will weigh accurately on all corners of the platform.

Your Satisfaction Assured.

We invite comparison with the well known, much advertised and leading makes. Please note carefully the weights of our scales, which not only insure accurate weighing, but wearing qualities for years to come. Do not make the mistake of buying a scale too light for long, hard service.

Remember, you are under no obligation to keep any of our scales, if for any reason they prove unsatisfactory.

Steel Frame with Steel Joists.

The frame of this scale is constructed of 8 and 9 inches solid steel channels with openings for lever only. (This is one of the important requirements of recent state laws which specify that open frames cannot be used.) The sides are made of heavy steel channels bolted to the end channels at each corner and tied together with cross girts, giving a stiff, strong construction. In this particular scale the first cost is the last cost, since there are no parts which can decay and no liability of rust. The shipping weight is approximately 1,700 pounds, of which the working parts weigh 650 pounds and the frame and joists 1,050 pounds. Price does not include wood platform.

It does not require an expert to erect our scales by following the plain directions, it is an easy matter to put them up correctly. We do not furnish the wood platform, but instruction sheet tells clearly how to construct an 8x14 ft. platform for this scale.

Article Number	Price	Capacity—Style	Size Platform, Feet	Ship. Wt. Pounds
288C8800	$48.50	4-ton wood frame, wood joists	8x14½	650
288C8805	51.90	5-ton wood frame, wood joists	8x14	670
288C8810	59.00	4-ton wood frame, steel joists	8x14	1,020
288C8815	62.00	5-ton wood frame, steel joists	8x14	1,050
288C8820	79.90	4-ton steel frame, steel joists	8x14	1,700
288C8825	86.00	5-ton steel frame, steel joists	8x14	1,725
288C8830	88.75	6-ton steel frame, steel joists	8x14	1,750

Add for Scales up to 1,000 lbs. cap. or less.....1.90
Shipped from factory near Chicago.

$51.75

High-Grade Pit Wagon and Stock Scales

High-Grade is not only one of the best we can ou, but it is one of the best Pit Scales known. . Box is full size, built extra strong and sub- l. All pivots in the box are fitted with steel which avoid friction where the beam comes in with the loop which supports it.

is Beam is of very heavy solid brass. The tions are accurately spaced and the figures and gs are stamped in so there is no possibility figures becoming marred or obliterated.

and Truss construction is unusually strong. A ever truss if placed in the center has little eness. The levers are trussed so as to give t support where the most strain occurs.

ing. The very complete and simple instructions ith scale tell you just how and where to place ious parts, how to adjust each piece for the and how to construct the frame and the plat- The pit for this scale is dug only 18 in. deep, s quite a saving over other scales which require deeper pit.

lete bill of lumber is supplied, telling the and sizes of timbers which it is necessary to purchase for the construction of the frame and platform.

288C8885—Compound beam, with main beam, tare poise and fractional beam, of solid brass, highly polished. State whether office fixtures or beam box is desired. Furnished with High-Grade Scales only. Price $12.00

Note the weights. Heavy material insures long service. Will pass inspection.

Old Reliable Pit Wagon and Stock Scale

We Have Sold Them for 15 Years and Know Their Value

Complete Directions for Setting Up

The double brass beam is accurate and nicely finished. The suspension bearings of this scale and the self-locking corner irons are strong and substantial and will retain their accuracy for many years. I beam cast lovers, strenghtened by truss rods suitably placed combine to make this a thoroughly reliable scale. Only a shallow pit is required. We give dimensions of the pit necessary. Prices are for scales complete with beam box, but do not include the timbers or platform. Complete directions for setting up. We furnish a list of timbers necessary.

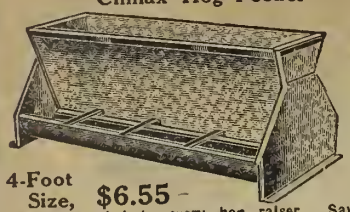
Shipped from factory near Chicago.



Important

All scales on this page are regularly equipped with beams to weigh in pounds. Can furnish METRIC or KILO beams in place of pound beams at extra charge of $1.00 up, depending on the kind of scale and number of beams.

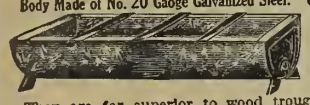
Will also ship with beams graduated in pounds unless the kilo beam or metric system, such as used in southern foreign countries, is specially mentioned on the order.

Get the Equipment Your Hogs Need — Raise Profit-Producing Hog

Climax Hog Feeder

Made of 20-gaoge Galvanized Steel

4-Foot Size, $6.55



Recommended to every hog raiser. Saving of feed alone, will pay for itself in a short time.
Width of hopper at top, 12 inches.
Width of hopper at bottom opening, 3½ inches.
The bottom of feeder consists of two troughs, one on each side, each with cross bars dividing it into compartments. The bars prevent the hogs shoving along in the trough, or scattering feed.

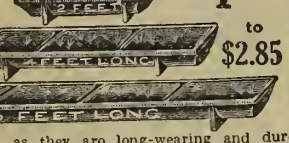
Cast End Steel Hog Troughs

Body Made of No. 20 Gaoge Galvanized Steel. Cast-Iron Ends

Very Popular Among Big Hog Raisers.



They are far superior to wood troughs in cleanliness and durability. Have round bottoms, making them easily cleaned. The cast iron ends are slotted, so as to be readily bolted to platform or planks, to prevent being tipped over. Body is made of 20 gauge galvanized steel. Has cross bars placed 1 ft. apart in all sizes, which prevent hogs shoving along in the trough. All lengths are: Width, inside, 9¾ inches; depth, 4¾ inches.

Article Number	Single Orders	Each in lots of 6	Length	Shipping Weight
188C7400	$1.20	$1.14	2 ft.	12 lbs.
188C7402	1.60	1.52	4 ft.	17 lbs.
188C7404	1.95	1.85	6 ft.	21 lbs.
188C7406	2.65	2.55	8 ft.	30 lbs.

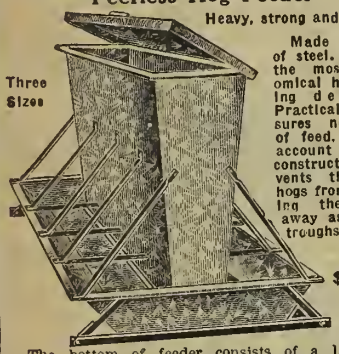
Orders for lots of 6, shipped from warehouse near Chicago. When less than 6 of a size are ordered, shipped from Chicago at single prices.

Climax Cast-Iron Hog Trough

Made Entirely of Cast Iron and Practically Wear-Proof, Easily Cleaned.

$1.10 to $2.85

Economical, as they are long-wearing and durable. Have round bottoms so they can be easily cleaned. The inner surface is exceptionally smooth. The 2-foot size is especially adapted for use in breeding pens. The 4 and 6-foot sizes have cross bars, to prevent the hogs from shoving along in the trough.
All troughs: Width, 12 in.; depth, 4½ in.



Art. No.	Length	Ship. Wt.	Each
288C7416	2 feet	28 pounds	$1.10

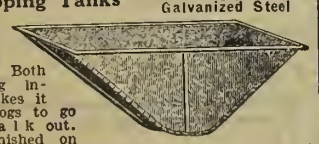
288C7420	6 feet	78 pounds	2.85

Shipped from factory in Southern Michigan.

Peerless Hog Feeder

Heavy, strong and durable

Three Sizes



Made entirely of steel. One of the most economical hog feeding devices. Practically insures no waste of feed, and on account of its construction, prevents the large hogs from crowding the others away as in open troughs.

$12.95

The bottom of feeder consists of a large pan with hopper in the center, so that the feed is distributed on each side, allowing a large number to feed at one time. The heavy cross braces serve to support and strengthen the feeder and also prevent the hogs from nosing along in the trough, the cause of so much waste feed. Any kind of dry foods will feed into the trough from the hopper as it is eaten, but capacity for liquids is only to the amount the feeding trough holds.
20-gauge, galvanized sheet steel used throughout. Frame of heavy black steel. Three sizes.
288C7430—Size, No. 1—Length, 4 ft. Capacity, 10 bushels. Shipping weight, 110 lbs. Price $12.95
288C7432—Size, No. 2—Length, 6 ft. Capacity, 15 bushels. Shipping weight, 160 lbs. Price $17.50
288C7434—Size, No. 3—Length, 8 ft. Capacity, 20 bushels. Shipping weight, 210 lbs. Price $21.90
Shipped from warehouse near Chicago.

Hog Dipping Tanks

Made of 20-Gauge Galvanized Steel

Especially adapted for hog dipping. Both ends being inclined, makes it easy for hogs to go in and walk out. Cleats furnished on going-out end, so that hogs can readily walk out without slipping back. Made narrow at bottom, to avoid a surplus of the dip. Should be set in ground up to top angles. Drain or drip boards furnished extra. Made of 20 gauge galvanized steel. Width at bottom of all sizes, 20 in. Weights range from 110 to 225 lbs.

Article Number	Prices	Size No.	Lgth Ft.	Width at Top	Height Inches

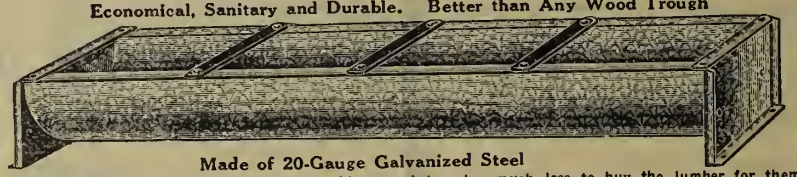
288C7518—Dripping Board. Consisting of sheet of galvanized steel. Length, 8 ft., and the proper width for tank ordered. Price..... $1.40
Shipped from factory in Northern Indiana.

New Climax Valveless Hog Greaser

$4.95

It sets upon three strong legs which form a secure means of anchoring it down. Spread of legs, 20 inches.
There are no valves to clog. No springs or delicate parts in the feeding mechanism. Therefore there is nothing to get out of order. It has a positive feed and will handle thick as well as thin oil in winter or summer. The quantity of oil can be carefully measured out to the hog, and the greaser does not allow a continuous flow when the hog's body is in contact with it, as most oilers do. He must first move away and come back against it before he can get a new supply. There are recesses on the upper sides of the legs which retain sufficient oil to supply the under part of the hog.
It is easily operated and can be worked as well by small hogs as big ones, and as many as three can get at it at one time.
The heavy galvanized steel oil tank will not rust or corrode. It supplies oil to the feed chamber automatically as it is used. The main standard is of steel, base and rubbing parts are of cast iron. Lag screws furnished for bolting down. Height, 31 inches. Shipping weight, 40 pounds.
188C7475—Price $4.95

Climax Hog Oil



For use with Climax Greaser and Rubbing Post. A refined, medicated oil that is far more effective than crude oil for killing lice and vermin on hogs.

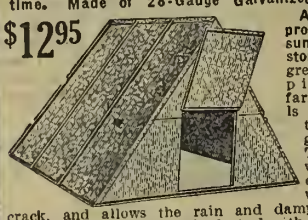
188C1786—30 Gal. wood barrel.... 7.95

Galvanized Steel Hog Troughs

Economical, Sanitary and Durable. Better than Any Wood Trough

Made of 20-Gauge Galvanized Steel

You cannot afford to waste your time making wood troughs, much less to buy the lumber for them, considering the low prices at which we are offering our all-steel sanitary troughs, in sizes from 2 to 8 feet, inclusive. The 2-foot size is especially desirable for breeding pens and farrowing houses. The 4, 6 and 8 foot sizes are popular in the hog yards. Where longer troughs than 6 and 8 feet are desired, we recommend purchasing two, on account of the unwieldly larger sizes. Have rounded bottoms for easy cleaning. Will not rust. Freezing cannot affect them, and sun can't dry them up. Heavy iron cross bars, one foot apart, prevents the hogs shoving along in the trough.



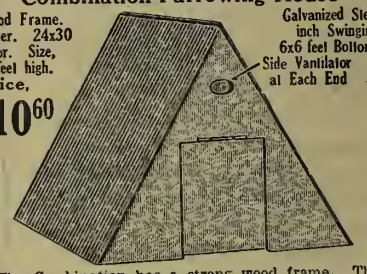
Article Number	Single Orders	Each in Lots of 6	Height	Width	Length	Shipping Weight
188C7465	$0.85	$0.82	6 inches	9¾ inches	2 feet	7½ pounds
188C7467	1.40	1.36	6 inches	9¾ inches	4 feet	13 pounds
188C7469	1.70	1.66	6 inches	9¾ inches	6 feet	19 pounds
188C7471	2.25	2.20	6 inches	9¾ inches	8 feet	24 pounds

Single orders, or orders for quantities of less amount than six, can be shipped from Chicago stock with other goods. Six or more in one order, of either one or assorted sizes, shipped direct from warehouse near Chicago.

Climax Farrowing House

Invaluable to Hog Raisers. The protection afforded little pigs saves its price in a very short time. Made of 28-Gauge Galvanized Steel.

$12.95



An excellent protection from sun, rain and storm. The great loss of pigs during farrowing time is usually due to lack of good shelter. The old style wooden covering will warp and crack, and allows the rain and dampness to get inside. Made of galvanized steel with tight seams, will not warp or allow damp or cold air to chill the young pigs. The slant roof shape is a great protection to the young in preventing the old mother pig from laying on any of the litter, as it allows the corners for escape where the large pig cannot go.
Shipped in knocked down form, put together with sliding seams and stove bolts. Each house is furnished with a slide ventilator at each end. Made in one size only. Size of hinged door, 20x24 in. Length, 6 ft.; width, 6 ft.; height, 4 ft. Shipping weight, 120 lbs.
288C7455—Price at warehouse..... $12.95
Shipped from warehouse near Chicago.

Combination Farrowing House

Wood Frame. Cover. 24x30 Door. Size, 5 feet high. Price, $10.60

Galvanized Steel Swinging 6x6 feet Bottom; Side Ventilator at Each End

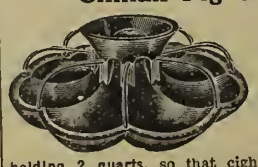
The Combination has a strong wood frame. The roof and ends are nailed to frame but none of the wood is exposed, so that its wearing qualities are almost equal to the all steel.
Outer covering is of 28 gauge galvanized steel. The two roof sides being corrugated, add to the stiffness or rigidity. Ends are plain. Door in one end, 24x30 inches, hung on hinge at top. Swings in or out. Slide ventilator at each end near the top. It is easily collapsible and takes up small space. Shipped in knocked down form. Shipping weight, 110 pounds.
288C7460 — Combination Farrowing House, price at warehouse $10.60
Shipped from warehouse near Chicago.

Climax Hog Waterer Mounted on Runners

One of the Most Economical, Durable and Satisfactory Hog Waterers Made. Big Capacity. The Hogs can drink all around. The Water feeds automatically to the Trough. No Dirt or Waste.

$9.90 And up Complete

Easy to Fill



Sled attachment is provided with draw bar at each end having center hole for clevis to hitch horse and draw about, as required. 30 to 120 gallons.
Where there is no running water, this method of supplying fresh, clear water to the hogs is fully appreciated only by those who have tried it.
The tank and trough are in one piece and made of heavy, 20-gauge, galvanized sheet steel. The tank can be filled to the top, and feeds the water into the trough only as the hogs drink it. Will not overflow. Keeps water clean and pure. Partitions prevent hogs from shoving around in the trough. Plug at the bottom of tank near the trough shuts off air while the tank is being filled, and after filling, the plug is removed, allowing the water to automatically fill the trough.
The sleds or runners are made of steel, except draw bars, which are hardwood. Have clear space at cross bars of 4 inches. The bottom of trough is 5 inches from the ground, sufficiently low for small pigs to drink from. Made in three sizes. Furnished with or without sled.

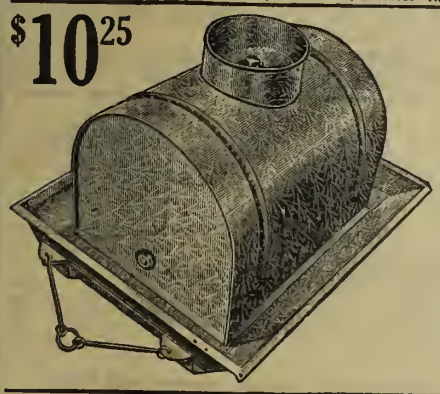
$4.35 and up — Climax Stock Feed Cookers

No more durable and popular styla of feed cooker made, for cooking faad for hogs, poultry, cattla, horses or sheep; also invaluable on farm for heating watar, rendering lard, making soap, scalding hogs and innumerabla othar uses.

Experimants mado by feeding a number of hogs with cooked feed and an equal number with uncookad feed all from the same drove, and otherwise exactly the same conditions, except feeding, show from 15 to 25 per cent better returns for the cooked feed. It has also been established, where hogs regularly receivo a portion of cooked feed, they are practically immune from cholera.

Progressive hog raisers not only cook their winter feed, but find it profitable to feed warm, well-cooked, palatable feed in summer. The Climax Feed Cooker is not only adapted for cooking feed for hogs, but is equally desirable for cooking feed for horses, cattle, sheep, poultry, etc. **Cookad feed for your young pigs and for fattening hogs, especially in winter, is an insurance of haalthful thriving and a big saving of faed.**



Elliott W. Stawart, in his book, "Feeding Animals," cites among other experiments the following: "I conclude that 9 pounds of pork from a bushel of corn fed in ear, 12 pounds from raw meal, 13½ pounds from boiled corn, 16½ **pounds from cookad meal,** is a moderate averege which tho feeder may expect to realize from a bushel of corn under ordinary circumstances of weather, with dry, warm and clean feeding pens."

He further says: "I find if I take 10 bushels of meal and wet it in cold water and feed 25 hogs with it, they eat it well, but if I take the same quantity and cook it, it doubles the bulk and will take the same number of hogs twice as long to eat it up, and I think they fatten twice as fast in the same length of time. **By cooking, you double the bulk and valua of the matter."**

The jackat is made of one continuous sheet of cold rolled steel, which leaves no joints to open up and take in air, and is supported at bottom with a heavy wrought iron band. The kettle is made of smooth cast iron and can be removed from the casing easily. The inside arrangement includes a cast iron flame deflector set so that the fire and smoke pass around the kettle before going into the smoke pipe, thus bringing tha entire bottom of kettle in direct contact with the heat and fire. Coal grates, elbow and pipe are extra.

Climax Self-Sinking Tank Heaters

Weight, 140 lbs. $4.75 and $5.85

Compare our weight with cheaper haatars. The Climax, at our prices, means a whole lot for your monay. Mada of heavy cast iron. Full diameter from top to bottom. Naver floats, nevar leaks. Can be used in staal, wood, cament or othar kinds of tanks. Draft tube on outside, giving full spaca of heater on fuel. Sets on ¾-in. lags to let water under haater. Self-sinking. No holding-down rods required.

Our Climax Self-Sinking Heaters are made in two sizes, each of heavy cast iron, to sink on its own weight. The body of heater, including a draft tube, is solid east iron in one piece. It will remain in any placo in tank in which it is set. Ash pan is full size and has carrying bail so that it can be lifted out. Grate, or fire-pot, also furnished with bail and readily removed. Will burn any kind of fuel. Has cast elbow at top, to which smoke stack is attached, so that cover is moved independently of the smoke stack. This is very desirable whare used in tanks having covers, as tho heater can readily be refilled and removed without disturbing the smoke pipe. Each heater furnished complete with grate, ash tray, 2-ft. stack, damper, hood and poker. Two shipping points—mean a saving to you in time and freight.

288C7768—Heater with elbow and etationary smoka pipe. Diameter, 12 in.; height, 24 in. Shipping weight, 140 lbs. Price.....$4.75

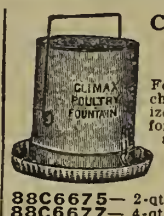
Two-Piece Drinking Fountain



Made of Galvanized Steel. Holds 3½ Quarts.

An excellent and inexpensive device for watering poultry. When tank is filled water flows into the trough only as the chicks drink it. A great many chicks can drink at one time. Trough extends clear around. The tank is made separate from pan or trough for convenience in filling or cleaning. Diameter of pan, 8½ in. Total height, 9½ in. Weight, 1¼ lbs.

88C6630—Price.....**26c**

Climax Poultry Fountain

The best of its kind.

Chicks can drink all around. Feeds water in trough only as chicks drink. Made of galvanized steel, with strong hand bail for carrying. Bent wire holders at top hold bail upright.

Easily separated to fill or clean. A dozen chicks can drink at one time.

88C6675— 2-qt. size. Wt., 1¾ lbs.....**33c**
88C6677— 4-qt. size. Wt., 2¼ lbs.....**44c**

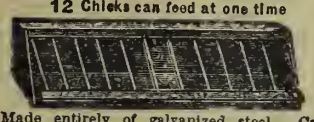
Climax Poultry Fountain and Heater

$3.55

One of the most valuable winter devices



Keeps drinking water warm in your hen house during cold weather. Tank holds 8 gallons of water. Chickens can drink all around. In warm weather can be used without heater.

Holds sufficient for a flock of 60 to 75 hens. Made entirely of heavy galvanized steel. Supplies water automatically. The trough extends clear around the tank so that a dozen or more chickens may drink at one time. Tank is filled through screw plug in top. Heater Lamp has a large brass burner. Reservoir of lamp holds three pints of oil, and has ½-inch flange around its top edge to fill with water, absolutely preventing any danger of lamp exploding. Helps to keep the hen house warm. Directions for operating with each outfit. Shipping weight, crated, 17 lbs.

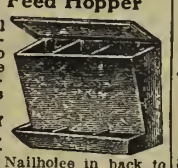
188C6746—Price, complete.**$3.55**

Climax Wall Feed Hopper

12 Chicks can feed at one time

Made entirely of galvanized steel. Can be attached to wall of poultry house or yard. A sanitary feed saver, that can be set any distance from ground to accommodate large or grown chicks, and to prevent scratchings being mixed with feed. Holes can be punched in back and hung on nails, as desired. Has hinged door, with side fasteners, and can be raised for filling. Is 24 in. long, 6 in. wide, and 6 in. high. Shipping weight, 2½ lbs.

88C6654—Wall Feeder. Price....**68c**



Hen House Feeder

Made of Galvanized Steel and consists of a long pan, 5 in. wide, with a sliding cross bar top that can easily be taken off, for filling or cleaning. Made in two sizes.

88C6635—Length, 18 in. Shipping weight, 1½ lbs. Each.....**26c**
88C6637—Length, 23½ in. Shipping weight, 1¾ lbs. Each.....**38c**

Climax Poultry Feed Hopper

Made entirely of steel including ends. Carries sufficient feed to take care of large flock. Each full compartment holds 3 pints of feed.

The hinged cover of hopper slopes down, preventing chickens roosting on top. Nailholes in back to hang hopper against wall. Shipping weight, 2, 3, and 3½ lbs.

Each
88C6625—No. 1, 2 compartments.**44c**
88C6627—No. 2, 3 compartments.**54c**
88C6629—No. 3, 4 compartments.**66c**

Climax Oats Sprouter

Grow tender green oat sprouts in from 24 to 48 hours. Increase your egg production. Made entirely of galvanized steel with double side walls that act as flues carrying smoke and gases to outlet holes at top. Furnished complete with glass door, thermometer, heating lamp and reservoir. Directions with each.

188C6768—Size No. 1 for 50 to 100 hens. 3 trays, 13 in. square. Outside measurements over all, 15x15x30 in. Shipping weight, 44 lbs. crated. Price.....**$7.45**

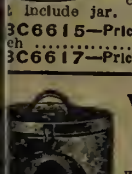
288C6770—Size No. 2 for 200 to 300 hens. 5 trays, 17½ in. square. Outside measurements over all, 19x19x44 in. Weight, 80 lbs. crated. Price.....**$12.95**

288C6772—Size No. 3 for 500 to 600 hens. 7 trays, 21 in. square. Outside measurements over all, 23x23x58 in. Weight, 130 lbs. crated. Price.....**$15.90**

Size No. 1 shipped from Chicago. Nos. 2 and 3 shipped from Warehouse near Chicago.

Chicken Lice and Insect Destroyer

For Grown Chickens Only



$2.30

One of the Most Valuable Articles in the Poultry Yard. The most successful Lice Killer of its kind.

To operate, fill small reservoir at back with either fluid or powder, as desired, raise the lid, place fowl's wings in wing holder on lid, put neck in slot, and let fowl down in tank with head protruding through cover. One to three strokes of the pump is enough to apply material, the air and pressure from the pump ruffles up the feathers, allowing the substance to penetrate close to the skin. Made of galvanized steel. Shipping weight, 10 pounds.

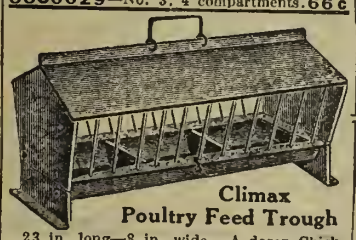
188C7160—Price.....**$2.30**

Climax Jar Fountain

Intended to fit an ordinary Mason jar, pint, quart or half-gallon size. Diameter of pan is 6 in. Made of heavy galvanized steel. Jar easily removed for filling or cleaning. Price does include jar. Shipping wt., 3 oz.

3C6615—Price. One only.
Each.....**9c**
3C6617—Price. Per dozen...**96c**

Climax Automatic Feeder and Exerciser



The exerciser helps increase egg yield 20 to 30 per cent. Made of galvanized steel. The hanging feeder with bail or handle may be hung from ceiling of poultry house. The stand feeder has three steel legs fastened with stove bolts to sides of hopper. Pecking at the bars starts the grain to flow. Bar can be adjusted to any height for small or large chicks. Feed box also has attachment adjustable for different kinds of feeds, in large or small quantities.

188C6730 — 12-quart Hanging Feeder and Exerciser. Shipping weight, 8½ pounds. Price, with bail.....**$1.25**

188C6732 — 12-quart Stand Feeder and Exerciser. Shipping weight, 10 pounds. Price, with legs.....**$1.55**

Climax Poultry Feed Trough

23 in. long—8 in. wide. A dozen Chickens can feed on each side at one time. Feed can be mixed or fed separately. Three-compartment feed box. Top and sides are hinged and can be turned back to fill feed trays.

Made of galvanized steel. Roof has an extension on each side so that the feed is entirely protected. Easily cleaned. Hand bail on top to carry. Shipping weight, 10 lbs. crated.

188C6690—Price.....**$1.20**

Tip-top Feed Hopper

Made of Galvanized Steel. Has Lugs to Hang on Wall. Especially Adapted for Dry Mash.

Has large capacity and automatically delivers the feed to the trough. A number can feed at one time. Hopper holds 12 to 15 lbs. of feed. Outside height, 18½ in., length, 12 in., depth, 6½ in. Shipping weight, 7 lbs.

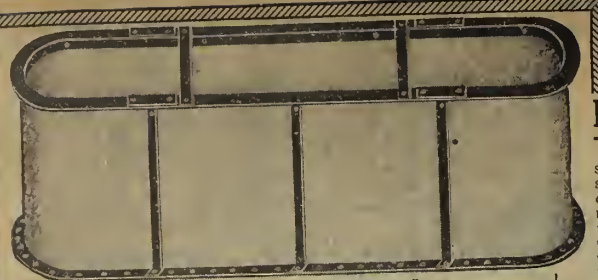
Rust-proof Lock Seams are Used



and riveted seams have tinned rivets, making our tanks as near rust-proof as they can be made, because water does not come in contact with any black iron

The factory where our tanks are made was started 23 years ago. The first tanks made are still in uso on farms throughout the country and do not show any material signs of wear. The reason for this is that all the smaller tanks are made with the "lock seam," and tbe large round tanks and others made of 16 or 18 gauge, bave tinned rivets in the riveted seams. This means that no water, milk, oil, or any other contents ever reach the black iron used in the outside bracing, so there is no chance for the tank to rust. Some tanks will rust around the seams, a fault which makes ordinary steel tanks short lived.

Hundreds of our tank customers tell us that they prefer our tanks to others because ours don't rust, and have at all times proved so satisfactory. **All Tank Msasurements are Outsids Msasurements. Capacitiss are Standard Ratings. Based on Outside Msasursments, and 31½ gallons psr barrsl.**

Steel Round End Tanks

Shipped set up if not ordered knocked down. A popular stock watering tank. Made of No. 20 U. S. Standard gauge steel. Side sheet is flanged out 1 inch and riveted with the bottom sheet between two bands of steel each ¼ inch thick.

Tanks 4 and 6 feet long, have one angle brace across top and on each side; except tbe 2x2x4 foot tank does not have side braces, as they are not necessary; tanks 8 feet long, have one brace across top and two on each side; on tanks 10 feet long, two braces across top and three on each side; on tanks 16 feet long, three braces across top and five on each side. Braces are 1-inch angle steel.

All tanks measured on the outside.

Our Cream Separators—the kind that skim to a trace every time

Your Galvanized Steel Tanks

Below We Illustrate the Relative Thickness of the Different Gauges

No. 20 Gauge
No. 18 Gauge
No. 16 Gauge

The scarcity of spelter used in galvanizing sheet and bar steel, and the exorbitant prices asked for galvanized metals, which at this time are nearly double the market prices in the early part of the year, may compel us to change the prices of tanks on this and the following pages, as well as other galvanized metal goods throughout the catalogue. Owing to the unusual conditions, we reserve the privilege of declining orders or accepting orders at increased prices if it becomes necessary through the continued scarcity and increasing market value of galvanized material.

Underground Gasoline Storage System

Complete Outfits $17.35 and up

Powerful Double Acting Brass Pump—Continuous Flow

If you are a user of gasoline you need one of these systems. The tank is intended to be buried in the ground, outside the building. We furnish with each outfit, two 4 ft. lengths, one 1 ft. length and one 2 ft. length of ¾ inch galvanized suction pipe, two ¾ in. elbows and one ¾ in. coupling, all galvanized. The pump can be placed inside the building and, by means of the hose attachment gasoline can be pumped directly into any receptacle. **The Pump** is double acting, giving a continuous flow, very powerful, and made entirely of brass, except pump base, which is cast iron, enameled. Has ¾ inch solid brass ball valves; outer cylinder, diameter, 2 in.; inner cylinder, 1⅛ in.; both made of 18-gauge brass. Pump can be detached at base making it easy to clean and to use for other purposes. Spout has ¾ in. brass faucet with hose connection.

Tanks are made in four sizes and in four gauges of steel. We recommend the heavier gauges, especially, if for city use, or if the tank be close to surface. Heads and seams are riveted and soldered. The filler pipe is 2 inch black iron pipe, length, 2½ ft., painted with asphaltum, and extends above the ground. The filler pipe has a riveted staple and a cast iron cap, with hasp, so it can be padlocked to prevent tampering with the gasoline. A small ventilator hole in the filler pipe cap relieves any vacuum caused by drawing off the oil. Inside of filler pipe is a strainer to strain the gasoline when tank is filled. Strainer readily removed for cleaning. Suction pipe extends down to within ¾ inch of tank bottom, and will drain the tank down to about 1 gallon. Shipping weights range from 90 to 250 lbs.

Outfit Complete with	18-gauge Tank	16-gauge Tank	14-gauge Tank	12-gauge Tank

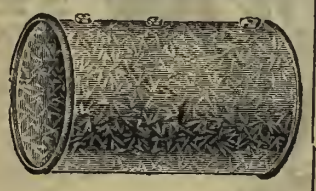
Shipped from warehouse near Chicago.

The above outfits do not come under inspection of Board of Underwriters. If they must pass local inspection, be sure to order proper size and proper gauge steel in tank. If this is done, we can have the outfit approved by, and have labels of the National Board of Underwriters attached at an extra charge as priced below. Outfits bear two labels, one on tank and one on pump.

288C8578—Extra for approved and labeled outfits, in place of regular, add.....$3.90



Underground Gasoline Storage Tanks

Made of No. 18-Gauge Galvanized Steel

Built expressly for the purpose of storing gasoline underground. Soldered and riveted with greatest care. Heads are turned edges of steel, four ply, rolled and pressed. Made of the best quality of galvanized steel and of first class workmanship.

Furnished with three pipe connections: 1 inch, ¾ inch and 2 inch regular; can furnish other sizes up to 2 inches, same price. For 16 gauge instead of 18 gauge steel, add 20% to regular prices.

Gasoline Wagon Tanks

16-Gauge Steel

For Transportation on Wagon or for City Delivery

$8.80 and up

Especially for hauling gasoline or any kind of oil on wagons. Made of No. 16-gauge galvanized steel. Seams are all riveted with tinned rivets, closely set. The heads are turned, edges of steel, four ply rolled and pressed. Has 2-inch lock nut, with plug on top for filling; 1-inch faucet at end for drawing off contents. If greater capacity is wanted, use two tanks instead of one.

Lubricating Oil Barrels

Every user of Lubricating Oil should have one of these substantial outfits. Barrel and stand strongly made and fully tested, 15 or 30-gallon capacities. All seams welded. Barrel is 12 inches high, allowing for pans or measures under it. Furnished complete with brass faucet, and filling plug. Stand made of 1¼x⅛-inch steel, nicely painted.

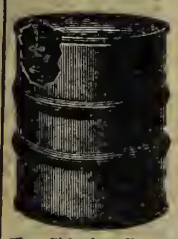
88C8558 — Capacity, 15-gal. barrel, without stand. Shipping weight, 14 pounds. Price $2.00

88C8560 — Capacity, 30-gal. barrel, without stand. Shipping weight, 29 pounds. Price $2.60

88C8562—Stand only for 15-gal. barrel. Shipping weight, 5 pounds. Price 60c

88C8564—Stand only for 30-gal. barrel. Shipping weight, 7 pounds. Price 85c

Climax Culvert Pipe



Made of Corrugated Galvanized Steel. For any kind of road. For private or public roads, an economical and satisfactory culvert.

We especially recommend the use of our Climax Culvert Pipes as an aid to the farmer in keeping his roads in good condition. They will pay for themselves many times over. They are equally desirable for public roads. Tests have proven them sufficiently strong and durable to supersede wooden and stone culverts in any progressive locality. Made one-piece, in any length that can readily go in a box car. Longer lengths will be furnished in sections, complete with couplings to attach. Made from No. 1 material, carefully galvanized and riveted. Prices given are per foot of culvert.

Shipped from warehouse near Chicago or from factory in Central Iowa.

Climax Steel Barrels

Made of black and galvanized steel. Especially adapted for farm use for storing and shipping oils

They are strongly made so as to stand rough usage. Very carefully constructed. Seams welded, rolled chimes, no solder used in their construction. No danger of leaking. Will stand an interior air pressure of 10 lbs. to the square inch. Each tank, furnished with brass draw-off faucet, attached to underside of bung in shipping.

The Storage Barrel is especially desirable for storing oils or transporting oil by wagon. The Shipping Barrel has ¼ in. thick rolling ring reinforcements, adapting it for hardest kind of usage or railroad shipment.

3-in-1 Oil Storage Tank

Combination Reservoir, Funnel and Strainer

The handiest and most convenient tank that we know of for lubricating oil, kerosene or gasoline. Has tight fitting cover that can be lifted entirely off. Under the cover is a large funnel, which is part of the tank. A very fine brass wire strainer is set into the funnel and is removable. Under the strainer is an air-tight screw cap, preventing evaporation of gasoline. A 1-inch wood bottom, under the metal bottom, makes the bottom rigid and strong. Has draw-off faucet at bottom, with lock lever handle and staple for a padlock.

Made of 26 gauge galvanized steel and nicely painted. Shipped strongly crated.

Thresher men's Wagon Tank

For the transportation of water or other liquids.

$23.30 and up

Always Shipped Set Up

Has a rocking motion on the front bolster, which prevents the strain and twisting of the tank over rough roads. The truss or frame bears the full weight of the tank and thoroughly braces it against sudden jars. The part of the truss resting on the bolsters is a 4-inch channel of heavy steel, lapping down 2 inches over each side of the bolster. Braced and banded with heavy steel bands. The upper edge of tank is a 6-inch high extension, bound with 1-inch angle iron, forming a carrier space the full size of tank. The front part may be used for hauling fuel. Manhole is regularly placed about 3 feet from rear. It is 14 inches in diameter, extends upward 6 inches and is fitted with a movable cover. One-inch threaded pipe connection or outlet furnished in rear, to attach pipe or hose. Made of 20-gauge steel. Prices for tank complete with truss frame as described. Does not include running gear.

Saw Frames — Saw Blades
Saw Mandrel Sets

Swing Table Saw Frame

For Poles or Cord-Wood. Extra heavy and strong. It will satisfy you.

$16.85

The large sales of these outfits are due to superior features. The balance wheel is low down, is out of the way so as not to interfere with long poles, thus giving the machine a steadier motion than if attached to the mandrel. Frame is of extra strong construction. Made to give good, long service. Diameter of mandrel, 1½ in., cold rolled steel; length, 49 in., turned at arbor to fit saws with 1⅜ inch hole. Tightener pulley in center, hung on strong bracket box. Diameter of tightener pulley, 8 in. Diameter of shaft pulleys, 5 in., all with 6 inch face. All bearings babbitted. 95-pound balance wheel. Works equally well with cord-wood or poles. Speed, per minute, 750 to 1,000 revolutions. Shipping weight, 400 lbs. Saw blades are extra.

288C3732—Right Hand. Wood drops to your right. Price **$16.85**

288C3734—Left Hand. Wood drops to your left. Price **$16.90**

Shipped from warehouse near Chicago or from factory in Southern Minnesota.

Sliding Table Saw Frames

For Cord-Wood or Poles

$19.45 and $19.50

One of the most Satisfactory Wood Saw Frames Made. Balance Wheel on Separate Arbor Below Table. Two Factories. Time and Freight Saving.

Has greater durability on account of low down balance wheel relieving strain. It is the sliding table pattern, very strong. Balance wheel is on a separate shaft, out of the way, allowing the sawing of poles as well as cord-wood. Belt tightener pulley on heavy bracket shaft box prevents belt slipping and insures even, steady motion. The frame is of seasoned hardwood, strongly bolted and thoroughly braced. Substantial safety hood over saw blade. Diameter of arbor and mandrel pulleys, 5 in., 6 in. face. 95-pound balance wheel, all bearings well babbitted, 1½ in. cold rolled steel mandrel with 1⅜ in. arbor. Speed, 750 to 1,000 revolutions per minute. Shipping weight, 430 lbs. Saw blades are extra.

288C3766—Right Hand Pole Saw Frame. (Cut-off wood drops to your right hand.) **$19.45**

288C3768—Left hand Pole Saw Frame. (Cut wood drops to your left.) **$19.50**

Shipped from warehouse near Chicago or from factory in Southern Minnesota.

Saw Mandrel Sets

Without Boxes to Construct Your Own Saw Frame to Suit

Balance wheel, 60 to 95 lb. Diameter of mandrel, 1⅜ in., with 1⅜ in. arbors. Frame to have babbitted boxes, 2½ in., length, 49 inches, can be used with 1½ in. arbor. Boxes top frame, 60 lb. balance wheel and flat belt operation with gasoline engines have kind of flat table for operwheels.

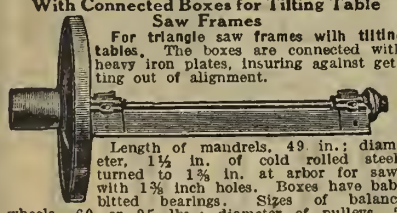
288C3790—Complete set, including balance with arbor plates, flat babbitted boxes, mandrel, with 6 in. face and 60 lb. balance wheel, shipping weight, 125 lbs. Price ..... pulley

288C3792—Complete set as above, but with 95 lb. balance wheel. Shipping weight, 160 lbs. Price ..... $8.

288C3794—Mandrel only, with arbor plates. Shipping weight, 31 lbs. Price **$2.85**

288C3796—60 lb. balance wheel only. **2.40**

288C3798—95 lb. balance wheel only. **3.60**



288C3800—Flat babbitted boxes. Per pair **1.45**

288C3802—5-inch diameter, 6 inch face pulley. Price **$0.90**

Shipped from warehouse near Chicago.

With Connected Boxes for Tilting Table Saw Frames

For triangle saw frames with tilting tables. The boxes are connected with heavy iron plates, insuring against getting out of alignment.

Length of mandrels, 49 in.; diameter, 1½ in. of cold rolled steel, turned to 1⅜ in. at arbor for saws with 1⅜ inch holes. Boxes have babbitted bearings. Sizes of balance wheels, 60 or 95 lbs.; diameter of pulleys, 5 in.; 6 in. face. Right hand or left hand (state which).

288C3840—Mandrel set, including mandrel, 60 lb. balance wheel, connected boxes and pulley. Shipping weight, 140 lbs. Price **$7.95**

288C3842—Mandrel set, including mandrel, 95 lb. balance wheel, connected boxes and pulley. Shipping weight, 170 lbs. Price..... **$9.20**

288C3844—Babbitted boxes, with connecting plates. Weight, 15 lbs. Per set, price.. **$1.90**

Shipped from warehouse near Chicago.

Climax Steel Frame Cord-Wood and Pole Saw Frames

Unexcelled for safety, high service, durability. Frame made entirely of steel. For blades 20 to 30 in. in diameter. 1⅜ in. mandrel. Superior to wood saw frames in durability, rigidity and strength. Frame is constructed entirely of angle and flat steel bars, securely riveted and bolted, and furnished with wood skids with stake holes to which the frame is bolted. Mandrel is 1⅜ in. diameter, with arbor turned for 1⅜ in. saws. This gives a heavier shoulder for the arbor plates and prevents them working in on the threads to cut the shoulder.

$18.55

Style A

Self-Aligning Babbitted Boxes

The long bearings work on pivots, aligning themselves with mandrel, preventing friction, even if saw frame is slightly strained or not set level. Of exceptional value in any high speed work. Lower shaft bearings on style B frame are plain babbitted. Table is tilted pattern; also steel construction, with roller and guide. Saw guard has large hood, affording more protection than the small narrow ones generally furnished. Diameter of pulleys, 5 in., with 6 in. face. 77 lbs. balance wheels. Shipped knocked down. Saw blades are extra.

Left hand illustration above shows style A, left hand, for cord-wood only. Right hand illustration above shows style B, right hand with 1½ in. cold rolled shaft with balance wheel under the table to handle poles of any length.

$21.90

Style B

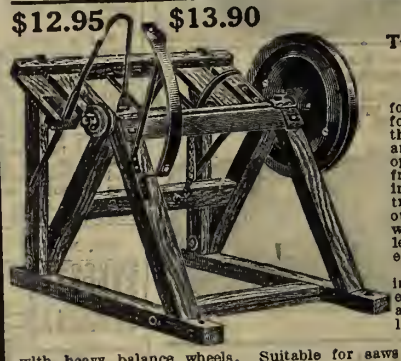
288C3716—Style A. For cord-wood only, with 77 pound balance wheel. Shipping weight, 285 lbs. Right hand price..... **$18.55**

Left hand price..... **18.65**

288C3720—Style B. With low down 90 pound balance wheel for either cord wood or poles. Shipping weight, 330 lbs.

Saw blades not included but are extra. See below.

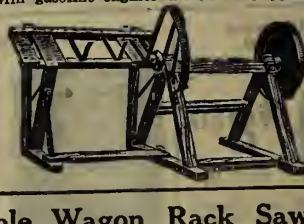
Right hand price..... **$21.90**



Left hand price..... **22.00**

Shipped from warehouse near Chicago.

Tilting Table Saw Frame



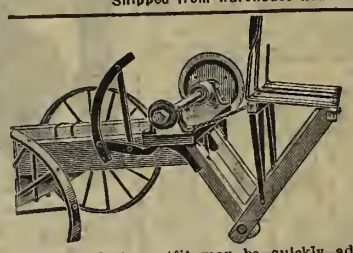
Two Sizes. For Cord-Wood or Poles. 1½ inch cold rolled steel mandrel. Bolted Frame. Extra strong. Well braced.

$12.95 $13.90

Tilting or swing table pattern. Made in two styles; for cord-wood only and with attachments so as to use for cord-wood or long poles. On the cord-wood saw the table is attached as shown in large illustration, and when used for poles the table is moved to the opposite side of saw and attached with an extension frame that we furnish so that the poles do not come in contact with the balance wheel. (See smaller illustration.) The frame is made of dry hardwood, thoroughly ironed and braced. Bearings are long and well babbitted. Diameter of saw arbor, 1½ inches; length, 49 inches, cold rolled steel, turned down at end to fit saws with 1⅜ inch holes.

Belt pulley, diameter, 5 in. with 6 in. face. Heavy iron saw guard. Both sizes made the same with the exception of balance wheel, one having 95 lb. wheel and other 60 lb. The 60 lb. wheel is very satisfactory to operate with gasoline engines that are equipped with heavy balance wheels. Suitable for saws 20 to 30 in. in diameter; not larger. Speed, 750 to 1,000 revolutions per minute. Saw blades are extra.

288C3700—Saw frame, extension for cord-wood or poles. 60 lb. balance wheel. Shipping weight, 300 lbs..... **$12.95**



288C3702—Saw frame, extension for cord-wood or poles. 95 lb. balance wheel. Shipping weight, 335 lbs..... **$13.90**

288C3704—For cord-wood only, as in large illustration; 60 lb. balance wheel. Shipping weight, 275 lbs..... **$12.25**

288C3706—For cord-wood only, as in large illustration; 95 lb. balance wheel. Shipping weight, 310 lbs..... **$12.90**

Shipped from warehouse near Chicago.

Tilting Table Wagon Rack Saw Frame Attachment

This saw frame is made especially to attach to wagon rack. It is fitted with a 48 in. mandrel, 5x6 pulley, babbitted boxes and balance wheel. We furnish only the saw frame, not the wagon or rack.

Very substantially made. The boxes, mandrel and tilting table are fastened to 2x10 hardwood plank. It only requires four bolts to fasten this plank to your wagon rack; then you are ready to put on the saw blade and drive belt.

This outfit is very convenient and satisfactory, for attaching to wagon on which gasoline engine is mounted. The pulley is adjustable to line up with drive pulley on engine, and the outfit may be quickly adjusted

$16.25 to $60.45 Clear your land with Climax Stump Puller

Free Trial Offer
Read all about Climax Pullers and our Liberal Free Trial Offer. It will be worth your while.

Strong—Durable—Easy to Operate. A Puller you'll be proud to own.

Will clear land, acre for acre, at about one-half the cost of most stump pullers. An Illustrated Book of directions, showing different methods of pulling stumps and instructions for setting up and operating our stump pullers, furnished with each machine.

The sweep can be instantly adjusted to any length by shifting the center shaft, to shorten the sweep to gain speed in light work, or to lengthen it to gain power for heavy work.

Free Trial Offer

Send us your order, accompanied by cash, for the size of puller you require. Put it to work and within 20 days from the date you receive it, if it does not work to your satisfaction, and if upon notice from you, we cannot correct any trouble you may have with it, or if in competition with other pullers, you do not find it up to requirements in every way, notify us and we will give you instructions to return it.

Are made in five sizes ranging from the smallest to the largest work. Sizes of trees are given for your guidance and are intended to cover moderate conditions. If your grubbing is unusually difficult, we recommend that you purchase a size that is liberally large, as it will be found easier to operate and the wear will be less than on a smaller size, taxed to its capacity. If in doubt, write us, giving condition of your ground and kind of roots you have to pull and we will advise you what machine is best suited to your requirements. We especially recommend the use of snatch blocks as they increase the power and prolong the life of the rope.

Showing Puller with Sweep in Gear

Low Down; gives the greatest leverage possible.

V-Shaped Drum keeps the winding rope always in line with the anchor.

V-shaped Iron Platform on sizes 3, 4 and 5 is the lightest, strongest, and handiest form of stump puller base.

Drum Ratchet engaged by pawl that works automatically by its own weight without any springs to give trouble.

The Low Down Feature gives our Climax the greatest possible strength and insures the winding of the rope so close to the ground that a team can cross over it under the most severe strain. It is the seat of power in the machine, giving the greatest leverage possible.

The Sweep Lift for throwing the machine in and out of gear has lever connection to the sweep, and a slight pressure ungears it. Furnished on all sizes except No. 1.

Pivoted Anchor Platform insures equilibrium of the machine under all conditions. The Climax Stump Puller will not roll or tip forward when under a heavy strain.

Patent Drum Flange is one of the most important improvements on any stump puller. It makes a perfect winding drum, insures winding of rope coils in regular layers on the drum, and prevents the rope slipping off the drum.

Prices do not include sweep, cross blocks or any wood parts. Rope Shortener or take-up comes with each outfit.

288C9001—No. 1 Climax Stump Puller can be used by hand or is suitable for one horse. Furnished complete with 5 ft. anchor loop and 45 ft. of ½ in. steel pull rope. Suitable for trees up to 6 inches through. No sweep lift furnished. Weight, 185 lbs. Price $16.25

288C9003—No. 2 Climax Stump Puller, suitable for either one or two horses, complete with 6 ft. anchor loop and 50 ft. ⅝-in. steel pull rope. Suitable for stumps up to 8 in. diameter. Weight, 240 lbs. Price..... $22.60

288C9006—No. 3 Climax Stump Puller, suitable for one or two horses, complete with 25 ft. ¾ in. anchor rope and 50 ft. ¾-in. steel pull rope. Suitable for trees up to 15 in. diameter. Weight, 375 lbs. Price..... $32.50

288C9009—No. 4 Climax Stump Puller for one or two horses, complete with 25 ft. ¾ in. anchor rope and 75 ft. ¾ in. steel pull rope; suitable for trees up to 24 in. through where snatch blocks are used; weight, 460 lbs. Price..... $44.72

288C9012—No. 5 Climax Stump Puller for two horses, suitable for the lightest or heaviest work, complete with 25 ft. ⅞ in. anchor rope and 75 ft. ⅞ in. steel pull rope. By using our snatch blocks this puller will handle the largest kind of work. Weight, 600 lbs. Price..... $60.45

Shipped from factory in Southeastern Minnesota.

Climax Puller with Sweep Raised

Simplicity is one of the greatest features of our Climax. Few working, therefore, few wearing parts.

Light Weight is another factor that increases the value of our Climax over similar stump pullers. Easily and quickly shifted so that a greater amount of work can be done in a given time than with most other makes.

V-Shaped Iron Drum winds the rope like thread on a spool and preserves its life so that it cannot chafe as rope would on a grooved drum. The first three coils act as a bed, equalizing the pressure to the next three coils. There is no flattening or breaking of the wires. One rope on our V-shaped drum will outwear two ropes on many other styles of stump pullers.

Anyone who needs a stump puller can use a Gasoline Engine. Turn to pages 973 to 976 and examine ours.

Steel Stump Puller Rope

Best suited for clearing land. One grade only, especially tempered for the purpose, and made of carefully assorted wires of No. 1 steel. Furnished any length, 10 ft. or over, but prices do not include couplings or fittings. See prices for couplers above.

Article No.	Diam. Rope	Wt., Per 100 Ft.	Price per ft.
288C9047	½ in.	39 lbs.	12c

288C9053	⅞ in.	120 lbs.	29c
288C9055	1 in.	158 lbs.	33c

Shipped from factory in Southeastern Minnesota.

Cluster Ropes

For use in thick growth of trees, brush, stumps and grubs

Made from our best steel wire rope. Four 10 ft. lengths, each with a rope hook at one end, babbitted securely in the cluster anchor casting.

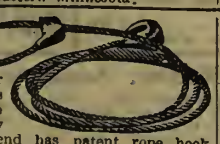
288C9063—Rope Cluster made of ⅝-in. rope, length of each rope (4 in all), 10 ft.; weight, complete, 70 lbs. Price..... $12.90

288C9066—Rope Cluster, made of ¾-in. rope, length of each rope (4 in. all), 10 ft.; weight, complete, 90 lbs. Price..$15.95

Shipped from factory in Southeastern Minnesota.

Rope Shortener

Takes up the slack in the pull rope at the stump instead of winding it on the drum. Can also be attached at any point on the pull rope. One furnished with every complete stump puller outfit. Made of Cast Iron.



288C9070—Size No. 1, for steel rope up to ⅝ in., weight, 10 lbs..... $1.95

288C9072—Size No. 2, for steel rope up to ¾ in., weight, 15 lbs. Price..... $2.90

288C9074—Size No. 3, for ⅞ and 1 in. steel rope; weight, 27 lbs. Price..... $4.00

Shipped from factory in Southeastern Minnesota

Anchor Ropes, $5.90

Used to anchor machine to a stump or tree, allowing space for the horses to pass between the machine and anchor stump or tree, for scattering timber, willow bunches, moving buildings, etc. One end has patent rope hook, the other loop coupling, and can be instantly attached or detached. Length of ropes, 25 ft., of high grade steel strand.

Article No.	Size Anchor Rope	Weight	Price
288C9040	⅝ in.	30 lbs.	$ 5.90
288C9041	¾ in.	40 lbs.	7.70
288C9042	⅞ in.	55 lbs.	9.50
288C9043	1 in.	70 lbs.	11.40

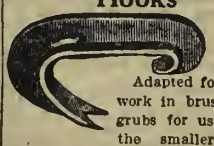
Shipped from factory in Southeastern Minnesota.

Twin Root Hooks

288C9085

Price $10.50

Weight, 80 lbs.

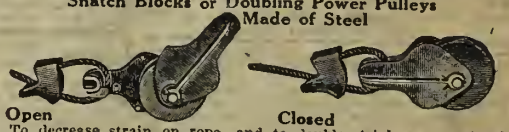


Shipped from factory in Southeastern Minnesota

Made of cast steel, with steel bail for guiding. The hook of the main stump puller rope is directly connected to the wire rope fastening in the end.

One Size Only

Double Point Root Hooks



Adapted for light work in brush and grubs for use with the smaller machines.

One size only, of cast steel. Weight, 30 lbs.

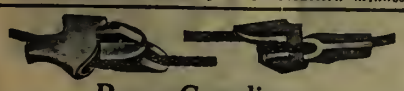
288C9080—Price ...$4.90

Shipped from factory in Southeastern Minnesota.

Snatch Blocks or Doubling Power Pulleys Made of Steel

Open **Closed**

To decrease strain on rope, and to double, triple, or quadruple the power according to the number used. Have hitch rope with slip hook on one end, and a rope hook on the other. Heavy steel frames.



288C9020—No. 1 for puller rope up to ⅝ in. diameter, complete with 12 ft. ¾-in. hitch rope; weight, 60 lbs. Price..$9.50

288C9023—No. 2 for puller ropes up to ¾ in. diameter, complete with 15 ft. ⅞-in. hitch rope; weight, 80 lbs. Price.$13.75

288C9025—No. 3 for puller rope up to 1 in. diameter, complete with 15 ft. 1-in. hitch rope; weight, 110 lbs. Price.$18.50

Shipped from factory in Southeastern Minnesota.

Rope Couplings

A coupling set consists of a hook connection and a slip loop coupling. Can be attached or detached instantly. Prices are for the coupling sets only, without rope.

Article No.	Couplings for Size	Weight	Price
288C9030	½ in. Rope	10 lbs. Per Set	$1.65
288C9031	⅝ in. Rope	12 lbs. Per Set	2.00
288C9032	¾ in. Rope	18 lbs. Per Set	2.55
288C9033	⅞ in. Rope	24 lbs. Per Set	2.95
288C9034	1 in. Rope	30 lbs. Per Set	3.30

Shipped from factory in Southeastern Minnesota.

Tumbling Rod Couplings, 60c to 68c

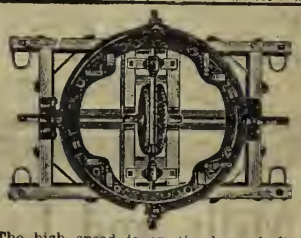
To connect tumbling rods on Horse Powers and Speeding Jacks. Iron, will not heat or cut. Has no pin to wear. Greatly reduces the friction. Carried in stock to fit, 1, 1⅛, or 1¼-in. squared shafts. Ship. wt., 4 lbs. each.

188C9116—For 1-in. shaft. Price 60c

188C9118—For 1⅛-in. shaft. Price 64c

88C9120—For 1¼-in. shaft. Price 68c

Bevel Gear Jacks $6.30 $8.50



For use with horse powers. Made in two sizes, light and heavy. Illustration shows the heavy jack. The lighter jack, while frame differs slightly, is practically the same. Bed frames are made of seasoned hardwood, shafts of steel and gear wheels of excellent quality close grained cast iron. Boxes babbitted.

288C9110—Light Bevel Gear Jack for 2 H. P., with 12x4 in. pulley, geared 2½ to 1, shaft squared to fit 1 in. coupling. Shipping weight, 90 lbs. Price $6.30

288C9112—Heavy Bevel Gear Jack for 4, 6 or 8 H. P., with 15x6-in. pulley geared 3 to 1, 1¼-in. shaft squared to fit 1⅛-in. coupling. Shipping weight, 170 lbs. Price..... $8.50

Shipped from factory in Southeastern Minnesota.

Climax Sweep Horse Powers

$25.45 to $54.00

Each powar has two speeds. The high speed is on the long shaft, which is squared at both ends, one end turning with the horses and the other end turning against the horses. Both of the short shafts turn with the horses and both have the same slow speed, therefore only one is squared for coupling. Illustration shows 4 horse power, other sizes are similar, except the 2-horse has no stake lugs. Two steel tumbling rods, three knuckles, rod block, foot board and stakes furnished with each power. The 2 H. P. has 2 sweeps and two lead poles, making 32 revolutions on the high speed and 10½ on the low speed, to one round of the horses. Length of tumbling rods, 11 ft. Shaft and rods squared to 1 inch. The 4 H. P. has two sweeps and two lead poles. Makes 51 revolutions on the high speed and 11 revolutions on the low speed to one round of the horses. Length of tumbling rods, 10 and 12 ft. Rods and shafts squared to 1⅛ inches.

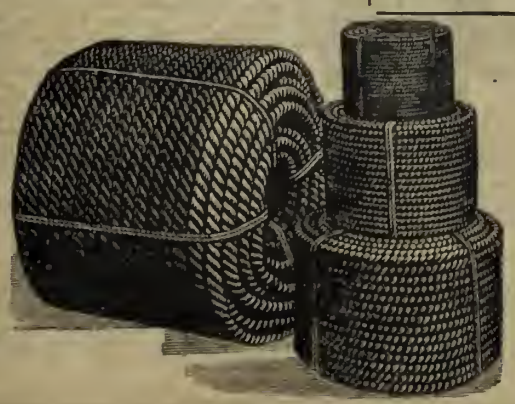
We do not recommend our horse powers for use with threshing machines.

The 6 H. P. is exactly the same as 4 H. P., except with four sweeps and chain equalizers. The 8 H. P. has four sweeps without lead poles, makes 65 revolutions on the high speed and 12½ revolutions on the low speed, to one round of the horses. Length of tumbling rods, 10 and 12 ft. Rods and shafts squared to 1⅛ in.

	Ship. Wt. about lbs.	Price
288C9090—2 H. P. with 2 sweeps.	760	$25.45
288C9092—4 H. P. with 2 sweeps.	1,080	34.95
288C9094—6 H. P. with 4 sweeps.	1,170	37.75
288C9096—8 H. P. with 4 sweeps.	1,450	54.00

Shipped from factory in Southeastern Minnesota.

Pure Manila Rope—Long Graded Fibre



Strength tests have proven that there is no better Manila Rope than ours.

No Doubtful Mixtures, No Second Grade Stock, No Inferior Fibre. Our Manila Rope is the best quality we can buy. All made of strictly Pure Manila Fibre, full size, flexible, long wearing.

We make special prices on out lengths of 100, 200 and 300-ft. pieces. The saving effected by cutting in these sizes in large quantities at one time enables us to reduce the price over the odd lengths. For any other than three sizes quoted, the price will be based on our quotations per foot, as each odd size has to be cut to order. We can furnish single lengths up to 1,200 feet.

The Powerful Climax Drum Cement Mixer

Capacity up to 50 cubic yards per day. Standard Type, 5 feet Batch, with practically all the features of the well known mixers, including arrangement of paddles, dumping pockets, discharge spout, etc.

$179.00 Complete

We not only recommend our Climax as equal in operation or construction to other similar mixers, but our price means a saving of from $40 to $50 over usual prices.

Frame is very strong, having 3½x4x⅜ in. steel angles, sufficiently heavy to carry double the weight. It has an extremely firm base that lessens the liability of the machine getting out of alignment. The roller axles are 1 11/16 in. cold rolled steel, heavier than is customary on this size mixer. Rollers are 10 inches in diameter and 2½ in. face. Set screwed to shafts. Mixing drum has cast-iron ends, with steel-center shell, all held in place by 6 rods.

Stop flanges are provided in both ends to prevent material from running over the side on the bearings. The loading end has 14-in. opening. Width of drum, 34 in. over all; diameter, 36 in. Discharge opening, 12 in. Belt-chain drive, No. 78 link. Three paddles in drum. Ten gauge drum shell. Discharge spout is controlled by a lever, which tilts the spout at different angles in mixing or discharging. Main drive shaft, 1 11/16-in. cold rolled steel. **(A full and complete detailed description of our Climax Drum Batch Mixer in our special Cement Machinery Book. Send for copy.)**

36-Inch Drum

288C4000—Climax Drum Batch Mixer, complete with 2½ H. P. hopper, cooled engine, engine housing and otherwise as above. Weight, 1,800 lbs. Price **$179.00**

288C4002—Climax Drum Batch Mixer, without engine or engine housing, but otherwise complete, including truck. Weight, 1,200 lbs. Price..... **$117.50**

Shipped from Factory in Southern Wisconsin.

Monarch Hand Concrete Mixer

$14.60

A satisfactory low priced batch mixer. Especially designed for farm use.

The Monarch is an exceptionally serviceable little mixer, with a capacity of 2½ cubic feet to the batch. Will thoroughly mix in 12 to 15 revolutions. The drum is 14x14x30 in., made of cold rolled sheet steel, is square in shape, so that the material is carried well up to the top, and falls to the opposite side four times during each revolution. No obstruction inside of drum, so that it is easily cleaned. Four strong rods, running on outside the entire length, hold the drum perfectly secure. Mixer has automatic door, which swings outward, does not interfere with loading. Three automatic latches hold door firmly closed. Frame is made of steel and on runners so that the mixer can readily be moved from place to place. Apron or chute under drum to receive the mixed material when dumped. Shipping weight, 160 lbs.

288C4012—Price **$14.60**

Shipped from warehouse near Chicago, or from factory in Central Iowa.

288C4016—Plain face plates, for 15¾ blocks. Shipping weight, 12 pounds. Price..... **95c**

288C4017—Plain face plate, for 7¾ blocks. Shipping weight, 12 pounds. Price..... **95c**

288C4018—Plain face. End plate, per pair, shipping weight, 12 pounds. Price..... **95c**

The silo Block attachment has a single core so that fractional blocks if needed can be easily cut before or after cured. Where reinforcements are required a groove should be made before block is taken from machine. When laying, the end cores should be filled with mortar, making tongue and groove.

Complete mold for making Silo blocks 18 x 8 on a true circle 12 feet in diameter, suitable for 14, 18 or 10 feet diameter. Shipping weight, about 40 pounds.

288C4019—Price **$3.90**

Shipped from factory in Southern Wisconsin.

New Climax Automatic Cement Block Machine

Will make Blocks faster than some block machines, because fewer operations. Makes a perfect perpendicular face Block, sharp and smooth. If made with material of one mixing; hand mixed as many as 150 blocks are often made in 10 hours on the first day's trial of machine. Size of block, 8x8x16.

Operation.

To release the material after mold is filled and tamped; first tap upward on the projecting lug in center of front wall; then, drawing upward by the projecting locks, one in each hand, unlocks the combination, front wall slides in grooves in side walls, drawing cores at same time; swing side walls outward leaving block on palate ready to be taken away.

Accurate drawing is assured by this method. This machine will also make a two-piece block for a continuous air space; a veneer block with return corners, or a 2, 3 or 6 pier or chimney block, by the same operation as the regular outfit.

Equipment regularly furnished with each machine:

1 Stand complete.	1 Pallet.
1 Double-face plate, 7¾x15¾, rock face.	1 Wood core for chimney blocks.
1 8x16 face plate, rock face.	1 Wood core for veneer blocks.
2 8-inch end plates, rock face.	1 Wood core for veneer corners.
2 8-inch end plates, to make cored ends.	2 Round galvanized cores.
1 16-inch plate for back of block.	1 Oblong galvanized core.
	1 Tamping iron.

Shipping weight, 120 lbs.

288C4014—Price **$9.90**

Extras.

Monarch Power Cement Mixer

Our Monarch Power Mixer is constructed entirely of iron and steel, and will do as good work as other mixers of equal size that sell at double our prices. We recommend the purchase of a power mixer, where power is available, even though the work is very limited. One to two horse power will readily operate our Monarch. Will thoroughly mix a batch in 12 to 15 revolutions. Mixes 7 cubic feet per batch. The square shape of drum insures the material being carried well to the top, and receiving a falling mixing motion four times each revolution. A set of inside mixing paddles insures a perfect mix. Steel frame, with full length automatic door for dumping. Wide opening for loading. Steel apron under drum to receive the dumped material. Sprocket wheel and link belt chain drive. Drum, 21x21x38 inches. Tight and loose pulleys, 12 in. diameter, with 3 inch face. Shipping weight, 400 lbs.

288C4035—Power Mixer. Price.. **$36.85**

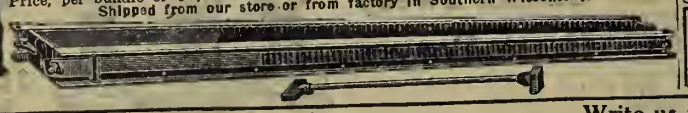
Shipped from warehouse near Chicago or factory in Central Iowa.

Bull Dog Cement Post Machines

Make Your Own Posts. Won't Burn, Won't rot. Won't Wear Out. No replacing. No repairs

Our Bull Dog is regarded among post makers as a convenient, durable and satisfactory machine for quick work. The Corrugations of our posts permit attaching any kind of wire fence, and add to the appearance of the post.

Our molds will make more shapely posts than many other similar machines. Frame is made of cold rolled Bessemer steel and end gates of clear gray iron. Corrugated sheets are of special grade steel that will not permit material to stick as on ordinary iron. Corrugations have rounded surfaces leaving no sharp corners to chip off. The improved automatic locking device to instantly lock and unlock the mold, permits one man to operate the machine satisfactorily. Double end tamper furnished.



With each mold, instructions are furnished for preparing and seasoning material, for operating machine and other information, assisting an inexperienced operator to make good posts. We recommend Model No. 2 for ordinary farm requirements.

288C4080—No. 2 Field Fence Molds, for posts 7 ft. long, 3½ in. wide, 5½ in. thick at bottom, 3½ in. thick at top, 4½ ft. corrugated. Shipping weight, 60 lbs. Price, at our store..... **$6.20**

288C4082—No. 3 extra large field fence mold for posts 7 ft. long, 4½ in. wide, 6½ in. thick at bottom, 4½ in. thick at top, 4½ ft. corrugated. Shipping weight, 70 lbs. Price, at factory..... **$7.65**

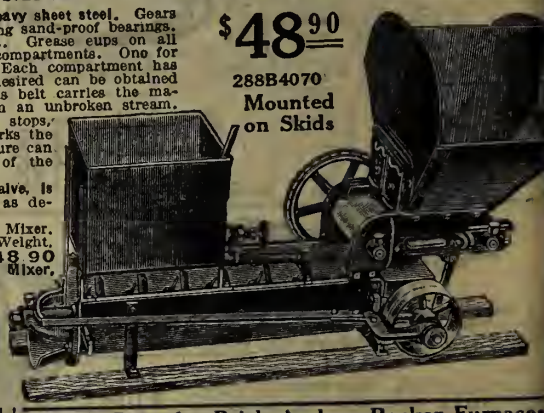
288C4084—Reinforcements of No. 9 crimped wires, 4 required to each post, length, 6½ ft. for 7 ft. posts. Price, per bundle of 50, shipping weight, 18½ lbs..... **$1.09**

Shipped from our store or from factory in Southern Wisconsin.

Climax Continuous Mixer. Automatic Feed. Steel Mixing Blades

The body of the mixing chamber is heavy sheet steel. Gears carried in a heavy casing, which has long sand-proof bearings. Gears protected from sand and cement. Grease cups on all bearings. Hopper is divided into two compartments. One for cement, and one for sand or gravel. Each compartment has separate feed, so that any proportion desired can be obtained by adjusting feed slides. A continuous belt carries the material from the hopper, and feeds it in an unbroken stream. The feed belt automatically starts and stops, as the mixture is supplied. A lever works the clutch and belt pulley, so that the mixture can be stopped at any time independent of the power.

A water tank, with lever shut-off valve, is furnished. The material can be wet as desired.



288C4070—Climax Continuous Mixer, mounted on skids only, as shown. Weight, 300 lbs. Price, at factory..... **$48.90**

288C4072—Climax Continuous Mixer, mounted on truck. Weight, 460 lbs. Price, at factory..... **$61.75**

Shipped from Central Iowa.

$48.90

Cane Mills and Evaporators

Write us for prices on Power Cane Mills and Complete Outfits

Ohio Evaporating Pans

$7.95 and up 2 Skimmers With Each Pan

For Maple Syrup or Thin Juices

For either rocker furnaces or brick arch. Heavily bound, riveted and soldered. The sides and ends are turned up square and lapped, preventing the juice from coming in contact with the wood. Especially recommended for maple syrup, which is absorbed by unlined pans. No seams exposed to fire; the divisions between sections are 4 inches high and 15½ inches apart, so that the scum cannot pass from one section to another. Gate between each section by which the flow of the syrup can be regulated at will, enabling the operator to draw off the syrup in batches, one section at a time. Depth of pans, 4 inches. Galvanized pans are of 24 gauge steel. Copper pans are of 16 oz. cold rolled copper. Width of all pans, 42 inches. Two large skimmers and full directions with each pan.

Art. No.	No.	Size Inches	Shipping Weight	Price Galv. Steel	Price Copper

Western Cane Mills

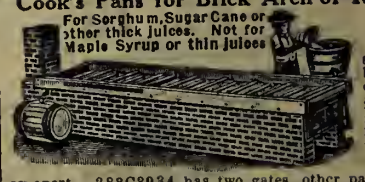
For Sugar Cane or Sorghum

Sweep Horse Power. Powerful and Durable

$17.50

Three Roll Vertical

Have 3 vertical rolls, steel shafts and brass bearings. The cog gears are cast separate from the rolls, and made very heavy, with two clutches on each wheel, which fit two corresponding clutches in each roll, thus doing away with keys.



Top and bottom journals run in brass lined boxes, permitting the mill to work smoothly and easily. Steel shafts with turned bearings; turned rolls with serrated faces, enabling a regular and constant feed to be maintained. The main rolls are flanged at top and bottom, preventing the cane from passing either up or down. A feed guide comes with each mill, made so that the full length of the roll can be used; encased gearing prevents it from becoming clogged, thus making it entirely safe for the operator. Sweeps not furnished. Not intended for tropical cane. Write us for special prices on large tropical cane mills.

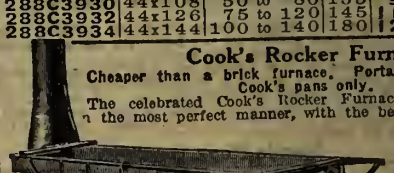
Cook's Pans for Brick Arch or Rocker Furnaces

$5.95 and up



These pans are strongly made, heavily bound, riveted and soldered, but no seams are exposed to the fire. Depth of pans, inside 3 inches. Every third ledge is 8 inches high, the others 1½ inch high ledges are 6 inches apart. 288C3934 has two gates, other pans have one. Made of 16 oz. cold rolled copper or 26 gauge galvanized steel. Furnished with two skimmers. No faucets or palls. Printed directions, easily understood, with each.

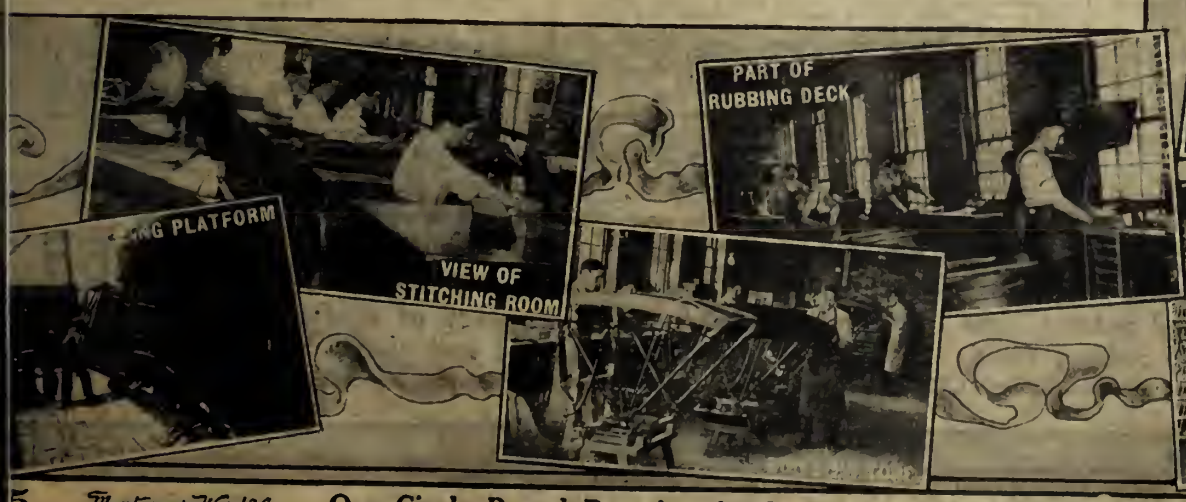
SQUARE-DEAL-VEHICLES

Home of Square-Deal Vehicles

And Their Guarantee



IF you could go through our factory and see the buggies being built, inspecting the metal and wooden parts before the paint and varnish is put on, there would be no doubt in your mind as to where you should buy your buggy.

Because you would see that the material and workmanship that go into our vehicles are the very best. We have men in the factory whose only duty is to inspect the different materials before they are turned over to the departments to go into the buggy.

This inspection is made so that when you buy a Square-Deal Vehicle you can be sure it is built right from the very start; that it will give you the service to which your money entitles you, and that there never can be a question as to where the responsibility rests. You do business with one concern—a company that manufactures the vehicle in its own factory, sells it direct to you and gives you a guarantee that means just what it says—your **Absolute Satisfaction.** The pictures on this page will give you a slight idea of the magnitude of our factory and of the care used in every detail of manufacture.

Look over the complete line, illustrated and described on the following pages of this catalogue. Should you fail to find just what you have in mind, remember that we as manufacturers can work out any little features you may desire.

Say where to ship from. This means a saving in transportation charges to you

We build right into our Leader all the quality and new features of the high-priced vehicle. The result is an unusual rig at a remarkable price. The Leader contains all the worth-while features of high-grade buggy making and yet sells at a price that all can afford to pay. We are proud to offer this vehicle to our customers as one of the best values on the market in a first-class, up-to-date conveyance.

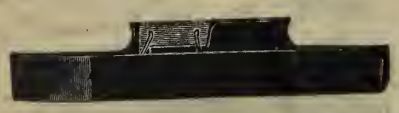
Special Features the Leader Offers

Limousine Style No. 1

Steel, width, 31½ inches across top of cushion. A deep, roomy and comfortable seat of the latest style. Finished with the regular Square Deal care and attention to small details.

Triple Panel Auto Style No. 2

This is the seat that is regularly shipped unless you state just which one you prefer. It is 31½ inches wide across the cushion.



Made of steel in an up-to-date design. See the description below for full details.

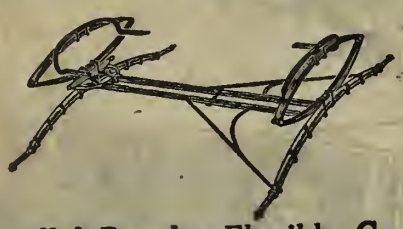
Shell Pattern Style No. 3

One of the very latest auto styles. Made of steel. A very graceful and desirable seat. Will prove comfortable, and ride easy on a long hard drive. Width, 34½ in. across top of cushion.

If no style number of seat is given we will ship Style number 2.

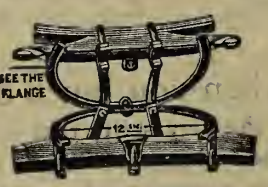
Solid Steel Body—Welded Corners

The cracking and rattling of the buggy box is overcome in the steel body with welded corners. Holds the paint and lustre. Will not rattle and will outlive several ordinary wood bodies. Painted black only. Upholstered in Genuine leather.



Axles

This axle is made from heat-treated steel, large dust-proof collar, and dug-out center to hold the oil. All axles are set or tracked while hot so as to stay in perfect track. Axle caps are of bent hickory—not sawed—and are cemented to the axles.



Wood Piano Box

For those who prefer it, here is a strong, well made wooden box. The panels are of selected white wood; frame made of hard wood; corners, metal bound. Inside neatly finished. Outside has lustrous piano finish. Square corners.

Parallel Reach—Flexible Gear

This gear has been thoroughly tried out for over three years, and has proven itself in every way. It adds to the flexibility and strength of the buggy, as well as to the general appearance.

Fifth Wheel

Wrought Steel Anti-Slip Fifth Wheel. Notice the flange on upper circle of our improved fifth wheel, which prevents slipping out of line and adds very materially to its strength. This Fifth Wheel is made from high quality, flexible wrought steel, bearing full 12-inch.

Standard Buggy Gear

This gear is made of selected hickory, strongly ironed and braced throughout. The reaches are ironed full length. Wood caps glued and clipped to axles. Both our gears are primed, painted and varnished just the same as the wheels.

Detailed Description

Gear—1⅛ inch Long Distance Axles. Two-inch arch, with hickory bent axle caps, cemented and full clipped. Fifth Wheel. 12-inch wrought Steel. Rear King Bolt. Double Hickory Reaches, ironed full length, and braced. French head Elliptic Springs, length 37 inches, and four leaf front and rear. A strong and high class gear. Wrought Steel Body Hangers.

Wheels—Selected hickory, Sarven patent. Height, front 39 inches, rear 43 inches. Have ⅞ or 1 inch screwed rims, and 5/16 inch round edge steel tires, full bolted between spokes.

Body—Width, 24 inches. Length, 56 inches. Made of steel, with strong hardwood frame, round rear corners. Hardwood floor. Unusually strong and practically indestructible.

Seat—Latest design Triple Panel Automobile style, No. 2. Made of steel. These metal seats have proven, after years of use, to be much more satisfactory than wooden seats. They are heavy steel, without seam or joint, and are practically indestructible. Width across top of cushion, 31½ inches.

Upholstering — High grade, genuine leather. Spring cushion and spring back. Tufted and padded ends, and all covered with genuine leather.

Painting—Body and seat black. Gear, rich Auto red (shown in colored illustration as near as printer's ink could reproduce it), or dark (Brewster) green, attractively striped. Give color preferred.

Top—4-bow skeleton automobile style. Auto style bent sockets. Covered with Non-Leak long grain double texture auto top material. Reinforced side curtains, with lights. Outside extension joints to back bows. Two oval back curtain lights. Top easily removable so as to make open runabout.

Shafts—Selected hickory, triple braced, with Bradley Ball-bearing, quick shifting couplers. Trimmed with round straps, and 36-inch points.

Sundries — Patent Leather Dash, padded and braced. Wood panel Boot, with metal edge and covered with rubber. Full length Rubber Mat. Large Storm Apron. Wrench and Washers.

Track—Narrow, 4 feet 8 inches.

Shipping weight, crated, under 34 inches, about 525 pounds.

Shipped from cities given above, or from factory. This buggy can be shipped from factory at Chicago Heights, Illinois, with almost any changes or specifications that may be wanted; but such shipments will require about ten days' extra time, and prices will be on part at factory.

Extras that will be Furnished if Shipment is Made from Factory

For 1 1/16 inch Axles and 1 inch Wheels, add . . . $3.00
For 26 inch wide steel square corner body and 35 inch wide steel Seat, add . . . 5.00
For 4 inch Bike Arch Axles, add . . . 1.00

Changes without Extra Charge if Shipment is Made from Factory

Green or blue Cloth Upholstering, instead of Leather.

Drop axles, instead of Arch.

Wheels—Height 41 and 45 inches instead of 39 and 42 inches, or 37 front and 41 rear.

Choice of Three Styles of Seats. See above. Three Bow Top instead of Four Bow. Auto Skeleton or Leather Quarter.

Special 4 feet 4 inch track, or wide 5 feet 2 inch track, instead of narrow 4 feet 8 inch track.

Wood spring bars, instead of steel body hangers.

Black, carmine, gray or brown Gear, instead of auto red or Brewster green.

If you wish any changes from the above specifications, shipment will have to be made direct from our factory at Chicago Heights, Ill.

292C110 Price, shipped from any warehouse or factory, complete with shafts and steel tires, and either Brewster green or auto red gear . . **$59.85**

Extra for ⅞ inch Guaranteed rubber tires $8.00
Extra for 1 inch Guaranteed rubber tires 9.95

Extra for pole in place of shafts $2.00
Extra for both pole and shafts . . . 4.85

This buggy will be shipped from our factory, Chicago Heights, Illinois (near Chicago), with almost any changes wanted.

Fore-Door Auto Buggy

WE are proud to claim the Fore-Door Model as a product of our factory. Designed and built exclusively by us, with many brand new features that have proven popular with every buyer, has made this the greatest hit that we have scored in years.

292C105

Fore Doors and Cowl Dash

We have adapted the Fore Doors and Cowl Dash to the buggy in a most pleasing way with all their new and novel features. Notice the nickel clock and ventilators.

The standing toe board is most comfortably arranged to lift up so that side curtains and storm front can be carried out of the way, and yet remain always at hand.

Gear—15/16 inch long distance axles. Selected hickory axle beds, cemented and clipped to axles with extra clips. Selected hickory reaches, ironed full length. Four-leaf front and rear, French head, diamond-point oil tempered springs. Also 12-inch fifth wheel.

Body—Fore door Auto construction with Cowl Dash and Roadster Boot. Width, 26 inches. Length, 55 inches. Hardwood frame, with extra heavy sills and heavy iron rocker plates. Metal panels

Wheels—Sarven patent, selected second growth hickory. Have ⅞-inch screwed rims. Heavy steel tire, bolted between spokes. Height, in front, 39 inches; rear, 43 inches. (Rubber tires extra.)

Seat—Metal Limousine style. Upholstered in "Textileather" (better material than cheap leather); color, black. Made in tufted pattern, with overstuffed roll, spring back and cushion.

Top—Auto skeleton style, covered with Non-Leak Auto material. Shifting rail. Large celluloid light in back curtain. Lights in side curtains.

Painting—Body and seat regularly painted black, with body belt to match gear. Gear painted Brewster green, or Auto red, neatly striped. We can paint any color desired, but will require about 10 days' extra time for shipment.

Sundries—Nickel trimmed electric side lights. Nickel-plated clock. Storm front. Full length rubber mat. Nickel trimmings.

Track—Narrow, 4 feet 8 inches, or wide, 5 feet 2 inches, according to territory. In ordering be sure to specify width of track desired.

Shipping weight, about 600 pounds.

292C105—Fore Door Auto Buggy. Price complete, as described above, with shafts and steel tires, gear painted either Brewster Green or Auto Red **$79.75**

(Be sure to state which color you desire.)

Extra for ⅞-inch guaranteed Rubber Tires **$3.40**
Extra for Pole in place of Shafts. **2.10**
Extra for both Pole and Shafts... **5.10**

Shipped from our own factory in Chicago Heights, Ill.

Stout Folk's Buggy

A wide-seated, strongly constructed buggy with plenty of leg room. Designed and built for those who are looking for comfort as well as service and style. Note the metal body, the wide seat, and the many other features that are explained in the description below. If you are interested in a vehicle of this type, you surely will find this to be the answer to your wants.

292C180

Gear—**Axles**, 1 1/16 in. dug-out center, long distance, slightly arched. **Axle Caps**, bent hickory, cemented and double clipped to axles with oval faced clips. **Reaches**, hickory, ironed full length with side steel braces. **Springs**, oil tempered steel. French head, diamond point leaves. **Body loops**, wrought steel, center bearing pattern. **Fifth wheel**, 12 in. wrought steel, special flange edge circle, three-prong rear king bolt.

Wheels—Sarven patent, strictly high-grade hickory, 1 in. **screwed rims**, 5/16 in. oval edge **Steel Tire** bolted between each spoke. **Height**, 39 in. front and 43 in. rear.

Body—Width, 26 in.; length, 56 in.; hardwood frame with metal braces, convex metal panels. The most durable body construction known.

Seat—Metal, triple panel, auto style; width across top of cushion, 35 in.

Upholstering—Genuine leather; tufted spring cushion and back. Seat ends padded.

Top—Four bow; leather quarters and stays; extra heavy rubber roof and back curtain; extra heavy, reinforced **Side Curtains**. Fast color, wool **Head Lining**, back stay and back curtain lining. Raised valance, harness stitched front and back. Top extra long.

Shafts—Selected hickory, triple braced, 20th Century style, extra heavy heel irons, round trace and singletree loops, 36 in. points and Bradley quick shifters.

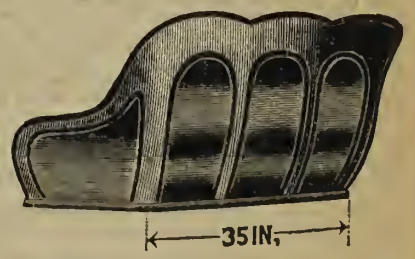
Painting—Body and seat, black; gear, wheels and shafts, Brewster green, neatly striped. Exceptionally fine finish throughout.

Sundries—Large **Wing Dash**, padded and braced, height, 14 in. Full length **Carpet**, large **Storm Apron**; reinforced panel **Boot**, three-prong **Steps**, **Wrench** and **Washers**.

Track—Narrow, 4 ft. 8 in. or wide track, 5 ft. 2 in. **State width wanted.**

Options—Wool cloth upholstering. Black, Auto red or other color painting. Drop axles. 37 in. front and 41 in. rear wheels.

Changes from regular specifications means about 12 days' delay.



Weight, about 600 pounds, crated.

Metal Auto Seats

You will find the triple panel metal seat one of the newest and most popular methods of seat building. There is no better seat construction known to the buggy industry.

Our handy Bolt Assortment sells like hot cakes. Have you tried it?

Convertible Storm Buggy

Protect Your Health

Ride in Comfort

Front Window can be Raised or Lowered

Side Curtains on Rollers

292C157

Sheldon's Oil Tempered Easy Riding Springs

Sheldon's Long Distance Axles

A Storm Buggy is a necessity. It protects your health. It allows you to arrive at your destination with your clothes unsoiled from mud or rain. What's more, you are warm and comfortable while riding. Flexible glass in front and side curtains.

The Protector Buggy is quickly convertible for pleasant weather use, so you are not tying up your money in a Vehicle that can only be used on stormy days. It is a neat, comfortable and serviceable buggy.

Detailed Discription

Gear——Axle 15/16 in., dug-out center, long distance, slightly arched. **Axle Caps**, bent hickory cemented and clipped to axles. **Reaches**, hickory ironed full length with steel side braces. **Springs**, Sheldon, oil tempered steel. **Body Loops**, steel special center bearing pattern. **Fifth Wheel**, short turn with rear king bolt.

Wheels——Sarven patent, selected hickory, ⅞ in. **screwed rims**, oval edge. **Steel Tire** bolted between each spoke. **Height**, 39 in. front and 43 in. rear.

Body——Width, 24 in., length, 56 in., hardwood frame, convex metal panels, round corners, at rear. The most durable body construction known.

Seat——Metal panels, triple automobile style. Width across top of cushion, 31 ½ in.

Upholstering——Textileather (better material than cheap leather); color, black; tufted spring cushion and back. Padded seat ends.

Top——Four bow, Skeleton, automobile style, extra long; covered with 34 oz. long grain, rubber duck; cross straps and bows wrapped; extra heavy, reinforced Side Curtains; patent curtain fasteners; large celluloid light in back curtain; lights in side curtains.

The Storm Front has a large flexible glass window in the front curtain, also in each of the side curtains. The entire front is quickly and easily put on or taken off. It is attached to the dash and to the top by adjustable thumb screws. Note the adjustable side iron that connects it at the top.

Shafts——Selected hickory, triple braced, 20th Century style, harness leather straps, 24 in. points; **Anti-rattlers**.

Painting——Body and seat, black; gear, wheels and shafts, Brewster green, neatly striped.

Sundries——Padded Dash, height, 14 in.; **Storm Apron**, **Carpet**, **Boot**, **Wrench**, **Whip Socket and Washers**. **Three prong steps**.

Track——Narrow Track, 4 ft. 8 in., or wide track, 5 ft. 2 in. **State width wanted.**

Options——Dark green cloth upholstering. Black, Auto red or other color painting. Drop axle. Wheels, 37 in. front and 41 in. rear. Three bow top. Changes from regular specifications mean about 12 days' delay.

Shipping weight, about 575 pounds, crated.

Here's Style and Comfort as Well as Service

Strongheart Spring Wagon

$51.25

A sturdy, well-built wagon that will give you life-long service. Made in our own factory in the Square Deal way.

We have endeavored to place in the Strongheart all the desirable features of a spring wagon selling at a higher price, yet hold the price down to a point that every man can afford to pay. Read the following description to fully appreciate the merit of this Spring Wagon.

Steel Clad Body and Climax Gear

The Body

The end gate is protected on all edges by angle steel, riveted and screwed to the panel. Front and hind ends are protected by angle steel, preventing warping or sagging of bottom boards. Note illustrations of Body Ironing.

Climax Gear

This illustration shows our famous Climax Gear. We believe that this is the strongest and most flexible gear construction on the market today.

The Climax Farm Wagon

From Factory to You

Description

Wheels—All wood used in the wheels is carefully selected, and thoroughly air dried. The Rims and Spokes are White Oak. The Hubs are Oak. Tires, steel, full regulation width and thickness, bolted to the rims. Sectional Rims will be furnished regularly. Bent Rims riveted at side of each spoke without additional cost. Wheels are saturated with boiled linseed oil before being ironed. Regular height, 44 in. front, and 52 in. rear. We can furnish 38 in. or 40 in. front, and 44 in. rear when wanted, at no additional cost.

Axles—Selected hickory, thoroughly air-seasoned, properly fitted to skeins. Seamless Skeins, extra heavy, with large throat. Steel skeins furnished when wanted, at extra cost, as given below. Skeins are set with red lead. Axles are thoroughly saturated with boiled linseed oil before being ironed. Square hound gears are furnished regularly. Bent round hounds can be furnished when wanted at no additional cost.

Gear—All gear woods are carefully selected and thoroughly air-seasoned. Nothing but choice oak used in any part. All parts are dipped in boiled linseed oil before being ironed. Gears are clipped instead of bolted, thus greatly strengthening every part.

Both front and rear hounds are double braced. Iron wear box on rear axle, to prevent reach wearing bolster and axle. Large turn-table bolster plate on front bolster, to prevent king bolt wearing, and bolster tipping. Front and rear axles trussed with heavy truss rod.

Tongue—The tongues on Climax Farm Wagons are carefully selected oak, strongly ironed and braced. Drop tongue is furnished regularly. Stiff or coach tongue can be furnished on square hound gear when wanted, at no additional cost.

Strap end singletrees have full back plate, adding very materially to their strength, and protecting them from wear on wheels. Doubletree and neckyoke are heavily ironed.

Box—Yellow pine tongued and grooved floor. Doubled over front and rear bolster, with oak bolster cleats at rear riveted to bottom. One-piece, wide box boards for sides and ends. Five hardwood cross sills. Comstock patent end gate. Tool box under toe board. Extra heavy box rods, tie rod at each side supporting bottom and holding top box down; tie chain to prevent spreading. Cut-under wear irons, eight box cleats, with two straps to each cleat. Metal grain cleats. Stake wear irons, to prevent chaffing sides. Mountain type spring seat included.

Painting—Climax Wagons are hand painted throughout, with the highest quality of materials, and with sufficient coats to make a first-class job. Box is painted green, striped and ornamented. Gear red, neatly striped.

Track—Narrow, 4 ft. 6 in. or wide, 5 ft., measured from center to center of tire on ground. Be sure to state width of track wanted.

Prices quoted are on board cars at factory.

We have endeavored for years to embody in a farm wagon all the features that practical use have demonstrated to be worth while. In the Whitewater you will find *the same superior dollar for dollar value* as in our higher priced wagons. You will find that nothing has been skimped, or slighted. We have built the Whitewater to meet the demand for a low priced high-grade farm wagon of dependability. A trial of this remarkable wagon will convince you beyond question that it is one of the best values that has ever been offered in a farm wagon.

Low Wheel Wood Farm Truck

Extra for High Wheels, Height, Front, 40 inches, Rear, 48 inches, $4.50

$33.95

Complete As Described

The truck is well and strongly built of good grade materials, with the usual care and attention given to the construction of all our wagons and buggies. Nothing that would make the truck more serviceable and valuable to you has been omitted.

Description and Prices

Years of use at the hardest kind of farm work have proven this style of truck to be successful, and that it will last you a life-time with ordinary care. The average retail value of a truck like this is around $45.00. Our own method of selling direct from the factory to you enables us to give you the additional quality and better material at the low price. This truck is made of good material, and will give excellent service and satisfaction. Wheels, height, 3 feet front and 3 feet 8 inches rear; tires, 3x¾ inches. Gear, axles, hounds and bolsters are good material, free from defect. Steel hound drop tongue front gear furnished regularly. Well painted and finished deep orange with black stripes and varnished. Track, narrow, 4 feet 6 inches, from center to center of tires. Capacity, 4,000 pounds. Shipping weight, 650 pounds.

Low Steel Wheel Farm Truck

$23.35

PAINTING—Gear, red; wheels, black. All varnished.

This steel truck is furnished with different heights of wheels. When wheels are 26 in. front and 32 in. rear, the tops of bolsters are only 26 in. from the ground, making it very convenient for loading. Axles are selected hickory; bolsters, reach and tongue are selected oak. Stakes are oak, bound with iron, and braced. Length of reach is 9 ft. 4, but if ordered will be furnished 12 ft. without extra charge. Front and rear hounds are angle steel, almost unbreakable. Spokes and tires are wrought steel. Will not break or become loose. Hubs are cast iron around the spokes, so they cannot become loose. For use in fields and on soft roads. Track, narrow 4 ft. 6 in., or wide, 5 ft. Be sure to give track wanted.

4,000 lbs. capacity trucks have 3¼x10 in. skeins, and tires ⅝ in. thick.

6,000 lbs. capacity trucks have 3½x11 in skeins, and tires ½ in. thick.

8,000 lbs. capacity trucks have 4x12 in. skeins, and tires ⅝ in. thick.

High-Grade Hickory, Extra Braced Shafts

For Buggies, Surreys and Spring Wagons

$2.55 Regular $4.00 Quality

Our Own Make

No stronger Braced Shafts built. Strong where ordinary shafts are weak, in bend of heel. Worth a dozen of the break-easy kind. Many not as good sold for $4.00 and upwards. These shafts have no weak points. Brace follows bend of heel. Stronger than straight braca and looks better. Just the shaft you've been looking for. Selected hickory. Hava 1-in. eyes and 7/16-in. holes, and measure 44 in. out to out of eyes, which is regular width. Prices for unpainted ara for shafts finished and ironed complete. Prices for painted shafts include 24-in. points and straps and are ready for use. Fitted with common eyes for bolts or Bradley Coupler eyes as ordered. See illustration. Buggy Shafts, size 1⅜x2 inches, with sword end singletrees. Weight, about 23 lbs. Surrey and Spring Wagon Sizes. Size, 1½x2⅛ in. with ferrule end and cockeye singletree. Weight, about 30 lbs.

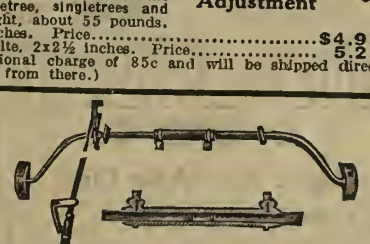
Whitewater Farm Wagon Brake

A strong, well made, effective braka. Has steel frame with wrought iron attachments. Wooden braka beam with wooden brake blocks. Weight, about 76 pounds.



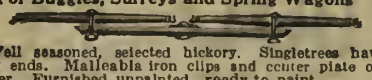
292C3328—For 54-inch track. Complete set $5.45

292C3329—For 60-inch track. Complete set 6.65

Shipped from our factory at St. Paul, Minn.

The Perfect Adjustable Brake

For Heavy Buggies and Spring Wagons



It is composed of two Half Beams which are coupled together in the center by a sleeve with set screws. This gives necessary adjustment to fit all widths of track. It also enables you to adjust the shoes to the wheels, insuring an equal bearing on each. The Beam Lever is movable and can be adjusted to fit any width of body. The Foot Lever locks itself when thrown down, and prevents the shoes from rubbing on the wheels. The Pull Rod can be adjusted to give any desired tension. Weight, about 30 lbs.

192C3325—Iron Shoe. Inside Foot Lever $3.95

192C3326—Iron Shoe. Outside Hand Lever 4.85

Ironed Doubletree Set, $1.20

Double the Life of Your Buggy or Wagon with New Wheels and Axles

Regular Grade Wheels Per Set $7.65 and up

Seasoned hickory. Good quality. Well made. Suitable for repairs, and cheap new work. As good as can be obtained anywhere for the price. We recommend our Special Grade Wheels for good work, and long and satisfactory use.

General Description.

There is commonly 4 inches difference in height of front and rear wheels. Order the height you want.

Low sizes are, front, 36 inches, and rear, 40 inches.

Usual sizes are, front, 40 inches, and rear, 44 inches.

We will send usual sizes, 40 and 44 inches, unless other sizes are given on the order.

Any other heights, 34 to 48 inches, will be furnished to order for 25 per cent additional. Shipment will be made in two to three weeks from factory in Indiana.

16 Spokes to each Wheel. Primed with a coat of boiled oil. Full Bolted. One bolt after every spoke.

Special Grade Wheels Per Set $10.30 and up

Selected seasoned hickory. Excellent quality. Carefully manufactured. Suitable for high-grade repairing and new work.

General Description.

We carry five different widths of rim and tire. ⅞, 1, 1⅛, 1¼ and 1½ in. There is no difference in price on account of height. You can order four wheels of any of the above heights—36, 40, or 44 in., at price given for set of size wanted; or you can order one wheel at one-fourth price of set, two at one-half, etc.

If axles are ordered with wheels, we will set the axle boxes in the hubs for $1.00 per set extra.

These wheels will be painted any standard color to order, or according to sample furnished, for $3.00 per set of four.

Setting boxes or painting will delay shipment 5 to 10 days and goods will be forwarded separately from any other items included in the same order.

We cannot set boxes to fit old axles, our boxes won't fit your axles. If wheels are wanted with boxes set, new axles must be ordered with the wheels.

$2.35 Each and Up Regular Grade Wheels

Standard Wide Tread Metal Wheels are made with tires ⅝ in. thick, guaranteed to carry 4,000 lbs. per set. Half inch thick tires will be furnished on all sizes for 20 per cent extra, and are guaranteed to carry 5,000 lbs. per set. We recommend ½ inch thick tires for longer service where brake is used. If measurements are carefully taken according to instructions, we will be responsible for wheels fitting.

Prices are for one wheel with ⅝ in. tire. Plain tires, not grooved, will be furnished without extra charge when so ordered. Grooved tires are stiffer and add years to life of wheels.

Follow the directions printed below when ordering metal wheels, and your wheels will fit.

Shipped from factory in Illinois.

Directions for Ordering Metal Wheels

The hubs of our metal wheels are cast to fit your skeins. So it is absolutely necessary that you give the information requested to assure the wheels fitting correctly. They will be made according to your measurements, and may not be returned except on account of our error or defect.

How to Measure

Using calipers is the best way to measure your skeins, but if you have none cardboard can be used. First: Cut a slot to fit over the shoulder of skein at point indicated by letter "A" on diagram (See picture). Then measure the opening in cardboard (See picture). Now do the same in taking point measurement "B"—collar measurement "C"—nut measurement "D." Then turn the nut tight on axle, take your rule and measure length—"E" from collar to nut.

Note These Points Carefully

First. We must have all five skein measurements called for on diagram.

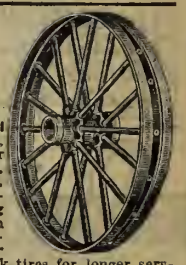
Second. You should give the exact measurements of your skeins, as our factory will allow for play.

Third. Your old skeins are worn on top and bottom, so measure them from side to side.

Fourth. It is impossible to make a good fit from circumference measurements, so we must have diameters as indicated on diagram.

Fifth. If you have a double collar or a sand-proof skein, send for a special measuring blank.

Sixth. Be sure to give height for both front and rear wheels; width and thickness of tires.



Seventh. Be sure to mention Style Number skeins you have. (See diagram.)

Eighth. If you have a linch pin axle, before measuring see that the linch pin and the linch pin collar or washer are on the axle.

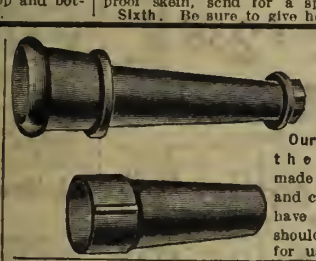
Ninth. Remember we can make wheels to fit any skein if we have the measurements and information asked for.

Tenth. Now check over the measurements given to see that they are all correct.

$3.50 Each and Up Extra Strong Wheels

Extra Strong, Wide Tread Metal Wheels have larger spokes, heavier hubs, and are stronger throughout than regular wheels. Made to fit any skein or axle. Especially good for heavy hauling, logging, etc. Extra strong wheels are made regularly with ½ in. thick tires, and are guaranteed to carry 8,000 lbs. per set. We recommend ⅝-inch thick tires for longer service, and also when brake is used. Capacity, 10,000 pounds.

Prices are for one wheel with ½ in. tire. If ⅝ in. tires are wanted, add 10% to prices. Plain tires (not grooved) will be furnished without extra charge, when so ordered. Grooved tires are stiffer, and add years of life to the wheels.



Article Number	Height	Tire 4 In. Wide	Tire 5 In. Wide	Tire 6 In. Wide	Av. Wt. per wheel lbs.

Wood Farm Wagon Wheels

Prices furnished on request. Farm wagon wheels are made in so many different sizes that it is impossible to quote all sizes in our Catalogue. However, we shall be pleased to quote prices to you, if you will give us the following measurements: Width of rim; width of tire; height of wheels; length of hub; size of skein.

Cast Wagon Skeins

Our cast iron skeins are the standard pattern, made of the best material and carefully trued. They have the plain round shoulders. Not intended for use with truss rods.

Size Inches	Cast Skeins Number	Cast Skeins Price	Steel Skeins Number	Steel Skeins Price
2½x 8	192C3635	$1.57	192C3639	$4.83
2¾x 8½	192C3636	1.96	192C3640	5.10
3 x 9	192C3637	2.17	192C3641	5.45
3¼x10	192C3838	2.70	192C3642	6.40

Steel Wagon Skeins

Our steel skeins have extra long sleeves with large opening near shoulder and are reinforced at collar, making them extra strong at the point that requires the most strength.

A set of either style consists of four skeins, two right and two left. We can furnish ½ set at ½ the price of a full set. Price includes boxes for wheels, also nuts. Weight, per set, 40 to 70 lbs.

Size Inches	Cast Skeins Number	Cast Skeins Price	Steel Skeins Number	Steel Skeins Price
3½x10	292C3643	$3.10	292C3646	$6.65
3¾x11	292C3644	3.45	292C3647	7.75
4 x12	292C3645	4.15	292C3648	9.00

Shipped from factories in Illinois and Wisconsin.

Solid Steel Wagon Axles $4.95 Per Set

Wide or narrow track. Specify which. Boxes at extra charge.

Prices are for a set of two axles and carrying capacities are based on sets.

Article Number	Price per set	Add for Boxes	Size of Spindle Inches	Wt. per set lbs.	Capacity per set lbs.

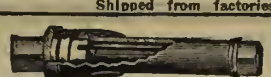
292C3630	18.10	3.15	2½x11	275	9,000

Shipped from factory in Illinois with 10 days' delay. Boxes add to above weights from 10 to 60 lbs. per set.



Finished Wagon Axles With Skeins $2.55

Suitable for metal wheels, and when ordered for these wheels, it is not necessary to include boxes. Wheels are furnished with solid hubs. No. 1 hickory. If desired for other wheels, boxes can be furnished at extra prices quoted. When ordering, state whether for wide or narrow track wagon. Prices are for one axle complete with cast skeins. Be sure to give size of skeins.

Size Skeins Inches	Weight Lbs.	Narrow Track Number	Narrow Track Price	Add for Boxes
½x 8	45	292C3550	$2.55	$0.50
¾x 8½	48	292C3551	2.60	.60
x 9	50	292C3552	2.65	.65
¼x10	55	292C3553	3.10	.65
½x11	60	292C3554	3.35	.75
¾x11	65	292C3555	4.35	1.00
x12	70	292C3556	4.60	1.10

Wide track 15c extra.

Shipped from factory in Illinois with 10 days' delay. We cannot furnish above axles with steel skeins. Boxes add to above weights from 5 to 30 lbs.

Long Distance Axles

Oil-retaining self-lubricating Collenge Collar Long Distance Axles, with fantail beds. Highest grade steel axles; cast iron boxes. The shoulder and bell collar prevent grit from working over the rear collar. We consider the Collenge axle the best long distance axle on the market. A set consists of four axles. Weights range from 50 to 85 lbs. per set.

Size Inches	Stubs Number	Stubs Price	Long Bed Number	Long Bed Price
⅞x6½	392C3585	$1.45	392C3590	$1.70
15/16x6½	392C3586	1.55	392C3591	2.00

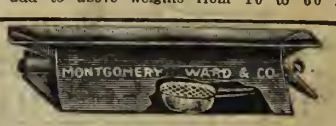
1¼x7	392C3589	2.65	392C3594	3.30

We will weld axles narrow track, straight drop or arch only for $1.25 per set. For wide track, $1.75 per set. Any different shape to pattern for $2.50 per set, with 10 days' delay. Coach or round beds, 35c extra per set.



Half Patent Double Collar Axles

Highest grade steel axles; cast iron boxes. A set consists of four arms, with boxing and nuts. Axles are made long bed or stubs. Two long beds make a complete axle when welded. The stubs are intended to replace worn out spindles. The size is taken at the square part, CD. The length is between the lines AB, or just the length of the box end to end. Do not forget to give size. Prices are for complete sets, including boxes and nuts.

Weights range from 18 to 100 lbs. per set.

192C4106—⅞ in. round spring steel **1.50**

Hay and Stock Rack Brackets

Complete, to fit any regular wagon box. Brackets are made of malleable iron and have been tested to over 4,000 lbs. They are supplied with anti-spreader chains, which relieve box of all strain. They will fit any regular wagon box, and any width box. Six brackets to set, with chains and bolts to make up rack. Simply reversing brackets on wagon box makes rack for hauling hogs, sheep, etc. Weight, 60 pounds. Capacity, 3,500 pounds.

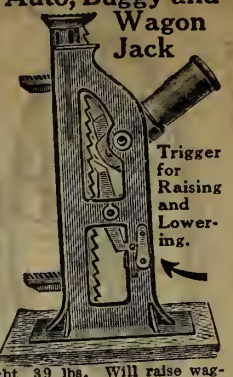
192C4165—Brackets only, with fixtures. Complete for making rack, weight, about 60 pounds. Price **$6.95**

Implement and Wagon Umbrella Holder

For supporting umbrella on harvester, riding plow, etc. An iron arm with slotted bolt-hole at one end to attach to seat and clamp at other end to hold umbrella as illustrated.

92C1110—Without umbrella. Each (weight, 2¼ lbs.) **26c**

Standard Malleable Iron Wagon Jacks



Easily adjusted to height and can be raised 2½ in. by pulling down the handle which locks after passing center. For a continuous lift, may be worked like a pump handle and raised 2½ in. at a time. To lower operation is simply reversed. Handy for raising machinery, drawing fence posts, etc. Range of lift, 24 in. Made of malleable iron and wood handle and base.

192C4025—For vehicles weighing one ton. Wt., 5½ lbs. Price **65c**

192C4026—For vehicles weighing two tons. Wt., 9 lbs. Price **95c**

192C4027 — For vehicles weighing 3 tons. Wt., 13 lbs. Price **$1.45**

Combination Auto, Buggy and Wagon Jack

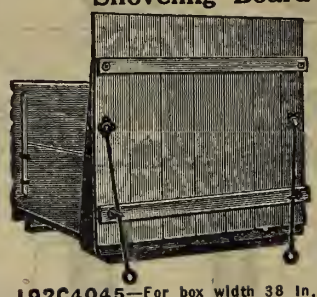
Great leverage and immense power. Simple in operation. Two lifting brackets on standard to raise load from any height. Heavier sizes suitable for raising threshing machines, heavy machinery, etc. Four sizes.

192C4065— Weight, 9 lbs. Will raise wagons weighing 2 tons. Price **$1.95**

192C4066— Weight, 12½ lbs. Will raise wagons weighing 4 tons. Price **$2.55**

192C4067— Weight, 28 lbs. Will raise wagons weighing 8 tons. Price **$3.55**

192C4068—Weight, 39 lbs. Will raise wagons weighing 10 tons. Price..... **$4.95**

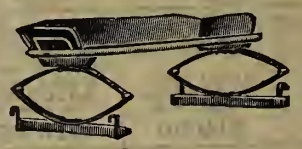


Heavy Wagon and Implement Automatic Trip Jack

Adapted for all general work up to 10 tons. The leverage is on the same principle as a pinch-bar, one stroke of the lever raising or lowering 1 in. The weight can be raised from 2 in. above the ground to 31 in. By turning the top pawl back, the weight can be lowered notch by notch, or can be dropped instantly by pulling the lever lower. Made of six plain pieces of best grade malleable iron, with no springs or hooks to get out of order. Furnished with wood handle, length 28 inches. Weight 30 pounds.

192C4075— Price **$3.95**

Shoveling Board



For outside of box. Easy to attach. Well painted. Made for boxes, width 38 inches or 42 inches. Height 36 inches. Weight, 40 and 50 lbs.

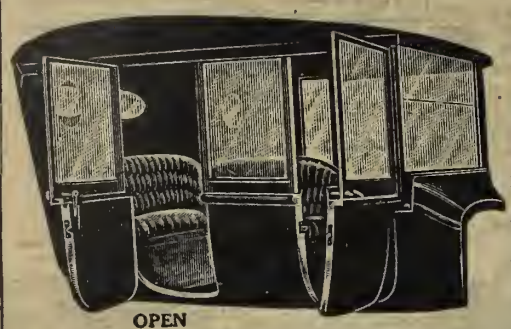
Interesting and True



Not very long ago, Mr. S. Monroe, of Fairbanks, Iowa, wrote us the following letter:—"Can you furnish one brass boxing No. 8 for your Clipper windmill 10-ft. wheel? If so, what is the price? Have used this mill 15 years and this is the first repair."

And, a little later, Mr. C. S. F. Chaffee, Gillette, Wyo., wrote in, ordering three new shares and three land sides for this Pasadema Plow, which he bought from us twenty years ago.

These articles are fifteen to twenty years old. Do we fill orders for new parts for them? We do—just as quick as our office can make out the order and get it into the shipping-room, and the goods go forward that same day. There is not an hour of unnecessary delay.

And let us make it clear to you right now about this spare parts proposition; we carry in stock with all machines an ample supply of renewal parts. We can make immediate shipment of these parts. In fact, in the majority of cases, we can make quicker shipment than the factories that manufacture the machines, because the progress of our orders through the house is much quicker and every effort is made to get parts orders out the same day the order is received.

Any Part Any Time

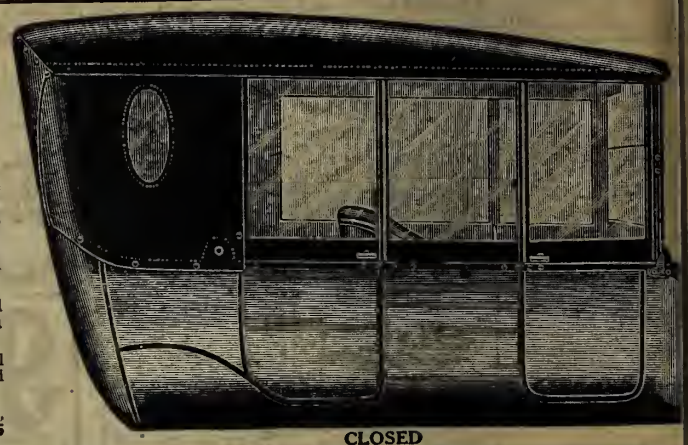
OPEN

Clear vision and broad view for every passenger in the car. Glass slides are set in enameled steel frames with heavy tape between glass and frames, making a noiseless, firm setting.

Doors cannot rattle, because fitted with anti-rattle rubber inserts.

Convertible Tops for Fords

Our new convertible top for Ford cars. Note how comfortable and stylish it is. Your Ford equipped with this top will be complete as well as graceful in appearance. The top gives you complete protection from rain, cold and dirt. In 30 minutes' time you can convert it into a pleasant-weather top.



There is nothing to shake, squeak or rattle and you'll be surprised at the ease with which you can put it on your car.

Top material is highest grade long-grain artificial leather—better than real leather because it will not crack and is strictly weather proof.

Shipped from factory in Illinois.

We can quote you a special price on almost any kind of detachable a body you may desire.

Our Harness Factory—the Home of Wardway Harness

The service you get from a set of harness depends entirely upon three things—the quality of the leather, the quality of the mountings, and the way the harness is made.

We make much of our harness in our own factory—we use nothing but bark-tanned leather—we use the best mountings the market affords—we employ none but the best workmen.

The machinery in the Wardway factory is of the latest improved type. It does better work and quicker work—it reduces the cost of making harness and improves the quality.

There is no secret about making Wardway harness, it simply means good materials and good workmanship.

Wardway harness comes directly from our factory to you. There is only one profit for you to pay. That makes the price of Wardway harness always low.

Free Harness Dressing

With every set of Single Harness we give a quart can, and with every set of Double Harness a half gallon can of our famous Circle Braud Harness Oil.

Every harness user will find it a big saving, to oil his harness twice a year with our high-grade harness dressing. This will prevent the stitches from rotting and the leather from drying up, cracking or becoming water-soaked. You owe yourself the few minutes it will take.

Wardway Latigoe-Lined Buggy Harness

$17.60

An Extra Strong Harness Made Especially for Hard Usage. Cut from First Class, Well Tanned Harness Leather, reinforced with latigoe rawhide (Indian tanned) leather tanned especially for Montgomery Ward & Co. The Latigoe Leather used in this harness is not the imitation or cheap kind but is tanned in a careful manner from especially selected hides. This leather has a very strong fibre, is very pliable, does not need oil and is extremely strong. It has been proven by actual test to be 40 per cent stronger than harness leather.

All parts of this harness that are subject to extra strain and wear are reinforced with this especially tanned stock, making a harness that is exceptionally strong and cannot be beat for wearing quality. If you have not already used one of our latigoe harnesses buy one and be convinced that there is none better in the harness family; it is reinforced where the arrows point on the large and small illustrations. **Bridles**, ⅝ in. box loops, patent lea her blinds, round winker stay, five buckle overcheck with nose band, leather front, and rosettes. **Lines**, 1 in. spring billets, 1½ in. hand parts; length, 13 feet. **Saddle**, swell pad with beaded edge housing, unbreakable steel tree. Metal bearer loop, heavy bearers lined with latigoe. (See full description of our special steel tree saddle as described under 95C6209.) **Bellyband**, single strap, Griffith style with heavy straps to wrap around shafts. **Shaft Tugs**, 1 in. with box loop. **Breast Collar**, extra wide single strap, V-shaped with neck strap tuge reinforced with latigoe rawhide. **Neck Strap**, scalloped point. **Traces**, 1¼ in. extra heavy single strap sewed to breast collar, scalloped and raised points, heel of traces reinforced with extra heavy latigoe rawhide. **Breeching**, 1¾ in. heavy single strap scalloped, points reinforced with latigoe rawhide. **Side Straps**, ⅞ in. **Back Straps**, ⅞ in., scalloped, heavy round crupper sewed in, reinforced with latigoe rawhide where hip-strap passes through. **Hip Strap**, ¾ in., cut from heavy stock. Made suitable for avorage horses weighing up to 1,300 lbs. Weight, boxed for shipment, about 45 lbs.

Wardway Hummer Team Harness

$44.75 Without Collars and Hitch Reins

95C1000

This is a high-grade harness, made strong and durable, cut from the best tanned leather. Has the Patent Cooper Clip attachments (as shown in illustration), eliminating possibility of traces ripping or breaking at hames, and allowing a free movement of the traces in all directions. The joint in the Cooper Clips allows an even pressure on the collars, regardless of the position of the traces when horses are pulling. Note the ring in the hip straps. This is a feature worthy of consideration, as a hip strap made in this manner fits the horse nicely; and should you have an accident, can be repaired easily. **Bridles**, ¾ inch, box loop, short cheek, brass spotted nosebands, round winker braces sensible blinds, short flat cheeks to check over hames, brass spotted fronts; brass rosettes. **Lines**, 1 inch, length 18 feet, with snaps. **Breast Straps**, 1½ inch, with snaps and slides. **Martingales**, 1½ inch collar straps. **Hames**, Iron Clad, red, 2¼ inch Chicago brass ball, illustrated as style 95C2046 (see hame page). **Traces**, 1½ inch, length, 6 feet, double and stitched, fastened to hames with Cooper's jointed clips, six link heel chains sewed in. **Bellybands**, folded, 1¼ inch buckles. **Breeching**, folded 1¼ inch layers. **Back Straps**, 1 inch, double running to rings in hames. **Hip Straps**, 1 inch, three-ring style double with brass spots and brass buckle shields. **Side Straps**, 1½ inch single reverse. With brass trimmings and Japanned (black) buckles. Suitable for horses weighing up to 1,500 pounds. Weight, boxed for shipment, about 75 pounds.

95C1000—Price, without collars and hitch reins, per set.....$44.75

Premier Special

95C175—95C176

$17.75

Single Strap Buggy Harness

If you want something out of the ordinary, that will give your horses a fino appearance and something that you will be proud to show your friends, buy this set. Read the detailed description carefully and note the value we are offering you.

Note the **Special Features**—line ring attachment in the neck strap, and also in the hip strap. This feature alone makes the harness far more attractive in appearance, and also gives you just what you desire for keeping lines in proper position and out of the way of the horse's tail. These special parts are made of **solid brass.** Note also that the set throughout is **full brass or nickel trimmed, with neat half-side swedge buckles.** Either finish set off the harness to advantage. The grade of leather used in the set throughout is A-1 in quality. We have spent special effort in building this particular set to give you a harness of excellent grade, as well as attractive appearance.

Bridle, ⅝-inch box loops; patent leather blinds; round winker stay; double and stitched front; layer on crown, fancy rosettes; Over-Check with nose band. **Lines,** ⅞-inch, spring billets; 1¼-inch hand parts; length, 13 feet. **Saddle, Flexible Steel Tree,** 3-inch single strap, swell patent leather jockey, long beaded edge housings; harness leather skirts, heavy. Dee bearer with metal loop; leather bottom sowed pad. **Belly Bands,** Griffith style, with long billets; ⅞-inch wrap straps for shafts. **Shaft Tugs,** 1-inch, with box loops. **Brast Collar,** V-shaped, extra heavy and wide. **Traces,** 1¼-inch scalloped, and raised long point, with hox loop lead-ups, stitched to hroast collar. **Breeching,** 1⅝-inch, raised long scalloped point, with hox-loop lead-ups. **Side Straps,** ⅞-inch. **Back Straps,** ⅞-inch, scalloped **round cruppers, sewed on. Neck Straps,** ⅝-inch, sewed into special combination line ring and Dee. **Neck Pieco,** folded with layer sewed into ring where arrows point. **Hip Straps,** ⅝-inch sewed into special conbination line support, and ring with ¾-inch double and stitched **connecting hip strap,** through hack strap from ring to ring. Made suitable for average horses weighing up to 1,250 pounds. Weight, boxed for shipment, about 30 pounds.

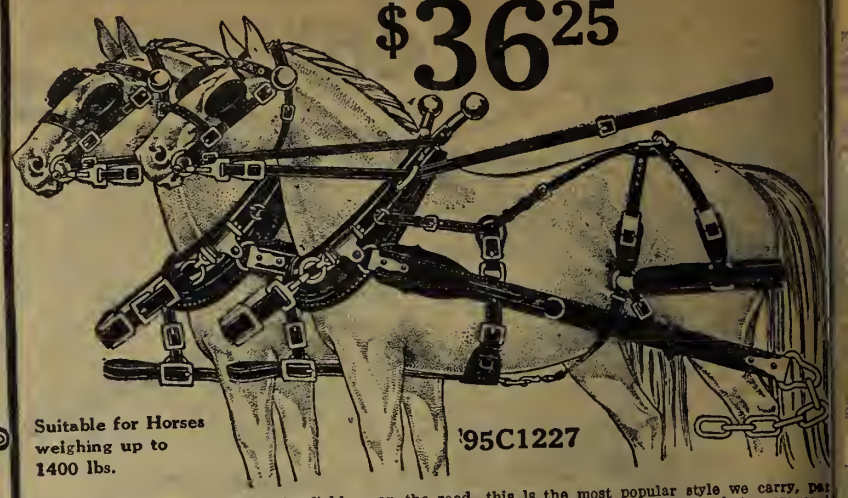
Wardway Competition Team Harness

$23.65 Without Collars or Hitch Reins

95C1190

Constructed to meet the demand for a low priced Team Harness

Suitable for horses weighing up to 1250 lbs.



In this harness we feel that we are presenting an unequaled value. Rivets have been used wherever practicable, sewing only such parts as are subject to hard wear and great strain. By this method we have reduced the labor cost very materially, but have not in any way impaired the wearing qualities of this harness, and we are enabled to offer it at an unusually low price. We have given special attention to the Traces, Hame Tugs and other parts that are subject to hard wear and these parts will stand as hard service as many harnesses that sell at considerably higher prices. Bar buckles throughout. No Changes. We cannot make changes on this style, without a considerable increase in cost and the low price we offer this set for is possible solely because of the fact that this harness is made up complete on a large quantity basis.

Bridle, ¾ inch cheeks, sensible blinds, flat winker braces, flat side checks, with gags. **Lines,** ⅞ inch, length, 18 feet, with snaps riveted on. **Breast Straps,** 1½ inch, riveted, with snaps and slides. **Martingales,** 1½ inch, bar buckle riveted. **Hames,** iron over top clip. **Hame Straps,** ⅞ inch, iron loop. **Hame Tugs,** 1½ inch, double and stitched, iron loops, with 3 loop Champion trace buckles; 1¼ inch bellyband billets. **Traces,** 1½ inch, length, 6 feet, double and stitched, with clip cockeyes. **Pads,** flat, shaped with 1¼ inch layers and billets, check hook for side checks, no line terrets. **Bellybands,** 1¼ inch single straps. **Back Strap,** ⅞ inch, with metal trace carrier riveted on, folded cruppers to buckle. **Hip Straps,** ⅞ inch, riveted to trace carrier, with ⅞ inch lug straps. **Mountings,** Japan (black); made suitable for horses weighing up to 1,250 pounds. Weight, boxed for shipment, about 65 pounds.

95C1190—Price, without collars and hitch reins. Per set..... **$23.65**

Wardway Universal Team Harness

$36.25

Suitable for Horses weighing up to 1400 lbs.

Wardway Premier Team Harness

$44.55 Without Collars or Hitch Reins

95C1203

Suitable for horses weighing up to 1500 lbs.

This is a high-grade harness made strong and durable, cut from the best of leather. The joint in the patent clips allows an even pressure on the Collars, regardless of the position of Traces when horses are pulling. (Note the Ring in the Hip Straps). This is a feature worthy of consideration, as a Hip Strap made in this manner fits the horse nicely and should you have an accident, can be repaired easily at a small cost. This harness combines all the features which go to make a first-class team harness. is an exceptional bargain at the price. Read the description carefully and note the different ways we can supply this harness. **Bridles,** ¾ inch box loop short cheeks, with spotted nosebands and spotted double and stitched fronts, round winker stays, sensible blinds, flat checks to cluck over hames. **Lines,** 1 inch; length, 18 feet, with snaps. **Breast Straps,** 1½ inch by 4½ feet with snaps and slides. **Martingales,** 1½ inch with Collar Strap. **Hames,** Ironclad, Red Brass 2¼ inch Chicago ball top bolt, illustrated as style 95C2046 (see Hame page). **Hame Straps,** 1 inch. **Traces,** 1½ inch double and stitched; length, 6 feet, attached to Hames with Cooper's jointed clips; 6 link heel chains sewed in. **Back Bands,** flat lined, brass spots, 1¼ inch billets. **Bellybands,** folded, 1¼ inch buckles. **Back Straps,** 1¼ inch single, running through loop on pad to top hame strap. **Hip Straps,** 1 inch double, 3 ring style, with brass spots above and below ring with brass buckle shields. **Breeching,** folded, 1½ inch layers. **Side Straps,** 1½ inch single reverse with snaps. Made up with brass trimmings and Japanned (black) buckles. Suitable for horses weighing up to 1,500 pounds. Weight, boxed, for shipment, about 80 pounds.

Clipping your Horses means cutting your veterinary bills

Horse Clipper Complete with Grinder

$8.95

Illustration shows grinder and correct position of holding plates on wheel. This grinder is included with the machine and is operated by the same driving gear. Attached to the machine, as illustrated. Full directions for operating included with every machine.

95C24—Shipping weight, 12 lbs. Price of grinder only $2.00

Horse Clipping Head and Plates

Weight, 18 ounces

95C15

Price..... $3.50

A full set of instructions for the proper method of operating and caring for the machine packed with each one

A hair cut gives your horse more vim and vigor, improves its appearance and increases its working capacity. This means more earning power and more money for you.

For $8.95 and a little energy you can have your horse as clean and fit for work as any horse in your neighborhood. If you have two or more horses you will save more than the modest cost of the clipper by putting them in better working condition. By renting out the clipper you can make it earn money for you.

Sheep owners who clip their animals by hand will find that with our Sheep Shearing Machine they can cut closer to the skin, thus getting more wool, which means more money.

Dairymen will also find it of value for occasionally clipping the hair from flanks and udders and the hair from the entire cow at least once a year.

The Improved Lakeside is simple to operate. Any hired man or boy can operate it in a very short time by following the simple and complete instructions that accompany each machine. Saves time and money. Keeps your stock in better condition, and is a necessity around any farm or ranch where cattle, horses, sheep or other animals are kept.

The plates easily pass through the dirtiest and thickest wool or hair without vibration. Nothing complicated to get out of order.

The Improved Lakeside is an easy-running, durable machine. The tripod piece and the 2-piece upright are well made of metal throughout and have a good appearance. Height, 42 inches, set up. Comes complete with one set of knives. When properly operated and cared for, can be used indefinitely, without fear of breaking. Order one now. Inspect it and try it.

For stockmen, sheep shearers and ranch owners who have large flocks of sheep or more than 24 head of horses we recommend our Lakeside Power Shearing Machine. Write for description.

195C10—Improved Lakeside Horse Clipping Machine, complete with grinder. Shipping wt., 50 lbs. Price, each $8.95

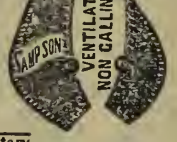
Each $0.38
Per dozen 4.20
Weight, 6 oz. each.

Curled Hair Collar Pads



Made only of pure, cleansd horse mane hair of natural black color and antiseptically treated. These pads are both **humane and sanitary. Humane,** because they will not gall a horse; on the contrary, they will help relieve a sore neck. **Porous,** the air is constantly passing through the housing or collar pad. **Sanitary,** because they can be easily cleaned by rinsing in hot or cold water. We carry these pads in three styles and different sizes. See index for housings.

Curled Hair Collar Pads

Made of curled hair with four rows of stitching, with strap on each end. Size, width, 7 in.; length, 10 in. Weight, about 5½ oz.

95C2269—Sizes, 17 to 22 in. Each..... **85c**

Instructions for Measurements

(See Illustration)

The size or length of a collar is found by measuring the length in inches from top (A) to bottom (B), on the inside, as shown in the illustration. The draft of a collar is found by measuring the circumference in inches at the heavy part of collar (C), and (D), as illustrated in cut. Measure clear around the collar here, from (C) around to (C). By following the instructions closely, you can make comparisons which will be of value and can insure getting a fit for your horses when you write in your order. Our Collars stand the closest inspection inside and out. Comparisons with the so-called Just as Good grades in fullness, size and quality will prove to you that ours are not only exceptionally high-grade but extremely low in price. Be sure to state eize of collars wanted.

Our Horse Collars

Always Give Size Wanted

Weights

Add to Each Collar 2 to 2½ lbs. extra for packing

Our Horse Collars have been improved from year to year until we now have a well fitting line of serviceable, well-made, high-grade collars at low prices.

The Leather is the best for the purpose; the patterns are the latest, designed by men who have made a life study of the Horse Collar business and know what is needed to make first-class collars. Our Collars Are Stuffed With the Best Grade of Thoroughly Seasoned Rye Straw, moulded over the most modern collar blocks, giving each collar a smooth, even surface, with ample hame space, eliminating possibility of hames pulling off. They will fit well, will not hurt the horse, and are sure to give satisfaction. If you have not purchased collars from this catalogue you do not appreciate the quality nor the values we are now offering. Don't Be Misled By These Low Prices, Our Collars Are High-Grade. You are protected by our liberal guarantee. Pick out the collars that suit you from the styles shown; after they arrive, inspect them, fit them on your horses, and you will agree with us that you have obtained a decided bargain—first class collars at a good saving in price.

SADDLES

These are all good Saddles, honestly made and correctly described. When we say a saddle-tree is hide-covered we do not mean sheepskin covered, but real, genuine hide, such as you would wish to have on the saddle you buy. These same high-grade saddles are commonly sold at much higher prices than we ask, and are seldom offered at the low prices we quote, quality considered. The large variety of styles also speaks for itself.

We carry these in stock ready for immediate shipment. We also call your attention to our line of high-grade riding bridles, bits, spurs, chaparejos and accessories. All Saddles carefully packed.

This picture ehows detail of steel cable rigging (rawhide covered). Non-corrosive. Kant-Kum-Out

One of the strongest and best stock saddles ever constructed. For durability, service, comfort and easy riding they are unsurpassed. Note the Special Features. Both numbers have exactly the same tree and construction, the only difference beingone is single and the other double-rigged.

Stirrups, wood, California, Ox-bow pattern, wood, bolted, braes-bound, leatbersd top and bottoms. The Doubis Rigged Saddis has skirts 28x14¼ in., sheep skin wool lined, laced to tree with heavy latigoe rawhide lace etrings. Thirty-etrand heavy fieh cord, front cinch. Extra heavy, 4 in. web rear cinch, both cinchas leather covered, with wool cbafes and connecting straps. The eingle rigged saddle has skirts 26x14¼ in. sheep skin wool lined, laced to tree with latigoe lace strings and girthed witb one extra wide, 30-strand, extra durable, California hard hair cinch, with wool-lined latigoe, trimmed leather chafes, as shown in illustration. Leather throughout on both saddles, highest grade selected California russet oak saddle skirting. You must see these saddles to appreciate their reat value. They are positively the best eaddles that can be made for broncho busting, roping steers, hard riding and rough wear. The special cable rigging will witbstand a strain of over 5,000 lbs. direct pull. Entirely eliminates the old style rings. Nothing to pull out or break. The cable is especiaiiy prepared to avoid rusting, and where exposed, is full rawhide covered. Duplicates of these saddles would cost you from $50.00 to $75.00 at retail.

A Saddle or Horse Blanket makes a practical gift

Horse Blanket Sizes: Read before ordering Blankets

Our Stable Blankets are cut full size and shaped to fit the horses perfectly. The sizes are marked plainly on each blanket. Size, 72 inch, suitable for horses weighing up to 1,000 lbs. Size, 76 inch, suitable for average horses weighing up to 1,300 lbs. Size, 80 inch, suitable for horses weighing up to 1,500 lbs. Size, 84 inch, suitable for average horses, weighing up to 1,700 lbs.

Wardway Stable and Storm Blankets

Why it will pay you to buy your Blankets from us

First: Because we take mill outputs in large quantities, thus getting the lowest price.
Second: We eliminate for you the jobbers' and dealers' profits.
Third: Because our motto always has been and still is, "Not how cheap, but how good for the money."

All the styles listed are cut full size, shaped to fit the horse properly and made under expert supervision in the best manner possible at the price. Ours are reinforced where many blankets are weak. The sizes are marked plainly on each blanket. **Stable blankets,** size 72 in., for horses weighing up to 1,000 lbs.; size 76 in., for average horses weighing up to 1,300 lbs.; size 80 in., suitable for horses weighing up to 1,500 lbs.; size 84 in., for average horses weighing up to 1,700 lbs. There are points about these goods that we cannot describe with pictures and words. We want you to buy our blankets, compare them with others, then you will know we can save you money. Remember, our liberal selling methods protect you fully against any defective article.

High-grade Materials Proper cut and fit

Our Stable Blankets Are Cut Full Size, and Shaped to Fit the horse properly. All styles listed here are made under expert supervision in the best manner possible at the price; all are reinforced where many blankets are weak. All Stable Blankets sold by us have a special leather reinforced fastener on front—the best obtainable. The front, as all users of blankets know, is the weak point in an ordinary blanket. Our Blankets are built on the plan of How Good, not How Cheap, for the money.

M. W. & Co.'s Fit-well Wide Surcingle Stable Blanket

$1.80

95C4200

Our new Fit-Well wide Surcingle Blanket—just what the name implies. Well shaped, and fits the horse properly.

It is a leader with us—a blanket of quality and merit. Retail value as high as $2.50 for a blanket of this style and grade. To sell large quantities, we are quoting them at especially attractive prices. The blanket is made of extra quality quilted burlap, mangled finish. Full-lined with superior quality brown kersey fabric, very strong, and really the best blanket to put on a warm horse, as it will absorb the perspiration and dry him thoroughly. Eight rows of stitching, bound neck and front, with two 3½ inch wide adjustable web surcingles, and extra wide stay to second surcingle. Strong leather strap, and snap fastener sewed on and riveted. A strong, warm and durable blanket to give excellent satisfaction. Made in two sizes.

Peerless Stay-in-Place Plaid Kersey Fabric Stable Blanket

$1.85

95C4217

Made by the most improved methods. The Fabric lining and outside of the blanket are woven together, with a center lining of best quality, finely woven burlap, making a blanket that is heavy and warm. This is a special pattern made only for us, and is really just what the name implies. Made to fit like a tailor-made garment, and when properly girthed will not come off. A beauty in appearance and fit, and will wear well. The pattern is a neat, square block plaid, in two-tone brown colors. The neck, front, bottom and rear of the blanket are bound all around with 2-in. boot web trimming, which makes a very attractively finished blanket. Long stay to second surcingle. Two wide 2-in., heavy boot, web surcingles. Extra reinforcements on the front where the front fasteners are attached. Retail value as high as $2.50 for a blanket of this grade and character. We have sold thousands of this pattern with unvarying satisfaction to the user, and you will find it a bargain at the price we offer it. Made in two sizes only.

95C4217—Length, 76 in. Weight, about 5¼ lbs. Price, each (for 1 horse).....**$1.85**
95C4218—Length, 80 in. Weight, about 5¾ lbs. Price, each (for 1 horse).....**$1.95**

Our Big Offer Blanket

95C4243

$1.15

A blanket that will wear well and give the user good service. We have placed a very large order with the manufacturer of this special blanket, and by so doing are in a position to sell you a blanket that would regularly retail for prices at least one-third higher. A burlap stable blanket, made from 10-oz. mangled finish burlap, ¾ lined with gray mixed wool blanket lining, two adjustable web surcingles, with stay to surcingle, substantial reinforced leather snap and dee fastener on front, where many blankets are weak. An exceptional value, made in the following sizes:

95C4243—Length, 72 in. Weight, about 3¾ lbs. (for 1 horse)..**$1.15**
95C4244—Length, 76 in. Weight, about 4¼ lbs. (for 1 horse).. **1.23**
95C4246—Same as above, full lined. Size, 76 in. Weight, about 4½ lbs. (for 1 horse)..... **1.33**
95C4247—Full lined. Size, 80 in. Weight, about 5 lbs. (for 1 horse) **1.40**

Our Universal Stable Blanket

$2.70

95C4250

Practically a new blanket with us. A blanket that answers three purposes. In reality, it is a first-class Stable Blanket, but it can be used also as a kidney cover in wet weather, and is warm and heavy enough for a storm blanket. This is constructed from a dark gray covert cloth, with heavy dark gray, mixed wool blanket lining, scarlet and green striped. These two layers of fabric are waterproofed, and attached to each other by a rubber composition, giving the effect of one piece of fabric. Close woven, exceptionally warm and durable. A 2-inch boot web binding neck and front. Long stay, and two 2-inch boot web surcingles, all-over reinforced front, and strong metal breast fastener. You will make no mistake in the purchase of this blanket, as it will not show wear readily. The coloring is a quiet tone effect, does not show the dirt easily, and is a blanket of exceptional merit in wear. We have it in 2 sizes.

95C4250—Length, 76 in. Weight, about 7¼ lbs. Price, each (for 1 horse)..**$2.70**
95C4251—Length, 80 in. Weight, about 8¼ lbs. Price, each (for 1 horse)..**$2.85**

Khaki Duck Stable Blanket

$2.45

95C4255

The duck in this blanket is a beautiful old gold color, known as 10-oz. double-filled Army Duck. Full lined to edge with extra quality, fancy printed fabric lining. Trimmed with 2 inch boot web around neck and front and surcingles. Substantial metal front fastener; 18 rows of stitching; reinforced breast piece. A blanket that will always look well, hold its shape, and made to stand hard usage. A stable blanket costing more than others, but worth much more. We carry it in three sizes only.

95C4255—Length, 76 in. Weight, about 7¾ lbs. Price, each (for 1 horse)..**$2.45**
95C4256—Length, 80 in. Weight, about 8¼ lbs. Price, each (for 1 horse)..**$2.55**
95C4257—Length, 84 in. Weight, about 8¾ lbs. Price, each (for 1 horse)..**$2.65**

Fancy Striped Burlap Special

The Proper Shape—Covers The Horse—Kan't-Kum-Off

Our most popular stable blanket—a dandy in appearance. Built for service. A blanket that will show off your horses to advantage, keep them warm, and wear well. It is our leader and a value at the low price at which we offer it. Retail value, $2.25 to $2.75 for this style and grade. Extra quality, mangled burlap outside, in a neat and attractive striped pattern; full roped edge around neck and breast, with patent non-slip fastener, and reinforced breast piece. Two navy blue adjustable web surcingles, with patent fasteners. Will girth the horse properly, as shown in illustration. The blanket has a strong kersey fabric lining, which readily absorbs perspiration and prevents the horse from catching cold. You will make no mistake in ordering this pattern. The illustration gives a faithful reproduction of the style and fit of the blanket, and you will find it a very desirable pattern, as well as one that will give you excellent service. We have it in two sizes only.

95C4261—Length, 76 in. Weight, about 6¼ lbs. Price, each (for 1 horse).....**$1.80**
95C4262—Length, 80 in. Weight, about 7¼ lbs. Price, each (for 1 horse).....**$1.90**

Our 20th Century Fit-well Model Stable Blanket

$1.80

ero Storm Blanket

Price, each (for 1 horse).....**$3.60**

Wardway Blizzard-Prince Weather-Proof Blanket

The Storm Blanket for all kinds of Rough Weather

95C4311-12

This blanket is practically a new style and product originating with us, and in our estimation is really the best trus storm blanket made. The outside of the blanket is constructed from an extra heavy quality 10-oz. army duck. Chemically treated, so as to make the fabric practically water-repellent. It is absolutely pliable under any and all conditions; will not get hard or stiff, and will not crack in the coldest weather. It is not sticky in warm weather, as ordinary oiled, water-proof covers are, yet it is porous to the extent that it permits the passage of air through the material. You will find while in use that it sheds rain like water running off a duck's back, and the fabric is very firm and close woven, making it durable and warm. To this fabric is sewed an excellent quality, substantial fancy striped bed blanket lining. It is a blanket that will prove to be desirable in most any climate, and sure to keep your horses warm and dry. It must not be confounded with cheap grade blankets, as it is intended for folks who desire one that will last and give good service for several seasons. For this reason, it costs more than most blankets do, but you will find it worth much more. The blanket is trimmed with adjustable buckle and billet front fosteners, with steel snaps, reinforced breast piece, trace carriers and hame leathers, as shown in illustration. We carry it in two sizes only.

95C4311—Size—Width, 80 in.; length, 80 in. Weight, about 8 lbs. Price, each (for 1 horse)....**$4.50**
95C4312—Size—Width, 84 in.; length, 84 in. Weight, about 8½ lbs. Price, each (for 1 horse).... **4.75**

New Ironside Cover to Head

$2.95

2 Leading Values in Rain-Protector Covers

Entirely unlike the ordinary covers which are generally saturated with oils, paraffines or greasy products that are neither cleanly nor sanitary. The duck used in these covers is known as 12 oz. sail duck, very durable and close woven. The water-proofing is a chemical process by which every fibre of the cloth is rendered water repellent. The treatment tends to make the fabric stronger, if anything, than the original duck. The cover finished in a deep tan color, like Army Khaki. The fabric remains pliable under any and all conditions; will not get hard or stiff in the coldest weather, yet is porous. Very sightly in appearance and will stand hard wear. It is just the cover for you to use in the spring and fall months, as aside from its water-shedding qualities, the duck in the cover is strong enough, and heavy enough to keep out cold and dampness. We carry only two covers of this kind, one to head at $2.95, and the other to hame at $2.65, as shown in illustration. The best water-repellent cover we offer. Extra strong hame leathers with line rings, leather trace carriers with snaps, reinforced breast piece, line pocket, and adjustable front straps. Suitable size for average horses.

95C4340—Cover to head. Weight, 4¼ lbs. Length from ears to tail, 7 ft. 6 in.; and from tail to breast fasteners, 6 ft. 6 in. Price, each (for 1 horse).....**$2.95**

95C6144—
Jap trimmed..... 3.54

Single Strap Steel Tree Gig Saddle

Our Special Steel Tree Gig Saddles (or buggy back bands), that we are using in our single harness, are the best that are made. The trees in our Special Gig Saddles are heavy tempersd steel plate. (See small illustration style A) eliminating the possibility of breaking. You know you always have trouble with the old style sooner or later. The pads are full leather, sewed all around the edge (not tacked to pasteboard), and stuffed with hair (see small illustration style B). The Bearers (or shaft holders) are heavy, double and stitched, sewed into metal loop, this loop being attached to heavy piece of metal held in place with pad screws and line terrets. The skirts are cut from heavy, single strap harness leather, with billets for bellybands sewed on.

The Bearer Loop before mantioned allows a free movement of the bearer in all directions; no old style loops to tear out; no hearer pulling loose and causing an accident.

Gig Saddle single etrap harness leather skirts. Steel Tree, leather lined, sewed straight pads with dee bearers 3 in. saddles with 1 ln. shaft beerers straps and ⅞ in. bellyband straps. Prices do not include shaft tugs or bellybands. Weight, 2¾ lbs. Made in the following trimmings. .

A broken part in your buggy makes the entire outfit look old

Our Economy Automatic Lock-Stitch Sewing Awl Repair Outfit

The simplest and most practical harness and shoe repairing outfit on the market. Contains all the necessary tools for doing any kind of leather repairing. Especially desirable and a money saver for farmers, teamsters and livery men. The outfit contains one lock-stitch automatic wax thread sewing awl, one needle for heavy stitching and general repairing, one small needle for light stitching, one curved needle for sewing patches on shoes, one collar awl for repairing and sewing sweats in collars, lacing up belting, etc. Two spools of our special linen thread No. 3 and No. 5 all ready twisted and prepared to wax, one collapsible clamp or stitching horse, one ball of wax, one extra bobbin, one wrench, all put up in a cardboard box with complete set of instructions. This awl will stitch the heaviest tug or the lightest glove. With it you can repair shoes, harness, belts, rugs, carpets, tents, awnings, canvas of all kinds, mittens, saddles, buggy tops, etc. The awl carries a grooved needle, such as is used in all lock-stitch sewing machines and the thread is carried from a bobbin inside of the handle, where it is protected and out of the way. It is so simple any one can use it and you will find it will save you many dollars during the course of a year. Weight, packed for shipment, 25 oz.

Tubes larger than No. 6 will not fit the frames of four tubs or six tube Osborne's punches.

Improved Circle Brnad Harness Oil

A superior oil for preserving harness leather. Keeps leather soft and pliable. Prevents cracking and cracking, avoiding scratching and marking. A few applications gives an old harness a fine lustre gloss, like new. Sweat and dirt do not effect leather treated with this oil. Not only preserves the leather itself, but prevents threads from cracking, hardening or rotting, thus lengthening the life of harness considerably. This oil, applied when ever necessary, makes your harness look better and last much longer. Contains only highest grade stock, properly compounded. The addition of Neatsfoot Oil to Kid Oil keeps leather soft and pliable, and entirely water-proof. No better harness oil made. Used to good advantage on any similar leather surface exposed to weather and hard usage. Buy Circle Brand Harness Oil.

Myer's Famous Lock Stitch Sewing Awl

This Awl is designed for speedy stitching, particularly for farmers' use, and will be found a time saver in nearly every household. Its simplicity makes it a practical tool for all kinds of repair work, even in the hands of the most unskilled.

With this tool you can mend harness, shoes, tents, awnings, pulley belts, carpets, saddles, buggy tops, suit cases, dash boards, or any heavy material. You can sew up wire cuts on horses and cattle, therefore the veterinarian and stock man finds it indispensable.

The Awl, proper, is grooved to contain the thread or waxed end, and the point, being diamond shaped, will go through the toughest leather, any thickness. It is the best Lock Stitch Sewing Awl we have ever seen, and we know from actual test that it is the most practical awl and sewing machine for general use ever devised. This awl is not a novelty, but a necessity, and has been proved by our enormous sales to be a labor saver to every user.

The awl comes packed complete with one straight and one curved needle, one reel waxed thread, small wrench and screw-driver combined, and complete set of directions for use. Weight, about 3 ounces.

Flavors, Aromas and Economy Qualities of Our Tea and Coffee are the Result of Half a Century's Experience

Teas and Coffees for Every Taste

In our immense Grocery Department we carry many brands of Teas and Coffees. For every taste we have a grade, that will make a complete, satisfying drink, according to your selection.

Why are M. W. & Co.'s teas and coffees so popular?

Because the head of this department has made the study of tea and coffee his life work. He has been buying from the leading coffee producing countries for years, with the result that he has access to the choicest qualities from the finest sections.

From the planting of the trees, all along through the different processes of picking, shipping, testing, blending, roasting—we watch, test, accept or reject. Our main purpose is to please the thousands of critical users who come to us for their Teas and Coffees.

When you try any one of our many grades—when you have a cup of either delicious beverage before you and revel in the delight of unusual flavors and aroma—you'll get a new appreciation of Tea and Coffee. You will have evidence of the thought and care which enter into the production of every pound we ship in the useful containers to our customers.

Our Grocery Price List is Brimful of Food Values It is FREE

It's published every two months. It will show you newer ways of economy. It brings you interesting news of canned foods, fruits, flour, sugar, flavoring extracts, preserves, fish, meats—everything you would expect to find in one of the world's largest grocery stores.

And the prices will please you—surprise you.

Send for this valuable Price List. It comes every two months. Tell us to place your name on our mailing list—that's all you have to do to receive it.

Your Tea and Coffee selections from our regular Grocery Price List insure you of quality-satisfaction every time. The prices offer especially big money-saving opportunities.

THERE comes a time in life when every family experiences the necessity of erecting a suitable gravestone for a dear departed one. At such a time a firm which has a reputation for square dealing and honest prices naturally can be of the greatest assistance.

We believe we have amply demonstrated the high value of our methods of doing business, in providing the every day needs of life. We know that the steady growth of our monument department has been due to the greatly appreciated service rendered our customers by saving them a large part of the high prices which must be paid when purchasing a monument in the regular way.

This branch of our service is fully described in a special 126-page Monument Catalogue which we issue. This book has helped many hundreds of our customers in making a suitable selection, and saving from one-third to one-half of the price asked elsewhere.

From this special Monument Catalogue you will be able to select at your leisure just the monument that will suit you in every respect. Every monument is an example of unsurpassed quality, original design and superior workmanship at the lowest price possible. Each one comes to you from the quarry, and safe delivery is assured. The catalogue will explain how easily a tombstone can be erected.

If you will write us, or send a card telling us you want this catalogue, it will be sent postpaid without delay.

Which One of these Special Catalogues is of Interest to You?

We have especially prepared these books for those who are interested in some line of merchandise out of the ordinary where the subject is not completely covered in our large General Catalogue.

We ask you to first look through our big General Catalogue; there you will find that most of these lines are given considerable space and thought. We will be glad to send at once post prepaid any of these books.

Inside Our Chicago Store

Library

Doctor's Consultation Room

Dentist's Office

Restaurant

WHENEVER you or any of your friends come to Chicago, try to make it a point to visit our store. It is only a short distance from the principal hotels and we shall be only too glad to show you through our institution.

We have more than a merchandise establishment to show you. As you are interested in the good of the people about you, so we take a vital interest in the welfare of the thousands who make up the personnel of this institution.

A branch of the Chicago Public Library is maintained in our building and all of our employees are encouraged to make use of it.

The physical well-being of our employees is also given careful attention. Several physicians are constantly on duty and their services are free to all employees. Our Medical Department is equipped on the lines of a small hospital, with consulting rooms and operating room.

A Dental Department is also maintained for the benefit of employees and they are encouraged in every way to give proper attention to their teeth. For dental work, employees are charged only the cost of the materials used and a reasonable fee for dentist's time.

Good food is essential to efficient work, and we try to supply at all times good and wholesome food at reasonable cost. On the top floor of our building there is a restaurant and cafeteria. Here meals are served to employees at cost and tables are also provided for those who prefer to bring their lunches.

The employees of this firm have a Mutual Benefit Association which pays sick benefits. In addition, the Management maintains an insurance system which gives full protection to those who have been with the company for at least five years.

In conducting these welfare activities, the Management is prompted not only by the policy of fair treatment, but also by the belief that it is *good business.* To merit the loyalty of our employees by having them contented and in good health is just as good business as it is to merit the good will of our customers. As you may know, keeping the confidence and friendship of our customers has been a policy of Montgomery Ward & Co. from the beginning, and was the basis of the house principle "The customer is always right."

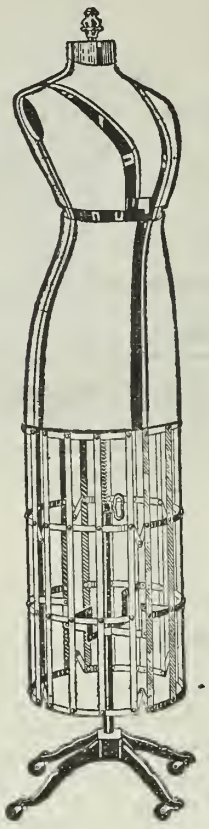
The Royal Independent

Adjustable 10-Section Dress Form

PRICE $7.50 EACH

Shipping Weight, About 45 Pounds



The Royal Adjusted to the Figure Assures a Perfect Fit

The Royal is not only a very practical and easily adjustable Form, with many distinctive features of its own, but also represents one of the best values ever offered in a complete Adjustable Dress Form. It is durably constructed and designed for simplicity of adjustment and automatically adaptable to a very large variety of shapes. Much better than most forms made.

The Royal is made to last a life-time. Material and workmanship are of the highest grade. All metal parts are of stamped nickeled steel. Skirt is also adjustable, and made of continuous flat steel bands, riveted and reinforced throughout. Strong steel extension standard permits lowering and raising to any desired skirt length.

Made in Two Sizes
120C2261
Size Number One

Bust measure. Adjustable, 32 to 43 inches.
Neck measure. Adjustable, 12 to 15½ inches.
Waist measure. Adjustable, 21 to 31 inches.
Hip measure. Adjustable, 33 to 48 inches.
Back measure. Adjustable, 12½ to 15½ inches.

Showing Form Partly Open

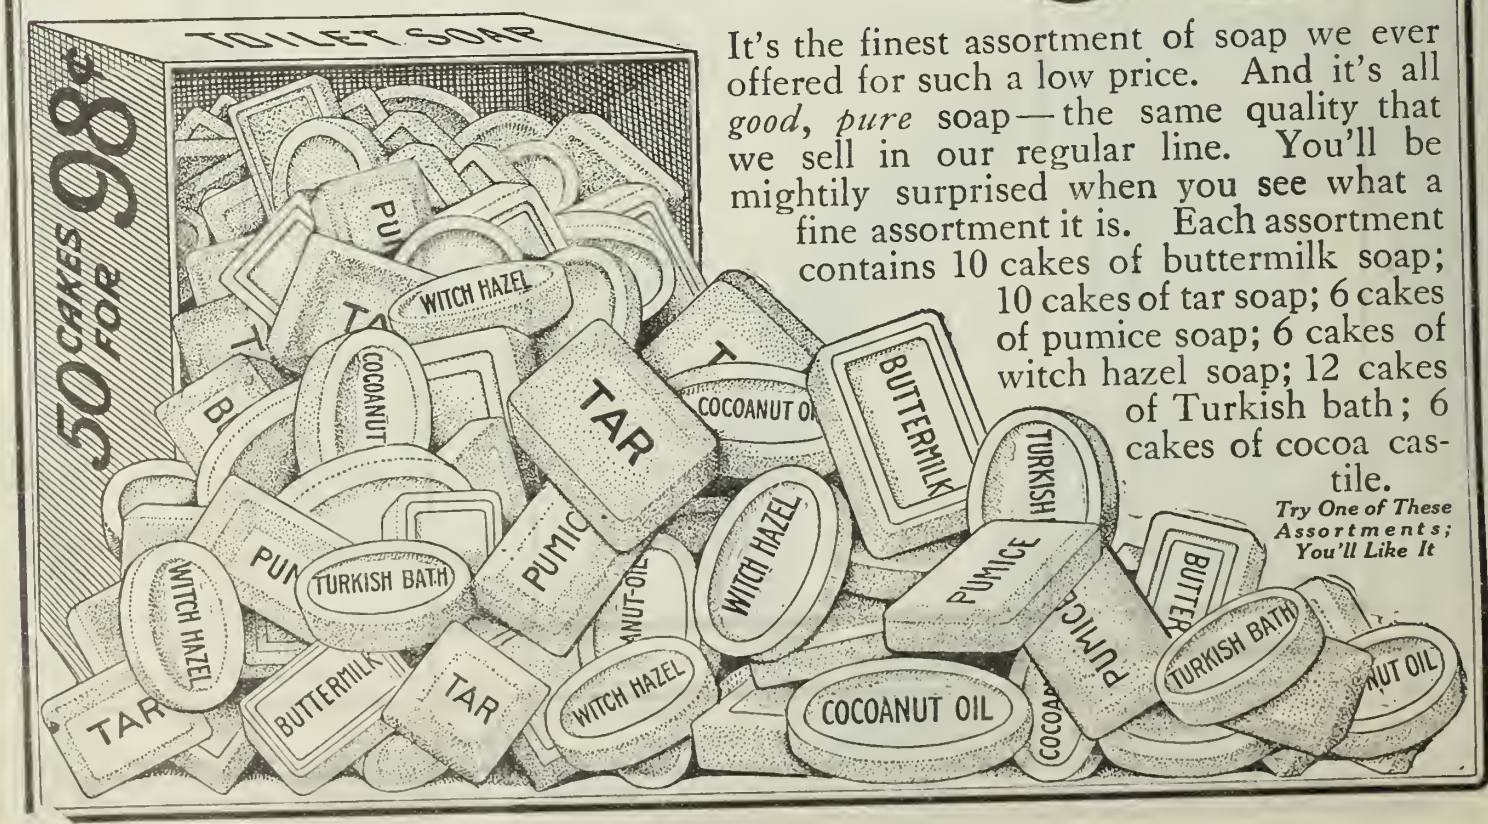
PRICE $7.50 EACH

Shipping Weight, About 45 Pounds

The Home Dressmaker Becomes an Expert with a Royal

The Royal is moulded on long contour lines. A ten part form. The upper or body part is made of especially prepared fibre Papier-mache, covered with Jersey Cloth, which permits pinning and draping with ease. Each part is independently adjustable, and arranged in such a way that a great variety of combinations and adjustments can be obtained. It can be made long or short waisted; broad, narrow or sloping shoulder.

Back, front and under-arm can be lengthened independently of each other. Waist and hips made larger or smaller. High or low bust; full or flat chest; and no matter what the adjustments are, it will always retain your general shape.



Made in Two Sizes
120C2263
Size Number Two

Bust measure. Adjustable, 35 to 48 inches.
Neck measure. Adjustable, 12½ to 16 inches.
Waist measure. Adjustable, 22½ to 32 inches.
Hip measure. Adjustable, 35 to 50 inches.
Back measure. Adjustable, 13½ to 16½ inches.

Comfortable Sleep is Half of Good Health

Healthy, sound, comfortable sleep is assured by correct weight bed coverings—these comforters and blankets are correct in weight, ideal in style, finish and quality, and exceptional values through and through.

Soft Downy Wool-Like Finish Cotton Blankets

71C2084

Size, about 72x80 inches. Weight, about 4½ pounds. Shipping weight, about 5 pounds. Gray, pink, light blue or tan plaids with fancy borders to match. State color wanted.

$2.95 A Pair

Carefully and thoroughly have we tested these beautiful plaid blankets for their strength, texture, weight and warmth—convincing ourselves that they are of exceptional quality and of much better workmanship than is ordinarily possible at this price. It is because the nap is so deep and soft, the kind you would only expect to find on high priced blankets, that the number of enthusiasts for these blankets grows tremendously with every season. A purchase that will prove wise and economical.

A Correct Weight Comforter—Full of Warmth

Get Under One This Winter

71C855

Mixed Wool, and Cotton Filled Comforter

$3.98 Each

Size, about 67x76 inches. Weight, about 3½ pounds. Shipping weight, about 4 pounds. Persian figured Silkoline covering in these ground colors: Pink, light blue, tan, rose, or green. State ground color wanted.

You'll be delighted with this dependable comforter. Filled with splendid quality of wool and cotton mixed comforter filling. Covered with a fine grade of Silkoline in a beautiful Persian pattern. Knotted center and stitched border. Made especially light weight. No need to load the bed down with heavy weight comforters, in order to sleep warm. When you sleep under a heavy load of coverings you are sure to feel tired in the morning—your rest has not been perfect. With this unusually good comforter you are assured of comfortable and restful sleep.

The Popular Lakeside Brace and Bit Set

A Striking Example of the Fine Values to be Found in Our Hardware Section

10-Inch Ratchet Brace Nickel Plated with Six Solid Center Bits, Full Polished

$2.30

85C9992—Set consists of a high grade nickel plated Steel Ratchet Brace, 10 inch sweep, with Six Solid Center Stem Auger Bits, and a Screw Driver Bit.

The brace has ring ratchet, strong chuck, and heavy 7-16 inch steel sweep. Finely nickel plated, with substantial wood head and handle. The Six Auger Bits are the famous **Lakeside** brand, tempered crucible steel, full polished. The shape is such that the solid center stem is carried through the twist to the point. Made with deep sharp lips, double cutters, and standard fast cutting feed screw. For general work in hard or soft wood. Fast cutting, clear easily, and bore smoothly. One each, ¼, ⅜, ½, ⅝, ¾ and 1 inch. Also a tempered steel screw driver bit, width about ¼ inch.

All high grade steel, first quality tools. Shipping weight, about 5 pounds. Per set..... **$2.30**

It's Just Play to Clean House with

The Superior Vacuum Sweeper

186C448—Shipping weight, 20 pounds. Price **$5.65**

Sweep, sweep—what a job it is. How you dislike cleaning day when your arms ache from handling the broom—and when your lungs choke with the dust.

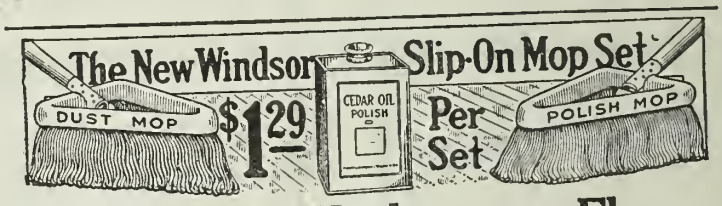
Here Is The Superior Way.

Just push the Superior Vacuum Cleaner with one hand—it generates its own power—and it will not tire you a particle no matter how many rooms you clean with it. It glides over the carpet, sucks up the dust and germs and deposits them in a bag. Brush automatically adjusts itself to nap of carpet and picks up all the lint and surface dirt. No dust raised—the carpets are clean—perfectly clean.

The Superior is but 6 inches high, making it easy to clean under heavy articles without moving them.

How simple, how easy, how cleanly. Try the Superior way and see what a difference it makes.

It will last for years. Count how many times you sweep each year—then you will see how much work a Superior will save you.



—and it costs only

Try It for 30 Days

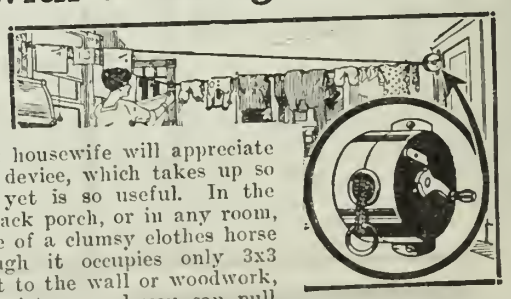
$5.65

186C448

A Wonder-Worker on Floors

Brightens and Gives Lasting Beauty to All Floors

Use the New Windsor polish mop once a week and the dry dustless mop daily—your floors will always look bright and new—the way you like to see them. These mops do the work as perfectly as an expert floor finisher could. Saves getting down on your hands and knees when polishing floors—even when cleaning under furniture.



Easy to Use, Wash and Renew

When the mop is dirty, it can easily be slipped off again and washed out. When it is worn, a new part can be put on at a few cents' cost and then you have a brand new mop. Mop parts are of cotton. Order your set now.

186C363—New Windsor Slip-On Mop Set. Consists of one Oil Mop, one Dust Mop, two 48-inch handles and one 8-ounce can of Oil Polish. Packed in neat, triangular metal box. Shipping weight, about 6 pounds. Our price **$1.29**

Bluebird Indoor Clothes Line Reel with Locking Device

32c

Every practical housewife will appreciate this handy little device, which takes up so little room, and yet is so useful. In the kitchen, on the back porch, or in any room, it takes the place of a clumsy clothes horse or dryer, although it occupies only 3x3 inches. Attach it to the wall or woodwork, as shown in the picture, and you can pull out 36 feet of strong, braided line, to be hooked at any convenient point. The ratchet enables you to tighten the line as wanted, without its slipping back.

The reel keeps the line clean and free from twists. It is furnished complete with screws and hooks. Agents ask 50c

86C258—Shipping weight, 20 ounces. Price..... **32c**

Write today for this Paint Book.

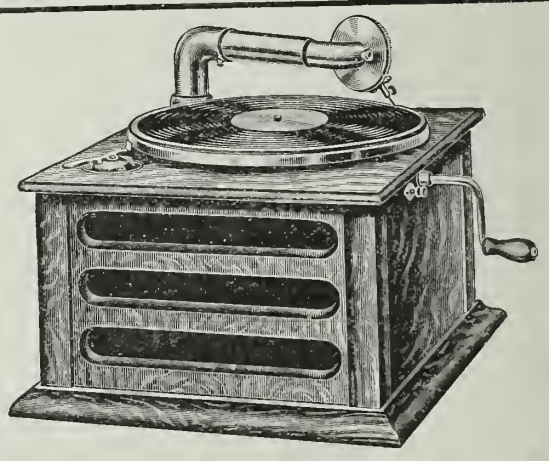
Play on the Celestaphone

The New Musical Novelty
A Mandolin and Guitar in One

$3.85

Anyone Can Play It

151C6808



The Celestaphone is the latest thing in the musical line. It is really two instruments, Mandolin and Guitar in one. Any person, even a child with a musical ear, without special training can play it very readily with a few hours' practice. It is a keyboard instrument, and like a piano, is played by the pressure of the fingers on the keys. It has a wood body or sounding box, like that of a Zither, but across the lower end is a series of hammers of light steel spring, fitted with a metal head. These hammers can be depressed sharply, so as to produce but a single note, or they can be held down with the finger, producing a trill as perfect as that produced by an expert mandolinist. The keys are played with the right hand, while the left hand plays the accompaniment. The strings are arranged in pairs, like the mandolin; but while the mandolin has only four pairs, the Celestaphone has fifteen, and no fingering is required. In addition, it has four sets of guitar chords, producing a most pleasing accompaniment.

With every instrument we furnish a selection of music, so arranged that every note is placed right over the strings to be played. This makes it possible for an inexperienced person to become an accomplished player in a very short time. These charts include a great variety of selections. Each instrument is finely finished and polished, neatly ornamented. Packed in a strong box. Complete with tuning key, chord pick, charts for playing and a full set of instructions. Width, 13 ¾ in. Length, 20 in. Shipping weight, 8 lbs.

A Genuine Phonograph That Plays Victor, Columbia, Lakeside and Little Wonder Disc Records

151C9215

Cecilian Junior Phonograph

A genuine phonograph—a talking machine that will play any Victor, Columbia, Lakeside or Little Wonder Record. Has a volume of tone equal to other machines usually sold at $10.00 each.

The Cabinet is well made of thoroughly seasoned wood, finished in a dark mahogany color, and beautifully polished.

The Base is 13x14 inches; height of cabinet, 8 inches.

The Motor is fitted with a strong spring; can be wound while running. Will play a 12-inch record with one winding. Has a speed regulator, the same as high-priced machines.

The Tone Arm is made of metal, highly nickel plated, and is connected with wood amplifying sound chamber with metal socket.

The Sound Box is standard size. Has heavy wall frame; fitted with a sensitive diaphragm, blue steel needle arm, and set screw. This construction makes possible its wonderful reproducing qualities.

The Turn Table has nickel-plated rim around it, faced with felt. Diameter, 10 inches.

The Stop Lever, winding crank and speed regulator are nickel-plated.

We believe the **Cecilian Junior** to be the best low-priced phonograph made. The tones produced are remarkably clear and distinct, and the volume is really to be wondered at, considering its size and price.

See index for a complete line of disc records which may be played on this machine. Shipping weight, 15 pounds.

166C4607 Mahogany Finish

A massive Colonial Table in two desirable finishes, at a price but little above usual factory cost. You save the dealer's usual profit by buying now.

Top, 48 x 28 Inches

166C4601 Imitation Quartered Oak

The excellence of the finish is worthy of your special attention. Both the figure of the wood and the color, are faithfully reproduced.

166C4601—Imitation Quartered Oak

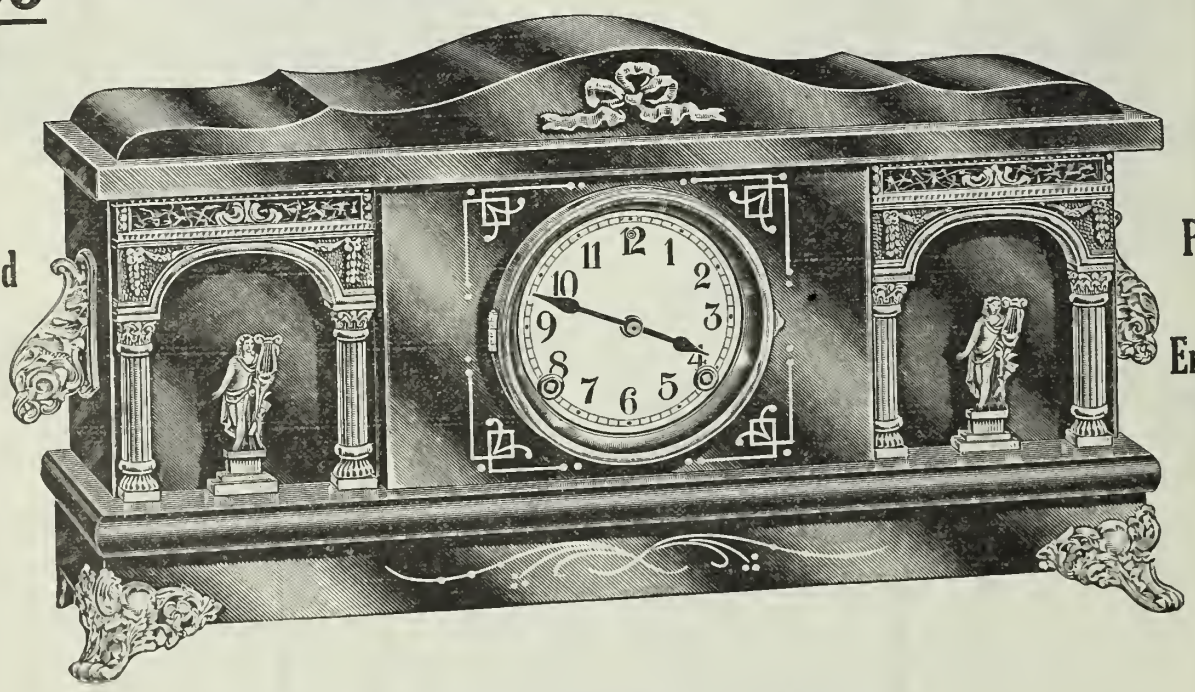
Shipped Promptly from Stock at Chicago

After our library table pages in the catalogue were printed, a manufacturer offered us this fine table at a price so temptingly low that we knew you and thousands of others would at once recognize it as exceptional, out-of-the-ordinary value.

But our library table pages had been printed. What were we to do?

Then the advertising manager told us of this space, which must show the **biggest bargain** the Furniture Department could offer. We knew we had just what he wanted, and when he saw the table he was as enthusiastic about it as we.

So that is why you can buy this table which is the equal in design, appearance and construction of those ordinarily retailing at $15.00 for only $9.66. It is very massive, built throughout of seasoned hardwood, carefully finished in a perfect imitation of either Golden **Quartered Oak** or figured **Mahogany,** as you prefer. Has heavy scroll legs, platform base and roomy drawer with wood knobs. The low price is not its only advantage—you will like it better the longer you have it.



166C4607—Figured Mahogany Finish

Shipping Weight, about 115 Pounds

The purchase of this fine Table is an investment in satisfaction

$4.95 Buys This Handsome, 8-Day Mantel Clock

Bronzed Finish Metal Trimmings

Polished Black Enameled Wood Case

Retail Value, $6.50 or More

WHETHER you buy it for a gift or for personal use, this clock offers splendid value. It is a pleasing combination of superb appearance and remarkable time-keeping qualities.

The case is made of wood, black enameled and highly polished. On either side of the 4½-inch porcelain dial, are two bronzed metal panels, with figures of the same material and marble-ized back-grounds. The side ornaments and feet are of the same bronzed metal. **The movement** is of finest American make, extremely reliable in performing its duties as a timekeeper. Strikes the hours and half hours.

146C6013—Mantel Clock. Height, 12 inches. Width, 16½ inches. Runs eight days with one winding. Retail value, at least $6.50. Shipping weight, about 18 pounds.

How Your Order Is Filled

"THE manner in which you fill the orders of your thousands of customers, reminds me somewhat of the Twentieth Century Limited, I came to Chicago in," remarked one of our visitors from Pennsylvania the other day. "Your motto seems to be, speed, accuracy, service and preciseness."

When your letter is received it is opened in the mail opening department. You are given proper credit for all contents and enclosures and your order is transferred to the clipping and pasting department. Here by the use of clipping machines your order blank is cut into several pieces, pasted on other sheets of paper, scheduled and forwarded to their proper divisions, because time is lost if your order blank must be sent from one division to another.

For instance, if on your order blank there is an order for shoes, groceries, hardware, furniture and dry goods, each order is pasted on a separate sheet of paper. Then these sheets are sent to the dispatching and scheduling department where they are stamped a certain time, when they must be filled and are then sent to the shoe, grocery, hardware, furniture and dry goods divisions. Your order must be filled by a certain time or the division must explain satisfactorily why it is delayed. In all the divisions are rows of shelves and drawers where the merchandise is kept in regular stock. Here hundreds of order fillers are hurrying through the aisles, filling your orders with accuracy and precision.

Your order is then immediately sent down through speedy conveying chutes to the assembly room where it is packed and from there sent to the shipping department. If you requested it to be sent by express it is shipped in that manner. The packages are transferred at once from the shipping department to the agents of the express companies in our store. They are immediately billed, receipted for and by the express company's wagons hauled to the trains.

The merchandise to be sent by freight is loaded directly into cars from our loading platform and sent on its way. And all of this is done in a few hours and in a scheduled time. We always try to live up to what our visitor from Pennsylvania said: "Your motto seems to be speed, accuracy, service and preciseness."

We Are As Near You As Your Mail Box

WHEREVER your home may be—whether in the city or in the country—east or west, north or south—our store and our service are really as convenient to you as your mail box.

This Catalogue or Buyers' Guide you are reading honestly portrays by word and picture the merchandise we offer you. The prices tell you very plainly the savings you can make. And, as you know, you take no risk when you make a selection from our catalogue; you are the final and only judge as to whether the goods satisfy you. In your own home, at your own convenience, you can study the Montgomery Ward Buyers' Guide and make your selections without suggestion, advice or interference from the outside.

Fill out your order blank and drop it in your mail box. We will give your order as full attention as if you had brought it in yourself, by hand, to one of our houses.

Your mail box and the Buyers' Guide together spell economy to you and your household. Use them—make them to the fullest degree the money-saving means they can be.

All Wool Velour Coat

We pay the postage

$16.75 Price

10C2000—Navy blue.
10C2002—Brown.
10C2004—Dark green.

Bust measure, 34 to 46 inches.

Length in back, 48 inches.

One of the season's newest styles. A coat possessing individuality and insuring comfortable warmth, two very desirable qualities. Made of one of this year's most fashionable fabrics, All Wool Velour. Cut with full flaring effect. Handsome collar of self-material is trimmed with beaver or new fur effect fabric, which gives to the coat the appearance of a rich fur-trimmed garment. The collar may be worn as illustrated or fastened high over the throat. The turned-back cuffs of roomy sleeves are also trimmed with beaver plush. Novel shaped pockets at each side are prettily trimmed with buttons. Closing is made with fancy buttons. Lined throughout with Sol Silk, a lustrous cotton lining fabric, which in wear is the equal of silk. Mention size wanted.

Silk Poplin

We pay the postage

$9.75 Price

14C7000—Copenhagen blue.
14C7002—Navy blue.
14C7004—Rose color.
14C7006—Brown.

Women's Sizes

Bust measure 34 to 46 in.
Skirt length (deep hem), 40 inches.

Misses' Sizes					
Age	14	16	18	20	years.
Bust measure	32	34	36	38	inches.
Skirt length	34	36	38	40	inches.

The material is Poplin, woven of lustrous silk and strength-giving cotton. The sleeveless over-blouse, in surplice effect at front, is handsomely embroidered with self-color silk and gilt metallic thread. This embroidery appears around neck and closing edges of front, also outlines the wide armholes. Shapely, full-length sleeves are attached to waist lining of white batiste. Handsome quaker collar and pointed cuffs are of fine white organdie, hemstitched. Organdie vestee. The new style skirt, gathered all around, is amply wide at lower part. It falls in soft, graceful folds and is effectively trimmed with two shirred ruffles. Dress closes invisibly at left side of front. Mention size wanted.
